The university will comply with the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act". Any questions related to the implementation or the compliance of this public law (34 CFR Part 668) should be directed to the Vice President for Administration, located in Burnham Hall. The Vice President for Administration has been designated by the university to coordinate the institution's efforts to comply with the regulations effecting the implementation of this act. Springfield, Fort Wood, Cabool, Monett, Lebanon, Rolla, Ozark, St. Robert, Thayer, and Ava campuses will follow the same procedures unless specified.

Drury University is a safe, education-oriented and community-minded campus that maintains an academic and social environment conducive to intellectual and personal development of students and promotes the safety and welfare of all members of the campus community. Procedure for Preparing and Distributing the Report

The Safety and Security Department has been designated by the university to gather the information and statistics related to the Act. The Director of Safety and Security will oversee the preparation and distribution of the annual report. The Security Department works with other administrative departments and law enforcement agencies, such as the Offices of the Dean of Students and the Dean of the College of Continuing and Professional Studies and the Springfield Police Department to compile the information and crime statistics. We encourage members of the campus community to use this report as a guide for safe practices on and off campus. The report will include crime statistics from the previous three calendar years. The report will be distributed to the university community by email and on the security web-site and can be accessed at.

<http://www.drury.edu/security/pdf/2014CampusCrimeReport.pdf>

In addition, all prospective students and employees are informed about the availability of the report through a statement on the respective applications. The Safety and Security Department will present educational programs to aid the university community in understanding the Clery Act.

The report will be published and made available by the start of the fall semester each academic year. The Director of Safety and Security will ensure that the annual report is submitted to the Department of Education by **October 1st** of each year.

The Safety and Security Department

The staff of the Safety and Security Department consists of the Director, Associate Director, Assistant Director, Information Technology officer, Office Coordinator and seven fulltime non-commissioned patrol officers. Officers are available 365 days a year. The Safety and Security Department aids in enforcement of federal, state, local statutes and university regulations. While safety and security officers do not make arrests, the Safety and Security Department maintains a close working relationship with local law authorities. Officers do have the right to detain and identify any individual on university property. Safety and Security officers cooperate with and may request assistance from local law enforcement authorities when needed. The Safety and Security Department provides for the safety and protection of students, faculty, staff, visitors, and the environment. In addition, the department is charged with protecting property, enforcing university regulations, and maintaining order. The entire staff strives to serve the university community. The department's mission is to ensure a peaceful quality of life, establish a partnership with the community and support a safe learning environment, thereby contributing to Drury University's academic excellence. The Safety and Security Department is located in the Findlay Student Center 101, 900 North Benton Ave, Springfield, MO 65802. Students, parents, visitors, and employees are welcome to call at (417) 873-7400 or come by and visit.

Springfield Police Department

Commissioned law enforcement at Drury University is provided, under a contract for services, by the Springfield Police Department (SPD). The SPD officers work out of a campus substation, and have full police power including authority to investigate any and all reports of criminal activity, full powers of arrest, and power to search. When the substation officers are not available for any reason, other SPD officers will respond to calls on campus. The University relies on its close relationship with local law enforcement agencies to receive information about incidents involving students on campus. The Safety and Security Department and the Springfield Police Drury Substation will actively investigate any crime information it received concerning or involving a member of the campus community. If the University is notified of a situation in which a campus community member is the victim of a crime, the department may issue a Campus Safety Alert, detailing the incident and providing tips so that other community members may avoid similar incidents. Drury University does not have any officially recognized student organizations with off campus locations.

Statement from the Director

At Drury University, the safety and well-being of our students, faculty, and staff is always our top priority. Everyone on campus is involved in keeping the campus safe and secure. A truly safe campus can be achieved only through the cooperation of all students, faculty and staff. This report is part of our effort to ensure this collaborative endeavor is effective. It is the philosophy of Drury University that we would much rather prevent crimes from occurring than to react to them after the fact. A primary vehicle for accomplishing this goal is Drury's crime prevention program. This course provides key definitions and statistics, bystander skill and confidence-building strategies, campus policies, resources and more. This course meets the educational mandate of the 2013 Federal Campus Sexual Violence Elimination Act.

