Institutional Overview

Drury University is an institution of higher education offering masters, baccalaureate and associate degrees. The university enrollment is approximately 4,000 students. Programs are characterized by a focus on preparing students for satisfying and successful lives and careers. The programs prepare students for professional careers through careful attention to a liberal arts education with professional preparation. Drury is distinctive in its attention to the comprehensive preparation of graduates competent to assume leading roles in their professions and in their communities. Drury is particularly noted for its attention to excellence in teaching.

The university is comprised of Drury College (traditional day school), the College of Continuing Professional Studies (CCPS), and the College of Graduate Studies. Drury College of Drury University offers more than 50 majors for undergraduate students, most of whom are full-time. Degrees offered through this college are the Bachelor of Arts, the Bachelor of Business Administration, the Bachelor of Music Therapy, and the Bachelor of Science. A first professional degree, Master of Architecture, is offered through the Hammons School of Architecture. Additional information regarding Day School undergraduate programs may be obtained through the Day School catalog.

The College of Continuing Professional Studies offers baccalaureate and associate programs to adult students who are continuing their education in the evenings, through online and at various program locations throughout the state. The Bachelor of Business Administration, the Bachelor of Science, the Bachelor of General Studies and the Associate of Science degrees offered by this college are particularly designed to meet the needs of part-time students and those whose schedules do not permit them to attend during the day in Springfield. Additional information regarding CCPS programs may be obtained through the continuing studies catalog.

The College of Graduate Studies offers Master’s degrees in business administration, communication, education, and nonprofit and civic leadership. Additional information regarding graduate programs may be obtained through the graduate programs catalog.

Drury University reserves the right to modify the terms of this catalog, including calendar, fees and tuition, without prior notice.
Introduction to the University
For more than 145 years, Drury University has prepared students for success in life and the professions. Drury’s founders recognized the need for a college that would bring the New England liberal arts tradition to a Midwestern setting. The tradition includes a commitment to helping students learn to serve their communities and the world.

At Drury, students gain the knowledge, experience and skills for graduate school, professional school and careers. Although Drury has grown in size and complexity since those early years, adding resources, graduate studies and a number of professional programs to the traditional liberal arts, the institution maintains its commitment to excellent teaching, a low student-faculty ratio, small class sizes and opportunities for students to engage in individual research. The hallmark of Drury University is a tradition of excellence integrating liberal and professional learning in the service of what Aristotle called phronesis, or practical wisdom.

Mission
Drury is an independent university, church-related, grounded in the liberal arts tradition, and committed to personalized education in a community of scholars who value the arts of teaching and learning. Education at Drury seeks:

- To cultivate spiritual sensibilities and imaginative faculties as well as ethical insight and critical thought;
- To foster the integration of theoretical and practical knowledge; and
- To liberate persons to participate responsibly in and contribute to life in a global community.

Goals
To ensure that liberal arts knowledge and understanding are central to the Drury experience and fundamental to all programs, the university maintains and strengthens its commitment to:

- Develop reading, writing, speaking, foreign language, and critical thinking skills;
- Cultivate creative capacities and aesthetic appreciation through participation in the arts;
- Expand logical thinking skills, and mathematical abilities, and apply inquiry based science to investigate the natural world;
- Examine the complexity of human experience through the study of historical and contemporary events, ideas, artifacts, and behavior;
- Engage in cross-cultural studies by applying global perspectives to diverse populations and contexts;
- Understand how globalization impacts, people, societies, ideas and natural processes;
- Develop personal, civic, and professional responsibility in order to participate ethically and sustainably in a larger community.

Drury University offers a remarkable variety of programs, including day and evening classes; master’s degrees in business administration, communication, nonprofit and civic leadership, and education; a professional master of architecture; and a strong liberal arts preparation for careers in the professions. While offering this variety of academic options that characterize universities, Drury also offers the personal attention, flexibility and supportive atmosphere that characterize a college. Students have the opportunity to build on personal strengths in preparing for their future of choice. The combination of excellent academic preparation and engaged learning experiences in service learning, internships, labs and studios gives each student a strong foundation on which to prepare for successful careers in the global economy and lives of meaning in the global community.

Changes to the Academic Calendar may occur following the publication of this catalog. Please refer to http://www.drury.edu/academic-affairs/academic-calendar for the most up-to-date semester information.
Privacy Policies
Drury University complies with all applicable laws relating to personal privacy, including the Family Education Rights and Privacy Act (FERPA) of 1974. Annually, Drury University informs students of their rights relating to FERPA (20 U.S.C. Sections 1232g; and implementing, 34 C.F.R. Section 99.1 et seq). The Act was designated to protect the privacy of education records and to provide guidelines for the correction of inaccurate or misleading data through formal and informal hearings.

Students have the right to file a complaint with the Family Educational Rights and Privacy Act Office, Department of Education, 400 Maryland Avenue. S.W., Washington, D.C. 20202, concerning this institution's alleged failure to comply with FERPA.

The University has designated certain information contained in the education records of its students as directory information for purposes of the Family Educational Rights and Privacy Act (FERPA).

The following information regarding students is considered directory information: (1) name, (2) address, including e-mail address, (3) telephone number, (4) date and place of birth, (5) major field of study, (6) part-time/full-time enrollment status, (7) participation in officially recognized activities in sports, (8) weight and height of members of athletic teams, (9) dates of attendance (including matriculation and withdrawal dates), (10) academic classification by year, (11) prospective degrees, degrees awarded, and awards received, (12) the most recent previous educational agency or institution attended by the student, and (13) student's photograph. Indications of religious preference along with names, addresses and telephone number of student's listing in the information are provided to the University Chaplain.

Directory information may be disclosed by this institution for any purpose in its discretion, without the consent of a student. Students have a right, however, to refuse to permit the designation of any or all of the above information as directory information. In that case, this information will not be disclosed except with the consent of a student, or as otherwise allowed by FERPA.

Any student refusing to have any or all of the designated directory information disclosed must file written notification to this effect to the dean of student services during regular business hours. The written notification does not apply retroactively to previous releases of directory information (e.g., once the Student Directory has been published, the directory information contained therein will remain). To prevent publication of directory information in the student Directory, written notification must be filed no later than the second week of classes during the fall semester.

In the event a refusal is not filed, this institution assumes that a student does not object to the release of the directory information designated. Questions or inquiries should be addressed to the Registrar's office.
Catalog Policy
Courses and policies listed in this catalog are subject to change through normal channels. New courses, changes in existing coursework and new policies are initiated by the appropriate institutional departments, committees or administrators. Policy revisions are normally implemented in the next academic year following notification thereof. However, occasionally a policy must be changed and implemented in the same academic year. The university reserves the right to make changes that seem necessary or advisable, including course cancellations. A curriculum or policy change could be applied to matriculated students, and for this reason, this catalog should not be construed as constituting a contract between the university and any person.

To complete degrees, students are expected to meet requirements listed in the catalog that are in effect for the year of the student’s admission or readmission to the university. Students also must meet any additional degree requirement of which they have been officially advised.

Information contained in this publication is certified as correct in content and policy as of the date of publication in compliance with the Veterans Administration Circular 20-76-84 and Public Law 94-502.
Admissions

Admission Procedures

1. Complete the application for admission, available online at www.drury.edu/ccps/application.
2. Submit proof of high school completion and official transcripts from all colleges and universities attended.
   - First time freshmen: Official high school transcript with grade point average of 2.0 on a 4-point scale or official G.E.D. or HiSet transcript including scores.
   - Transfer students: Official high school transcript, along with official transcripts from each college attended. Cumulative grade point average(s) based on hours attempted will be evaluated for admission purposes.

All application materials are reviewed by the Continuing Studies Admission Committee, which reviews applications on an individual basis. Additional application materials may be required, including, but not limited to, a writing sample, letters of reference, and/or a successful residual ACT score. Full admission is based on the student’s academic record and may be conditional on additional steps by the student, including, but not limited to, the student’s enrollment in a reduced schedule (3 to 6 credit hours), completion of three semester hours of a college-level English composition course and a course in computer applications.

Students must be fully admitted in order to receive a degree from the university.

Students retain the right to appeal admission decisions.

No person is excluded from admission to Drury or otherwise treated differently on the basis of any legally protected classification, including gender, race, color, citizenship, national origin, religion, status as a disabled veteran, Vietnam veteran or other veteran status, pregnancy, exercise of legally protected rights, age, sexual orientation or any disability which Drury can reasonably accommodate without undue hardship and which does not create a direct threat to the person or any other person.

Students who wish to enroll in Continuing Studies courses but do not wish to pursue a degree are welcome at Drury. Drury encourages enrollment in classes for personal and professional enrichment. Acceptable credit earned may be applied toward a degree upon formal admission to the university. Students should seek admission to the university before completing 30 hours, including transfer hours. (Associate degree candidates must be admitted before completing 18 hours.) If a period of one year elapses during which an admitted student is not enrolled, the student must reapply for admission. Students receiving financial aid and/or students using veterans’ assistance must be admitted to the university prior to enrollment.
**International Student Admission**
The deadline to apply for admission is two months prior to the beginning of each term. To study for a degree in the U.S. in F-1 status, an international student must be admitted as a full-time student pursuing a specific educational objective such as a bachelor’s degree.

**International Admission Procedures**
Submit the following to the College of Continuing Professional Studies Admission Office at Drury University:

1. A completed Continuing Professional Studies application for admission form (available online at www.drury.edu/ccps/application).
2. All secondary school records: transcript of courses with grades or other evaluation marks, documentation of graduation or completion, and examination results where they apply.
3. An evaluation of your secondary school coursework completed outside the U.S. from a credential evaluating service such as World Education Services, Inc. (WES). Approximate cost through a credential evaluation service is U.S. $160.
4. Official transcripts from each post-secondary institution previously attended.
5. A course-by-course evaluation of any post-secondary coursework completed outside the U.S. from a credential evaluation service such as WES. Approximate cost through a credential evaluating service is U.S. $160.
6. English proficiency can be proven by submission of the following official documents:
   a. TOEFL (Test of English as a Foreign Language) minimum score of 530 (paper), or 72 (internet), and TWE (Test of Written English) minimum score of 4.
   b. IELTS score of 6.0.
   c. SAT Critical Reading score of 500.

Students who apply and are accepted to Drury University’s undergraduate Day School division must complete one semester as a day student before applying for admission to Continuing Professional Studies.

**Readmission to Drury University as an International Student**
International students seeking to return to Drury University’s Continuing Professional Studies program must apply and be accepted for readmission before registering for classes. Students who are readmitted to the university will be required to meet the requirements of the current university catalog.

**Academic Credential Evaluation**
Students will be required to submit their secondary school records and all other postsecondary study to an academic credential evaluation agency such as World Education Services, Inc. (WES) for evaluation in terms of U.S. semester credits, course equivalents, grade point average and authentication of documents.
Information about WES can be found at www.wes.org. Drury University reserves the right to interpret the evaluation report to be consistent with institutional admission policy guidelines. Admission to Continuing Studies cannot be completed without the credential evaluation.

**English Language Proficiency**
Proof of English language proficiency must be submitted to Drury University before students can be admitted and register for classes.

English proficiency can be demonstrated by submitting one of the following:

- Minimum Test of English as a Foreign Language (TOEFL) score of 197 (530 on paper-based test) and a minimum official
- Test of Written English (TWE) score of 4.
- Minimum verbal Scholastic Aptitude Test (SAT) score of 500.
- Minimum composite American College Test (ACT) score of 21.

An institutional TOEFL and TWE are offered during new international student orientation for a fee. Students who score below 530 on the TOEFL and/or below 4 on the TWE are required to enroll full time in Drury’s English for Academic Purposes (EAP) program.

**Applying for an I-20**
Submit the following to International Support Services at Drury University:

1. A letter of financial support.
2. Original financial documents showing you have at least U.S. $15,000 available for each year of your studies.
3. A deposit equal to 50 percent tuition and 100 percent fees for the first semester of studies. Students enrolling in 12 credit hours (minimum full-time course load) must deposit U.S. $1,505. Students enrolling in 15 credit hours must deposit U.S. $1,750.
4. Applicants transferring from another college or university within the United States must provide proof of admission to Drury University and request their previous school to transfer their Student and Exchange Visitor Information System (SEVIS) record to Drury University.

If the request for an I-20 is approved, an I-20 will be issued and sent to the student if outside the U.S. Submit the I-20, letter of acceptance, passport, and financial documents to the nearest U.S. Embassy or Consulate to apply for an F-1 (student) visa. Students inside the U.S. will receive their I-20 at International Orientation.

**Sample Letter of Financial Support**
“We XX and YY, the parents of ZZ, are supporting ZZ in the amount of U.S. $15,000 each year or we will support ZZ in the amount of U.S. $16,500 each year. We will support ZZ in the amount of U.S. $82,500 during the five to six years of ZZ’s studies at Drury University.
In accordance with Drury University’s payment policies, tuition and fees will be paid in full the first day of the semester (approximately January 15, June 1 and August 15). We and ZZ understand that if tuition and fees are not paid in full by the end of the second week of classes, ZZ will be removed from class rosters and not allowed to attend classes, and in accordance with the U.S. federal regulations for F-1 students, ZZ will depart the United States.”

Financial Documentation
In order to issue an I-20, Drury University must have recent financial documents on file (30 days or less). The financial documents must be original (no photocopies or faxes are accepted).

The financial documents must be one of the following for each sponsor:

- An original letter from your bank (or your sponsor’s bank) stating you are a customer in good standing and that your account history shows you have at least U.S. $15,000 available for each year of your studies. This letter must be on bank letterhead with telephone and fax numbers, and be dated and signed.
- Three months’ original bank statements showing a balance of at least U.S. $15,000 each month.

The university regrets that U.S. government financial assistance is unavailable for students who are not citizens or legal permanent residents of the United States or its possessions.

International Student Tuition Deposit Policy
Students must pay 50 percent of the tuition and 100 percent of the student fees (including, but not limited to, the following: health center fee, orientation fee and the cost of insurance) for the first semester of attendance before an I-20 can be issued or the student can register for classes.

Students are required to pay their tuition in full no later than the first day of the semester. Otherwise, they must arrange for a deferred payment plan with the Student Financial Services Office.

Students transferring from U.S. schools must complete the application for admission to Drury University by the end of the second week of school. At that time, 100 percent of the tuition and student fees (including, but not limited to, the following: health center fee, orientation fee and the cost of insurance) for the semester must be paid, or a deferred payment plan must be signed and 50 percent of the tuition and 100 percent of the student fees (including, but not limited to, the following: health center fee, orientation fee and the cost of insurance) paid.

All degree-seeking international students attending Drury University who have not paid at least 50 percent of tuition and 100 percent of the student fees (including, but not limited to, health center fee, orientation fee and the cost of insurance) by the end of the second week of classes will be removed from the class rosters and not allowed to attend classes. Maintenance of immigration status is the responsibility of the individual.
International Support Services
International Support Services (ISS) provides services for international students including immigration advice and assistance and cultural adjustment counseling. The director also coordinates the mandatory international student health insurance plan. ISS is located in the Findlay Student Center on the lower level in room 113. Heejung Cromley is available by phone at (417) 873-7885, fax at (417) 873-7885 and on the Web at drury.edu/iss.

Notes to F-1 International Students
In addition to the responsibility of observing the regular Drury University rules and regulations, non-immigrant international students are also responsible for abiding by the terms of their immigration status. The International Student Handbook, available from ISS, is a valuable source of information for international students.

The director of International Support Services is available to provide assistance and answer questions concerning the Department of Homeland Security (DHS) and the applicable rules and regulations.

Remember: Immigration laws are subject to frequent change. Read correspondence and e-mails from ISS for updates.

Full-Time Status
Immigration regulations require undergraduate students in F-1 or J-1 status to maintain full-time status (minimum 12 semester hours) throughout each fall and spring semester. Students are not required to register for classes during the annual vacation period (summer). Dropping courses may cause F-1 and J-1 students to violate their immigration status.

Transfer from Another U.S. School
To be eligible to transfer from one institution to another, students must have maintained full-time enrollment at the previous institution and must otherwise be in status. To transfer to Drury University from another institution, students must provide proof of admission to Drury and request their Student and Exchange Visitor Information System (SEVIS) record be transferred to Drury University. Transfer students must present both the previous school’s I-20 and the original Drury University I-20 to International Student Services within the first fifteen days of class to affect a transfer with the Department of Homeland Security (DHS). Students should bring these documents to International Orientation.

Extension of Program Completion Date
F-1 students are admitted to the U.S. for the duration of their studies (D/S) to complete the academic program by the program end date stated on the I-20, item 5. This “completion date” is the stated date by which the student is expected to complete her/his studies. If a student’s academic program cannot be completed within the prescribed time period for valid academic or documented medical reasons, a request for program extension must be filed before the completion date.
Period of Stay
A non-immigrant student may stay in the U.S. only as long as she or he is in compliance with her/his non-immigrant status. By definition, a non-immigrant is any alien whose reason for coming to the U.S. involves a temporary stay that will end when the purpose of the trip has been accomplished and who has no intention of abandoning her/his homeland. Normally a student is allowed to remain in the U.S. for duration of studies (D/S) which is the time period it takes to complete one’s educational program and any practical training authorized by the Department of Homeland Security (DHS) plus 60 days.

English for Academic Purposes (EAP)
Drury University offers non-native speakers of English flexible but vigorous language training for the entering semester. Students enrolled in EAP receive degree credit. Conditional admission to the degree program is offered.

Students are eligible to be fully admitted to Drury’s EAP program if they offer evidence of having completed one of the following:

- Successful completion of level 112 or higher at an accredited ELS English Language Center
- Successful completion of all ELI level 4 courses
- IBT TOEFL score of 54 to 71
- IELTS score of 5.5
- SAT score of 400 to 499 in reading

For more information about English for Academic Purposes courses, visit http://www.drury.edu/eap.
Readmission
Any Continuing Studies student who has not been enrolled for one year must apply and be accepted for readmission. Final decisions regarding readmission cannot be made until all transcripts of college coursework attempted since the student last attended Drury have been reviewed.

Students are readmitted to the university under the requirements of the university catalog current for the semester of their readmission.
Transfer Student Policy
Drury maintains a policy that a student from a regionally accredited college may apply for admission as a transfer student. The student should be in good standing with the previous college attended and eligible to return to that institution.

In addition to the required application, the transfer applicant is required to submit:
1. Official transcripts from each college previously attended.
2. Proof of high school completion.

Statements concerning the possibility of transfer and the applicability of specific credit toward any of the degree programs at Drury are made after thorough study of the official credentials.

Credit for courses equivalent to those at Drury University may be transferred if the student has earned a “C” or better in the course, and then only if the course is applicable to a degree program at Drury University.

To be eligible for a baccalaureate degree, transfer students must complete at least the senior year, the last 30 semester hours, in residence. To be eligible for an associate degree, transfer students must complete the last 15 hours in residence.

A transfer student who has completed 30 hours of previous credit must immediately apply for admission to Continuing Studies (18 hours for associate degree candidates).

A maximum of 31 hours are applicable toward a bachelor’s degree resulting from credit awarded from any combination of extension or correspondence coursework, proficiency testing, military courses, credit from successful completion of College Level Examination Program (CLEP) examinations, and Dantes examinations. Military personnel who have completed one year of active duty may receive an award of four semester hours for physical education. Military personnel who have completed two years of active duty may receive an award of eight semester hours for physical education, first aid and personal health.

Those students who have obtained an Associate of Arts degree from a regionally accredited two-year college will be awarded 42 semester hours of general education and enter with junior year status in the Bachelor of Science program.

Any student who has previously attended another institution of higher education but fails to include such information in the application for admission to Drury Continuing Studies thereby forfeits the right to be a Drury student.

While a student is working toward a degree at Drury University, prior approval is required before enrolling at any other institution for any coursework for which the student would receive transfer credit.
**Dual Enrollment and Dual Credit**
Drury University offers dual credit courses to junior- and senior-level high school students in selected high schools. Students receive high school- and college-level credit simultaneously.

Drury welcomes current high school students to enroll in a selection of lower-division courses offered through CCPS. Parental permission is required.

Dual enrollment and dual credit students are subject to all relevant policies and procedures applicable to Drury University students. These include policies regarding change of schedule, drop/add, grading and scholastic action. Coursework is applicable to Drury degrees in the same manner as native credit.

Drury also accepts dual credit courses in transfer when they are presented on official transcripts from other regionally accredited institutions. Grades must be C or better. Drury does not limit the number of credits that can be earned in dual credit programs and treats coursework earned in dual credit programs the same as credit earned on a college or university campus.

*Available in Springfield only.

**Available entirely online.

***Available in Springfield and St. Robert only.
Requirements for Graduation

Bachelor of Business Administration
Bachelor of General Studies
Bachelor of Science

To be recommended for one of the degrees listed above, a candidate must satisfy the following conditions:

• The declaration of major must be finalized prior to the student’s second semester. A student who has not attended Drury for one year or more will be required to submit a new declaration of major, which may change the course requirements based on the updated catalog.

• The successful completion of 124 hours the required minimum number of credit hours for a bachelor’s degree.

• At the time of graduation the average cumulative grade must be at least a “C” (2.0).

• The successful completion of a major (study-in-depth). The major shall require not less than three or more than six semester hours of senior seminar, research or other designated capstone requirement.

• The successful completion of all general-education requirements.

• At least 36 hours of the total number of hours required for graduation must be in upper-division courses (courses numbered in the 300s and 400s).

• The last 30 semester hours must be taken in residence.

• Prior to course registration, students are responsible for reviewing their requirements to make certain that progress is being made toward completion of the degree.

• All candidates for degrees are expected to be present at the commencement exercises. To participate in commencement exercises, students must have completed all degree requirements. Requests for degrees to be granted “in absentia” must be approved by the registrar.

• Commencement ceremonies occur in December and May each year. Latin Honors will not be printed in the program, as coursework is not yet final at the time of the ceremony, but will be read at commencement, and students will wear cords, based on hour completion and GPA once A Block grades are finalized for the semester. Students must have a clear financial status for the semester in order to participate in the commencement ceremony.
  • Students eligible to participate in the December ceremony must have applied for graduation, completed a graduation audit, and be on track for degree conferral in December.
  • Students eligible to participate in the May ceremony must have applied for graduation, completed a graduation audit, and be on track for degree conferral in May or August. Financial holds applied as a result of charges incurred for summer semester registrations only will not prevent a student from participating in the May ceremony.
Associate of Science

To be recommended for the degree listed above, a candidate must satisfy the following condition:

- The successful completion of a major (study-in-depth).
- The successful completion of all general-education requirements.
- A student who has not attended Drury for one year or more will be required to submit a new declaration of major, which may change the course requirements based on the updated catalog.
- The successful completion of 62 hours the required minimum number of credit hours for an associate’s degree.
- At the time of graduation the average cumulative grade must be at least a “C” (2.0).
- The last 15 semester hours must be taken in residence.
- Prior to course registration, students are responsible for reviewing their requirements to make certain that progress is being made toward completion of the degree.
- No student who has any unsettled accounts with the university will be graduated.
- All candidates for degrees are expected to be present at the commencement exercises. To participate in commencement exercises, students must have completed all degree requirements. Requests for degrees to be granted “in absentia” must be approved by the registrar.
- Commencement ceremonies occur in December and May each year. Latin Honors will not be printed in the program, as coursework is not yet final at the time of the ceremony, but will be read at commencement, and students will wear cords, based on hour completion and GPA once A Block grades are finalized for the semester. Students must have a clear financial status for the semester in order to participate in the commencement ceremony.
  - Students eligible to participate in the December ceremony must have applied for graduation, completed a graduation audit, and be on track for degree conferral in December.
  - Students eligible to participate in the May ceremony must have applied for graduation, completed a graduation audit, and be on track for degree conferral in May or August. Financial holds applied as a result of charges incurred for summer semester registrations only will not prevent a student from participating in the May ceremony.
Notes on Majors (studies-in-depth):

*Required Hours of Study:* Requirements for majors and minors are developed by each department. All bachelor degree majors require at least 24 hours in a field of study. All associate degree majors require at least 18 hours, but not more than 24 hours, in a field of study. All minors require at least 15 hours in a field of study.

