

Open-Ended Detail Appendix M

Question 30: Any Other Comments

1	Being able to go to Drury has made a huge impact on my life. The faculty and staff are top-notch and are always willing to help others. Drury is a great school with extremely nice facilities. I do not see the need to spend more money on bulidings when most of them are just fine and function properly. Thank you, everyone, for making my college life and education great!
2	SGA ROCKS! Spend money wisely, have fun. But don't be biased in regards to group participation (aka remember the little people). Thank you for all you do.
3	Please put water in the soda machine in Shewmaker. Some healthier snacks would be great too since most of us that come straight from work want a snack but not junk food. Also, there is a room in Shewmaker on the 2nd floor directly across from the stairs that has mold all over one corner. Isn't this a health hazard?
4	Evening classroom temperature are too cold, year-round. Frivolous, wasted energy expenses. HOT COCOA needs to be offered in every buiding on campus. Drury would make a fortune on hot cocoa sales from evening students alone. Sales through both concession and vending machines would be supported. If not, discontinued.
5	An improvement or the addition of a new FSC center would be amazing for the pride of this campus. Our present FSC is a bad example of what a student center should be. A better bookstore would also be a nice addition to a new student center as well.
6	I think that the faculty/staff that are in charge of the greek system need major improvement
7	I may understand the role of SGA, but I do not believe that mning out this survey is going to do any good what-so-ever! We need an active voice at Drury, but it is up to you guys to do action. However I understand how difficult this could be, because everyone seems to be slipping into nihilism these days. Good luck.
8	I really appreciate all of the concern when it comes to what the students here at Drury actually want. Thank you!
9	Yeah, I know how to contact SGA, the SGA members that I know have all been great and have shared their enthusiasm for events/activities. Good job, guys!
10	sga is a joke. the newspaper waste too much of student fees as does some of sga functions that hardly anyone attends. although after may I no longer have to worry about it.
11	(Unrelated to survey)
12	SUB utilizes money on frivolous things way too often. They should have a stricter budget.
13	no comments
14	Very funny at Drury's great "no smoking" rule around the Science Center which may foreshadow a non-smoking campus. If a non-smoking campus were put into effect, I probably wouldn't leave (too much trouble), but I certainly wouldn't stop smoking on campus, either. Also, your whole library staff is great except for this one lady who seems to switch days supervising the front desk with another older and nicer lady. Unfortunately, I cannot remember her name, but this younger woman is extremely unhelpful and rude.
15	Yeah recycling!
16	I have an issue with sporting events on campus, mainly basketball games, taking parking away from commuting students in the evenings. This is no problem for day students or on Friday nights, but it is completely unacceptable to restrict students from parking in the commuter lots on nights that they have class simply because "gold and silver members" are coming to the basketball games. I feel that our current choices with parking for those nights should be evaluated and reflect the actual purpose of this institution.
17	chuck knapp rules
18	Certain members of SGA don't seem to take their job seriously and that hurts SGA's image.
19	The parking arrangements for days of basketball games are ridiculous, the lack of parking makes students late for class and it is unnecessary to block-off half of a parking lot 8 hours in advance...just put up a sign stating when people parking there need to leave like the lot by the HPER.

20	The parking arrangements for days of basketball games are ridiculous, the lack of parking makes students late for class and it is unnecessary to block-off half of a parking lot 8 hours in advance...just put up a sign stating when people parking there need to leave like the lot by the HPER.
21	It would be nice if SCA would work with the evening senate on improvment projects for campus.
22	It would be nice if SCA would work with the evening senate on improvment projects for campus.
23	I feel that the parking is the biggest issue that needs to be addressed.
24	I can agree that for commuters it is definately difficult to get involved, and it would be really nice to have a place to belong in between classes. The FSC would be a perfect place for students who don't necessarily have a room to go to when they have down time in the day. So far that has been the roughest part about Drury, finding a feeling of belonging, because I can't live on campus, and have a job when all the events are taking place. During the day when I'm not in class it would be really positive to have a place to just hang out, rather than going to the library to study, or a practice room. I would like to see more done with the FSC to help that happen.
25	If someone could add 20oz bottle vending machines in Lay and Trustee (where it appears there are only cans)that would be fantastic.
26	I think you guys ALWAYS do a good job of looking at the needs of the student body. Thanks, guys.
27	Please make changes to the lower level of FSC!!!!
28	sub is worthless
29	I know that my opinions will be completely disregarded but you all need to realize that the people in power at this school do not care one bit about the students. The only thing that concerns those in power is looking good for parents and in the eyes of the public, by any means necessary.
30	Speaking of recycling opportunities, could we have a drop off center in every academic building? It would also be nice to have a collection site for clear plastic, like water bottles. Is there any chance we could stock juice in some of the vending machines?
31	The only real thing I've seen in regards to student activities (including Orientation) is the fact that Drury offers little to connect the less social people together. I'm an introvert, and I always have been, and big huge groups don't exactly make me feel comfortable at first. It wouldn't be too hard to figure out some thing that would be more appealing to people like me.
32	I hope the correct answer for How to Contact is Through Email. I also think I know what SGA does, so maybe there needs to be a Maybe option.
33	I'm an architecture major and I'm really annoyed that I'm getting emails targeted at education majors. also, i'm a third year and i keep getting information about graduating in may. these types of emails should not be sent to the entire campus.
34	we REALLY NEED CHANGE MACHINES FOR LAUNDRY PURPOSES!!!!
35	not enough attention is payed to non-residential students. Anytime a special event takes place, only non-residential parking is effected. For commuters that live more than five minutes away, not enough takes place in the middle of the day to allow students to become more involved. Newer buildings need to be more handicap friendly.
36	always at a loss for enough quarters. This is a stretch but maybe think about new washers/driers in college park. One more thing that concerns me that was not mentioned is the fact that our sprinkler system on campus is not observed regularly. I know that the appearance of our campus is important but it is such a waste of water. If anything goes against our sustainability theme this year it is our sprinklers. They turn on even if it has rained hard the night before. Weepy grass does not matter to me in the slightest.
37	More environmentally helpful printers in library and around campus (where the printers will print double sided).
38	definitely change machines!!!
39	Thanks for the survey. Keep up the good work!
40	Could we add an ice machine for the college park students in the community center or somewhere conveneient? Why must we be left out? The dorms all have one! Also, we must make the best use of our funds for this new student center - a rock climbing wall gets boring and I predict few students would use it on a regular basis. Plus, we already have a rock climbing class. Why waste money on this when it could be used for other things (a nicer TV, projector, or computers)?