If you are a victim of a sexual assault, your first priority should be to get to a place of safety. You should then obtain necessary medical treatment and report the assault in a timely manner. In addition to reporting the assault to Campus Security at 417-873-7400 or 417-873-7911, it can also be reported to any of the following university officials:

- Springfield Police Drury Substation, 417-873-7541 or 417-873-7562
- Title IX Coordinator, Scottie Siebert, 417-873-7854
- Dean of Students and Deputy Title IX Coordinator, Dr. Tijuana Julian, 417-873-7215
- Dean of College and Deputy Title IX Coordinator, Dr. Charles Taylor, 417-873-7225
- Assoc. Athletic Director and Deputy Title IX Coordinator, Barbara Cowherd, 417-873-7363.
- Director of Residential Life and Student Conduct, Matt Battaglia, 417-873-6871

Filing the report with a university official will not obligate the victim to prosecute the matter. Alternatively, the assault may be reported directly to local law enforcement authorities, 417-864-1810 or 911. University officials will assist the student in notifying either campus security or local law enforcement if the student requests that assistance.

Prompt reporting is important for the preservation of evidence relating to the assault. In that regard, victims are encouraged not to wash, douche, use the toilet or change clothing prior to a medical examination or interview by authorities.

The following counseling, mental health or other student services are available on or off campus for victims of sex offenses:

Ed Derr, Director of Counseling, Testing and Disability, Findlay Student Center 114, 417-873-7357.

Jenna Steele, Counselor, Findlay Student Center 114, 417-873-7357.

After an alleged sex offense, the university will advise the victim of the options for changing the victim's academic and living situations and will make those changes if requested by the victim and they are reasonably available.

University disciplinary proceedings are detailed in the *Student Handbook*. They provide, in part, that the victim and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding and that both the victim and the accused will be informed in writing of the outcome of the hearing. A student found guilty of violating the university's policy prohibiting sexual misconduct may be suspended or expelled for the first offense. The student also is subject to prosecution by state authorities.

Consent

In Missouri, the statutory age of consent is, if you are 20 years old or under, the age of consent is 14, if you are 21 years of age or older, the age of consent is 17. Drury University definition of consent is: Consent to engage in sexual activity must exist from the beginning to end of each instance of sexual activity. Consent consists of an outward demonstration indicating that someone has freely chosen to engage in sexual activity. In the absence of an outward demonstration, consent does not exist. Consent is informed, knowing, and voluntary. Consent is demonstrated through mutually understandable words and/or actions that clearly indicate a willingness to engage in sexual activity. Consent is not effective if it results from the use of physical force, intimidation, coercion, or incapacitation. If a sexual act is occurring and physical force, intimidation, coercion, or incapacitation develops, there is no longer consent.

Consent to engage in sexual activity may be withdrawn by either party at any time. Withdrawal of consent must also be outwardly demonstrated by words or actions that clearly indicate a desire to end sexual activity. Once withdrawal of consent has been expressed, sexual activity must cease.

Incapacitation: The inability, temporarily or permanently, to give consent, due to mental or physical incapability, unconsciousness, or vulnerability due to drug or alcohol consumption (voluntarily or involuntarily), or for some other reason. Examples of incapacitation may include, but are not limited to, vomiting, being unconscious, or being unable to communicate for any reason.

All forms of sexual misconduct are regarded as serious University offenses, and violations will result in discipline, including the possibility of separation from the University.

A member of the university community can be a victim or offender

regardless of gender. This policy is utilized by Drury University to comply with Title IX and to respond promptly to reports of the following sexual misconduct violations.

Consent is not effective if it results from the use of physical force, intimidation, coercion, or incapacitation. If a sexual act is occurring and physical force, intimidation, coercion, or incapacitation develops, there is no longer consent.