*Required Capstone of Study:* Majors shall require not fewer than three semester hours of senior seminar or research.

*Required Approvals to Study:* The declaration of major(s) and minor(s) must be filed in the Registrar’s Office prior to the completion of 60 credit hours of coursework.

*Maximum Programs of Study* Students may complete up to 3 majors and 3 minors.

The responsibility for understanding and meeting graduation requirements rests entirely with the student.
Academic Excellence
Drury recognizes academic excellence in several ways.

Dean’s List
To be included in the dean’s list for a given semester, a student must maintain a grade point average for that semester of 3.6 in continuing studies with a course load of eight or more semester hours.

Honors at Graduation
Only grades earned while in residence at Drury University are used in determining honors at graduation.

Degrees with distinction: the degrees of Bachelor of Business Administration, Bachelor of Science, and Bachelor of General Studies is awarded with merit in three grades: with distinction, cum laude; with high distinction, magna cum laude; and with highest distinction, summa cum laude.

- Candidates will be recommended for the degree cum laude if they have completed not fewer than 60 semester hours at Drury University and have attained a standing of a 3.6 GPA.
- Candidates will be recommended for the degree magna cum laude if they have completed not fewer than 60 semester hours at Drury University and have attained a standing of a 3.75 GPA.
- Candidates will be recommended for the degree summa cum laude if they have completed not fewer than 90 semester hours at Drury University and have attained a standing of a 3.9 GPA.

<table>

<tr>
<td>3.900 - 4.000</td>
<td>90</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

Departmental distinction: Students who have completed at least 15 hours of upper division work in one department at Drury with “A” and “A-” grades will be awarded departmental distinction.

Graduation with Merit: Candidates for associate degrees who distinguish themselves academically will be graduated with the notation “Graduation with Merit.” This notation will appear on the Drury transcript of Associate of Science degree recipients who have completed at least 30 hours at Drury University with a minimum grade point average of 3.75 on Drury work.
**Academic Planning**

Advisors are available during regular office hours, at every local campus office. If a student cannot meet with an advisor during regular office hours, the staff will arrange a time that is convenient to the student’s schedule. To ask for assistance, students may call or email from a Drury account (which protects student privacy).

An academic advisor is an advocate for the student. Advisors can help students understand how courses prior to attending Drury may count for current degree requirements and what courses are needed in upcoming semesters.
Registration
Students must register for classes prior to each semester. Drury provides the support students need when making decisions about how to meet educational goals at each stage of their education.

Current students are encouraged to consult their advisor before registering each semester.

To be classified as a freshman, you must meet the entrance requirements. To become a sophomore, you must have earned 30 semester hours; to be classified as a junior, you must have 60 semester hours; and as a senior, 90 semester hours.

Before you are entitled to attend class, you must complete all registration procedures.

Student status is determined by course load (undergraduate credit hour enrollment) each semester.

- 12 or more hours: Full-time
- 9 hours: Three-quarter-time
- 6 hours: Half-time
- <6 hours: Less-than-half-time

See the academic calendar for specific dates to add and drop courses.

After the end of the first week of the semester, a change in your registration can only be made by filing an official drop and add form in the Office of the Registrar. If you wish to drop a class, it is important that the drop and add form be filed with the Registrar as soon as this decision is made. Failure to officially drop a class you are not attending will result in a grade of F for the course. Failure to officially add a class you are attending will result in no credit.

Courses are subject to the following drop policies:

Prior to the first day of class and until the Friday of the second week of the Fall or Spring semester, a student may drop with no transcript notation.

From the beginning of 3rd week through 75% of term, the student can drop courses or withdraw with grade notation “W” which is non-punitive. The ending period for “W” notation is based on a 75% percentage of term rather than actual number of days since terms (summer, blended, semester, block, May Term, Winter Term, etc.) can vary widely in actual number of days.

Beginning the week of the last 25% of term, the student is committed to receiving a grade. Beginning at the same time, the faculty member is committed to grading the student.

A student with a documented incidence of injury or illness may be granted a medical withdrawal at any time during the term and will receive the non-punitive grade of W. Medical withdrawal requires approval of the Vice President of Student Affairs.

At any time during or after the term, the faculty member has the right to fail the student who has been proven to have behaved in a dishonest or unethical manner relating to class performance. In that instance, a student cannot avoid a failing grade by attempting to drop the course.
Credit is assigned on the basis of one hour for each lecture or recitation hour a week, or its equivalent in laboratory hours, for a semester of 15 weeks. The amount of credit for each course is indicated on current course schedules. The student is responsible for checking his or her own records to make sure that he or she does not repeat a course.

Credit cannot be given for a course for which you are not officially registered, nor can credit be claimed more than once for the same course unless the course is designated as one that can be repeated.

Students are not admitted to the university for purposes of earning academic credit after the first full week of classes.
Overload
Request for overload is only available in the fall and spring semesters. More than 17 hours in a full-term (or more than 7 hours in a block period) is considered an academic overload. Students who wish to enroll in an academic overload should have a cumulative grade average of 3.0 or higher and must obtain the approval of their academic advisor. The deadline to submit this approval is the first day of the semester or block. Students with a grade average below 3.0 must also obtain approval from the Office of Academic Affairs. Registration for more than 21 hours in full-term (or 9 in a block period) is considered an excessive overload and requires approval by the Office of Academic Affairs before the semester begins. Excessive overload approvals will not exceed more than 10 hours in any block period, and no more than 22 hours total (including block) in any fall or spring term.

Credit hour overloads are not permitted during the Summer, May, or winter terms. Maximum credit allowed for summer is 13 semester hours. No more than 3 semester hours can be earned in either May or winter terms.
Cancellation of Course Policy
The university reserves the right to cancel any course as deemed advisable.
Directed Study
To allow flexibility in students’ schedules, the university offers courses by directed study. With the appropriate approvals, a student may register for directed study for courses listed in the catalog. This study will be pursued under the guidance of the instructor. The usual syllabus of the course will be followed and the standards will be the same as when the course is being offered as a class. Directed studies are available to degree-seeking students only and constitute a regular part of the academic load. The regulations regarding registration, tuition and fees apply.

Only one directed study course is allowed in a semester and may not be completed during a semester when a student also is registered for a course in research.

Research
Many academic departments offer special research or investigative projects beyond the regular catalog offering. Significant responsibility lies with the student to work independently to develop a proposal for study that must be approved by a faculty mentor and the appropriate department chair. The faculty member will provide counsel through the study and will evaluate the student’s performance.

Sophomores, juniors and seniors are eligible.

Students must register for research (291, 391 or 491) to receive credit and are required to fill out a Permission to Register for Special Coursework form. Each hour of research credit requires 12.5 hours of documented work. Research is available to degree-seeking students only. No more than 6 hours of research are applicable to a major. It is recommended that students complete not more than 12 hours of research to apply toward the baccalaureate degree.

Selected Topics and Mini-Courses
Selected Topics are courses of an experimental nature that provide students a wide variety of study opportunities and experiences. Selected Topics offer both the department and the students the opportunity to explore areas of special interest in a structured classroom setting. Selected Topics courses (course numbers 290, 390, 490) will have variable titles and vary in credit from 1-3 semester hours. Selected Topic courses may not be taken as a Directed Study offering.

One credit hour selected topics courses are considered mini-courses (courses numbered 199). Mini-courses are graded on a satisfactory/unsatisfactory basis and only four hours of credit earned for completion of mini-courses are applicable toward degrees. Mini-courses cannot be used to satisfy general education and major requirements in a degree program. The credit earned from mini-courses is elective credit only to be used as hours toward the graduation requirement. Enrollment in mini-courses is open to all students, regardless of academic classification.
**Internships**

The three primary goals of Drury’s internship program are:

1. To help the student clarify educational and career objectives;
2. To expand the student’s understanding of classroom theory by applying their training in some practical way; and
3. To introduce the student to the world of work in terms of responsibilities and employer-employee relationships.

In addition to completing the on-site internship, the student may be asked to complete additional coursework as assigned by the faculty sponsor. Grades are assigned by the Faculty Sponsor and are based on performance at the internship site and other assigned coursework.

Students with at least 60 credit hours and a 2.5 or higher grade point average are eligible to complete internships for credit. Students must have completed coursework appropriate for the internship experience and must be related to their field of study.

The student is required to complete paperwork and submit it to Career Planning and Development prior to the beginning of the work experience and before the deadline to add a course for credit.

Credit will not be granted retroactively.

In order to receive credit for the internship, the student must be registered in coursework designated for internship credit. Each course carries three or six semester hours of credit. Only six hours of internship credit will apply toward the baccalaureate degree. Internships cannot be undertaken without all approvals being given and formal arrangements having been made. Student interns must work at least 135 hours for a three credit hour internship or 270 hours for a six credit hour internship. All hours must be completed during the semester in which they are receiving credit.

Tuition rates for internship are the same as all other academic courses.

For more information: [www.drury.edu/career/internships](http://www.drury.edu/career/internships)
Concurrent Credit Policy
Concurrent credit makes it possible for academically qualified and motivated students to begin their master’s degree while still an undergraduate student. With appropriate advising and fulfillment of academic standards, students can complete a bachelor’s and fast-track completion of a master’s degree.

Drury University’s Concurrent Credit program allows for students to enroll in 600 level graduate courses while still pursuing a bachelor’s degree. Through the program, eligible undergraduate students may enroll in graduate courses and earn both graduate and undergraduate credit simultaneously.

Any student seeking to pursue a 3+1 or 4+1 program must adhere to the guidelines set forth by the academic department applicable to their specific area of study. Students pursuing the concurrent credit program may apply a maximum of 12 graduate hours toward the 124 hours required for a bachelor’s degree at Drury University. Although a maximum of 12 credit hours may be taken, many programs have lower limits. See the Graduate Catalog for more information.

Students registering for concurrent credit must complete the Permission to Register for Concurrent Credit. This form must be completed and submitted to the Office of the Registrar by the “last day to enroll” as stated in the Academic Calendar for each semester in order to finalize registration.

Student Eligibility for Early Graduate Admission:
Students must apply for the desired 4+1 master’s program after completing 75 hours of coursework. Minimum academic requirements for early acceptance to a qualifying master’s program are:

- Ninety (90) undergraduate credits, 45 of which must have been completed at Drury
- Two (2) upper-division courses in the major area of study
- Overall GPA of 3.5
- Working in conjunction with a program director, students will complete and file a program of study with the Registrar’s Office. Graduate course credit may be applied to the curriculum requirements for an undergraduate major or it may only apply toward the total hour and upper division requirements. The plan of study must be approved by the student’s advisor, the appropriate graduate program director, the department chair or dean of the student’s major area of study, and the Dean of the College of Graduate Studies.
- Students must meet GPA requirements to stay in the program. If a student earns a C in a graduate course, he/she will be placed on probationary status. A student can be dismissed from the graduate program for failing to maintain a minimum cumulative grade point average of 3.0. Students failing to remove themselves from scholastic probation within one semester in residence after being placed on scholastic probation may be dismissed.

Early Admission Application Requirements:
- Complete the online application for admission to the College of Graduate Studies no later than the end of the student’s junior year
- Submit a personal statement that explains career goals and reasons applying for the +1 master’s program
- Submit a letter from the appropriate graduate program director stating that he/she has agreed to serve as the student’s faculty advisor for graduate work
- Two (2) letters of recommendation, one of which must be from a university faculty member
- Upon completion of the bachelor’s degree, student must fulfill all program-specific admission requirements (pre-requisites and satisfactory GRE or GMAT exam score)
Transcripts of Credit

Transcripts of credit will be issued by the Office of the Registrar to all present and former students subject to certain conditions. In order to assure that records are confidential, Drury University issues official transcripts only upon written authorization of the student. Financial obligations to the college must be satisfied.

There is an $8.00 fee for a transcript ordered online through http://www.studentclearinghouse.org.

The fee is $12.00 when ordered through the Registrar’s Office.
Class Attendance
Students are expected to attend all classes and laboratory periods for which they are enrolled. There is no university-wide policy defining conditions under which an instructor should or should not excuse an absence, other than university-sanctioned absences (academic and athletic competitions, class field trips, etc.). Instructors are responsible for the maintenance of standards and quality of work in their classes. Absences occurring for any reason, other than university-sanctioned activities, is an individual matter between student and instructor. Students are directly responsible to instructors for class attendance and for work missed during an absence for any cause.

Enrollment is verified in the third week of each semester (second week in block terms). Students that have not begun attendance by that timeframe will be administratively withdrawn from the course.
The Grading System

A grade of “C” represents a satisfactory level of performance that can be expected of any Drury student who gives a reasonable amount of time, effort and attention to the work of the course. Such satisfactory performance should include familiarity with the content of the course as shown by an acceptable mastery of the information, concepts or skills involved, as well as regular participation in the work of the class.

A grade of “B” indicates a higher level of performance than the satisfactory standard defined for a grade of “C.” It involves excellence in some aspect of the work, such as completeness, accuracy, detail of knowledge or effective independent work.

A grade of “A” involves a level of performance that is conspicuously excellent in the factors indicated in the definition of “B.”

A grade of “D” indicates below-standard performance; it is acceptable toward graduation only if offset by superior work in other courses.

A grade of “S” (Satisfactory) indicates the attainment of a “C” level or better. A grade of “F” or “U” indicates an unacceptable level of performance.

Incomplete
An “I” grade is given for incomplete work only if illness or other unavoidable causes prevent the student from completing the course. The student is responsible for contacting the instructor and determining what must be done to remove the “I” grade. Coursework must be completed and the “I” grade replaced with a letter grade by the end of the first week of the regular semester (fall or spring) immediately following the semester in which the incomplete was assigned. Graduating students receiving an incomplete in their final semester must complete the coursework and have a final grade assigned within two weeks following the end of that same semester. The instructor granting the incomplete, or the department chair in his or her absence, is required to report to the registrar a grade for the permanent record by the end of the period indicated. A grade of “I” not removed within the time period allowed, will automatically be changed to an “F.”

A request for extension to move the deadline for replacement of an incomplete to a final grade to the end of the current semester, may be requested by the faculty member who assigned the incomplete. Until the grade has been formally recorded, the course will not be considered as hours attempted and thus will not be a part of the cumulative grade point average.

A “W” indicates that the student has withdrawn from a course before the point in the term at which the faculty member is required to assign a final grade. Generally, that point falls when 75% of the term has been completed; see the Academic Calendar for official drop dates in each term. The “W” grade is non-punitive.

Any student who unofficially drops a course or unofficially withdraws from college will receive an F in the course or courses.
Credit point averages will be computed as follows: each hour of A counts as 4.0; each hour of A- counts 3.7; each hour of B+ counts 3.3; each hour of B counts 3.0; each hour of B- counts 2.7; each hour of C+ counts 2.3; each hour of C counts 2.0; each hour of C- counts 1.7; each hour of D+ counts 1.3; each hour of D counts 1.0; and each hour of D- counts 0.7.

The grade point average is based only on academic courses taken at Drury University. The computation is made by dividing the total number of credit points earned by the total number of semester hours attempted. Grades of “F” are included when computing grade point averages and carry a value of zero points. For courses that are completed more than once (repeated), the grade point average is computed on the policy that the highest grade stands and that no other grades associated with the course are included in the calculation. Grades from repeated courses that are not calculated as part of the grade point average are replaced with an RP (passed, repeated), RF (failed, repeated), or RU (unsatisfactory, repeated). Grade reports, including class rank, are accessible on MyDrury to current students at the end of each semester or term.

Mid-semester grades are made available to all students at Drury University. The academic dean, dean of students or associate dean of students may request other scholarship reports at any time.

*Satisfactory Or Unsatisfactory*
A student who is officially classified as a junior or senior may register for one course during a semester on a Satisfactory or Unsatisfactory basis, but must designate this option before the end of the second week of class. In order to receive a satisfactory grade, a student is expected to perform at the “C” level or better. With the exception of internships, teacher aiding, writing tutorial, community service (FREN 314, 315, 316, 317, 318, 319) winter term and May term courses, only four undergraduate courses may be taken on a Satisfactory or Unsatisfactory basis. Courses in a student’s major and minor, courses taken to meet graduation requirements and honors courses (excluding community service) may not be taken on a Satisfactory or Unsatisfactory basis. A transfer student officially classified as a junior or senior by Drury University and in good academic standing may take a course on a Satisfactory or Unsatisfactory basis during the first semester at Drury. Satisfactory or Unsatisfactory courses are not to be included in the cumulative grade point average. A student receiving a grade of Unsatisfactory will not receive the credit toward graduation.
Appeal of Final Course Grade
Students should be protected from prejudice and capriciousness in the awarding of grades. They are entitled to a reasonable explanation of their performance in relation to the standards of the course. They also are entitled to a review of their grade by a responsible group of faculty members in cases where the student can establish a reasonable doubt that the grade was awarded fairly, as well as a reconsideration of the grade where prejudice or capriciousness is established. A student may appeal a final course grade by the following steps:

Step 1: If a student has a question concerning the final grade, he or she should discuss the matter with the faculty member within the first three weeks of the following semester. If the faculty member who awarded the grade is not on campus during the regular term, the student should contact the Office of Academic Affairs or the department chair. When the faculty member who awarded the grade is not available, the department chair or someone designated by the chair would, in normal circumstances, be responsible for reaffirming or adjusting the grade. The original faculty member would be consulted whenever possible. If no agreement is reached between the student and the faculty member, the student must file an appeal letter with the Office of Academic Affairs by the end of the fourth week.

Step 2: The chair of the department concerned then mediates negotiations between the faculty member and the student (normally for two weeks, or the fifth and sixth weeks of the term). If the department chair is the faculty member concerned, the Office of Academic Affairs will appoint a mediator.

Step 3: If mediated negotiations are unsuccessful, the student may file a formal written petition with the AAC before the end of the eighth week of the semester stating the reasons why he or she feels the grade was awarded in a prejudicial or capricious manner and presenting evidence to support the case. As with other petitions, the student may request the presence or absence of the AAC student representatives. The petitioning student will be responsible for presenting any papers, tests or exams that were returned to him or her. The faculty member will be responsible for making available any papers bearing on the case that were not returned to the student.

The AAC receives the petition and based on their experience as educators and their evaluation of the fairness of the grade, decides by a simple majority vote whether to hear the case. If they choose not to hear the case, the committee has completed its review of the appeal. If the AAC decides to hear the case, the student and the faculty member will present any evidence or other information that is required by the AAC. In those cases where a member of the committee is involved as the faculty member who awarded the grade, that member shall resign from the case and the Faculty Affairs Committee, serving as a nominating committee, shall appoint another faculty member to serve on the AAC to hear the case. The committee also may call for whatever other information members deem significant to their decision, including testimony from the mediating faculty member from step two. The mediating faculty member also will be heard if he or she so desires.

The AAC will then decide if prejudice or caprice was involved in determining the final grade. A two-thirds majority vote is required to establish prejudice or caprice, in which case the grade will be reconsidered. In the absence of a two-thirds majority vote, the case is closed.

Step 4: In reconsidering the original grade, the department chair, in consultation with the AAC, should review all pertinent materials. If a change in grade is deemed warranted, the new grade will be established by the department chair in consultation with the AAC. If the department chair is the faculty
member who awarded the grade, the same person who functioned as mediator will determine the grade.

Step 5: All decisions of the committee on such petitions will be subject to automatic review by the Office of Academic Affairs and thereafter move into the normal channels of the university.
Satisfactory Academic Standing
Drury students are expected to maintain the highest level of scholarship of which they are capable, and to make consistent progress towards graduation. Satisfactory academic standing is calculated at the end of each fall and spring semester and requires that students (1) earn a semester GPA of 2.0 or higher, (2) maintain a cumulative GPA of 2.0 or higher, and (3) with enrollment in 6 or more semester hours must complete semester and yearly progress as explained below:

- **Full-time students** (enrolled for 12 or more credit hours per semester) should successfully complete at least 9 hours in the current semester and a combined total of 21 hours between the current semester and previous fall or spring semester.
- **Three-quarter time students** (enrolled for at least 9 but less than 12 credit hours per semester) must successfully complete at least 6 hours in the current semester and a combined total of 15 hours between the current semester and previous fall or spring semester.
- **Half-time students** (enrolled for at least 6 but less than 9 credit hours per semester) must successfully complete at least 3 hours in the current semester and a combined total of 9 hours earned in the current semester and previous fall or spring semester.

Academic Warning, Probation and Suspension
Academic warning serves as an alert that students are not in satisfactory academic standing and are not adequately progressing towards graduation. Students who receive a warning must improve the quality of their work in order to remove the risk of probation, and suspension from the university, that can result when their record fails to improve.

Students receive an academic alert when their performance fails to meet one or more of the three required elements for satisfactory academic standing. If students do not return to satisfactory academic standing in the first semester following the warning, they place themselves on academic probation.

Students are suspended from the university when they are out of satisfactory academic standing for three consecutive semesters, or when the pattern of their work merits such action.

Students on academic warning or probation status should carry a reasonable academic load—developed with the help of all available counseling and advising—about which activities to drop (because they interfere with studying) and which to retain (because they play an important part in personal need or development). Participation in extra-curricular activities requires good academic standing; however, students on academic warning or probation may still be eligible based upon standards for each particular activity.

Students are suspended from the university when their work merits probation for three consecutive semesters, or when the pattern of their work merits such action.

Students suspended from the university for academic reasons may appeal to the Office of Academic Affairs for reinstatement for the following semester. Successful appeals will meaningfully address the reasons for previous academic difficulty, and present a plan for improved performance. Appeals must be received no later than one week prior to the start of the following semester.

Students whose appeal for the following semester is unsuccessful may apply for readmission to the university in a future semester, and should contact the Office of Admissions. Readmission is not automatic, and scholarships and financial aid are not guaranteed to students who are readmitted.
Additional action may be required to receive aid, and students should contact the Financial Aid Office to determine their eligibility after readmission. Academic success in courses taken while separated from Drury is encouraged.

Students reinstated for the following semester, or readmitted after suspension will be on probation and must show minimum progress by the end of their first semester in order to remain enrolled.
Credit by Proficiency Examination
Superior students may, at any time, apply to the head of any department for permission to take a proficiency examination covering the subject matter of any course in that department listed in the catalog — provided that they are not enrolled in that course and have not completed a more advanced course in that field. Students are normally required to register for the course before the examination is taken. This examination is open to regularly enrolled students to whom the regulations regarding tuition and fees apply. For students taking less than 12 hours, an examination fee of $5 is charged in addition to the usual tuition fees.
**CLEP – Computer-based Testing**

Drury University participates in the Computer-Based Examination Program. Credit is awarded for completion of CLEP general and subject examinations.

To receive credit, students must complete the general examinations prior to completion of 30 semester hours of university work. The university will not recognize or award CLEP test credits when current or previous coursework overlaps with the subject of the CLEP test(s). Scaled scores that result in 6 hours credit for each general exam (total possible credits: 30 hours) follow:

- **English Composition** 50
  (with or without essay) A student receiving credit for this exam should not enroll for ENGL 150.

