Notes:

- In the event that an item is no longer available or temporarily out of stock, a similar item may be substituted at actual cost. We will match the price as closely as possible.
- Should you need to order something that is not on the catalog, you can find the item on Staples.com and submit an order with the information from the listing. Your code number would be the Staples item number, which can usually be found directly under the item name.
- Staples Business Advantage has a minimum order threshold of \$35. If you order items not found on the catalog and your order is less than \$35, it will be placed on our weekly order Friday at noon. If your order is more than \$35, it will be ordered the same day it is placed.

- Special sales on Staples.com are often not available through Staples Business Advantage. In those cases, it may be more economical for you to order directly from Staples.com with a department credit card. We are happy to perform a price check for you on any item on Staples.com
- Some items available on Staples.com are not available through Staples Business Advantage. In those cases, we will attempt to find an alternate product for you that is carried by Staples Business Advantage. If a satisfactory alternate product is not available, you may need to order the item directly from Staples.com or another vendor with a department credit card.
- Furniture orders through Staples Business Advantage may include an additional fee for in-office delivery and set-up (provided by Staples).
- We **DO NOT** order toner cartridges for Central Supply due to issues with defective cartridges we were unable to return. We recommend local vendor Cartridges Plus. They deliver straight to your office, bill your department directly, pick up and recycle your old cartridge, and cover their cartridges with a warranty in case they are defective in any way. They can be reached at 417-890-2401 or GoCartridgesPlus@gmail.com.