Consent to engage in sexual activity may be withdrawn by either party at any time. Withdrawal of consent must also be outwardly demonstrated by words or actions that clearly indicate a desire to end sexual activity. Once withdrawal of consent has been expressed, sexual activity must cease.

- Incapacitation: The inability, temporarily or permanently, to give consent, due to mental or physical incapability, unconsciousness, or vulnerability due to drug or alcohol consumption (voluntarily or involuntarily), or for some other reason. Examples of incapacitation may include, but are not limited to, vomiting, being unconscious, or being unable to communicate for any reason.

Privacy

All reports of sexual misconduct will be handled in confidence to the extent allowed by law. The information reported would only be shared with those university employees who will be assisting in the investigation and/or resolution of the complaint. The University's ability to make a meaningful investigation and take corrective action may be limited if an individual insists on complete confidentiality.

Further, if a report of misconduct discloses an immediate threat to the university campus community, where timely notice must be given to protect the health or safety of the community, the university may not be able to maintain the same level of confidentiality. Immediately threatening circumstances include, but are not limited to, reported incidents of sexual misconduct that included the use of force, a weapon, or other circumstances that represent a serious and ongoing threat to students, faculty, staff, or visitors.

Process for Investigating Reports of Sexual Misconduct

Drury University is committed to providing all members of the university community with a safe place to live and learn. Consistent with this philosophy, the university will investigate all allegations of sexual misconduct. Any individual may bring an allegation, as outlined in the Sexual Misconduct Policy, which will activate the investigation steps outlined below.

The university is obligated to investigate all allegations of sexual misconduct, regardless if the investigation culminates in a hearing. The university investigation is independent of any civil criminal investigation, which could lead to the criminal justice system. The university investigation process should be thorough, prompt, and impartial, and should follow the steps outlined below:

- The Title IX Coordinator, or Deputy Coordinator, meets with the complainant and outlines the options available to them (both internal and external).
- An assessment will be made regarding the implementation of initial remedial actions, which might include interim separation or duty to warn the university community.
- If the complainant wants to address the issue through the college conduct process, the student will be asked to describe the incident verbally. They will also be given the option to provide a written account of the incident, and asked to identify any witnesses. If it is concluded that the student has provided enough details to determine if there is reasonable cause to believe that a specific policy (ices) has/have been violated, then the policy violation(s) will be identified, and the investigation process will begin.
- The Title IX Coordinator, or Deputy Coordinator, will then assign the case for investigation to a minimum of two trained investigators. This investigation may or may not lead to a conduct hearing.
- The investigators begin collecting information. This should include interviewing witnesses, friends, the complainant, and the respondent. Investigators may also include consideration of prior allegations of, or findings of responsibility for, sexual misconduct by the alleged offender.

- The Title IX Coordinator, or Deputy Coordinator, informs the respondent that a complaint has been made against the individual. The respondent is asked to provide his/her perspective of the incident.
- The Title IX Coordinator, or Deputy Coordinator, determines (based on the preponderance of evidence), if reasonable cause exists to believe the sexual misconduct policy has been violated, and that the process should therefore continue.
- The Title IX Coordinator, or Deputy Coordinator, receives the investigation report and shares the report with the complainant and the respondent. The university official will also notify both parties if it has been concluded, based on the preponderance of evidence, that there was a violation of the sexual misconduct policy.
- Based on the information received above, sanctions will be imposed, and an attempt will be made to resolve the incident through an Administrative Resolution.
- If there is no administrative resolution, or the accused would like to invoke their right to a hearing at the next level, then the guidelines for Judicial Conduct Hearings will be followed.)
- The Hearing Board will consist of three faculty/staff members selected from a pool of trained members. Students will not serve on judicial conduct hearing boards that involve situations of sexual misconduct.
- The Chair of the Judicial Conduct Hearing Board will share the Board's decision, along with the appropriate sanctions with the Title IX Coordinator, or Deputy Coordinator.
- The Title IX Coordinator, or Deputy Coordinator, informs both the complainant and respondent of the outcome. The notification of each party should occur at nearly the same time.
- If one of the parties wishes to dispute the outcome of the Judicial Board Hearing, it may be appealed at the next level, which is to the President of the University. In such cases, the other party is given an opportunity to view the request and offer his/her own appeal so there is only one appeal process.