- **Humanities** 50

- **College Mathematics** 50
  Credit for this exam does not transfer as credit for MATH 100 or MATH 101; students receive elective credit in Mathematics.

- **Natural Sciences** 50
  Credit for this exam transfers as elective credit in these areas; credit awarded does not count toward a degree requirement.

- **Social Sciences and History** 50

Each student submitting a CLEP score will be notified of credit awarded. No partial credit is awarded. CLEP subject examinations may be completed at any time prior to attaining a senior classification if a student has not previously completed a college-level course equal to, or more advanced than, the subject of examination. Because not all subject exams offered are appropriate to Drury degree programs, an agreement must be made with the concerned department chair and a prior determination made as to how completion of the exam will apply toward degree requirements. Subject exams approved for credit must have a test score equal to or greater than 50.

A native speaker (defined as a person who has graduated from high school or higher in the target language) may not receive credit through the CLEP exam in their native language.
Winter Term and May Term

The Winter term and the May term are shortened periods of special experiential study that supplement the educational experience of our regular Fall and Spring semesters. These terms are an important part of the university’s academic programs. It should be understood that activities and credits in the Winter and May terms are highly restricted because of the time frame.

Registration for either the May or Winter terms is limited to 3 hours per term, 4 if a lab component is required. Information regarding tuition charges for short terms is available in the Business Office.

The activities of the short terms typically include:

1. Online and Blended Courses
2. International travel that provides students with experiences in a different culture as part of their total educational preparation.
3. Domestic travel courses that broaden the student’s view of the United States.
4. Special courses offered in conjunction with the travel course. An example is language study offered in the country where the language is spoken.
5. Independent studies, practical and/or special internships that give students the opportunity for learning experiences outside the boundaries of the campus classroom.

Travel courses result in widely variable charges that are typically paid by the student well in advance of the experience. Visiting or unclassified students would pay trip charges plus tuition. There will be an additional charge for room and board during the short terms.

Summer Session

The university offers a limited program of courses in the summer. The summer session is designed for those who wish to accelerate their study, for teachers who desire additional training for their profession, and for those who may desire to take advantage of the opportunities for cultural and educational enrichment during the summer months. The maximum credit possible for summer is 13 semester hours.
Online Courses
Drury University offers courses and degrees in an online, web-based format.

Online courses offer high quality instruction for the busy adult student who chooses an alternative to a face-to-face classroom setting. Drury’s online courses are instructor-led with start and end dates structured around the academic calendar and include eight week course offerings. Due dates for assignments, discussions and exams are determined by the instructor. Online courses provide practical application combined with active participation by students in discussion, reading and writing.

To be successful in online classes, students must have internet proficiency, internet accessibility and access to the necessary computer hardware and software to participate in the class. As a minimum, students should also be able to email, upload files as attachments, and be familiar with Microsoft Word.

Online student should have the initiative to learn and study in an interactive, virtual setting with other students and the instructor; willingness to dedicate the same or more time and effort to an online class that would be given to a seated class; and the necessary time management skills that enable them to balance online courses with professional and personal responsibilities.

Please go to www.drury.edu/online for complete information concerning guidelines, requirements, course offerings, registration procedures, textbook ordering, online orientation, and technical considerations for taking online classes.
Pre-Professional Programs
Students wishing to transfer credit from professional schools toward their senior residence requirement at Drury are advised that they should plan their educational program at Drury so that they have completed all of the following minimum requirements before transferring to the professional school:

- The successful completion of 94 semester hours with a minimum grade point average of “C” (2.0) in all work at Drury University.
- 36 semester hours must be in upper division courses.
- The successful completion of core major requirements.
Academic Integrity

As members of an academic community, faculty and students are committed to maintaining high ethical standards. Academic misconduct undermines the educational goals of the university and is a serious offense. Students and faculty are required to act honestly and with integrity in their academic pursuits.

Examples of academic misconduct include, but are not limited to, the following:

- Copying from another student’s exam and/or work of any nature.
- Allowing one student to copy from another’s exam.
- Using unauthorized aids (such as formulas, a computer, calculator or other unauthorized materials and/or devices) for an in-class exam, take-home exam or other work.
- Obtaining and/or using unauthorized material, such as a copy of an exam before it is given.
- Giving or receiving answers by use of signals during an exam.
- Having someone else take your exam.
- Altering answers on a score test and submitting it for a re-grade.
- Destroying, damaging or stealing another student’s work.

Plagiarism is a particular kind of academic misconduct in that one person takes another person’s ideas, words or images and falsely presents them as his or her own. If a student submits any work that is not entirely his or her own, the student is plagiarizing.

Examples of plagiarism include, but are not limited to, the following:

- Directly quoting the words of others, published or not, without properly using quotation marks or indented format to identify them.
- Using sources without proper citations.
- Paraphrasing materials or ideas of others without properly crediting the sources.
- Submitting purchased (or otherwise acquired) papers as your own work.
- Submitting for a grade a paper or project that has already received a grade in another course.

Students who are in any doubt about the proper forms of citation and attribution of authorities and sources are expected to discuss the matter in advance with the faculty members for whom they are preparing assignments. Lack of intent does not excuse academic misconduct.

The authority and responsibility for making decisions regarding academic dishonesty and its penalties lie with the faculty member in the course involved, the department head, the Office of Academic Affairs, the academic affairs committee and the president of the university.

The initial judgment regarding both guilt and penalty will be made by the faculty member in the course. That judgment should be clearly communicated to the student. Faculty members shall notify the department head and the Office of Academic Affairs of instances of academic dishonesty.

A student who thinks he or she has been unfairly judged by a faculty member in questions of academic dishonesty may appeal that judgment by contacting the Office of Academic Affairs.

The faculty member is encouraged to keep in mind the seriousness of academic dishonesty and its relationship to the entire academic community and its intentions. The faculty member will make the initial judgment regarding the appropriate penalty for academic dishonesty within the following guidelines: requiring that the assignments in which the offense occurred be redone; failure on the
assignment in which the offense occurred; lowering of course grade; failure in the course; and other actions as the faculty member deems appropriate to a particular case.

All instances of academic dishonesty shall be reported to the Office of Academic Affairs. Faculty members should have and retain evidence to support their charges of academic dishonesty and be prepared to present that evidence should a review or an appeal occur.

Review
An offense as documented by the faculty member(s) in question and as reported to the provost may be considered grounds for dismissal from the university. The provost may request the academic affairs committee to convene to review the evidence and make a recommendation regarding dismissal. The provost will make the final decision regarding dismissal; that decision may be appealed to the president of the university.

Appeals
Due process and the rights of students will be observed throughout this procedure. Records of academic dishonesty as reported by the faculty will be kept in the Office of Academic Affairs. These records will be destroyed upon the graduation of the student.
Academic Forgiveness Policy
The Academic Forgiveness Policy is designed for the student who experienced poor, often disastrous, academic results while previously attending Drury University and who can now demonstrate are prepared to be academically successful in their college experience. A person is eligible to apply for academic forgiveness when at least five years have elapsed since the concluding date of the candidate’s last semester of enrollment at Drury University.

Principles of the Academic Forgiveness Policy apply to all Drury students:
1. Re-enter Drury University and successfully complete at least a minimum of 6 hours with a minimum GPA of 2.0 in each course.
2. Prior to completion of the second semester of re-entry to Drury, complete an application for admission to Drury University and apply for Academic Forgiveness. As part of this application, write a maximum 250-word essay explaining why, academically, you are now prepared to perform successfully at the college level. Applications should be submitted to the University Registrar.
3. Academic Forgiveness is applied to Drury courses (maximum of 30 semester hours) that have grade values below 1.7. If a student has more than 30 hours below a 1.7 grade point average, he or she may select course(s) for academic forgiveness, not to exceed 30 hours. No letter grades will be removed from the academic record. The courses accepted for academic forgiveness will bear the notation “Academic Forgiveness Granted” and marked on the transcript with “@”. These courses will then no longer be considered in the grade point average computation. Credit hours are not earned for courses for which academic forgiveness has been granted (i.e., hours with passing grades of “D” are forfeited). Any course for which academic forgiveness is given cannot be used to fulfill graduation requirements. Academic forgiveness may be granted only one time and is not revocable.
4. Transcripts will bear a disclaimer. Drury University makes no guarantees as to how certifying agencies and other higher education institutions, including graduate school and their services, interpret the transcript of a student utilizing academic forgiveness options.

**General Information**
The various tuitions and fees are subject to change without prior notice, but Drury University attempts to inform of such changes as soon as possible.

The various tuition and fee items that are nonrefundable are so noted. Generally, most items are nonrefundable and students and parents should review the listing of tuition and fees carefully.

Students and parents should become familiar with the deferred payment policy of Drury University and our withdrawal refund policy.

All questions or requests should be addressed to:

Accounts Receivable Coordinator  
Burnham Hall  
Drury University  
900 N Benton Ave  
Springfield, MO 65802

Or by telephone at (417) 873-7232.
How Drury Tuition is Paid

Educational costs are met by Drury families in three ways:

1. The full cost may be covered by personal or family resources. The total bill is paid in full two weeks before the start of the semester or a percentage of the full amount is paid and that balance is due in accordance with the deferred payment plan.

2. The student may qualify for financial aid that is awarded directly through the university and is credited to the student’s bill by the Business Office. These kinds of financial aid awards are made annually and the amount awarded is divided equally between charges for the fall and spring semesters.

Listed below are examples of institutional scholarships and grants that are directly credited to the student’s bill:

- Continuing Professional Studies Academic Scholarship
- Honors Scholarship
- Dr. Archie Russell Scholarship
- Catherine Clark Taylor Scholarship
- Phi Theta Kappa Scholarship

The student may receive financial aid from the federal or state government which is paid to Drury University and applied to the student’s account. If the application of one or more awards from the federal or state government creates a credit balance on the student’s account, the student may be eligible for a refund.

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant
- Bright Flight
- Federal Direct PLUS Loan
- Access Missouri Financial Assistance Program
- Federal Direct Student Loan

Drury University reserves the right to withdraw part or all of any Drury-funded scholarship if a student’s tuition is paid in full or in part by an outside/government agency.
Explanation of Tuition and Fees

Tuition: The basic charge to cover the general instructional expenses, student services, library and plant operations. Tuition covers but a portion of these costs, which also are supported by generous gifts, grants and endowment income.

Student fee: The University assesses a fee that is budgeted and spent for student activities and services.

Audit fee per hour: A reduced rate of tuition designed for students and members of the community who merely want to take a course without credit and examinations. The audit fee per course enables an undergraduate to sit in on as many class periods as the student desires in any lecture course on the campus. Studio courses, laboratory courses, online courses and methods courses in education are not conducive to auditing and must be taken for credit. Any student may take one course per semester as audit on a space-available basis. The course must be designated as audit before the sixth week of the semester. Prior permission of the instructor is required and student participation will be determined by the instructor. Audit students receive neither a grade nor credit for the course.

Transcript fee: A charge to cover the cost of processing a request for a certified transcript copy and mailing to prospective employers and graduate schools.

Technology Fee: The technology fee is used to enhance the infrastructure and applications used by the university.
Scholarships
The following endowed scholarships and loans may be available to students enrolled in the College of Continuing Professional Studies. Contact your academic advisor for additional information on the listed scholarships.

Phi Theta Kappa Scholarship
Continuing Professional Studies Academic Scholarship
Honors Scholarship
Dr. Archie Russell Scholarship
Catherine Clark Taylor Scholarship

See the Financial Aid Office for other financial opportunities.
Financial Aid: The Basics for CCPS

Overview
Every effort will be made to provide students accepted to Drury University sufficient financial aid to enable them to attend. Students may receive financial aid to help cover tuition, room, board and fees, but the financial aid total will not exceed cost of attendance.

The FAFSA
Students wishing to file for federal and state financial assistance at Drury University must complete the Free Application for Federal Student Aid (FAFSA). The FAFSA serves as the acceptable application for grant programs is required in the determination of loans. The FAFSA can be completed online at www.fafsa.gov.

The FAFSA is a universal financial aid application for all colleges/universities nationwide. The FAFSA will be processed by the Central Processing System (U.S. Department of Education). When filed, the student will receive a Student Aid Report (SAR) that he or she must review for accuracy. The financial aid office cannot make an official financial aid award to a student until the student’s electronic Institutional Student Information Report (ISIR) has been received by the university. Applicants should complete the form electronically by the deadlines set by the US Department of Education. Priority deadlines for Missouri aid are set by the Missouri DHE.

Note: Answer all FAFSA questions accurately and completely to avoid delays in processing aid. Read instructions carefully; this application is the cornerstone of financial aid.

Determination of Need
Each year, a formula for determining need is established by the government. The information the student and family provide on the FAFSA is analyzed according to this formula to arrive at an Expected Family Contribution (EFC). The difference between the student’s EFC and the cost of attendance is the need amount for that student.

If the student does qualify for aid, a financial aid package will be generated for the student. The award package will include a list of need-based aid that can be offered and is available at MyDrury. If needed, an application can be made for an unsubsidized loan that is not need-based. The student should study this list carefully and accept or decline all awards by the established deadlines. Awards that are not accepted by the established deadline will be cancelled.

Eligibility of International Students
Government-based financial assistance in the form of loans and grants are not available for students who are not citizens or permanent resident visa holders of the United States or its possessions.

It is important for prospective students to become informed of the full costs of attending Drury and living in the United States for the duration of their studies. The university and the U.S. government require that students document their ability to cover their financial obligations to the university in addition to their estimated personal and living expenses. The university can only grant admission and issue the Form I-20 (required to apply for an F-1 student visa) to those individuals who submit adequate financial documentation. The university confirms all financial documentation directly through the issuing
financial institution before granting admission. Likewise, the U.S. Embassy can only issue student visas to those individuals who submit acceptable financial documentation.

**Other Aid**

For information on further aid that may be available to you, go to [www.drury.edu/financial-aid](http://www.drury.edu/financial-aid). You will also find FATV videos available that offer great information and explanations regarding Federal Aid.

**Alumni Audit**

Graduates of Drury bachelor’s degree programs may register on an audit basis for one undergraduate course per term without paying the audit fee. This option is offered on a space-available basis and after the registration of degree-seeking students is complete. Audit is available on seated lecture courses only. Online, blended, studio, laboratory, and activity courses are excluded from this program. Drury graduates who wish to exercise this option must have no outstanding financial debts to the university. To register, students should submit an enrollment form and an Alumni Auditor Tuition Grant Application form to the Registrar’s Office. This audit grant covers the cost of tuition for the course; books, student fees, technology fees, and other special fees are excluded.
Satisfactory Academic Progress (SAP) Policy

Federal regulations require Drury University to establish a Satisfactory Academic Progress (SAP) policy to ensure all students receiving financial aid are making reasonable progress towards completing their degree. Students who do not meet the Satisfactory Academic Progress requirements established in this policy will be suspended from receiving financial aid. Title IV aid recipients must meet the requirements of both university policies related to academic standing, as well as Title IV requirements for Satisfactory Academic Progress. This policy applies to all students, regardless of enrollment level, degree program, or academic pursuit.

Satisfactory academic progress is defined as successfully completing a minimum of 67% of attempted courses in a degree program (quantitative assessment), and achieving a required grade point average (GPA) during a reasonable period of time (qualitative assessment). Academic records of financial aid recipients are reviewed at the end of the spring semester each year in which they are enrolled to determine academic progress.

These standards apply only to a student’s eligibility for federal and/or state financial aid. Refer to the academic policies of Drury University for requirements that apply to all students regardless of whether they are receiving financial aid.

Overall Grade Point Average (GPA) Requirement (Qualitative Assessment)

Two Grade Point Average (GPA) measures are used to evaluate qualitative Satisfactory Academic Progress: the student’s academic GPA at the university, and the SAP GPA. SAP GPA differs from the academic GPA in that it does not provide academic forgiveness for withdrawn courses. Both the academic GPA and the SAP GPA are measured at the end of each spring semester.

SAP GPA requirements for Drury undergraduate students are listed below. Graduate students are required to maintain a 3.0 cumulative GPA. Notification of academic probation also serves as a warning that a student is not maintaining the required GPA level and is not meeting SAP requirements.

<table>
<thead>
<tr>
<th>Undergraduate Hours Earned</th>
<th>Minimum SAP GPA Required</th>
<th>Minimum Academic GPA Required</th>

<td>1.8</td>
<td>2.0</td>
</tr>
<tr>
<td>60 or above</td>
<td>2.0</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Pace and Maximum Timeframe Requirements (Quantitative Assessment)

- Calculated by dividing the cumulative number of credit hours the student has successfully completed by the cumulative number of credit hours attempted.
- In order to graduate within the maximum timeframe allowed, students must successfully complete 67% of the cumulative courses they have attempted.
- Only courses in which the student receives academic credit count towards completed hours.
- Students in any academic or degree program are no longer eligible for financial aid once they have attempted more than 150% of the credits required for the major in which they are
currently enrolled. For example, if a bachelor’s degree requires 124 credit hours, the limit for maximum attempted hours eligible for financial aid would be 186. Students who reach the maximum attempted hours eligible for financial aid at any point in the year, regardless of SAP evaluation, are subject to financial aid suspension.

Withdrawals, Repeats and Incomplete Grades

- Courses dropped after the drop/add period will count towards attempted hours.
- Repeat courses for which the student has previously earned credit will not count towards hours completed. However, they will count towards hours attempted even if credit was not previously earned. The highest grade will be the grade that counts towards the GPA calculation.
- Credit hours for courses for which an incomplete or deferred grade is granted will not count as hours completed but will count towards hours attempted.

Transfer hours

Transfer courses accepted by Drury University are included when calculating SAP as hours attempted and credits earned.

Academic Forgiveness

Academic Forgiveness will not be applicable when reviewing academic progress for financial aid eligibility.

Academic Suspension

Students under academic suspension are not eligible to receive financial aid and are not eligible to appeal until they have been reinstated to the University. Reinstatement to the University does not guarantee financial aid eligibility or appeal approval.

Automatic Suspension of Aid Eligibility

Failure to meet either qualitative or quantitative requirements of satisfactory academic progress will result in automatic suspension of aid eligibility for Title IV, HEA programs, unless the student has successfully appealed to be placed on financial aid probation.

Appeal Process

- Satisfactory Academic Progress is monitored annually, following the end of the Spring semester. Students will be notified if they are not meeting SAP requirements, and their eligibility for financial aid will be suspended.
- Students who are not meeting SAP requirements may have the opportunity to appeal if the failure to meet SAP requirements is due to an extenuating circumstance.
- Students who successfully appeal are placed on financial aid probation and are eligible to receive financial aid for the next semester in which they are enrolled, but may be placed on an academic plan.
At the end of the next semester in which a student on financial aid probation is enrolled, his or her transcript will be reviewed. If the student is meeting the terms of the academic plan, or if the student has once again regained SAP requirements, the student will continue to be eligible for federal financial aid.

Failure to follow the academic plan and to regain SAP requirements during a semester during which a student is on financial aid probation will result in the loss of financial aid eligibility for future semesters.

If an extenuating circumstance occurs while a student is on financial aid probation that prohibits a student from successfully meeting the terms of the established academic plan, the student may appeal once again, and if successful, be placed on a new academic plan.

Extenuating circumstances include (but are not limited to) the death of a family member, illness or injury, or other circumstances beyond the student’s control. Appropriate supporting documentation of the circumstance must be provided when requested. Students may not use the same extenuating circumstance for multiple appeals without sufficient documentation of ongoing issues.

Appeals must include a statement from the student explaining why they did not meet the SAP requirements, and what has changed to allow them to meet the requirements in the next semester. If requested, students must also submit an academic plan completed by the student and the advisor.

Students who are suspended from financial aid due to having reached the maximum timeframe will be evaluated on a case by case basis through the appeal process. Successful appeals will be monitored in the same manner as other SAP appeals.

Incomplete appeals will not be reviewed.

Students will receive written notification of the opportunity to appeal, the appeal decision, and subsequent financial aid eligibility.

Students who fail to meet SAP requirements may be denied financial aid.

**Reestablishing Eligibility**

Students may reestablish eligibility by enrolling in one or more semesters and successfully completing the course(s) without the assistance of financial aid. When a student’s qualitative and quantitative measures meet established requirements, the student will be eligible for financial aid for the next semester in which he or she is enrolled.
Financial Aid: Assistance Available to CCPS Students

Grants

**Federal Pell Grant**
The Federal Pell Grant Program provides need-based grants to low-income undergraduate students to promote access to postsecondary education. Grant amounts are dependent on: the student’s expected family contribution (EFC); the cost of attendance (as determined by the institution); the student’s enrollment status (full-time or part-time); and whether the student attends for a full academic year or less. Students may not receive Federal Pell Grant funds from more than one school at a time.

Financial need is determined by the U.S. Department of Education using a standard formula, established by Congress, to evaluate the financial information reported on the Free Application for Federal Student Aid (FAFSA) and to determine the family EFC.

**Access Missouri Financial Assistance Program**
Administered by the State of Missouri, students must meet all requirements for this award as established by the Missouri Department of Higher Education. Students should contact the Missouri Department of Higher Education to determine eligibility for this award, as final eligibility rulings are determined by the State. Additional information can be accessed at [http://dhe.mo.gov/ppc/grants/accessmo.php](http://dhe.mo.gov/ppc/grants/accessmo.php).

Loans

Loans may be available to students and/or their parents to assist in paying for college expenses. A student must repay the loan after graduation or withdrawal or upon the schedule determined by the lender. Before agreeing to a loan, a student should carefully review all terms and conditions of the loan, which includes interest rates, repayment terms, and the amount of monthly payments.

**Federal Direct Student Loan**
Subsidized and unsubsidized loans are federal student loans for eligible students to help cover the cost of higher education at a four-year college or university, community college, or trade, career, or technical school. The U.S. Department of Education offers eligible students at participating schools Direct Subsidized Loans and Direct Unsubsidized Loans.

Subsidized direct loans are available based on financial need that is determined by a cost of attendance and the EFC on the FAFSA. A loan is “subsidized” when the government pays the interest during the following periods:
- While enrolled in school at least half-time;
- During the six-month grace period after attending school less than half-time;
- During periods of authorized deferment.

Unsubsidized direct loans are not based on financial need and may be available to students who file a FAFSA, regardless of income. Since this loan is not subsidized by the government, the student is responsible for all interest that accrues during in-school, grace and deferment periods. The student may choose to make interest payments while in school or may defer (and accumulate) the interest until repayment.
Direct subsidized and unsubsidized loans may be prorated under certain conditions. Prorated loan limits are used when a borrower’s remaining period of enrollment, until completion of his or her academic program, is less than an academic year in length.

This loan program represents an agreement between the university student and the U.S. Department of Education. Loan monies will not be released to the student until all qualifiers are fully met. The loan will be wire-transferred from the Department of Education to the student’s account as early as the fourth week of school. After receipt of funds, if a credit exists Drury will send a refund to Bank Mobile approximately 10 days later. Any change in enrollment before the add/drop period may result in a recalculation of loan eligibility. Only classes that are required by the student to complete their program of study will be considered in the loan calculation.

**Federal Direct Parent Plus Loan Program**
The Parent Plus loan is a credit based loan borrowed by the parent of an undergraduate, dependent student. It is a credit-based loan. The parent is responsible for repayment, which begins 60 days after funds are fully disbursed OR a deferment can be requested by the parent by contacting the Department of Education. Maximum amount eligibility is based on the cost of attendance minus other financial aid. Drury University policy states that any refund that is a result of the Parent Plus Loan will be disbursed directly to the student. These loans carry an interest rate that is subject to change once a year as established by the federal government. They also have an origination fee. The application can be accessed at studentloans.gov.