41	Thanks Drew for helping putting this together. I hope all turns out well. We should seriously consider the indoor soccer field for the basement of the new student center. I hope we find the comment boxes. I want the Wal-mart gift card.
42	none
43	seriously need change machines for laundry- hate having to bum off of friends or collect change from stores and restaurants
44	CHANGE MACHINES BY LAUNDRY WOULD BE SO GREAT. Please. It's about time somebody thought with logic.
45	we need more cigarette receptacles on campus. Especially from main campus to college park, in college park, and along drury lane. There are only a handful on campus, and I don't like throwing butts on the ground or in a trash can. If there were a few more, I feel it would cut down on butts...not there are a lot, but it would be nice.
46	I would like to see id card access added to the music buildings. We have practice passes, however security is extremely lazy about answering calls promptly and I don't have 45 min to wait for them to show up. All the other buildings that require after hours access have card swipe access, why not the music building? If it's a matter of aesthetics, put the one on CTH on the back door and the ones for O'Bannon and Lydy on the side doors. Music students need to get into the music buildings as much as the science/architecture/art/etc/theatre students need to get into their buildings.
47	I'm concerned with the parking around the frat houses because I see a lot of cars getting dinged and damaged. I just bought a new car and I'm really afraid to park in the lots. I know it's hard to prevent but it's food for thought.
48	I would appreciate expanded pool hours at night and or the late afternoon.
49	Fire Mindi Maddux.
50	there should be some monetary amount on the 10 meal plan, and more recycling opportunities in all of the dorms and buildings for more than just cans, but also plastics and paper.
51	Tell Myrna Clickenboard to stop it with the plethora of emails.
52	Great tagline with "Get off the facebook..." Whose idea was that? I'm thinking Drew's. Nice one, Kifer.
53	Wallace is the only dorm without recycling! This must be changed. It shouldn't be difficult at all, yet the people in charge tell us to expect slow progress. What could possibly be complicated about bringing in cardboard boxes to recycle paper?? Change machines would be excellent because even though I have money for laundry on my Drury ID, sometimes the card does not work no matter how many times I scan it, so I need to either mooch quarters from someone or walk all the way to the Burnham business office with my laundry still in the machines. I do have backup quarters now in case it happens again, but it would still be far more convenient to have change machines near the laundry rooms. Also, it seems like SGA is too stingy with money. All three of the organizations I am involved with have found it very difficult to obtain funding for their activities.
54	Please actually respond to student's concerns about the EX. It is not fair to students to have their options limited every year when they go over there. We pay 3.50 a meal only to be told we can't use it how we wish. Why eat over there at all? The prices are completely unreasonable - 1.20 for a soda? Give me a break! I'll go get some off campus!! We need a snack bar that is STUDENT compatible, not administration compatible.
55	students on campus who feel strongly about the green movement, but are afraid to speak out because they think that their ideas and opinions will not be supported. I think it's incredibly important that the SGA get involved in actively supporting important movements that take place on campus, whatever that movement may be. This student body really needs to start speaking out for what they want to see on campus. I think that students should NOT support any building that goes up or any remodeling done that DOES NOT meet LEED certification. As a future alumn, I would be much more eager to support Drury University if strides were taken towards the green campus movement and green buildings were built here. I'd be hesitant to support Drury if the new FSC ends up NOT being LEED certified.
56	Myrna Clinkenbeard sends out too many e-mails.
57	no one knows what's sga does