Process for Resolution

Resolutions of Sexual Misconduct allegations are achieved in the following manners. These correlate to the type of process that is pursued.

- No resolution or imposed sanctions: The Title IX Coordinator, or Deputy Coordinator, determines (based on the preponderance of evidence), that there is no reasonable cause to believe that the sexual misconduct policy has been violated.
- Administrative Resolution: Based on the information received through the investigative process, sanctions will be imposed, and the issue will be resolved through an administrative resolution. Both the complainant and respondent agree to all aspects of the resolution, and there are no further appeals.
- Formal Resolution: If there is no Administrative Resolution, or if the complainant or respondent appeals the Administrative Resolution, either party may invoke their right to a hearing by the Judicial Conduct Board.

Hearing

The Hearing Board will consist of three faculty/staff members selected from a pool of trained board members. Unlike membership of the Judicial Board for other areas of Student Conduct, those for cases involving sexual misconduct will not include student membership.

Registered Sex Offenders

Under provisions of the Campus Sex Crimes Prevention Act (CSCPA) of 2000, an amendment to the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Act (Wetterling Act), any person who is required to register under a state offender registration program must notify the state when he or she enrolls at an institution of higher education or is employed at such an institution, and must notify the state of any change in enrollment or employment at an institution of higher education. Sex offender registration information is to be transmitted from each state to the law enforcement entities where the registered sex offenders reside. In Missouri, the sex offender list is maintained at the county level. The web page for the Department of Safety and Security, <http://www.drury.edu/multinl/story.cfm?ID=3530&NLID=87> provides a link to the Missouri State Highway Patrol Registry Sex Offenders List, as well as the Greene County list. For other counties in the state of Missouri you can go to the Missouri State Highway Patrol Registry Sex Offenders List link.

Alcohol and Drug Abuse Policy

The unlawful possession, use, or distribution of illicit drugs and alcohol by students or employees is prohibited on University property and in conjunction with University activities. Violation of this policy by students is a violation of Drury University discipline code, which may result in dismissal, suspension, or imposition of a lesser sanction. Sanctions may also include referrals for appropriate rehabilitation. Violations of the policy by employees can result in disciplinary action up to and including discharge. Violators may be brought before the local court system. Drury University Safety and Security officers will confront and may detain any persons they see illegally possessing, distributing, or consuming alcoholic beverages and/or illicit drugs on Drury University property. Campus Security enforces the state's underage drinking laws and federal and state drug laws.

Springfield police officers will enforce Springfield city ordinances and Missouri state statutes.

Prevention Programs

In accordance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, Drury University is required to establish a drug and alcohol prevention policy for its students and employees. Programs available or offices available for students needing assistance with drug, alcohol or counseling, include the following:

- Alcoholics Anonymous (AA) and Narcotics Anonymous (NA) groups meet weekly throughout Springfield. Questions regarding meeting days, times, locations, or type of meeting may be obtained from AA (823-7125) or <http://springfieldmoaa.org>? And NA (866-7392).
- Drury University Counseling Center, Findlay Student Center 114 (417) 873-7357. Offers counseling services to students as well as the CHOICES program which offers an alcohol education skills class.
- Partners in Prevention is Missouri's higher education consortium dedicated to creating healthy and safe college campuses. PIP provides educational pamphlets relating to drug and alcohol abuse. Additional information about PIP can be found at <http://pip.missouri.edu/>.
- Community Partnership of the Ozarks, a local program which houses the Underage Drinking Task Force of Community Partnerships of the Ozarks. More information can be found at <http://www.commpartnership.org/anout.php>.