**Alternative Loans**
Alternative (private) loans may be available to all students to meet educational expenses not covered by other financial aid. These loans are credit-based, and students should exhaust Federal Student Loan eligibility before applying for additional private loans. They cannot be consolidated with Federal Student Loans and the interest rates are based on credit and lender policy.
Official Drop/Withdrawal/Refund Policy

All refunds are calculated from the date the application for withdrawal is filed with the registrar. No other notice will suffice. Nonattendance of classes does not constitute official withdrawal. Applicable refunds for students receiving federal and/or state financial aid will be calculated in reference to the student’s date of notification of withdrawal, last date of academic attendance or the midpoint of the period.

Please refer to the Academic Calendar http://www.drury.edu/academic-affairs/academic-calendar for specific add/drop deadlines and other important semester dates.

The responsibility for initiating and completing the withdrawal process with appropriate university offices rests with the student. The first day of classes constitutes the beginning of the semester for tuition refund purposes. For courses that are scheduled out of sequence of the regular fall, winter, spring and summer semesters, the day published as the first day of the semester or term constitutes the beginning of the course for tuition refund purposes.

During the Fall and Spring semesters, Full Semester and A Block students are free to make any changes to their course schedule in the first two weeks of the term. At the end of this two-week period, students are charged the full amount for the courses (or course load) in which they are enrolled. This remains the case if a student withdraws from a course with a “W.”

During the Fall and Spring semesters, B Block students are free to make any changes to their course schedule in the first week of the term. At the end of this one week period, students are charged the full amount for the courses (or course load) in which they are enrolled. This remains the case if a student withdraws from a course with a "W."

During Summer Semester, Full Semester, A Block, and B Block, students are free to make any changes to their schedule in the first week of each term. At the end of this period, students are charged the full amount for the courses (or course load) in which they are enrolled. This remains the case if a student withdraws from a course with a "W."

During all other terms, no refunds are available after the course has commenced.

If a student has an unpaid account with the university, any tuition refund due from withdrawal will be applied to such unpaid accounts.

Each year the university publishes a calendar guide for institutional refunds and complies with the Return of Title IV Funds policy for federal programs. Students should become familiar with the guide each semester or term, and must remember that credit courses that are less than a regular term in duration follow the refund schedule for the full semester or term in which they are taught, regardless of the start date of instruction. The refund policy for noncredit conferences, institutes, seminars and community services courses is a 100 percent refund if the official withdrawal occurs prior to the first day of instruction.
Return of Title IV Funds Policy

Drury University encourages all students to carefully consider the financial and academic ramifications of withdrawing from any coursework. Federal financial aid regulations require the Financial Aid Office to perform a Return to Title IV recalculation for federal financial aid eligibility for students who withdraw, drop out, are dismissed, fail to begin enrollment in, or take a leave of absence (and do not return) prior to completing 60 percent of a semester. Students who have completed 60% of the semester have earned their full federal aid eligibility for that term, but a Return to Title IV calculation will still be processed to determine the student’s eligibility for a post-withdrawal disbursement.

If a student wishes to withdraw from a course or courses, the student should contact the Registrar’s Office or the branch campus coordinator. Failure to begin attendance in a course does not constitute a formal withdrawal from a course, and students may still incur charges for that course if it is not formally dropped. If the Financial Aid Office becomes aware that a student does not begin attendance in a course in which he or she is enrolled, financial aid eligibility will be recalculated according to actual enrollment. The student will not be formally withdrawn from the course unless he or she follows the appropriate steps to do so.

If a student officially withdraws from Drury University, the student’s withdrawal date will be determined by the later of: a. the date the student initiated the withdrawal, or b. the date the student provided official notification to the institution of the intention to withdraw. The institution’s determination of the date that the student has withdrawn is the date that the student officially withdraws.

If a student unofficially withdraws (ceases attending), the student’s withdrawal date will be determined by the date of the student’s last attendance at an academically related activity. Faculty members report students who cease attending classes, as well as the last date of attendance at an academically related activity, for the purpose of unofficial withdrawals. Students who attend a sufficient number of academically related activities to earn a grade of F in a course will not be considered unofficial withdraws. If a student is administratively withdrawn, or withdraws due to circumstances beyond the student’s control, the date of the action or circumstance will be used. The institution’s determination of the date that the student has withdrawn is the date that the school becomes aware the student has ceased attendance.

A student who previously indicated an intent to withdraw may rescind that intention in writing. However, students who unofficially withdraw during a semester will be subject to a Return to Title IV calculation. Any unearned funds that were disbursed must be returned within 30 days, and the student may owe a balance to Drury. If a student is determined to be eligible for additional aid at the time of unofficial withdrawal, Drury University will process a post-withdrawal disbursement, in accordance with United States Department of Education regulations.

Recalculation of federal aid is based on the percent of earned aid using the following formula:

Percent earned = Number of days completed up to withdrawal date divided by total days in the semester

Federal financial aid is returned to the federal government based on the percent of unearned aid using the following formula:

Aid to be returned = (100% minus percent earned) times the amount of aid disbursed

Aid will be returned in the following order: Unsubsidized Loans, Subsidized Loans, Perkins Loan, Direct PLUS Loans, Pell Grant, FSEOG, TEACH Grant, Iraq Afghanistan Service Grant; or as required by the
United States Department of Education. Funds will be returned as soon as possible but no later than 45 days after the date of the institution’s determination that the student withdrew.

When aid is returned, the student may owe an outstanding balance to the university. The student should contact the Business Office to make arrangements to pay the balance.

*Federal financial aid includes, but is not limited to, the Federal Pell Grant, Iraq Afghanistan Service Grant, SEOG Grant, Perkins Loan, Direct Student Loan and Direct Parent PLUS Loan.
Benefits
Benefits are funds extended to certain groups of people under special conditions.

VA Benefits
Students may be eligible to receive educational assistance under a number of programs offered by the Veterans Administration. Programs include the GI Bill, Selected Reserve, Survivors and Dependents Benefits and Vocational Rehabilitation. A VA representative is available on the Drury campus to help determine eligibility and establish benefits.

Private Company Benefits
A student’s employer may have a program of educational benefits for employees or employees’ dependents.

Scholarships from Outside Sources
Many agencies, civic groups, churches and some employers offer various forms of financial aid directly to students. It is the student’s responsibility to use this assistance to meet the expected payment dates.

Some employers provide a generous program of reimbursement for educational expenses directly to the student. The student is responsible for paying for coursework according to established payment dates regardless of employer reimbursement schedules.

Drury University reserves the right to withdraw part or all of any Drury-funded scholarship if a student’s tuition is paid in full or in part by an outside source or government agency.
Receiving and Keeping Financial Aid
Rule 1: Apply early. Students should begin by filing the FAFSA and reviewing all published scholarship and financial aid deadlines.

Rule 2: Keep financial aid documentation up to date. Not only must an application be made in time for an award to be made, but the award must be claimed by the student. The award notice provided to the student must be accepted or declined according to established deadlines. Deadlines for claiming aid are stringently observed.

Priority for Financial Aid
Financial aid is awarded on a rolling basis with the date of receipt of financial aid applications determining the order of award until available funds are exhausted, after which students will be considered for financial aid as funds become available according to their academic and personal promise.

Time of Notification of Financial Aid Awards
The Financial Aid Office will not send an official letter of award to new students until such time as the student is admitted to Drury University in good academic standing.

Award of Endowed Scholarships
Unrestricted and endowed scholarships will be awarded as early as possible in developing student aid packages so that donors may be notified of the student receiving the award. Acceptance of any endowed scholarship constitutes the student’s agreement to write a letter of acknowledgement to the donor.
Note to Students Receiving VA Educational Benefits

Information You Should Know about VA Benefits
Punitive (Failing) grade: A grade assigned for pursuit of a course that indicates unacceptable coursework and no credit granted toward graduation for that pursuit. Although this type of grade results in no credit, it is distinguished from a non-punitive grade by the fact that it is considered in determining overall progress toward graduation, in that a penalty is exacted on a school graduation requirement, such as grade point average.

Drop-add period: If an eligible veteran or person withdraws from a course after the drop-add period, receives a non-punitive grade for that course and mitigating circumstances are not found, benefits for that course will be terminated effective the first date of enrollment.

The VA representative must be notified if an eligible veteran or person has any changes in enrollment status during a certified period of enrollment.
Deferred Payment Policy
It is the intention of Drury University to provide the means for students to pay tuition and fees over time. Drury University has partnered with Nelnet Business Solutions to make the payment plan process easier for students and their families. When you sign up for the payment plan determines how many months you have to pay off your account balance. Please contact the Business Office for details on payment methods and dates.

A new Payment Plan agreement must be completed for each semester a student is registered. If you change your registration you are not required to create a second payment plan. Your payment plan will adjust based on your registration.

Availability of the Payment Plan is determined by Drury University. The University may elect to not have the Payment Plan available during specific times and dates during registration. Plan Available dates are subject to change.

Any balance not covered by an approved payment plan will be assessed interest at one percent per month on the unpaid balance, or 12 percent per annum. Any collection cost or legal fees incurred in collecting an account will be the responsibility of the student.
**Student Billings**
Student statements are available online through MyDrury. If a paper statement is needed, please contact businessoffice@drury.edu or at 417-873-7342.

**Explanation of Student Billing**
It is extremely important that parents and students understand the need to meet financial obligations associated with being a student at Drury University. When these obligations are not met in the manner expected, the university must borrow for its operations. The interest expense for that borrowing is ultimately reflected in increased tuition and fees. Quality education is costly to provide and Drury families must recognize the need for complete compliance with request for payment, financial aid application deadlines, etc. The business services and financial aid programs of Drury University are designed to assist students and parents in managing the expense of a quality university education.
Payment Policy
All tuition and fees are due and payable two weeks before the first day of classes. Semester statements covering tuition and fees are available online through MyDrury. If you need a paper statement mailed, please email businessoffice@drury.edu.

Student account balances that become past due may result in notification from the Director of Business Services for official withdrawal from classes.

Students with a prior semester balance will not be permitted to register for subsequent semesters. All delinquent accounts will be assessed interest at one percent per month on the unpaid balance, or 12 percent per annum. Any collection costs (up to 60% charged) or legal fees incurred in collecting an account will be the responsibility of the student.

Students who have failed to comply with payment policies in any semester may be denied the opportunity to register for future semesters and may be denied the opportunity to participate in the University deferred payment plan.

Students should become familiar with the Drury University deferred payment plan and our withdrawal refund policy. All questions or requests should be addressed to:

Accounts Receivable Coordinator
Burnham Hall
Drury University
900 N Benton Ave
Springfield, MO 65802

Or email businessoffice@drury.edu.
Consequences of Non-Compliance with Payment Policies

We believe that when the importance of timely tuition/fees payment is understood and when parents and students understand Drury’s willingness to arrange an individually appropriate payment plan, it will not be necessary to penalize students for nonpayment. If charges are not met, however, the university has no choice but to pursue the steps necessary for resolution. It is only fair to advise students of consequences of the following actions:

**Failure to return financial aid award acceptance by announced deadlines.**
- Money will be given to another student immediately.

**Failure to make initial payment for semester tuition.**
- Course spaces may be given to another student.
- Campus services may not be available.

**Failure to meet appropriate payment dates.**
- The total bill becomes due and payable immediately.
- An administrative fee of $40 will be charged for processing a late payment.
- Interest at the rate of 12 percent annual effective rate will accrue on the outstanding balance due from the date of the missed payment until the account is paid in full.
- Any collection costs (up to 60% charged) or legal fees incurred in collecting an account will be the responsibility of the student/parent.
- The privilege of deferred payments in subsequent semesters may not be permitted.

**Outstanding balance from a previous semester.**

Until the balance is paid, the student will not be allowed to:
- Register for any subsequent semester.
- Obtain a transcript of academic work.
- Apply for campus housing.
- Participate in graduation ceremonies and obtain a diploma.

Students who have had outstanding balances from a previous semester are required to prepay for course registration.
Concurrent Credit Tuition Policy

Tuition for graduate-level courses taken while pursuing a bachelor’s degree will be charged according to the following:

Day School: Students enrolled in 12-17 hours while taking graduate level coursework will be charged at the Day School tuition rate. In the event of an overload (more than 17 hours), graduate courses will be charged at the applicable graduate tuition rate. Reference the Tuition and Fees chart for tuition rates.

CCPS: Courses taken at the graduate level are charged the applicable graduate tuition rate. Reference the Tuition and Fees chart for tuition rates.

Once formally admitted to the graduate program upon completion of the bachelor’s degree, students will pay the graduate tuition rate for their coursework.
Student Affairs

Administrative Offices
The office hours for the College Continuing Professional Studies in Springfield are 8:00 a.m. – 5:00 p.m., Monday through Friday. Most student services, or information about them, are available in the Registrar/Admissions Office in Bay Hall, (417) 873-7207. In addition, the Office of the Dean of the College of Continuing Professional Studies and the Director of CCPS Student Services are located in Burnham Hall.

Meal Plans for 2018-2019
The university meal plans are listed below. These meal (block) plans give the student the ultimate in flexibility and control.

- 45 Blocks with $130 Panther Bucks*
- 90 Blocks with $200 Panther Bucks
- 120 Blocks with $270 Panther Bucks
- 150 Blocks with $340 Panther Bucks
- 180 Blocks with $340 Panther Bucks

*Note: This meal plan is not an option for students in residence halls. (There are approximately 16 weeks per semester.)

Block Plans
The block plans are based on meals per semester instead of meals per week. Your meal plan blocks can be used at the Commons whenever it is open or at the CX between 6:30 p.m. – 8 p.m. You can swipe your card for family and friends, too. Your unused Meal Plan Blocks do not roll over from the fall semester to the spring semester.

Panther Bucks
Panther Bucks are monies that can be used for purchases in the CX and the Commons. Your unused Panther Bucks roll over from the fall semester to the spring semester only. Panther Bucks may also be used to pay the walk-up price of meals at the Commons.

Students may also pay with cash/credit at the CX and the Commons.

Campus Exchange
The CX (Campus eXchange) is located in Springfield Hall and is a perfect place for students to meet to work on projects, study, or just to relax. The CX offers menu items ranging from grill items that are cooked to order, to the “Grab n’ Go” menu items which include pre-packaged entrée salads and sandwiches. Students can also enjoy a variety of Starbucks freshly brewed beverages.

FSC Commons
The Commons Dining Hall features a robust menu of home-style foods, daily grill items, vegetarian entrées, as well as an extensive salad & salad bar and a dessert station. The Commons also features seasonal special events and provides “to go” containers. Arrangements can be made for individual consultations concerning any dietary need, such as vegan, weight control, food allergies or medically prescribed diets.

Commuter Meal Plan Refund Policy
Refunds generally are not granted after the advertised bi-annual meal plan change deadline. Appeals to the no-refund policy should be directed to the vice president for student affairs. Students who dis-enroll from Drury after the deadline are required to pay for the semester’s meal plan in full.
Bookstore
The university bookstore offers students a broad range of supplies and services. In addition to new and used textbooks, the store stocks classroom supplies, art and architecture supplies, sportswear, convenience store items, insignia giftware, greeting cards and study aids.

The Bookstore is located in the lower level of the Findlay Student Center.

Identification Cards
Photo ID cards are available from the security office in Findlay Student Center. A valid photo ID will allow access in parking lots with control arm entrances. Students will be charged for replacement cards.

Lost and Found
Lost and found articles may be turned-in or reclaimed at the Safety and Security Office, room 101 in the Findlay Student Center on the Springfield campus. For classrooms and facilities associated with campus sites other than the main campus in Springfield, lost and found items will be held at the front desk of the appropriate Drury satellite campus office.

Career Planning/Development
Career Planning and Development provides career development services to students beginning in the freshman year and continuing through graduation and beyond. The center offers individual career advising utilizing personality, interest, skills and values assessments. Additional resources include access to an online job posting system, on-campus interviewing, job fairs, resume assistance, mock interviews, workshops, internships and job search strategies.

Information about graduate and professional education also is available. Students can make an appointment or visit the Career Planning and Development webpage at www.drury.edu/career. The center is located in Bay Hall Room.148. You may contact the center by calling (417) 873-7284 or by emailing career@drury.edu.
Disability Services
Drury University is committed to complying fully with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act by providing a hospitable environment to academically qualified students with disabilities. Services for students with disabilities are coordinated by the Director of Disability Support.

To begin the process of planning for success, students are encouraged to present appropriate and current (within 3 years) documentation before their first semester of classes.

Accommodations will be determined by the Director of Disability Support based on the documentation, and they will be communicated to faculty members each semester with the consent of the student.

Documentation must be evaluated by a Vocational Rehabilitation evaluator, psychologist, psychiatrist, or medical doctor, and students who have I.E.P. documentation may need additional documentation in order to receive the appropriate accommodations.

The director of disability services may be contacted by visiting Findlay Student Center, room 114 or by calling (417) 873-7457.

Ed Derr, LPC, NCC
Director of Counseling and Disability Services

ederr@drury.edu
International Support Services
International Support Services (ISS) provides services for international students including immigration advising, assistance with applying for work permission and Social Security cards, health insurance, counseling and assistance on cultural adjustment issues.

International Support Services is located in room 113 of the Findlay Student Center.
Olin Library
The Olin Library is a repository for the information essential to the pursuit of knowledge by the Drury community. It provides timely access to the information resources that support the academic and administrative needs of the university. The library seeks to create an infrastructure for effective information delivery and to teach skills that enhance academic success and lifelong learning. Through its collections, information access services, and an environment conducive to learning, the library enriches the life of the Drury community and advances the university’s educational mission.

Off-Campus Library Services (OCLS)
This service works to provide seamless access for off-campus faculty and students to the resources and services of the Olin Library.

The goal of the Olin Library is to provide Drury satellite branch students and faculty with the same level of library access and service provided to on-campus students and faculty. It is recommended that all students and faculty use the Olin Library website at http://library.drury.edu as the gateway to library information resources and services.

Library services available:
- Prompt delivery of books, articles and videos owned by the Olin Library
- Online interlibrary loan for materials owned by other libraries
- Research assistance at the library’s reference desk
- Research consultations scheduled with individual members of the library faculty
- Research assistance via email or phone
- Online research guides called DUGuides that cover a range of disciplines and subjects
- Library instruction sessions customized to specific courses and assignments
- Access from on or off campus to an array of research-oriented electronic indexes and full text databases
- Drury students may use their Drury ID card to use all resources in other academic libraries in the Springfield area
- Drury students may use their ID card in any MOBIUS library to check out books

Interlibrary Loan
The purpose of Interlibrary Loan is to borrow books and obtain articles from journals not held in Olin Library for Drury University students, faculty, staff and alumni. There is no cost for Interlibrary Loan.

Methods for requesting these items:
- Interlibrary loan form on the library’s website under “Services”
- Email requests at illdesk@drury.edu that include comprehensive information about the item being requested
- Request forms built into a large number of electronic databases

Library Catalogs
Drury – Search for 180,000 unique titles held by the Olin Library, and thousands of electronic book titles
SWAN – Search for 1.4 million unique titles in the joint catalog of ten libraries in Southwest Missouri: Drury University, Missouri State University, Southwest Baptist University, Ozarks Technical Community College, Baptist Bible College, the Assemblies of God Theological Seminary, Missouri Southern
University, Crowder College and Cottey College. These books may be requested online for delivery by courier.

**MOBIUS** – Search for nearly 7 million unique titles in the joint catalog of 64 academic libraries in Missouri. These books may be requested online for delivery by courier.

**Springfield-Greene County Library** – Search the catalog of the public library as well as the catalogs of the Ozarks Genealogical Society and the Landers Theater. All Drury students are eligible for public library cards. SGCL books may also be found through MOBIUS and requested for delivery by courier.

**Evangel University** – Drury students may use their Drury ID card to check books out from Evangel and to use their electronic resources.

**Online Resources**
Through the library website at library.drury.edu, the F. W. Olin Library provides access to more than 70 databases that index thousands of scholarly journals, magazines, and newspapers, with many articles delivered in full-text. Library databases also offer images, music files, business profiles, reference materials, ebooks, and more.

**Writing Center**
A writing center staffed by a qualified faculty member and student tutors provides assistance to individual students of all levels. More information at drury.edu/writing-center.

**Computer Labs**
On the Springfield campus, continuing studies students have access to computer labs located in Springfield Hall, open 24 hours a day, and Olin Library. An active Drury email account and password are required to access the computers. Computer labs are also available at Ava, Cabool, Ft. Leonard Wood, Lebanon, Monett, Rolla, and St. Robert campuses.
Student Organizations

Alpha Sigma Lambda, Alpha Xi Chapter
Alpha Sigma Lambda is a national honor society that recognizes and encourages scholastic ability and leadership among continuing studies students. Students interested in applying for membership may apply on the student tab in MyDrury.

To be eligible for admission to the honor society, a degree-seeking student must have completed at least four semesters and have completed 30 hours at Drury. A cumulative grade point average of 3.3 is required prior to the 90th hour and a 3.0 Drury cumulative grade point average beyond the 90th hour.
Parking Regulations
Parking is available on the Springfield campus. All students, faculty and staff who choose to park on campus must register their vehicles with the security office. Permits are issued at the security office in the Findlay Student Center, room 101, between 8 a.m. and 5 p.m., Monday through Friday (except holidays).

Parking regulations are necessary for the safety and convenience of the campus community.

1. All vehicles parked on campus, excluding visitors, must be registered and permits must be displayed on the windshield.
2. Residential students MUST register their vehicles by August 31 each year.
3. No parking in handicap zones without a handicap permit.
4. No parking in crosswalks, fire lanes, loading zones, on grass, sidewalks or in posted areas.
5. Residential students may park in designated residential Lots A, B, C and D and Lots 7 and 8 (University Suites).
6. Non-residential permit holders may park in Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 12.
7. Visitors to campus should park in Lot 7, on Drury Lane or on Burnham Circle and check in with the Security Office (Findlay Student Center) to get a visitor permit. Time limits do not apply to visitors with a valid visitor permit.
8. Between 8 p.m. and 8 a.m. and on the weekends and holidays, all parking is open with a permit excluding residential lots and control arm lots. Residential lots are open to vehicles with permits for those areas between August 15 and May 31.
9. Residential parking lots are open to any permit parking from June 1 to August 14 each year.
10. Burnham Circle and Drury Lane are limited to 30-minute parking Monday through Friday, 8 a.m. to 5 p.m. (Parking is open 5 p.m. to 8 a.m. and on weekends and holidays with a valid permit.)
11. Areas closed by security and designated as such by cones or other types of barriers are to be considered no parking zones. Motorists are to follow the directions of security officers when they are present and controlling traffic.
12. Parking is permitted between marked lines only.
13. Parking on city streets—Mid-Town Parking Permit. Students, faculty, staff and visitors may park on city streets immediately adjacent to Drury property where it is not posted for No Parking and there is not a sign saying “Residential Permit Required.” These streets include parts of Calhoun, Benton, Summit, Webster, Lynn, Robberson and Jefferson. Only students living in Mid-Town houses owned or leased by Drury are able to obtain the Mid-Town parking permit if they wish to park on city streets signed “Residential Permit Required.” A Mid-Town residential permit may be obtained by calling 864-1617. They are free. A maximum of three permits are issued per house. No other students are eligible to obtain the Mid-Town parking permit.