During freshman orientation information and programs are provided to students relating to alcohol and drug abuse. Drury's SPD substation provides safety talks and education at the beginning of the fall semester. For more information on alcohol and drug policies visit <http://www.drury.edu/communitystandards>.

EMERGENCY PROCEDURES

Timely warning notices/Campus Safety Alerts

In the event that a situation arises, either on or near campus, that in the judgment of Drury University Safety and Security, Drury Springfield Police Department Substation, in consultation with other administrative offices as appropriate, constitutes an ongoing or continuing threat to members of the University community, the security department will issue a "timely warning" notice, commonly referred to as a "Campus Safety Alert." Members of the community who witness, or learn of a crime or other serious incident on or near campus should file a report as soon as possible with Drury Safety and Security as well as Springfield Police Department as soon as possible so a Campus Safety Alert can be issued if warranted.

If community members report crimes or serious incidents to other University administrators, those administrators should notify Drury Safety and Security. The department will collaborate with these administrators to issue a Campus Safety Alert, if warranted.

The timely warning notice and campus safety alert policy is the same for the Ft. Wood, Cabool, Licking, Lebanon, Rolla, St. Robert, Monett, Thayer, Richwood Valley, Ava, West Plains, and Bentonville, AR campuses. In the event that a situation arises that constitutes an ongoing or continuing threat to members of the University community, either on or near campus, the directors will contact the local police as well as issue a "timely warning" notice, commonly referred to as a "Campus Safety Alert."

Distribution of Campus Safety Alerts

The Safety and Security department distributes Campus Safety Alerts, once the University determines that an alert will be issued, the department emails the announcement and posts it on its website (<http://www.drury.edu/security/>). If the alert involves an immediate threat an emergency text message will be sent as well as notification on DENA (Drury Emergency Notification Alert) will be posted on Drury's website. In the event of a situation that poses an immediate threat to members of the campus community, the Safety and Security department will utilize the emergency text messaging system RAVE, as well as campus wide emails to notify the campus community of an alert. The siren on the Springfield campus will also be activated if a critical incident or other emergency situation threatens the safety of the campus. The University will also post updates during a critical incident on Drury's homepage through DENA the Drury Emergency Notification Alert System. If the situation warrants, the University will establish a telephone call-in center staffed by University specialists who are trained to communicate with the campus community during an emergency situation.

The Director of Safety and Security or Springfield Police Department Drury Substation is responsible for issuing the emergency notification. These entities will, with the assistance of campus Crisis Management team if required, will determine the content of the notification. The University has prepared a wide range of template messages addressing several different emergency situations. Safety

and Security will select the template message most appropriate to the on-going situation and modify it to address the specifics of the present incident.

In those cases where there are no pre-determined template messages in the system, the individual issuing the alert will send develop the most succinct message to convey the appropriate message to the community. The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.

Emergency response

Drury University recognizes the need to be prepared for critical incidents. The Emergency Response and Evacuation plan establishes policies and procedures that will be employed upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus. In order to ensure the various plans at Drury will work in an emergency situation, Drury participates in drills and exercises that include campus personnel, local law enforcement and other departments and offices who work together to prepare for, prevent, respond to and recover from emergency situations. The emergency action plan can be found on the Drury Safety and Security website link, <http://www.drury.edu/multinl/story.cfm?nlid=87&id=25397>.

The University conducts emergency exercises each year, such as table-top exercises, and tests of its emergency notification system (RAVE), testing of the siren in conjunction with Greene County Emergency Operations Center and the state-wide tornado drill. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution. When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually Safety and Security, Springfield Police Department, Springfield Fire and Rescue and local hospital ambulance services. All departments typically respond and work together to manage the incident. In connection with at least one test each year, the University will publicize to students and employees the University's emergency response and evacuation procedures.

Notification to the community about an immediate threat.