University Guests
Violations of Drury University regulations by university guests can result in removal from campus. Repeated violations can result in trespassing charges filed against the guest.
Policies and Procedures

Student Records
In accordance with Public Law 83-380, Family Educational Rights and Privacy Act of 1974 (FERPA) the personally identifiable educational records of each student are open for inspection by the student except in limited cases where the privacy, confidentiality or professional privilege of another person is involved. Presently and previously enrolled students should check with the appropriate office to determine the procedures for inspection of their own records. Records are filed in the offices of the registrar, director of academic planning, financial aid, career planning and development, student health service and dean of students. Notwithstanding the above list, certain records are not available for inspection. These include: financial records of parents, confidential letters of recommendation, personal records of educational personnel (e.g., instructor’s grade book), security records and medical or other professional records.

The student has the right to a copy of the record(s) so inspected, with the cost of the reproduction assessed to the student. The student may challenge an inaccurate record and request a hearing concerning any alleged inaccuracy. Any challenge must establish by a preponderance of evidence that the record is inaccurate. If desired, the student may submit a written explanation of a record’s content, which then becomes a part of the record.

In the absence of an official request, information contained in the student’s records remains confidential between the student and Drury University and will not be released to third parties without the consent of the student with the following exceptions: information for the university directory, information needed by Drury officials, information requested by federal or state educational authorities, information released pursuant to state law of subpoena, information requested by accrediting agencies, academic information requested by parents of dependent students, information needed in connection with the receipt of financial aid and information requested by officials of other schools to which the student is seeking admission.

If a student has reason to believe that his or her records are in any way inaccurate, misleading or otherwise in violation of the student’s right to privacy, a hearing may be requested through the Office of Academic Affairs. A review panel will afford the student a full opportunity to present evidence in support of the challenge and will render a decision within a reasonable time after the hearing.

The university assumes student consent in listing as public information academic honors such as listing the student’s name on the dean’s list or graduation. The student who does not wish his or her name to be included in recognition of such honors should notify the registrar in writing.

Change of Name, Address, and Marital Status
In order that the university may keep accurate records, students who change their name, marital status, or local or home address should notify the registrar’s office or the dean of students office.

Withdrawal
Students who are considering withdrawing from Drury during the semester (after registration has been completed and before the last week of classes) should initiate the withdrawal process at the registrar’s office in Bay Hall. Nonattendance of classes does not constitute official withdrawal.

Medical Withdrawal
Students who are considering a medical withdrawal should contact the dean of students office.
Medical Leave/Medical Withdrawal

Students who experience health problems may request a medical leave or medical withdrawal from the university. A medical leave may be requested for an upcoming semester, or up to and until the last day to enroll for the semester. After this date, registered students can request a medical withdrawal from classes up to and until the date that final grades are due.

Such requests must be accompanied by medical documentation from an appropriate medical professional (i.e., M.D., D.O., Psy.D, LPC), indicating that the leave or withdrawal is recommended. Students should note that the preparation of this statement will require their formal consent to release of relevant information from appropriate medical professionals to the university, and for the university to release relevant information, as needed, to those medical professionals.

If a medical withdrawal is approved, the student will be withdrawn from all classes by the registrar and will receive a “W” on their transcript for each class, so that they receive no credit or grade for these courses, leaving their GPA unaffected. Students may not withdraw from selected classes, but only from their entire schedule of coursework.

Students that choose to pursue a medical leave or withdrawal from the university must start the process with the Vice President for Student Affairs and Dean of Students (Room 201, Findlay Student Center). Official withdrawal from the university can also have specific financial and academic implications. It is recommended that students also meet with their academic advisor and the Director of Financial Aid.

Federal and State financial aid regulations do not allow students to be on any type of official leave from the institution, including medical leave, for more than two consecutive semesters or 180 days, without applying for re-admission to the university. Therefore, students who are on leave for more than two semesters will be withdrawn from the university, and must reapply through the Office of Admissions. Readmitted students have their financial aid re-evaluated at the time of admission, and follow the Academic Catalog of the year of their readmission, which may change the range of academic programs they may pursue. A student who wishes to return to campus following a medical leave must furnish the appropriate documentation from a medical professional, stating that the student has received the appropriate medical attention and is, in the professional’s opinion, ready to resume studies at the university.

Under certain circumstances, the university may require a student to withdraw from the university for medical reasons, or take a medical leave of absence. Such action is warranted if, in the judgment of a team of professional Drury staff members, the student poses a threat to the lives of others or exhibits behavior that seriously interferes with his or her ability to function and/or with the educational environment and pursuits of others.

Students who would like to pursue a medical withdrawal or medical leave should start the process with the Dean of Students. Official withdrawal from the university can also have specific academic and financial implications. Drury University recommends that students who wish to pursue a withdrawal or leave of absence should consult with their academic advisor and the Financial Aid Office to better understand his or her individual situation.
Non-Discrimination/Harassment Policy and Complaint Procedures
Approved by Board of Trustees 5-16-14, Updated 10-1-15, Updated 9-1-16

I. General Statement
Drury University is committed to providing an academic and employment environment in which students and employees are treated with courtesy, respect, and dignity. Accordingly, the University prohibits discrimination on the basis of gender, race, color, veteran status, national origin, disability, age, religion, sexual orientation or any other legally protected characteristic (collectively, “protected classes”) in matters of admissions, housing, services, any aspect of the employment relationship, and in the other educational programs and activities that the University operates (collectively, “programs and activities”).

Harassment is any unwelcome verbal, non-verbal, or physical conduct that denigrates or shows hostility or aversion to a person on the basis of a protected class. Harassment that is based on a protected class constitutes a form of prohibited discrimination when it denies or limits a person’s ability to participate in or benefit from the University’s programs and activities.

Examples of behaviors that could be deemed harassment as defined above include, but are not limited to, the following:

- Written or verbal abuse or threats
- Crude comments, jokes, or innuendo
- Taunts or intimidation
- Shouting, bullying or ridiculing
- Undermining of performance
- Offensive phone calls, texts or photos
- Touching, hitting or other physical contact

II. Applicability
These complaint procedures are applicable to complaints alleging discrimination and/or harassment on the basis of a protected class, except those complaints falling under the Title IX: Sexual Misconduct Policy, and include complaints made by University employees and students against faculty, staff, students, supervisors, co-workers, or non-employees (such as vendors). All individuals involved in processing complaints under these procedures will be trained in complaint investigation and are knowledgeable about the University’s obligation to comply with Federal laws prohibiting discrimination in the University’s programs.

III. Filing a Complaint
The University has designated the following administrators to coordinate inquiries regarding its efforts to carry out this policy, to comply with federal and state laws prohibiting discrimination, and to receive complaints of discrimination and harassment.

Coordinator - Non-Discrimination / Harassment
Director of Human Resources
Drury University
900 North Benton Avenue
Burnham Hall – Room 107
Springfield, MO  65802
Any employee or student who believes he or she has been subjected to discrimination or harassment on the basis of a protected class may initiate a complaint by filing a written complaint with the Coordinator - Non-Discrimination/Harassment detailing: (1) the date(s) and time(s) of the alleged conduct; (2) the names of all persons involved in the alleged conduct, including possible witnesses; (3) pertinent facts of the incident; and contact information for the complainant so that the University may follow up appropriately. If the complaint is to be filed against the Coordinator then the complaint should be filed with one of the Deputy Coordinators specified above.

Administrators, supervisors and faculty members who receive a report or complaint of discrimination or harassment, or witness what they perceive to be discrimination or harassment, are mandated to immediately report such information to the Coordinator - Non-Discrimination/Harassment. Staff members and students who witness what they perceive to be discrimination or harassment, or receive other information regarding an incident of discrimination or harassment, are encouraged to report such information to the Coordinator - Non-Discrimination/Harassment.

Complaints of discrimination and/or harassment on the basis of disability, age, sex, race, color, or national origin may also be filed with the U.S. Department of Education, Office for Civil Rights, One Petticoat Lane, 1010 Walnut, Suite 320, Kansas City, Missouri 64106, (816) 268-0550.

IV. **Good Faith Complaints**
Good faith complaints of discrimination and harassment will be investigated under these procedures. However, knowingly making a false complaint or report is prohibited, and those who do so will be subject to disciplinary action.

V. **Non-Retaliation**

Employees and students can make good faith reports and complaints about discrimination and harassment without fear of reprisal. Retaliation by any person against a person filing a complaint, making a report, or participating in an investigation is absolutely prohibited and will result in disciplinary action.

VI. **Confidentiality**

The University endeavors to maintain confidentiality with respect to the complaint and investigation to the degree that it can be maintained while conducting a thorough investigation, but the University may be hindered in its ability to investigate a complaint if the person bringing the complaint requests complete confidentiality.

To enable confidentiality, those processing the complaint and all parties to the investigation must maintain the confidentiality of information obtained during a complaint, including the name of the person who filed the complaint and other information received during the processing of the complaint.

VII. **Investigation**

Drury University will thoroughly and promptly investigate all complaints of discrimination and harassment. The investigation will be governed by the forthcoming procedures.

A. **Commencement of the Investigation**

After receiving the complaint, the Coordinator - Non-Discrimination/Harassment will give a copy of the complaint to the appropriate Deputy Coordinator (as appropriate depending on whether the respondent is a student, staff member or faculty member) (“Investigating Officer”) who will review the complaint and commence an investigation as soon as practicable but not later than seven (7) days after the complaint is made. During the course of the investigation, the Investigating Officer may consult with appropriate University personnel and outside counsel.

B. **The Content of the Investigation**

During the investigation, the complainant will have the opportunity to describe his or her allegations and present supporting witnesses or other evidence. The respondent will have the opportunity to respond to the allegations and present supporting witnesses or other evidence. The Investigating Officer will review the statements and evidence presented and may, depending on the circumstances, interview others with relevant knowledge, review documentary materials, and take any other appropriate action to gather and consider information relevant to the complaint. All parties and witnesses involved in the investigation are expected to cooperate and provide complete and truthful information.

During these conversations with the complainant and respondent, informal resolution methods may be considered and discussed but the complainant is not required to accept any informal resolution. If an informal resolution is reached, it will be documented and signed by both parties and the matter will be deemed resolved.

If the complaint is not resolved informally and the Investigating Officer determines there are genuinely disputed material facts requiring resolution, an evidentiary hearing will be held before a panel of three hearing officers selected by the Investigating Officer. The hearing officers will be chosen from a
pool of faculty members and staff designated by the President. When a faculty member is the respondent, the three hearing officers will all be faculty members as well. When a staff member is the respondent, at least two of the hearing officers must be staff members. When a student is the respondent, at least one of the hearing officers must be a faculty member. The panel shall select one of its members to preside over the hearing. The Investigating Officer will identify for the panel those genuinely disputed facts requiring resolution. The panel will review the statements and other evidence gathered by the Investigating Officer during the investigation. Both the complainant and respondent will be given an equal opportunity to address the panel. The panel may ask questions of the complainant and respondent, but the complainant and respondent will not be permitted to question each other. In its discretion, the panel may hear live testimony from witnesses, in which case any questioning will be conducted by the hearing panel itself.

The hearing panel shall resolve genuinely disputed material facts under a preponderance of the evidence standard. The hearing panel will not be bound by strict rules of legal evidence, and may admit any evidence which is of probative value in determining the issues involved. Every effort will be made to obtain the most reliable evidence available. The hearing panel will provide a written statement of its findings of fact to the Investigating Officer. If such an evidentiary hearing is held, both the complainant and respondent will have similar and timely access to any information that will be used at the hearing.

C. **Non-Attorney Support Person For Cases Involving Students**

During the investigation process, both a student complainant and a student respondent may ask a non-attorney support person from the University community to accompany him or her to meetings with the Investigating Officer and to any evidentiary hearing. The support person must be an administrator, faculty member, staff member, or fellow student. In cases involving multiple student complainants or student respondents, the non-attorney support person cannot be another complainant or respondent. The non-attorney support person does not serve as an advocate on behalf of the complainant or respondent, and he or she must agree to maintain the confidentiality of the process.

D. **Interim Measures**

At any time during the investigation, in consultation with the Coordinator - Non-Discrimination/Harassment, the Investigating Officer may determine that interim remedies or protections for the parties involved or witnesses are appropriate. These interim remedies may include, but are not limited to, separating the parties, placing limitations on contact between the parties, suspending an employee with pay, or making alternative class-placement or workplace arrangements. Failure to comply with the terms of these interim remedies or protections may constitute a separate violation of the Non-Discrimination/Harassment Policy.

E. **Findings Of The Investigation**

At the conclusion of the investigation, the Investigating Officer will prepare a written report. The written report will explain the scope of the investigation and whether any allegations in the complaint were found to be substantiated by a preponderance of the evidence. The written report will incorporate any findings of fact resulting from an evidentiary hearing.

The preliminary report will be submitted to the Coordinator - Non-Discrimination/Harassment. The Coordinator - Non-Discrimination/Harassment may accept the preliminary report, request to review additional information, including summaries of party/witness statements or other information, or return the preliminary report for further investigation. After the review of the written report is complete, the Coordinator - Non-Discrimination/Harassment will, for both the complainant and respondent, prepare and deliver a written determination of the complaint. The determination will be one of three outcomes:
1. **Finding “No Violation”**
   
   If there is a determination that the behavior investigated did not violate the Non-Discrimination/Harassment Policy, both parties will be so informed.

2. **Finding “Inappropriate Behavior Not Rising To The Level Of A Violation”**
   
   There may be a determination that the behavior investigated did not violate the Non-Discrimination/Harassment Policy, but was inappropriate, unprofessional, or violated some other University policy. The Coordinator - Non-Discrimination/Harassment may determine that such inappropriate behavior merits discipline, ongoing monitoring, coaching, or other appropriate action. If so, the Coordinator - Non-Discrimination/Harassment may refer the matter to any appropriate administrator, dean or other manager for further proceedings or disciplinary measures consistent with University policy.

3. **Finding “Violation”**
   
   If there is a determination that the behavior violated the Non-Discrimination/Harassment Policy, the Coordinator - Non-Discrimination/Harassment, in consultation with any appropriate administrator, dean, or other manager, will determine appropriate corrective and disciplinary action to be taken. In addition, the Coordinator - Non-Discrimination/Harassment will implement reasonable and appropriate measures to ensure that the complainant is not subject to further harassment and to remedy the effects of any discrimination or harassment that may have occurred. Remedial steps may include, but are not limited to, counseling or training, separation of the parties, and/or discipline of the respondent, including written reprimand, suspension, demotion, termination, or expulsion in accordance with University policy. Remedial steps that do not directly affect the respondent shall be redacted from the respondent’s copy of the written summary of findings.

4. **Special Procedure Concerning Complaints Against The President, The Coordinator-Non-Discrimination/Harassment, and Administrators Senior To Coordinator - Non-Discrimination/Harassment**
   
   If a complaint involves alleged conduct on the part of the University President, the Executive Committee of the Board of Trustees will designate an appropriate person to conduct the investigation required by these procedures. The written report of the investigation will be presented to the Executive Committee of the Board of Trustees, which will prepare and issue the written determination and implement any appropriate and reasonable measures. The determination issued by the Executive Committee of the Board of Trustees is final, unless the President or the complainant provides a written letter of appeal to the full Board of Trustees within ten (10) days of his/her receipt of the Executive Committee’s written determination and in accordance with Sections VIII.A. and VIII.B., below. The full Board of Trustees will issue a resolution on the matter within twenty-one (21) days and the resolution will be final and not subject to further appeal. The full Board of Trustees shall issue a short and plain, written statement of the resolution of the appeal. The written statement shall be provided to the complainant, the President, and the Coordinator – Non-Discrimination/Harassment within three (3) days of the resolution.

   If a complaint involves alleged conduct on the part of the Coordinator - Non-Discrimination/Harassment or any administrator senior to the Coordinator - Non-Discrimination/Harassment, the President will designate an appropriate person to conduct the investigation required by these procedures. The written report of the investigation shall be presented to the President, who will appoint three (3) individuals, chosen from the pool of Deputy Coordinators and

91
Investigators, to make a determination and prepare and issue the written determination and implement appropriate and reasonable measures. The resolution issued is final, unless the complainant or respondent provides a written letter of appeal to the Executive Committee of the Board of Trustees within five (3) days of his/her receipt of the written determination and in accordance with Sections VIII.A. and VIII.B. below. The Executive Committee of the Board of Trustees will issue a resolution on the matter within twenty-one (21) days and the resolution will be final and not subject to further appeal. The Executive Committee of the Board of Trustees shall issue a short and plain, written statement of the resolution of the appeal. The written statement shall be provided to the complainant, respondent, and the Coordinator - Non-Discrimination/Harassment within three (3) days of the resolution. If the Coordinator - Non-Discrimination/Harassment is the respondent, a copy of the resolution should also be given to one of the Deputy Coordinators to ensure it is properly filed.

G. **Timing Of The Investigation**

The University will endeavor to conclude its investigation and resolution of the complaint within sixty (60) days of receiving it. Both the complainant and the respondent will be given periodic updates regarding the status of the investigation. If either the complainant or respondent needs additional time to prepare or to gather their witnesses or information, they shall notify the Investigating Officer in writing explaining how much additional time is needed and why it is needed.

I. **Rights Of The Parties**

During the investigation and resolution of a complaint, the complainant and respondent shall have equal rights. They include:

- Equal opportunity to identify and have considered witnesses and other relevant evidence
- Similar and timely access to all information considered by the Investigating Officer and the Coordinator - Non-Discrimination/Harassment in resolving the complaint
- Equal opportunity to review any statements or evidence provided by the other party
- Equal access to review and comment upon any information independently developed by the Investigating Officer
- Equal opportunity to address any hearing panel

VIII. **Appeals**

A. **Grounds For Appeal**

The complainant or respondent may appeal the determination of a complaint only on the following grounds:

- The decision was contrary to the substantial weight of the evidence
- There is a substantial likelihood that newly discovered information, not available at the time evidence was presented to the Coordinator - Non-Discrimination/Harassment, would result in a different decision
- These published complaint procedures were not followed and this failure was a substantial factor in the determination against the appealing party
- Bias or prejudice on the part of the Investigating Officer or Coordinator - Non-Discrimination/Harassment, or
- The punishment or the corrective action imposed is disproportionate to the offense

B. **Method Of Appeal**
Appeals must be filed with the President within five (5) days of receipt of the written determination of the complaint. The appeal must be in writing and contain the following:

- Name of the complainant
- Name of the respondent
- A statement of the determination of the complaint, including corrective action if any
- A detailed statement of the basis for the appeal including the specific facts, circumstances, and argument in support of it, and
- Requested action, if any.

C. **Resolution Of The Appeal**

The President will appoint an appeal panel, comprised of three (3) individuals selected from the pool of Deputy Coordinators and Investigators, who have no conflict of interest, and have had no involvement in the investigation or adjudication of the relevant complaint. The Appeal Panel will resolve the appeal within ten (10) days of receiving it and may take any and all actions that they determine to be in the interest of a fair and just decision. The decision of the Appeal Panel is final. The Coordinator – Non-Discrimination/Harassment shall issue a short and plain, written statement of the resolution of the appeal. The written statement shall be provided to the complainant and respondent within three (3) days of the resolution of the Appeal Panel.

IX. **Documentation**

Throughout all stages of the investigation, resolution, and appeal, the Investigating Officer, the Coordinator - Non-Discrimination/Harassment, and the Appeal Panel, as the case may be, are responsible for maintaining documentation of the investigation and appeal, including documentation of all proceedings conducted under these complaint resolution procedures, which may include written findings of fact, transcripts, and audio recordings. When an audio recording is used during an interview, a written summary of the interview is prepared by the Investigators and signed by the interviewee; at such time, the audio recording is destroyed.

X. **Intersection With Other Procedures**

These complaint resolution procedures are the exclusive means of resolving complaints alleging violations of the Non-Discrimination/Harassment Policy, except those complaints falling under the Title IX: Sexual Misconduct Policy. To the extent there are any inconsistencies between these complaint resolution procedures and other University grievance, complaint, or discipline procedures, these complaint resolution procedures will control the resolution of complaints alleging violations of the Non-Discrimination/Anti-Harassment Policy.
Title IX-Sexual Misconduct Policy
Effective 8-1-13, Rev 2-25-14, Rev 6-1-15, Rev. 9-1-16

I. POLICY STATEMENT
Drury University (the “University”) strives to be a safe, education-oriented and community minded campus that maintains an academic and social environment conducive to intellectual and personal development of students, promotes the safety and welfare of all members of the campus community, and is free of discrimination on the basis of sex. Sex discrimination constitutes a violation of this policy, is unacceptable, and will not be tolerated. Sex discrimination includes discrimination on the basis of pregnancy, gender identity, and failure to conform to stereotypical notions of femininity and masculinity.

Sexual harassment, whether verbal, physical, visual, or digital, is a form of prohibited sex discrimination, and sexual violence is a particularly severe form of sexual harassment. The specific definitions of sexual harassment and sexual violence, including examples of such conduct, are set forth below.

The University’s Sexual Misconduct Policy defines the various forms of sexual misconduct that violate the standards of our community, identifies resources, and outlines the University’s student conduct process, including the outcomes imposed for violations of this policy.

II. Scope
This policy applies to all University employees, including staff, faculty, and administrators; students; applicants for employment; customers; third-party contractors; and all other persons that participate in the University’s educational programs and activities, including third-party visitors on campus (the “University Community”). This policy prohibits sex discrimination, sexual harassment, and sexual violence even when the complainant and alleged perpetrator are members of the same sex, and it applies regardless of national origin, immigration status, or citizenship status. The University’s prohibition on sex discrimination and sexual harassment extends to all aspects of its educational programs and activities, including, but not limited to, admissions, employment, academics, housing, athletics, and student services.

The University has jurisdiction over Title IX-related complaints regarding conduct that occurred on campus, during or at an official University program or activity (regardless of location), or off campus when the conduct could create a hostile environment on campus. The University will investigate all complaints made under this policy and, if necessary, take action to prevent the recurrence of sex discrimination and remedy its effects.

III. Title IX Statement
It is the policy of the University to comply with Title IX of the Education Amendments of 1972 and its educational programs and activities, which prohibit discrimination based on sex in the University’s educational programs and activities. Title IX and its implementing regulations also prohibit retaliation for asserting claims of sex discrimination.

The following Title IX officers have been appointed from members of the senior staff to ensure that Drury University is in compliance with Title IX, and can be contacted regarding any Title IX issues.
It is the responsibility of the Title IX Coordinator to: (1) receive complaints under this policy; (2) coordinate dissemination of information and education and training programs; (3) assist members of the University Community in understanding that sexual misconduct is prohibited by this policy; (4) answer questions about this policy; (5) ensure that employees and students are aware of the procedures for reporting and addressing complaints of sexual misconduct; and (6) to implement the Complaint Resolution Procedures or to designate appropriate persons for implementing the ComplaintResolution Procedures. The Deputy Coordinators will assist the Title IX Coordinator in carrying out these responsibilities.

A person may also file a complaint of sex discrimination with the United States Department of Education’s Office for Civil Rights regarding an alleged violation of Title IX by visiting www2.ed.gov/about/offices/list/ocr/complaintintro.html or by calling 1-800-421-3481.

IV. Policy Definitions

Sexual Misconduct is an umbrella term covering sex discrimination, sexual harassment, and sexual violence and this term will be used throughout the remainder of this policy and the Complaint Resolution Procedures when collectively referring to these types of conduct.