Safety and Security and/or the Springfield Police Drury Substation will consult with other law enforcement or state and local emergency personnel as necessary to confirm the existence of an emergency or dangerous situation that poses an immediate threat to the health and safety of some or all members of the University community. Once confirmed, Safety and Security and/or the SPD Substation will collaborate as necessary with the appropriate University and municipal partners to determine the content of the message and will use some or all of the systems below to communicate the threat to the campus community. Safety and Security and/or the SPD Substation will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

RAVE (an emergency mass notification system that allows authorized Drury officials to send news and instructions to community members through text messages and emails within moments of a critical incident) and through DENA (Drury Emergency Notification Alert system on the Drury website). In the event of a serious incident that poses an immediate threat to members of the Drury community, the University has various systems in place for communicating information quickly (such notification may be related to the aforementioned warning notice). Some or all of these methods of communication may be activated in the event of an immediate threat to the Drury campus community. RAVE is an opt-out

system, students, faculty and staff are automatically enrolled in RAVE upon employment or class registration. You can get more information on the MyDrury account at <https://my.drury.edu> under the “*Emergency Notifications*” tab. The University also will post updates during a critical incident on the University homepage.

Drury community members are encouraged to notify Safety and Security and the Springfield Police Drury Substation of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees on campus. Both of these departments have the responsibility for responding to and summoning the necessary resources to mitigate, investigate and document any situation that may cause a significant emergency or dangerous situation. In addition, both departments have a responsibility to respond to such incidents to determine if the situation does, in fact, pose a threat to the community. If so, federal law requires that the institution notify the campus community or the appropriate segments of the community that may be affected by the situation.

If the emergency or dangerous situation poses a threat to the community outside the campus, the University will notify them by utilizing the emergency mass notification system, RAVE, and DENA, the Drury emergency alert system for the Drury website, and campus wide emails.

The policy and procedure for notification to the community about an immediate threat is the same for the Ft. Wood, Cabool, Licking, Lebanon, Rolla, St. Robert, Monett, Thayer, Richwood Valley, Ava, West Plains, and Bentonville, AR campuses. If an emergency or dangerous situation poses a threat, on or near the campus, the Directors of the above mentioned campuses will utilize the emergency mass notification system, RAVE, DENA and campus wide emails.

Emergency evacuation procedures.

An evacuation drill is coordinated by the Office of Residential Life and Safety and Security each year for the entire campus. The emergency response and evacuation procedures are tested at least once a semester, or twice a year for the residential halls on campus. Students learn the locations of the emergency exits in the buildings and receive guidance about the direction they should travel when exiting each facility for a short-term building evacuation and guidance about where they should assemble. The Office of Residential Life does not always tell the residents in advance about the designated locations for evacuations because those decisions are affected by time of day, location of the building, being evacuated, and the availability of the various designated emergency gathering locations on campus, and other factors such as the location and nature of the threat. Staff from the Office of Residential Life staff and Safety and Security are on the scene and will communicate information to students regarding the developing situation or any evacuation status changes.

The purpose of these evacuation drills is to prepare building occupants for an organized evacuation in case of a fire or other emergency. At Drury, evacuation drills are used as a way to educate and train occupants on fire-safety issues specific to their building. During the drill, occupants “practice” drill procedures and familiarize themselves with the location of exits and the sound of the fire alarm. The process also provides the University an opportunity to test the operation of fire alarm system components. Evacuation drills are monitored by Safety and Security and the University’s residential life staff to evaluate egress and behavioral patterns. Reports are prepared by participating departments that identify deficient equipment so that repairs can be made immediately. Recommendations for improvements also are submitted to the appropriate departments or offices for consideration of their emergency response and evacuation procedures.

Shelter-in-place procedures: What it means to “shelter in place”.

If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors become dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to “shelter in place” means to make a shelter of the building that you are in. In a longer-term emergency, this location can be made even safer and more comfortable with a few adjustments until it is safe to go outside.

Basic “shelter in place” guidance.