Sexual Harassment

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, physical, or visual conduct of a sexual nature when:

- Submission to such conduct is made or threatened to be made, either explicitly or implicitly, a term or condition of an individual’s employment or education
- Submission to or rejection of such conduct by an individual is used or threatened to be used as the basis for academic or employment decisions affecting that individual, or
- Such conduct has the purpose or effect of substantially interfering with an individual’s academic or professional performance or creating what a reasonable person would perceive as an intimidating, hostile, or offensive employment, education, or living environment

Examples of sexual harassment include:

- Pressure for a dating, romantic, or intimate relationship
- Unwelcome touching, kissing, hugging, or massaging
- Pressure for sexual activity
- Unnecessary references to parts of the body
• Sexual innuendos or sexual humor
• Obscene gestures
• Sexual graffiti, pictures, or posters
• Sexually explicit profanity
• Asking about, or telling about, sexual fantasies
• Social media use that violates this policy
• Sending sexually explicit emails or text messages
• Sexual violence (as defined below)

Sexual Violence
Sexual violence is a form of prohibited sexual harassment. Sexual violence includes physical sexual acts perpetrated against a person’s will or where a person is incapable of giving consent because of his or her temporary or permanent mental or physical incapacity, because he or she is below the minimum age of consent in the applicable jurisdiction, or because of his or her incapacitation due to the use of drugs and/or alcohol.

Some types of sexual violence are described as:

• **Rape or Sexual Assault:**
  Having or attempting to have non-consensual sexual intercourse with another person. Sexual intercourse includes an act of oral, vaginal, or anal penetration, however slight, with an object or body part by any individual upon another person.

• **Sexual Coercion:**
  The use of, or attempt to use, pressure and/or oppressive behavior, such that the application of such pressure or behavior causes the person who is the object of the pressure or behavior to engage in unwelcomed sexual activity. Coercion can take the form of pressure, threats, intimidation, or the use of physical force, either expressed or implied, which places a person in fear of immediate harm or physical injury. Coercion can also take the form of pressure to consume alcohol or other drugs prior to engaging in a sexual act.

• **Sexual Exploitation:**
  An act or acts attempted or committed by a person for sexual gratification, financial gain, or advancement through the abuse or exploitation of another person’s sexuality. Examples include observing individuals without consent, non-consensual audio or videotaping of sexual activity, unauthorized presentation of recordings of a sexual nature, prostituting another person, allowing others to observe a personal consensual sexual act without the knowledge or consent of all involved parties, and knowingly exposing an individual to a sexually transmittable infection or virus without his or her knowledge.

Consent
Lack of consent is a critical factor in determining whether sexual violence has occurred. Consent requires an affirmative act or statement by each participant. Consent is not passive.

• Consent to engage in sexual activity must exist from the beginning to end of each instance of sexual activity. Consent consists of an outward demonstration indicating that someone has freely chosen to engage in sexual activity. In the absence of an outward demonstration, consent does not exist. Consent is informed, knowing, and voluntary. Consent is
demonstrated through mutually understandable words and/or actions that clearly indicate a willingness to engage in sexual activity. Consent is not effective if it results from the use of physical force, intimidation, coercion, or incapacitation. If a sexual act is occurring and physical force, intimidation, coercion, or incapacitation develops, there is no longer consent.

- Consent to one form of sexual activity does not imply consent to other forms of sexual activity.
- Being in a romantic relationship with someone does not imply consent to any form of sexual activity.
- Consent to engage in sexual activity may be withdrawn by either party at any time. Withdrawal of consent must also be outwardly demonstrated by words or actions that clearly indicate a desire to end sexual activity. Once withdrawal of consent has been expressed, sexual activity must cease.
- **Incapacitation** is the inability, temporarily or permanently, to give consent, due to mental or physical incapability, unconsciousness, or vulnerability due to drug or alcohol consumption (voluntarily or involuntarily), or for some other reason. Examples of incapacitation may include, but are not limited to, vomiting, being unconscious, or being unable to communicate for any reason.

**Domestic Violence, Dating Violence, and Stalking**
The crimes of domestic violence, dating violence and stalking can also constitute sexual misconduct when motivated by a person’s sex. These crimes, no matter the motivation behind them, are a violation of this policy.

- **Domestic Violence:**
  Domestic violence includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of a victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse or the victim under the domestic or family violence laws of the jurisdiction [...], or by any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the jurisdiction.
  - Missouri’s definition of domestic violence can be found at Mo. Rev. Stat. § 455.010.
  - Under Missouri law, domestic violence also includes the crime of “domestic assault” which can be found at Mo. Rev. Stat. §§ 565.072-565.074.

- **Dating Violence:**
  Dating violence is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of the relationship, and the frequency of interaction between the persons involved in the relationship.
  - Missouri law does not specifically define dating violence, but conduct of this nature is covered by Missouri’s definitions of domestic violence and domestic assault.

- **Stalking:**
  A course of repeated non-consensual conduct directed toward another specific person that could be reasonably regarded as likely to alarm, harass, or cause reasonable fear of harm or injury to that person. Stalking may include, but is not limited to, unwelcomed and repeated
visual or physical proximity to a person, repeatedly conveying oral or written threats, extorting money or valuables, threatening physical conduct, or any combination of these behaviors directed at or toward a person.

- Missouri’s definition of stalking can be found at Mo. Rev. Stat. § 455.010 and § 565.225.

- **Cyber-stalking** is a type of stalking in which electronic media, such as internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact are used to pursue, harass, or to make unwelcomed contact with another person in an unsolicited fashion. Examples of cyber-stalking include, but are not limited to, unwelcomed or unsolicited emails, instant messages, and messages posted on on-line bulletin boards. It also includes, but is not limited to, unsolicited communications about a person, their family, friends, or co-workers, or sending or posting unwelcomed and unsolicited messages with another username.

V. Reporting Incidents of Sexual Misconduct

**Employees’ Duty to Report**

All University employees have a duty to report sexual misconduct to the Title IX Coordinator or a Deputy Coordinator when they receive a report of such conduct, witness such conduct, or otherwise obtain information about such conduct. This includes employees who may have a professional license requiring confidentiality if they are not employed by the University in that professional role. Reports should be made by employees as soon as is reasonably possible after such information is obtained. An employee not reporting sexual misconduct, or not reporting in a timely manner, as required by this policy may be disciplined accordingly, up to and including termination.

**Students and Other Persons**

Students and any other persons who wish to report sexual misconduct should file a complaint with the Title IX Coordinator or a Deputy Coordinator. Students should be aware that all employees at the University have an obligation to report sexual misconduct that they become aware of or witness, except those identified later in this section.

An anonymous report can also be made at: [http://falkor.drury.edu/forms/inforeport/inforeport.cfm](http://falkor.drury.edu/forms/inforeport/inforeport.cfm). However, employees cannot fulfill their reporting obligation by using this anonymous mechanism.

**Confidential Discussions**

If a student or employee victim desires to talk confidentially about his or her situation, there are resources available. The following resource is available to assist you and will not further disclose any identifying information about you, unless otherwise required to do so by law (e.g., if the victim is a minor):

- The University’s Student Counseling Center is available to students. University mental health counselors are bound to professional standards regarding confidentiality, and will not reveal the identity of victims, unless there is an imminent safety concern or as otherwise required by law. Contact information for the Student Counseling Center is as follows: Findlay Student Center, Room 114, (417) 873-7357.

- The University’s Chaplain is available to talk with students and employees. Contact information is as follows: Burnham Hall, Room 211, (417) 873-7231.
Content of the Complaint
So that the University has sufficient information to investigate a complaint, the complaint should include: (1) the date(s) and time(s) of the alleged conduct; (2) the names of all person(s) involved in the alleged conduct, including possible witnesses; (3) all details outlining what happened; and (4) contact information for the complainant so that the University may follow up appropriately.

Timing of Complaints
The University encourages persons to make complaints of sexual misconduct as soon as possible because late reporting may limit the University’s ability to investigate and respond to the conduct complained of.

Information Provided to Complainant and Respondent
A complainant who makes a claim of sexual misconduct to the University will be given a copy of the document titled “Complainant Rights and Options for Recipients of Sexual Misconduct.” This document provides information about this policy and the Complaint Resolution Procedures used to investigate and resolve complaints of sexual misconduct, options for filing complaints with the local police, resources that are available on campus and in the community, etc. A person against whom a complaint has been filed will also be given information about the process.

Conduct that Constitutes a Crime
Any person who wishes to make a complaint of sexual misconduct that also constitutes a crime—including sexual violence, domestic violence, dating violence, or stalking—is encouraged to make a complaint to local law enforcement. If requested, the University will assist the complainant in notifying the appropriate law enforcement authorities. In the event of an emergency, please contact 911. A victim may decline to notify such authorities.

Special Guidance Concerning Complaints of Sexual Violence, Domestic Violence, Dating Violence, or Stalking
If you are the victim of sexual violence, domestic violence, dating violence, or stalking, do not blame yourself. These crimes are never the victim’s fault. When physical violence of a sexual nature has been perpetrated against you, the University recommends that you immediately go to the emergency room of a local hospital and contact local law enforcement, in addition to making a prompt complaint under this policy.

If you are the victim of sexual violence, domestic violence, or dating violence, do everything possible to preserve evidence by making certain that the crime scene is not disturbed. Preservation of evidence may be necessary for proof of the crime or in obtaining a protection order. As necessary to preserve evidence, victims of sexual violence, domestic violence, or dating violence should not bathe, urinate, douche, brush teeth, or drink liquids until after they are examined and, if necessary, a rape examination is completed. Clothes should not be changed. When necessary, seek immediate medical attention at an area hospital and take a full change of clothing, including shoes, for use after a medical examination. It is also important to take steps to preserve evidence in cases of stalking, to the extent such evidence exists. In cases of stalking, evidence is more likely to be in the form of letters, emails, text messages, etc., rather than evidence of physical contact and violence.

Once a complaint of sexual violence, domestic violence, dating violence, or stalking is made, the complainant has several options such as, but not limited to:
- Contacting parents or a relative
- Seeking legal advice
- Seeking personal counseling (always recommended)
- Pursuing legal action against the perpetrator
- Pursuing disciplinary action through the University
- Requesting that no further action be taken
- Requesting further information about the University’s policy and procedures for addressing sexual misconduct
- Requesting further information about available resources

**Vendors, Contractors, and Third-Parties**
This policy applies to the conduct of vendors, contractors, and third parties. Members of the University Community who believe they have been subject to sexual misconduct in violation of this policy by a vendor, contractor, or other third party can make a complaint in the manner set forth in this section.

**Retaliation**
It is a violation of this policy to retaliate against any member of the University Community who reports or assists in making a complaint of sexual misconduct or who participates in the investigation of a complaint in any way. Persons who believe they have been retaliated against in violation of this policy should make a complaint in the manner set forth in this section.

**Protecting the Complainant**
Pending final outcome of an investigation in accordance with the Complaint Resolution Procedures, the University will take steps to protect the complainant from further discrimination or harassment. This may include assisting and allowing the complainant to change his or her academic, living, transportation, or work situation, to the extent that the University has control over these environments, if options to do so are reasonably available and upon request of the complainant. Such changes may be available regardless of whether the victim chooses to report the crime to the University’s Department of Safety & Security or local law enforcement. Requests to change an academic, living, transportation, or work situation, or for any other protective measure, should be made to the Title IX Coordinator.

If a complainant has obtained an ex parte order of protection, full order of protection, or any other temporary restraining order or no contact order against the alleged perpetrator from a criminal, civil, or tribal court, the complainant should provide such information to the Title IX Coordinator. The University will take all reasonable and legal action to implement the order.

**Amnesty**
The University recognizes that an individual who has been drinking alcohol or using drugs may be hesitant to report sexual misconduct. To encourage reporting, the University will not take disciplinary action for drug or alcohol use against an individual reporting sexual misconduct, either as the complainant or as a witness, provided that these conduct violations did not and do not place the health or safety of any other person at risk. The University may, however, require the reporting individual to attend a course or pursue other educational interventions related to alcohol and drugs.

The University’s commitment to amnesty in these situations does not prevent action by police or other legal authorities against an individual who has illegally consumed alcohol or drugs.
Bad Faith Complaints
While the University encourages all good faith complaints of sexual misconduct, the University has the responsibility to balance the rights of all parties. Therefore, if the University's investigation reveals that a complaint was knowingly false, the complaint will be dismissed and the person who filed the knowingly false complaint may be subject to discipline.

VI. Investigation and Privacy
All complaints of sexual misconduct will be promptly and thoroughly investigated in accordance with the Complaint Resolution Procedures, and the University will take disciplinary action where appropriate. The University will make reasonable and appropriate efforts to preserve an individual's privacy and protect the confidentiality of information when investigating and resolving a complaint, and all reports of sexual misconduct will be handled in confidence to the extent allowed by law. However, because of laws related to reporting and other state and federal laws, the University cannot guarantee confidentiality to those who make complaints.

In the event a complainant requests confidentiality or asks that a complaint not be investigated, the University will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or request not to pursue an investigation. If a complainant insists that his or her name not be disclosed to the alleged perpetrator, the University’s ability to respond may be limited. The University reserves the right to initiate an investigation despite a complainant’s request for confidentiality in limited circumstances involving serious or repeated conduct or where the alleged perpetrator may pose a continuing threat to the University Community.

Further, if a report of sexual misconduct discloses an immediate threat to the University campus community, where timely notice must be given to protect the health or safety of the community, the University may not be able to maintain the same level of confidentiality. Immediately threatening circumstances include, but are not limited to, reported incidents of sexual misconduct that included the use of force, a weapon, or other circumstances that represent a serious and ongoing threat to students, faculty, staff, or visitors.

The appropriate Deputy Coordinator, in collaboration with the Title IX Coordinator and Director of Safety and Security, is responsible for evaluating requests for confidentiality.

VII. Resolution
If a complaint of sexual misconduct is found to be substantiated, the University will take appropriate corrective and remedial action to prevent the recurrence of the conduct and correct its discriminatory effects. Students and employees found to be in violation of this policy will be subject to discipline up to and including written reprimand, probation, suspension, demotion, termination, or expulsion. Affiliates and program participants may be removed from University programs and/or prevented from returning to campus. Remedial steps may also include counseling for the complainant, academic, transportation, work, or living accommodations for the complainant, separation of the parties, and training for the respondent and other persons.

VIII. Faculty and staff standards

Academic Freedom
While the University is committed to the principles of free inquiry and free expression, sexual misconduct is neither legally protected expression nor the proper exercise of academic freedom.

**Relationships with Students**
Members of the faculty or staff at the University shall not engage in amorous or sexual relations with, or make amorous or sexual overtures to any student over whom he or she holds a position of authority with regard to academic or administrative judgments and decisions.

**Employee Relationships**
The university prohibits supervisors and managers from dating or otherwise entering into a personal relationship with any subordinate or any employee reporting to that supervisor or manager. Such relationship can become disruptive to the work environment, create a conflict or the appearance of a conflict of interest, and lead to charges of favoritism, discrimination, and claims of indirect sexual harassment.

**IX. Resources and Support**
Drury University offers non-judgmental support and resources to any party involved in a sexual misconduct incident. Please contact the Title IX Coordinator or a Deputy Coordinator for more information about available resources and accessing those resources.

**X. Education**
Because the University recognizes that the prevention of sexual misconduct, as well as domestic violence, dating violence, and stalking, is important, it offers educational programming to a variety of groups such as: campus personnel; incoming students and new employees participating in orientation; and members of student organizations. Among other elements, such training will cover relevant definitions, procedures, and sanctions; will provide safe and positive options for bystander intervention; and will provide risk reduction information, including recognizing warning signs of abusive behavior and how to avoid potential attacks. To learn more about education resources, please contact the Title IX Coordinator.

**Sexual Misconduct Complaint Resolution Procedures**

**I. General Principles**

**Applicability**
These Complaint Resolution Procedures apply to the resolution of all reports under the Sexual Misconduct Policy. They apply to the resolution of complaints against students, faculty, administrators, staff, and third parties, and they are the exclusive means of resolving complaints of sexual misconduct.

**Administration**
For purposes of these Complaint Resolution Procedures, “Deputy Coordinator” means the appropriate Deputy Coordinator depending on the status of the respondent. “Investigators” refers to one or more individuals from a trained pool of employees who have been assigned to investigate a particular complaint. “Title IX Team” refers to the individuals serving as the Coordinator, Deputy Coordinators, or Investigators.

**Promptness, Fairness and Impartiality**
These procedures provide for prompt, fair, and impartial investigations and resolutions. The Title IX Coordinator, Deputy Coordinators, and Investigators shall discharge their obligations under these Complaint Resolution Procedures fairly and impartially. If any individual involved in the administration of these procedures determines that he or she cannot apply these procedures fairly and impartially
because of the identity of a complainant, respondent, or witness, or due to any other conflict of interest, another appropriate individual shall be designated to administer these procedures.

**Training**
These procedures will be implemented by officials who receive annual training on the issues related to sexual misconduct, domestic violence, dating violence, and stalking and how to conduct an investigation that protects the safety of victims and promotes accountability.

**II. Preliminary Matters Related to the Investigation and Resolution of a Complaint**

**Timing of the Investigation**
The University will endeavor to conclude its investigation and resolution of the complaint within sixty (60) calendar days of receiving it. Both the complainant and the respondent will be given periodic updates regarding the status of the investigation. If either the complainant or respondent needs additional time to prepare or to gather their witnesses or information, they shall notify the Investigators in writing explaining how much additional time is needed and why it is needed. The Investigators shall respond to any such request within three (3) days.

**Informal Resolution**
Informal means of resolution, such as mediation, may be used in lieu of the formal investigation and determination procedure. The following standards apply to any informal resolution method that is utilized:

- Can only be used with the complainant’s voluntary cooperation and the involvement of the Title IX Coordinator
- The complainant will not be required to work out the problem directly with the respondent
- Either party may terminate the informal process at any time and elevate the complaint to the formal investigation procedures described below
- Informal means, even on a voluntary basis, will not be used to resolve complaints alleging any form of sexual violence

**Interim Measures**
At any time during the investigation, the Deputy Coordinator, in consultation with the Title IX Coordinator, may determine that interim remedies or protections for the parties involved or witnesses are appropriate. These interim remedies may include separating the parties, placing limitations on contact between the parties, suspension, or making alternative class-placement or workplace arrangements. Failure to comply with the terms of these interim remedies or protections may constitute a separate violation of the Sexual Misconduct Policy.

**Support Person/Advisor**
During the investigation process, both a complainant and a respondent may ask a support person/advisor to accompany him or her at all stages of the process. In cases involving multiple complainants or respondents, the support person/advisor cannot be another complainant or respondent. The support person/advisor does not serve as an advocate on behalf of the complainant or respondent, may not be actively involved in any proceedings, and must agree to maintain the confidentiality of the process. A support person/advisor may be removed if he or she becomes disruptive or does not abide by the limitations discussed in the previous sentence.

**Pending Criminal Investigation**
Some instances of sexual misconduct may also constitute criminal conduct. In such instances, the complainant is also encouraged to file a report with the appropriate law enforcement authorities and, if requested, the University will assist the complainant in doing so. The pendency of a criminal investigation, however, does not relieve the University of its responsibilities under Title IX. Therefore, to the extent doing so does not interfere with any criminal investigation, the University will proceed with its own investigation and resolution of the complaint.

**Rights of the Parties**

During the investigation and resolution of a complaint, the complainant and respondent shall have equal rights. They include:

- Equal opportunity to identify and have considered witnesses and other relevant evidence
- Similar and timely access to all information considered by the Investigators
- Equal opportunity to review any statements or evidence provided by the other party
- Equal access to review and comment upon any information independently developed by the Investigators
- Equal opportunity to appeal determinations pursuant to Section IV, below

**III. Process for Investigating Reports of Sexual Misconduct**

**Commencement of the Investigation**

Once a complaint is made, the Title IX Coordinator will commence the investigatory process as soon as practicable, but not later than seven (7) days after the complaint is made. The parties will be notified of any delays to the commencement of the process. The Title IX Coordinator will meet with the Deputy Coordinator, and they will analyze the complaint to ensure it involves conduct covered by this policy, notify the respondent that a complaint has been filed, and assign Investigators. If it is determined that the complaint does not involve conduct covered by this policy, the matter will be referred to another University official and addressed via the appropriate process.

The purpose of the investigation is to determine whether it is more likely than not that the alleged behavior occurred and, if so, whether it constitutes sexual misconduct. During the course of the investigation, the Title IX Coordinator, Deputy Coordinator, and Investigators may receive counsel from University administrators, the University’s attorneys, or other parties as needed.

In certain narrow circumstances, an investigation may be commenced even if the complainant requests that the matter not be pursued. In such a circumstance, the Title IX Coordinator, Deputy Coordinator, and Investigators will take all reasonable steps to investigate and respond to the matter in a manner that is informed by the complainant’s articulated concerns.

**Content of the Investigation**

During the investigation, the complainant will have the opportunity to describe his or her allegations and present supporting witnesses or other evidence. The respondent will have the opportunity to respond to the allegations and present supporting witnesses or other evidence. The Investigators will review the statements and evidence presented and may, depending on the circumstances, interview others with relevant knowledge, review documentary materials, and take any other appropriate action to gather and consider information relevant to the complaint. All parties and witnesses involved in the investigation are expected to cooperate and provide complete and truthful information.

At the conclusion of each interview during the investigation, the Investigators will prepare a written summary of the interview. The interviewee, whether it be the complainant, respondent, or third-party
witness, will have an opportunity to review the written summary, discuss any adjustments that he or she believes should be made, and provide a signature confirming the content of the written summary and allowing it to be shared with other appropriate individuals during the course of the investigation.

Resolution

At the conclusion of the investigation, the Investigators will prepare a written investigation report. The written investigation report will explain the scope of the investigation, including parties and witnesses involved and evidence reviewed, identify findings of fact, and make a recommendation as to whether any allegations in the complaint were found to be substantiated by a preponderance of the evidence. The written investigation report and any evidence reviewed during the investigation will be given to the Title IX Coordinator and Deputy Coordinator for a determination on the matter. Upon review of the written investigation report and discussions with the Investigators, the Title IX Coordinator and Deputy Coordinator may conclude that additional investigatory measures are needed. In such cases, the written investigation report will be returned to the Investigators, the investigation will continue, and the written investigation report may be modified following the additional investigatory measures.

Following a sufficient investigation and written investigation report being provided, the Title IX Coordinator and Deputy Coordinator will make a determination as to whether sexual misconduct occurred, and issue a Notice of Findings Letter and, if necessary, include in the Notice of Findings Letter those steps necessary to maintain an environment free from discrimination and harassment and to protect the safety and well-being of the complainant and other members of the University Community. Such actions will also include reasonable steps to correct the effects of such conduct on the complainant and others and to prevent the recurrence of discrimination, harassment, and retaliation. Examples of such action include: no-contact orders, classroom reassignment, the provision of counseling or other support services, training, and discipline for the perpetrator, including up to termination, expulsion, or other appropriate institutional sanctions.

In the Notice of Findings Letter, the complainant and respondent will be offered the opportunity to meet with the Coordinator and/or Deputy Coordinator individually within three days of the date of the Notice of Findings Letter to discuss the outcome of the investigation, any sanctions and remedial measures that will be imposed, and appeal rights. The three (3) day timeframe may be extended when there are unavoidable scheduling conflicts.

If necessary, the version of the Notice of Findings Letter provided to the complainant and/or respondent will be redacted to ensure that information concerning any remedial and/or disciplinary measures is disclosed in a manner consistent with Title IX, the Family Educational Rights and Privacy Act (“FERPA”), and the Clery Act, as explained by the April 4, 2011 Dear Colleague Letter issued by the U.S. Department of Education, available at http://www2.ed.gov/about/offices/list/ocr/letters/colleague-201104.pdf.

The Notice of Findings Letter drafted by the Title IX Coordinator and Deputy Coordinator shall be final subject only to the right of appeal set forth in Section IV, below.

Special Procedure Concerning Complaints Against the President, the Title IX Coordinator, or other Administrators Senior to the Title IX Coordinator

If a complaint involves alleged conduct on the part of the University’s President, the Executive Committee of the University’s Board of Trustees will designate an appropriate person to conduct the investigation required by these procedures. The written report of the investigation will be presented to the Executive Committee of the Board of Trustees, which will prepare and issue the written determination and implement any appropriate and reasonable measures. The determination issued by
the Executive Committee of the Board of Trustees is final, unless the President or the complainant provides a written letter of appeal to the Full Board of Trustees within five (5) days of his/her receipt of the Executive Committee’s written determination and in accordance with Section IV, below. The full Board of Trustees will issue a resolution on the matter within twenty-one (21) days and the resolution will be final and not subject to further appeal. The full Board of Trustees shall issue a short and plain, written statement of the resolution of the appeal. The written statement shall be provided to the complainant, the President, and the Title IX Coordinator within three (3) days of the resolution.

If a complaint involves alleged conduct on the part of the Title IX Coordinator or any administrator senior to the Title IX Coordinator, the President will designate an appropriate person to conduct the investigation required by these procedures. The written report of the investigation shall be presented to the President, who will appoint three (3) members of the Title IX Team, who have no conflict of interest, to review the investigation report, make a determination, and prepare and issue the written determination and implement appropriate and reasonable measures. The resolution issued by the Title IX Team is final, unless the complainant or respondent provides a written letter of appeal to the Executive Committee of the Board of Trustees within five (5) days of his/her receipt of the Title IX Team’s written determination and in accordance with Section IV, below. The Executive Committee of the Board of Trustees will issue a resolution on the matter within twenty-one (21) days and the resolution will be final and not subject to further appeal. The Executive Committee of the Board of Trustees shall issue a short and plain, written statement of the resolution of the appeal. The written statement shall be provided to the complainant, respondent, and the Title IX Coordinator within three (3) days of the resolution. If the Title IX Coordinator is the respondent, a copy of the resolution should also be given to one of the Deputy Coordinators to ensure it is properly filed.

IV. Appeals

Grounds for Appeal

The complainant or respondent may appeal the determination of a complaint only on the following grounds:

- There is a substantial likelihood that newly discovered information, not available at the time evidence was presented to the Title IX Coordinator and Deputy Coordinator, would result in a different decision
- There was a procedural error significant enough to call the outcome into question
- There was a clear error in factual findings
- Bias or prejudice on the part of the Title IX Coordinator, Deputy Coordinator, or Investigators, or
- The punishment or the corrective action imposed is disproportionate to the offense

Method of Appeal

Appeals must be filed with the President within five (5) days of receipt of the written report determining the outcome of the complaint. The appeal must be in writing and contain the following:

- Name of the complainant
- Name of the respondent
- A statement of the determination of the complaint, including corrective action if any
- A detailed statement of the basis for the appeal including the specific facts, circumstances, and argument in support of it, and
- Requested action, if any
Resolution of the Appeal
The President will appoint an Appeal Panel, comprised of three (3) members of the Title IX Team, who have no conflict of interest, and have had no involvement in the investigation or adjudication of the relevant complaint. The Appeal Panel will resolve the appeal and inform the Title IX Coordinator of their decision within ten (10) days of receiving it and may take any and all actions that they determine to be in the interest of a fair and just decision. The decision of the Appeal Panel is final. The Title IX Coordinator shall issue a short and plain, written statement of the resolution of the appeal, including any changes made to the previous Notice of Findings and any sanctions or remedial measures imposed. The Title IX Coordinator’s written statement shall be provided to the complainant and respondent within three (3) days of the resolution of the Appeal Panel.

V. Documentation
Throughout all stages of the investigation, resolution, and appeal, the Title IX Team members as the case may be, are responsible for maintaining documentation of the investigation and appeal, including documentation of all proceedings conducted under these Complaint Resolution Procedures, which may include written findings of fact, transcripts, and audio recordings. When an audio recording is used during an interview, a written summary of the interview is prepared by the Investigators and signed by the interviewee; at such time, the audio recording is destroyed.

VI. Intersection With Other Procedures
These complaint resolution procedures are the exclusive means of resolving complaints alleging violations of the Sexual Misconduct Policy. To the extent there are any inconsistencies between these complaint resolution procedures and other University grievance, complaint, or discipline procedures, these complaint resolution procedures will control the resolution of complaints alleging violations of the Sexual Misconduct Policy.
Right to Dismiss
The right is reserved by the university to dismiss or exclude any student from the university, or from any class or classes, whenever, in the interest of the student or the university, the university administration deems it advisable.
Student Complaint Guidelines
It is the philosophy of Drury University to be responsive to student concerns. If students feel that they have been treated in an inappropriate or unfair manner, they should file a formal written complaint with the appropriate officer of the university:

- The President
- The Vice President for Academic Affairs
- The Vice President for Student Affairs
- The Vice President for Administration

When in doubt regarding the appropriate officer for a particular complaint, the student is encouraged to contact any of the officers mentioned above. If, after exhaustion of all institutional avenues, the university and the student are not able to mutually resolve the student’s concerns, the student may contact the Missouri Department of Higher Education at (573) 526-1577. More information on MDHE’s complaint resolution policy can be found at http://dhe.mo.gov.
**Code of Conduct**

Part of the goal of a college education is to grow one’s awareness and appreciation of the ideals of human life, in one’s ability to consider the long run consequences of one’s acts, and the degree to which one can assume responsibility for his or her own actions and way of living. Drury seeks to encourage serious moral thinking by its students and to provide an atmosphere of freedom in which moral autonomy can be developed.

Students are expected to observe minimum standards of conduct designed to ensure maximum freedom for all. Any violation of the Drury University Student Code of Conduct will be managed through disciplinary action, up to and including separation from the university.

1. **HARASSMENT:** Students shall not harass other students, faculty or staff members.
2. **BEHAVIOR:** Students shall not behave in a manner that is disruptive to class or other learning experiences.
3. **PROPERTY RIGHTS:** Drury students shall observe property rights of individuals and institutions. Theft, destruction of property and unauthorized entry are not permitted.
4. **HONESTY:** Fraud, forgery and failure to honor agreements with the university are not permitted.
5. **ACADEMIC INTEGRITY:** The highest standards of academic excellence and integrity are expected from all Drury students. Please see Academic Integrity in the Academic Affairs section for more details.
6. **PRIVACY:** Students shall respect others’ right to privacy.
7. **CAMPUS INVOLVEMENT:** Students shall respect the right of others to engage in campus activities, to attend meetings, to move freely about the campus and to study.
8. **ENDANGERMENT:** Students shall not injure or endanger the health of others.
9. **ADDRESS REPORTING:** Each student is required to report his or her correct Springfield or community address at the time of registration each semester. This reported address must be the student’s actual place of residence. Any change of address must be reported within three days to the Dean of Students Office or to the Registrar’s Office.
10. **DEBT TO UNIVERSITY:** Any student who incurs debt with the university and fails to make a satisfactory settlement may be dismissed. No student with unsettled debt will be permitted to register for academic work. In addition, the university will not provide any evidence of attendance or any official credentials while the debt remains unsettled.
11. **RESPONSE & COOPERATION:** Students are required to respond promptly to any summons, identify themselves and cooperate when asked to do so by university officials.
12. **GAMBLING:** Gambling is prohibited on university property or at any official student function.
13. **DRUGS & ALCOHOL:** Any illegal use, possession or trafficking of drugs or alcohol is forbidden. Please see Campus Alcohol and Drug policies for more information.
14. **COMMUNITY STANDARDS:** Drury students shall observe all Drury policies and procedures.
15. **CAMPUS HOUSING:** Drury students shall observe all Drury Housing and residential regulations.
16. **SEXUAL ABUSE & HARASSMENT:** Drury University prohibits sexual abuse and/or harassment by its students, employees and citizens.
17. **PROTEST:** Although the right of peaceful protest within the Drury community is recognized, the university retains the right to assure the safety of individuals, the protection of property and the continuity of the educational process. In order to ensure that the rights of the institution and of all individuals be protected, the following regulations have been established:
   a. Picketing within 50 feet of an external access to buildings, interference with entrance to or exit from facilities and interruption of classes or other normal functions of the university exceed permissible limits.
b. Any attempt to control or take over buildings, faculty or administrative offices, or other facilities in any buildings where university space is in use for an authorized function, whether conduct of a class, a public or a private meeting under approved sponsorship, normal administrative or educational functions, or service-related activities (health services, recreational activities or personnel placement) exceed permissible limits. Respect must be accorded any regulations imposed by the person in charge. That is, any requirement to desist from specified activities or to leave the premises must be obeyed. Any regulations imposed are reviewable by the president.

c. At no time is force or violence to be employed, nor should participants in a demonstration or picketing conduct themselves in such a way as to constitute an immediate or potential threat of force or violence against persons or property.

d. Rooms in which instruction, research or study normally take place may be occupied only when assigned through established procedures; however, buildings must be cleared at the normal closing time for each building unless other arrangements are approved in advance.

e. Every student enrolled in the university has the right to be interviewed on campus by any legal organization that desires to recruit at the campus. Any student or group of students has the right to protest against the appearance on campus of any organization, provided the protest does not interfere with any other student’s opportunity to have such an interview.

f. The dean of students shall be informed of the time and place of demonstration in advance of any public announcement of plans for a demonstration. Only such limitations on the areas in which demonstrations are held as are reasonably necessary to avoid physical harm or physical conflict between groups of demonstrators may be prescribed. Students also should be advised as to whether their demonstration is consistent with stated regulations.

Drury University is committed to excellence in education and believes that excellence may only be reached in an environment free from sexual harassment. Sexual harassment threatens the careers of students, faculty and staff and undermines the mission of the university.

Drury University affirms that sexual harassment is unacceptable and will not be condoned; the university’s intent is to provide an environment for students and employees that is free from sexual harassment.

Off-campus violations of civil law shall be left to the jurisdiction of the appropriate civil authorities. The university reserves the right to prosecute students in the civil courts for on-campus violations of civil law. University authority shall never be used to duplicate the function of civil laws.

PROCEDURES FOR STUDENT CONDUCT ADMINISTRATION

Students are the driving force at Drury University. Through the student conduct process, it is our goal to help students realize how their decisions and behavior impact the global community, as well as assist them with future decision-making to lead them to personal and professional success. The Student Affairs Division staff strive to educate the Drury community by encouraging responsible conduct and implementing disciplinary action when situations occur that violate the community standards of Drury University.

Off-campus violations of civil law will be left to the jurisdiction of the appropriate civil authorities. Drury University reserves the right to prosecute students in the civil courts for on-campus violations of civil law. University authority will never be used to duplicate the function of civil laws.
PROCESS OVERVIEW
The Dean of Students shall have primary authority and responsibility for the administration of student conduct at Drury University and for investigating allegations that a student has violated University rules and regulations, or specific orders and instructions issued by an administrative official of the University.

- The decision process in campus judicial processes is that of a hearing, not a trial. Students should expect a supportive and non-adversarial environment during the hearing process.
- The campus judicial process is intended to be educational, not punitive. Our goal is to help the student better understand the impact of his or her actions and to help him or her take steps toward repairing the harm done to the university community. Sanctions are not always predetermined; in such a case a sanction will be designed to accommodate the individual circumstances.
- The standard of evidence in determining a student in violation is not as high as that of the criminal process. At Drury University, like many colleges and universities, we use a level of "preponderance of evidence." as opposed to "beyond a reasonable doubt." A preponderance of evidence is described as enough evidence to make it more likely than not that the accused student has violated the Community Standards.
- Legal rules of evidence, i.e. whether something is "admissible," do not apply in campus judicial cases. The hearing officers will gather and utilize any information that they deem is relevant, including hearsay or third-party testimony.
- Findings of guilt in the campus judicial process will not result in any criminal record, but will be placed in the student’s Drury University file.
- Campus judicial cases are confidential, in compliance with the Family Educational Rights and Privacy Act (FERPA), a federal law.
- While students are entitled to an advisor, friend, parent, or other person of their choosing, that advisor may not represent that student. Students are expected to speak for themselves at all times during the process. Any advisors disregarding these rules will be asked to leave any meeting or hearing.
- It is a privilege to attend Drury University, not a right. As such, removal of a student from campus through a sanction of suspension or dismissal is a possibility in certain circumstances in which the student has endangered the university community or engaged in repeated violations of the Community Standards.

INCIDENT RECORDED & SUBMITTED: The student conduct process begins when information and/or documentation is submitted to the Student Affairs Division regarding a Drury-related incident. This documentation could include, but is not limited to:

- Statement provided by a faculty or staff member
- Statement provided by a Drury University student
- Statement provided by a member of the community
- Drury University Facilities Damage Report
- Drury University Information Report
- Drury University Security Report
- Drury University Policy Violation Citation
- Online information report www.drury.edu/informationreport

INFORMATION REVIEWED: The Student Affairs Division staff will review documentation, check for previous incident files and assess further steps that need to be taken in the student conduct process. An
incident file for the student or the student organization is kept on hand until the file is complete, and then turned in to the student or organization’s permanent file.

**STUDENT CONDUCT MEETING SCHEDULED:** Students will be assigned a Conduct Officer based on the nature and severity of the incident. The Conduct Officer could be a Residence Director, Student Affairs staff member, administrator, or faculty member. Students (or student organizations) are contacted within **five working days** of the incident/receipt of documentation to schedule a meeting with the appropriate conduct officer. Contact will be made in writing through email to the student’s Drury University email account and may also include an official Drury letter to the involved student or student organization and, if applicable, the campus advisor.

If the student or student organization does not respond within **five working days** after efforts to contact them have been made, information will be reviewed and a determination will be made without the student's or organization’s input regarding the incident.

**MEETING WITH STUDENT(S) INVOLVED:** The student(s) or student organization will meet with the Conduct Officer to informally discuss the incident, and the student(s) will be given the opportunity to explain his/her version of events. In the event that the Conduct Officer determines that a policy has NOT been violated, then the case and any related judicial charges may be dismissed. If the Conduct Officer maintains that a policy has been violated, the accused student(s) will be given two options:

1. The first option is to accept responsibility for violating the policy; thus, waiving the right to a formal Judicial Board Hearing, and having the Conduct Officer issue the student(s) his/her judicial sanctions (outcome). When this occurs, the case is considered CLOSED at the conclusion of the meeting. Students may NOT appeal the outcome of this meeting, since the student is essentially taking responsibility for violating the Community Standards, and they are waiving their right to a formal judicial hearing. Additionally, at this conduct meeting, the student is either informed of the exact disciplinary sanctions being imposed, or at a minimum, they will be given a range of possible sanctions being considered, before the student is required to accept responsibility or request a formal judicial hearing.

2. Students who do not feel as though they have violated the Community Standards have a second option, which is to request a formal Judicial Board Hearing. All students have the right to a fair and objective Judicial Board Hearing.

There are other situations which based upon the circumstances may result in immediate action taken by the Student Affairs Division staff, the Dean of Students or the Drury University Judicial Board assigned sanctions remain in effect until the Judicial Board Hearing process is completed and a final decision is rendered.

**JUDICIAL BOARD HEARINGS**

Judicial Board members consist of trained faculty, staff and students. Faculty, staff, and students are appointed by the Dean of Students from a pool of eligible candidates. The Drury University Judicial Board is composed of:

- Three faculty/staff members
- Three students, selected based on demonstrated leadership capability
- The Dean of CCPS, who serves as ex-officio and Judicial Board Coordinator.

Every effort will be made to ensure that each accused student is given a fair and objective judicial hearing. Part of this will be limiting conflicts of interest between a board member and an accused
student (i.e. the accused student's academic advisor being on the board, accused student in a board member's academic discipline, accused student having a personal friendship with a board member, etc.) Board members are trained to excuse themselves if there is a significant conflict of interest. Should the accused student feel a conflict of interest may exist, they should immediately bring this to the attention of the Director of Residence life or Dean of Students, upon receipt of the hearing notice.

**JUDICIAL BOARD HEARING PROCEDURES**

The following procedures will be followed in any case, which results in a hearing before the Judicial Hearing Board ("Board"). University Judicial Hearings are not legal proceedings, therefore, neither the student nor the University may have legal counsel present at the hearing.

The accused student will be given written notice of the date and place of the Hearing.

1. The student is entitled to appear in person before the Board to defend against the charges. If the student elects not to appear, the Board will reach its decision on the basis of information available to it at the Hearing.

2. The student or the University may request that witnesses competent to give testimony relevant to the specific charges preferred, be called to testify before the Board. Written or tape recorded statements, rather than personal testimony by witnesses before the Board, may be permitted at the Board's discretion when extenuating circumstances prevent the appearance of a witness. Failure of a witness to be present at the time of the Hearing, except in extenuating circumstances, will not be grounds to delay the proceedings.

3. The Judicial Board may accommodate concerns for the personal safety, wellbeing, and/or fears of confrontation of the Complainant, Accused Student, and/or other witnesses during the hearing by providing separate facilities, by using a visual screen, and/or by permitting participation by telephone, videophone, closed circuit television, videoconferencing, videotape, audiotape, written statement, or other means, where and as determined in the judgment of the Dean of CCPS and/or Judicial Board to be appropriate.

4. The University's case will be presented by the Director of Residence Life, Director of Safety & Security, or designee, who may ask questions of any witness.

5. The student may invite a member of the Drury University Faculty or Professional Staff to be present throughout the Hearing, as an advisor. The advisor's role in the hearing is limited. The advisor is not permitted to directly address the members of the hearing board or any witnesses. The advisor may not offer any testimony to the Judicial Board.

6. The Complainant, Accused Student and his or her advisors, if any, shall be allowed to attend the entire portion of the Disciplinary Hearing at which information is received except deliberations (except when the board feels this presents safety concerns).

7. The Board's determination will be made on the basis of whether it is more likely than not that the accused student violated the Student Code of Conduct or university policy, which is equivalent to the "preponderance of the evidence" standard.

8. The Board shall make an appropriate record of the proceedings and this record shall be available to the accused upon his/her request; however, it may not leave the Dean of
Students Office or Office of Student Conduct. Board Hearings shall be tape recorded in their entirety. Following the Hearing and during the appeal period, the student and/or advisor present throughout the Hearing may listen to the tape in the Dean of Student’s office. Recordings of Board Hearings and decisions shall be filed in the Office of the Dean of Students.

9. At the conclusion of a Hearing, the Board members shall meet in closed session to determine its decision. If the student is found responsible of violating the Community Standards, the Board shall consult with the Dean of CCPS prior to determining a sanction or censure.

10. The student or student organization and campus advisor will be notified of any assigned sanctions by the Director of Student Services-CCPS or the Dean of CCPS by email to the Drury University email account and may also include an official Drury letter within three (3) business days. The notification will indicate specific charges and violations. It will also indicate the decision, findings and sanctions, if applicable, with any relevant information such as specificity and deadlines.

APPEAL PROCEDURES
Students who wish to dispute the outcome of a Judicial Board Hearing may appeal their case to the President of the University. To initiate the appeal process, the student must submit their appeal to the Dean of CCPS or the Director of Student Services-CCPS, within 24 hours from the decision notice. An appeal must contain complete justification and details about why the student feels an appeal should be granted. The President will review all of the documents related to the case, hearing, and sanction assessment, and will take one of the following two actions: 1) Affirm the decision of the original hearing board 2) Amend the decision of the hearing board. All decisions made by the President are FINAL.

SANCTIONS
Sanctions provide a means for the rectification or correction of any damages resulting from inappropriate behavior, protect the excellence of the educational and social environment and assist the individual in leading a healthier lifestyle. Sanctions may include but are not limited to:

- Career counseling
- Community service hours
- Counseling
- Disciplinary probation
- Disciplinary suspension from the university
- Educational sanctions
- Fines
- Loss of participation and privileges in campus activities
- Peer mentoring
- Professional assessment
- Removal or restricted access from campus housing
- Restitution

Violators of certain policies will be subject to sanctions ranging from official letters of warning and reprimand to disciplinary suspension from the university, according to the severity of the offense. Sanction information listed in the Community Standards Handbook is not intended to be all-inclusive. There are other situations, which, based upon the circumstances-including, but not limited to the nature
and the severity of the situation may result in and require immediate or additional action to resolve the incident. The Student Affairs Division professional staff may modify the sanctions to be more beneficial and educational for the students or organizations involved.

**PENALTIES FOR NON-COMPLETION OF SANCTIONS**

University approved restitution relating to non-completion of sanctions may include but are not limited to:

- **Career counseling:** Minimum $50 fine for each career counseling session not completed by required completion date or not upholding the standards of the Career Center sanction supervisor.
- **CHOICES class:** $100 fine for not satisfactorily completing the requirements of the CHOICES alcohol-education class.
- **Community service hours:** $25 fine per hour, up to $250 maximum, for assigned service hours by required completion date or not upholding the standards of the CHOICES alcohol-education class.
- **Counseling:** Minimum $50 fine for each counseling session not completed by required completion date or not upholding the standards of the Drury Counseling Office.
- **Disciplinary probation:** Student may have limited involvement in extra-curricular activities.
- **Disciplinary suspension from the university:** Student may be removed from university property by the Drury University security staff and could be arrested for trespassing.
- **Educational sanctions:** Minimum $50 fine for each educational assignment not completed by required completion date or not upholding the standards listed by the educational sanction completion supervisor.
- **Fines:** Fines are assessed to the Drury University business account. Not paying these fines limits semester class registration and may limit a student’s ability to graduate.
- **Loss of participation and privileges in campus activities:** Minimum $50 fine for continued participation in campus organizations listed as part of the sanctioning process. The campus organization may also have their Drury University business account frozen for allowing continued participation and may be limited from receiving future SGA funding.
- **Peer mentoring:** Minimum $50 fine for each peer mentoring session not completed by required completion date or not upholding the standards listed by the peer mentor supervisor.
- **Professional assessment:** Minimum $150 fine for each professional assessment session not completed by required completion date or not upholding the standards listed by the professional assessment site.
- **Removal or restricted access from campus housing:** Student and student belongings may be removed from university property by the Drury University security staff and students could be arrested for trespassing. Student will pay for housing and meal plan costs for the semester in which they were removed.
- **Restitution:** Restitution charges are assessed to the Drury University business account. Not paying these fines limits semester class registration and may limit a student’s ability to graduate.

**RESPONSIBILITY & COOPERATION FOR REPORTING INCIDENTS**

Any person who feels that he or she or another person has been the victim of an incident or involved in a questionable situation involving a Drury student, university employee or Drury citizen on Drury property, at any Drury activity or at any activity that an observer would associate with a Drury student, university employee or Drury citizen must immediately report the incident to the appropriate staff.
member, such as Security staff, or complete the online reporting form at www.drury.edu/informationreport. Drury will investigate all reported incidents and take appropriate action.

Students, university employees and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury University. Full cooperation is defined as complying with the requests of the university at the time of the incident and throughout the duration of the investigation. These requests include, but are not limited to: being available for formal questioning relating to the incident, releasing relevant information to the university and allowing university officials access to information surrounding the incident which may directly impact the safety and security of Drury students, university employees and other Drury citizens.

Information provided to Drury University during an investigation will not be released to a third-party unless mandated by law. Drury University investigations are for the purposes of Drury University only.