In an incident occurs and the building you are in is not damaged, stay in an interior room until you are told it is safe to exit. If your building is damaged, take your personal belongings (purse, wallet, Drury ID card, etc.) and follow the evacuation procedures for your building (close your door, proceed to the nearest exit and use the stairs instead of the elevators). After you have evacuated, seek shelter at the nearest University building quickly. If Safety and Security, Springfield Police or fire department personnel are on the scene, follow their instructions.

How will you know to “shelter in place”?

A shelter-in-place notification may come from several sources, including Safety and Security, Springfield Police Drury Substation, Office of Residential Life and other university employees utilizing the University’s emergency communication tools.

How to “shelter in place”.

No matter where you are, the basic steps of “shelter in place” will generally remain the same. Should the need arise, follow these steps unless instructed otherwise by local emergency personnel:

- If you are inside, stay where you are. Collect any emergency shelter-in-place supplies and a telephone to be used in case of an emergency. If you are outdoors, proceed to the closest building quickly or follow instructions from emergency personnel at the scene.
- Locate a room to shelter inside. It should be:
 - a. an interior room;
 - b. above ground level; and
 - c. without windows or with the least number of windows. If there is a large group of people inside a particular building, several rooms may be necessary.
- Close and lock all windows and close exterior doors.
- Turn off air conditioners, heaters and fans.
- Close vents to ventilation as you are able (University staff will turn off the ventilation as quickly as possible).
- Make a list of the people with you and ask someone (another faculty or staff member) to call and provide the list to Safety and Security so officers know who you are sheltering. If only students are present, one of the students should call and provide the list.
- Turn on a computer, radio or TV and listen for further instructions.

- Make yourself comfortable.

ACTIVE SHOOTER PLAN

The Drury University Active Shooter Plan has been developed to ensure the safety of Drury University faculty, staff and students. It is the responsibility of all persons to read this plan and periodically review it in order to know what to do in case of an active shooter.

1. If safe to do so, **EVACUATE!**
 - Have an escape route and plan in mind
 - Leave your belongings behind
 - Keep your hands visible
2. **HIDE OUT**
 - Hide in an area out of the shooter's view
 - Block entry to your hiding place and lock the doors.
 - Silence your cell phone and/or pager
 -
3. **TAKE ACTION**
 - As a last resort, and only when your life is in imminent danger!
 - Attempt to incapacitate the shooter
 - Act with physical aggression and throw items at the active shooter.

**CALL 911 AND DRURY SECURITY, AT 873-7911, WHEN IT IS SAFE TO DO SO.
WHEN POLICE ARE SECURING THE BUILDING,
KEEP YOUR HANDS IN THE AIR AND CLEARLY VISIBLE.**

BOMB THREAT PLAN

The Drury University Bomb Threat Plan has been developed to ensure the safety of Drury University faculty, staff and students. It is the responsibility of all persons to read this plan and periodically review it in order to know what to do in case of a bomb threat.

A bomb threat against the university may be made by telephone or letter. A telephone threat will come directly from an individual, from a law enforcement agency that has received the bomb threat, or someone who has become aware of such information.

DIRECT TELEPHONE BOMB THREATS

If a bomb threat is telephoned directly to the university, the person who received the call should do the following:

- Keep the caller on the line as long as possible. Ask the caller to repeat the message. Make a record of every word spoken by the person on the phone. Do not hang up the phone. Emergency personnel will need the line open to attempt to trace the call.
- If the caller does not indicate the location of the bomb or the possible time of detonation, you should ask for this information.

- Inform the caller that the building is occupied and the detonation of a bomb could result in the death or serious injury of many innocent people.
- Pay particular attention to peculiar background noises, such as motors running, background music, and any other noise which may give a clue as to the location of the caller.
- Listen closely to the voice (male, female), voice quality (calm, excited), accents and speech impediments. Immediately after the caller hangs up, you should report this information to the Director of Security at 873-7400. Since the law enforcement personnel will want to talk first-hand with the person who received the call, he or she should remain available until they appear.
- If someone other than the switchboard operator receives the call, report the call to Security immediately.

INDIRECT TELEPHONE BOMB THREATS

If a bomb threat against the university is received by a law enforcement agency such as the Treasury Department or the FBI, that agency will immediately contact the university. The switchboard will transfer the call to the Director of Security, who will initiate the appropriate form of action.

WRITTEN THREATS

If a bomb threat is made through a written communication, the following steps should be taken:

- Save all materials, including any envelope or container.
- Once a message is recognized as a bomb threat, further unnecessary handling should be avoided.
- Every possible effort must be made to retain evidence such as fingerprints, handwriting or typewriting, paper and postal marks which are essential to tracing the threat and identifying the writer.

BOMB THREAT EVACUATION

If the decision is made to evacuate a building, everyone should be moved to an area at least 300 feet out of the way of bomb disposal. Evacuated parties should remain in open areas and away from parked vehicles. After security has found the buildings to be vacated, they will lock all exterior doors and take up positions to prevent anyone from entering the area. They will also assist in unlocking doors as needed.

FIRE PLAN

The Drury University Fire Plan has been developed to insure the safety of Drury University faculty, staff and students. It is the responsibility of all persons to read this plan and periodically review it in order to know what to do in case of a fire.

1. Fundamentals of Fire Prevention

- Be clean. Maintain cleanliness and order in your meeting and event areas. Good housekeeping is the best protection against fires.
- Be alert. Early fire detection can prevent damage.

- Make it a habit to be alert for fire hazards and report all potential dangers to the student leader or campus advisor immediately.
- Be ready. Know where fire alarms, fire extinguishers, and fire hoses are located. If you see or smell smoke, report to the student leader or campus advisor at once, and secure any malfunctioning machinery.
- Know the floor plan of your area, the “safe” areas, and evacuation routes.
- Know exactly what your duties are.
- Only attempt to extinguish the fire if it is contained and will pose no safety risk to yourself or others.

2. What To Do In Case of Fire

Pull the closest fire alarm and report the exact nature and location of the fire to Security at 873-7911. It is very important that Security be notified at once, as they need to meet and direct the Fire Department to the area of the fire. We cannot anticipate that the responding fire personnel will be familiar with the buildings on campus. Security will meet the fire department and direct them to the affected area.

Listed below is what you should do if a fire begins in the location that your student organization is using:

- Close the room door and do not turn out lights.
- Alert other persons in the area.
- Do not panic.
- Do not attempt to put out the fire.
- Evacuate the building but remain in the area to assist the fire personnel in locating the exact location.
- The student leader and/or campus advisor will make sure that all members and guests are alerted and out of the building.

TORNADO PLAN

The Drury University Tornado Plan has been developed to insure the safety of Drury University faculty, staff and students. It is the responsibility of all persons to read this plan and periodically review it in order to know what to do in case of a tornado.

When a Tornado Watch is declared for Springfield, Missouri, this means that conditions are favorable for severe weather, which may include tornadoes. At this time, University Security personnel will monitor the weather alert radio and observe the weather; i.e., heavy rain, lightning, hail and possible funnel cloud formations.

The following staff members will be called and put on alert:

- Residence Life staff

- Greek Life staff

TORNADO WARNING

When a Tornado Warning is issued, it means that a funnel or tornado has been sighted in the area and Springfield is in its path. The city sirens will sound and the university will immediately proceed with the tornado emergency plan.

At this time, all students, faculty and staff will proceed to the designated shelter areas and will remain in those areas until the warning is over.

Student leaders and campus advisors should direct students to these shelter areas. The Security Office will contact all residence facilities and campus offices that are open.

Security will patrol the campus, informing anyone on campus of the warning, and direct him or her to the nearest place of safety. Security will open the doors in the lower level of Findlay Student Center and establish a Command Post in the Security Director's Office.

TORNADO SAFETY GENERAL INSTRUCTIONS

- Avoid any area with glass windows, doors or mirrors.
- Go to the lowest level of the building.
- Take a flashlight, a battery operated radio and tune in to the emergency Broadcast System station (KTTS is primary, and KWTO is secondary).