PENALTIES FOR NON-COOPERATION
Students, university employees and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury University. Full cooperation is defined as complying with the requests of the university at the time of the incident and throughout the duration of the investigation. These requests include, but are not limited to: being available for formal questioning relating to the incident, releasing relevant information to the university and allowing university officials access to information surrounding the incident which may directly impact the safety and security of Drury students, university employees and other Drury citizens.

Cooperation provides a vehicle for the complete and accurate understanding of the incident under investigation, protects the excellence of the educational and social environment, and assists in determining the appropriate action for correction of any damages resulting from inappropriate behavior.

University definitions of non-cooperation include, but are not limited to:
- Failure to provide a valid University ID, or other valid identification upon the request of any University official, employee, or residence life staff member.
- Failure to make a reasonable, positive effort to remove themselves from the environment where these standards are being violated.
- Giving false testimony or other evidence at a campus disciplinary or other administrative proceeding.
- Failure to appear for a scheduled meeting, administrative hearing, or Judicial Board hearing.
- Hindering the reporting process for any incident, whether the student was directly or indirectly involved.

Drury University approved restitution relating to noncooperation during an investigation may include but is not limited to:
- Students found to be deliberately non-cooperative, or fraudulent in their statements, may be subject to three times the minimum sanction.
- Based on the nature and severity of the incident, students found to be deliberately non-cooperative may also be subject to disciplinary probation or suspension from the university.
Campus Alcohol Policy
Drury University is a safe, education-oriented and community-minded campus that maintains an academic and social environment conducive to the intellectual and personal development of students and promotes the safety and welfare of all members of the campus community. Drury University prohibits the abuse of alcohol by its students, employees and citizens. Drury University will cooperate with authorities in the enforcement of all applicable laws.

The unlawful possession, use or distribution of alcohol by Drury students, university employees or Drury citizens is prohibited on university-owned or -controlled property, in conjunction with university-sponsored or -supervised activities, or at any activity or event that an observer would associate with Drury students, university employees or Drury citizens.

This policy has been established to protect the integrity of the educational experience, encourage positive behavior and enhance the community commitment of Drury students, university employees or Drury citizens.

Individual Regulations
1. **Hard Alcohol:** Hard alcohol is not permitted on the Drury University campus. This includes all pre-packaged beverages that contain hard alcohol, as well as all alcohol energy drinks that contain greater than 5.9 percent alcohol content. Hard alcohol is defined as liquor that has been distilled rather than fermented.
2. **Legal Age Persons:** Students (and/or guests) of legal age (21+) may possess and consume beer and fermented alcoholic beverages ONLY in the privacy of their own residence unit with the door closed. Consumption is allowed in the presence of your roommate. Guests must be of legal age.
3. **Minors in Possession:** Students (and/or guests) under the legal age of drinking shall not buy, drink or possess (hold) alcoholic beverages.
4. **Providing To a Minor:** No students, collectively or individually, may purchase for, serve to or sell alcoholic beverages to any minor.
5. **Intoxication:** Students (and/or guests) shall not act belligerent, exhibit intoxication or be visibly intoxicated.
6. **Personal Rights of Others:** The possession and consumption of alcohol shall not infringe upon the privacy or peace of other individuals.
7. **Mass Consumption:** Items used for the mass consumption of alcohol (beer bongs, kegs, pony kegs, beer balls or other common containers of alcoholic beverages of similar nature) are strictly prohibited.
8. **Drinking Games:** No student shall permit, tolerate, encourage or participate in “drinking games.” The definition of drinking games includes, but is not limited to, the consumption of shots of alcohol or alcoholic beverages, the practice of consuming shots equating to one’s age, “beer pong,” “century club,” “dares” or any other activity involving the consumption of alcohol which involves duress or encouragement related to the consumption of alcohol.
9. **Alcohol Containers:** Empty alcohol containers should be immediately disposed of using proper waste/recycling receptacles. Keeping empty alcohol containers for any reason, including those used for decoration is prohibited.
10. **Glass Bottles:** Alcohol contained in glass bottles should be immediately poured into a plastic cup and the glass bottle should be immediately disposed of using the proper waste/recycling receptacle. Taking a glass bottle outside is prohibited. Keeping glass bottles for any reason, including those used for decoration, is prohibited.
11. **Alcohol in Open Locations:** Possession of an open container or consumption of alcoholic beverages in any area other than individual rooms is prohibited. This includes (but is not limited to) Sunderland Field, Drury Lane, Hutchens Field, Harrison Stadium, FSC Fountains, FSC Down-Under area, College Park Common Area, Wallace Hall porch, Smith Hall porch, Sunderland Hall patio and all other academic buildings.

12. **Student Organization Funds:** Under no circumstances may student organization funding be used to purchase alcohol.

13. **Greek Organizations:** Greek organizations, including students residing in the Fraternity Quadrangle, are required to follow the Fraternal Information and Programming Guidelines (FIPG) and Drury University Greek Life Policies when planning social events that involve alcohol.

14. **O’Reilly Family Event Center:** Events held at the O’Reilly Family Event Center, a freestanding auxiliary enterprise, are subject to guidelines and regulations outlined by specific contracted events.

**Online Resources**

1. **Confidential Reporting:** Concerned Drury citizens may report possible incidents or information relating to an incident at www.drury.edu/informationreport
2. **Drury University Policies and Procedures:** Current Drury University Community Standards Policies and Procedures can be found at www.drury.edu/communitystandards
3. **Missouri Statutes:** Current Missouri statutes can be found at: www.moga.mo.gov

**Educational Program Opportunities**

In support of this policy, the university shall conduct periodic orientation and educational programs for faculty, students and staff to ensure a healthy academic, social and work environment for all Drury citizens.

**Medical Amnesty Policy (“Good Samaritan Clause”)**

Because Drury University considers student health and safety of the utmost importance, no student seeking medical treatment for the abuse of alcohol or drugs, or assisting another student in obtaining such treatment, will be subject to university sanctions. Individual students and student organizations are required to seek immediate medical assistance for their members or guests when any health risk is observed, including medical emergencies relating to the use of drugs and alcohol.

**Responsibility and Cooperation for Reporting Incidents**

Any person who feels that he or she or another person has been the victim of an incident or involved in a questionable situation involving a Drury student, university employee or Drury citizen on Drury property, at any Drury activity or at any activity that an observer would associate with a Drury student, university employee or Drury citizen must immediately report the incident to the appropriate staff member, such as Residence Life staff, Greek Life staff or Security staff or complete the online reporting form at www.drury.edu/informationreport. Drury will investigate all reported incidents and take appropriate action.

Students, university employees and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury University. Full cooperation is defined as complying with the requests of the university at the time of the incident and throughout the duration of the investigation.
These requests include, but are not limited to: being available for formal questioning relating to the incident, releasing relevant information to the university and allowing university officials access to information surrounding the incident which may directly impact the safety and security of Drury students, university employees and other Drury citizens.

Information provided to Drury University during an investigation will not be released to a third-party unless mandated by law. Drury University investigations are for the purposes of Drury University only.

**Alcohol Policy Violation Sanctions**
Sanctions provide a means for the rectification or correction of any damages resulting from inappropriate behavior, protect the excellence of the educational and social environment and assist the individual in leading a healthier lifestyle.

Sanctions may include, but are not limited to:
- Career counseling
- Community service hours
- Counseling
- Disciplinary probation
- Disciplinary suspension from the university
- Educational sanctions
- Fines
- Loss of participation and privileges in campus organizations
- Parent notification
- Peer mentoring
- Professional assessment
- Removal or restricted access from campus housing
- Restitution

More sanction information is available online at [www.drury.edu/communitystandards](http://www.drury.edu/communitystandards).
**Campus Drug Policy**

Drury University is a safe, education-oriented and community-minded campus that maintains an academic and social environment conducive to intellectual and personal development of students and promotes the safety and welfare of all members of the campus community. Drury University prohibits the use and abuse of drugs by its students, employees and citizens. Drury University will cooperate with authorities in the enforcement of all applicable laws.

Drury prohibits the use, possession, distribution and manufacturing of illegal drugs and paraphernalia by its students, employees and citizens. The abuse of prescription drugs and drug-like substances will be treated the same as the use of illegal drugs.

The unlawful possession, use or distribution of drugs by Drury students, university employees or Drury citizens is prohibited on university-owned or -controlled property, in conjunction with university-sponsored or -supervised activities, or at any activity or event that an observer would associate with Drury students, university employees or Drury citizens.

This policy has been established to protect the integrity of the educational experience, encourage positive behavior and enhance the community commitment of Drury students, university employees or Drury citizens.

In accordance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, Drury University is required to establish a drug and alcohol prevention policy for its students and employees. A biennial review of this program will be done to determine its effectiveness, to implement changes to the policy if they are needed and to ensure that the university’s disciplinary sanctions are consistently enforced.

Drury University provides Drug Policy information as listed online at www.drury.edu/communitystandards.

**Online Resources**

1. Confidential Reporting:
   Concerned Drury citizens may report possible incidents or information relating to an incident at www.drury.edu/informationreport

2. Drury University Policies and Procedures:
   Current Drury University Community Standards Policies and Procedures can be found at www.drury.edu/communitystandards

3. Missouri Statutes:
   Current Missouri statutes can be found at: www.moga.mo.gov

**Educational Program Opportunities**

In support of this policy, the university shall conduct periodic orientation and educational programs for faculty, students and staff to ensure a healthy academic, social and work environment for all Drury citizens.

**Medical Amnesty Policy (“Good Samaritan Clause”)**

Because Drury University considers student health and safety of the utmost importance, no student seeking medical treatment for the abuse of alcohol or drugs, or assisting another student in obtaining such treatment, will be subject to university sanctions. Individual students and student organizations are
required to seek immediate medical assistance for their members or guests when any health risk is observed, including medical emergencies relating to the use of drugs and alcohol.

**Responsibility and Cooperation for Reporting Incidents**

Any person who feels that he or she or another person has been the victim of an incident or involved in a questionable situation involving a Drury student, university employee or Drury citizen on Drury property, at any Drury activity or at any activity that an observer would associate with a Drury student, university employee or Drury citizen must immediately report the incident to the appropriate staff member, such as Residence Life staff, Greek Life staff or Security staff, or complete the online reporting form at www.drury.edu/informationreport. Drury will investigate all reported incidents and take appropriate action.

Students, university employees and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury University. Full cooperation is defined as complying with the requests of the university at the time of the incident and throughout the duration of the investigation. These requests include, but are not limited to: being available for formal questioning relating to the incident, releasing relevant information to the university and allowing university officials access to information surrounding the incident which may directly impact the safety and security of Drury students, university employees and other Drury citizens.

Information provided to Drury University during an investigation will not be released to a third-party unless mandated by law.

Drury University investigations are for the purposes of Drury University only.

**Drug Policy Violation Sanctions**

Sanctions provide a means for the rectification or correction of any damages resulting from inappropriate behavior, protect the excellence of the educational and social environment, and assist the individual in leading a healthier lifestyle.

Sanctions may include but are not limited to:

- Career counseling
- Community service hours
- Counseling
- Disciplinary probation
- Disciplinary suspension from the university
- Educational sanctions
- Fines
- Loss of participation and privileges in campus activities
- Parent notification
- Peer mentoring
- Professional assessment
- Removal or restricted access from campus housing
- Restitution
Certain violations already have standard sanctions in place. The following sanctions are standard for drug policy violations. Drury University reserves the right to modify any standard sanction dependent upon the severity and nature of the violation.

Information regarding Educational Sanctions for Alcohol and Drug Violations can be found in the student life guide or students may contact Tijuana Julian, Executive Vice President-Student Affairs, Dean of Students.
**Commercial Activity Policy**

Drury University is a safe, education-oriented and community-minded campus that maintains an academic and social environment conducive to intellectual and personal development of students and promotes the safety and welfare of all members of the campus community. Drury University prohibits the abuse of commercial activity by its students, employees and citizens. Drury University will cooperate with authorities in the enforcement of all applicable laws.

The abuse of commercial activity by Drury students, university employees or Drury citizens is prohibited on university-owned or -controlled property, in conjunction with university-sponsored or -supervised activities, or at any activity or event that an observer would associate with Drury students, university employees or Drury citizens.

This policy has been established to protect the integrity of the educational experience, encourage positive behavior and enhance the community commitment of Drury students, university employees or Drury citizens.

**Solicitation Guidelines**

University facilities are not to be used as a location for the operation of any business or enterprise, including the ongoing sale of any services or products.

**Commercial Activity and Vendor Sponsorship Guidelines**

The programs and activities of students, campus departments or student organizations can be greatly enhanced by the support of commercial vendors and other off-campus organizations.

However, the Drury community and off-campus vendors may have different motives and desires. These guidelines should be followed to ensure the safety of the Drury University community. All commercial activity held on the Drury University campus must have the prior approval of the dean of students office and must be sponsored by a registered student organization or a campus department.

**Signing Contracts**

The programs and activities of student groups can be greatly enhanced by the support of off-campus vendors. At times, the collaboration of students, student organizations and/or off-campus vendors requires a contract to be signed regarding goods or services provided, price and/or dates for performance or delivery.

**Contract Approvals**

The dean of students must review all contracts to ensure standard requirements are met. To have your contract reviewed, submit a copy of the contract to the dean of students office. All contracts must be submitted at least three weeks before the event. Student organizations should allow three days for the dean of students to review the contract.

**University Involvement**

Students do not have the authority to sign any contract on behalf of Drury University or any of its facilities or departments.

If a student or student organization fails to meet its contractual obligations, Drury University will not assume those obligations.
Animals on Campus Policy

SERVICE ANIMAL POLICY GENERAL GUIDELINES

Service animals may accompany students, employees, and visitors with disabilities to Drury University events, activities, and locations with rare exceptions. Local, state, and federal laws regulate the use of service animals at Drury University.

SERVICE ANIMALS: According to the U.S. Department of Justice, service animal means any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual’s disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

On a case by case basis, Drury University may also permit the use of a housebroken miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability.

Persons wishing the University to consider use of a miniature horse should Director of Disability Support Services.

SPECIFIC PROVISIONS - SERVICE ANIMALS

A. Generally, Drury University will permit the use of a service animal by individuals with disabilities. Drury University may ask an individual with a disability to remove a service animal from the premises if (1) the animal is out of control and the animal's handler does not take effective action to control it; or (2) the animal is not housebroken. If a service animal is properly excluded under this provision, the individual with a disability will be given the opportunity to participate in Drury University's service, program, or activity without having the service animal on the premises.

B. A service animal may be excluded if Drury University makes an individualized assessment based on reasonable judgment and best available objective evidence that the service animal poses a direct threat to the health or safety of others that cannot be mitigated by reasonable modifications.

C. A service animal must be immunized against diseases common to that type of animal.

D. A service animal must be under the control of its handler (e.g., harness, leash, voice control, signals, or other means).

E. Student is responsible for the care, well-being, and supervision of a service animal at all times.

F. An entity shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. An entity may ask: (1) If the animal is required because of a disability and (2) what work or task the animal has been trained to perform. An entity shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, a public entity may not
make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

G. Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

H. A public entity shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If a public entity normally charges individuals for the damage they cause, an individual with a disability may be charged for damage caused by his or her service animal.
Technology Resources Usage Policy
Drury University is a safe, education-oriented and community-minded campus that maintains an academic and social environment conducive to intellectual and personal development of students and promotes the safety and welfare of all members of the campus community. Drury University prohibits the abuse of technology resources by its students, employees and citizens. Drury University will cooperate with authorities in the enforcement of all applicable laws.

The abuse of technology resources by Drury students, university employees or Drury citizens is prohibited on university owned or controlled property, in conjunction with university-sponsored or supervised activities, or at any activity or event that an observer would associate with Drury students, university employees or Drury citizens.

This policy has been established to protect the integrity of the educational experience, encourage positive behavior and enhance the community commitment of Drury students, university employees or Drury citizens.

Responsibility
The use of all computer accounts and resources is the personal responsibility of each account holder. Use of Academic Computing resources must be consistent with institutional policies governing how to conduct one’s self as a member of the community, including policies regarding cheating, plagiarism, harassment and theft. It is the computer user’s responsibility to comply with all general campus and computing policies.

Academic Computing services and resources are made available to support the academic programs and activities of Drury University. Use of these services and resources is a privilege that is not to be abused and may be taken away without prior consent, when required by law or when there is a substantiated reason to believe that violations of law or policy have occurred.

In time-sensitive cases, access may be restricted to meet critical operational needs. Each computer user is responsible for the storage of personal files created on Drury computing facilities. Hard disks will be routinely cleared of files. Under no circumstances will Drury University be held responsible for any files stored on or deleted from its hard disks.

Each computer user is responsible for taking reasonable care for the security of his/her campus account and password. Every user should change his/her password frequently and should not, under any circumstances, give his/her password to another person.

Unacceptable Use of Technology Resources
   1. Using computer resources for any purpose unrelated to the mission of the university
   2. Using computer facilities for cheating; including unauthorized copying, installation, sending or receiving of programs, assignments or files
   3. Sending unsolicited, annoying or obscene messages or mail to another computer or computer user
   4. Utilizing a false identity in obtaining or utilizing an e-mail account
   5. Displaying adult Web sites (specifically those self-identified as such) or other obscene materials in public labs in view of other users. Such conduct is considered sexual harassment, i.e., an action “that has the purpose or effect of unreasonably interfering with an individual’s academic
or work performance, or creating an intimidating, hostile or offensive academic or work environment“ (from the university’s Sexual Harassment Policy Statement)

6. Examining, or attempting to examine, another computer user’s files or mail without explicit permission by the owner of those files or mail
7. Interrupting, hindering or otherwise interfering with the normal operation of the computer labs and network
8. Posting copyrighted text or images on a Web page without the owner’s permission

Intellectual Property
All communications and information accessible via the Internet should be assumed to be copyrighted and should be accessed and re-distributed using regular copyright rules. When sources found on the Internet are cited, the name, date and location of the information must be included. Anyone discovered to be hindering normal operations or making inappropriate use of computing resources will be contacted, and appropriate action will be taken. Upon report of a violation, the user may be denied access to Drury computing facilities. All pertinent information on the alleged violation will be given to the appropriate vice president who will oversee the judicial review process.

The university and its staff shall treat all electronically stored information as confidential, but may examine or disclose information when authorized by the owner of the information, when approved by appropriate vice president, or required by local, state or federal law including, but not limited to, laws regarding harassment, libel and defamation of character.

E-mail Policy Statement and Definition
The official account/address for e-mail communication at Drury University shall be the “@drury.edu” account/address assigned by the university to each member of the community. All official e-mail communication from employees of the university to other members of the university community is sent from and directed to official Drury e-mail accounts. No assurance is given when using non-Drury e-mail accounts. Neither the university nor its personnel make any assurance of delivery or receipt when attempts are made to communicate through a non-Drury e-mail address.

It is the user’s responsibility to keep his/her Drury e-mail account useable. Unattended e-mail accounts accumulate messages and the “box” may rapidly fill at which time incoming e-mail messages are typically lost. Drury is not responsible for failed delivery when a user’s Drury e-mail “box” becomes full. Users are responsible for eliminating enough old messages to keep the “box” active. Old messages can be archived in a way that preserves them without consuming space in the “box.”

The e-mail system at Drury exists to provide a convenient (not necessarily confidential) way of communicating between students, faculty, colleagues and friends. It is expected that Drury computer users will use common courtesy in the use of e-mail. This policy establishes protocol for using Drury e-mail accounts, but it does not preclude any member of the Drury community from having a non-Drury e-mail account or from corresponding with another member of the Drury community at a non-Drury email account.

Unacceptable Use of E-mail
1. Re-posting (forwarding) personal communication, intended to be confidential, without the author’s prior consent
2. “Chain letters,” “broadcasting” messages to lists or individuals and other types of use that would cause congestion of the networks or otherwise interfere with the work of others are not allowed
3. Anonymous and/or fraudulent posting of e-mail messages

Privacy
1. Electronic mail (e-mail) is a form of public communication and cannot be guaranteed to be private. Messages can be intercepted while in transit through the system. Be discreet.
2. The systems and network administrators have access to all files stored on the university servers. In the course of routine system maintenance, trouble-shooting and mail delivery problem resolution, staff may inadvertently see the content of e-mail messages. However, these individuals are prohibited from accessing personal files except as otherwise stated in this handbook.

Online Resources
1. Confidential Reporting: Concerned Drury citizens may report possible incidents or information relating to an incident at www.drury.edu/informationreport
2. Drury University Policies & Procedures: Current Drury University Community Standards Policies and Procedures can be found at www.drury.edu/communitystandards

Educational Program Opportunities
In support of this policy, the university shall conduct periodic orientation and educational programs for faculty, students and staff to ensure a healthy academic, social and work environment for all Drury citizens.

Responsibility & Cooperation for Reporting Incidents
Any person who feels that he or she or another person has been the victim of an incident or involved in a questionable situation involving a Drury student, university employee or Drury citizen on Drury property, at any Drury activity or at any activity that an observer would associate with a Drury student, university employee or Drury citizen must immediately report the incident to the appropriate staff member, such as Residence Life staff, Greek Life staff or Security staff, or complete the online reporting form at www.drury.edu/informationreport. Drury will investigate all reported incidents and take appropriate action.

Students, university employees and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury University. Full cooperation is defined as complying with the requests of the university at the time of the incident and throughout the duration of the investigation. These requests include, but are not limited to: being available for formal questioning relating to the incident, releasing relevant information to the university and allowing university officials access to information surrounding the incident which may directly impact the safety and security of Drury students, university employees and other Drury citizens.

Information provided to Drury University during an investigation will not be released to a third-party unless mandated by law. Drury University investigations are for the purposes of Drury University only.

Computer Resources Usage Policy Violation Sanctions
Sanctions provide a means for the rectification or correction of any damages resulting from inappropriate behavior, protect the excellence of the educational and social environment, and assist the individual in leading a healthier lifestyle.
Sanctions may include but are not limited to:
- Career counseling
- Community service hours
- Counseling
- Disciplinary probation
- Disciplinary suspension from the university
- Educational sanctions
- Fines
- Loss of participation and privileges in campus activities
- Parent notification
- Peer mentoring
- Professional assessment
- Removal or restricted access from campus housing
- Restitution

Violators of this policy will be subject to sanction ranging from official letters of warning and reprimand to disciplinary suspension from the university, according to the severity of the offense.
Personal Rights Policy

Drury is committed to the safety of its students, faculty and other citizens. In order to ensure that the environment at Drury avoids violence and to protect students, faculty and other citizens of our learning community, the following Violence in Higher Education policy applies to all students, faculty, staff, visitors and others who are on the Drury campus or whose communications or actions affect Drury or its students, faculty, staff, visitors and other citizens with any connection to Drury:

- Threats or implied threats of physical violence, physical intimidation in any form and violent behavior by or at the direction of a person are strictly prohibited.
- Possession of any type of weapon on university property, including parking lots and green space, is strictly prohibited unless the individual has university approval through association with a public law enforcement agency, or has registered the weapon with the director of safety and security and has written permission from a vice president or president. In the case of firearms, the policy applies whether or not the weapon is loaded and whether or not it is capable of being fired.
- Any person who feels that he or she or another person has been threatened in any way on Drury property, at any Drury activity or by any person related to Drury in any way must immediately report the threat to the director of safety and security or another member of the administration. Drury will investigate the threat and take appropriate action. Students, faculty and other Drury citizens are required to cooperate fully with any investigation by or at the request of Drury.
- Former employees who left involuntarily or students who have been dismissed from the university or denied admission for reasons other than academic performance are prohibited from Drury property and will constitute as trespassers, unless they are participating in a public university program and have not been requested to depart.

Any violation of this policy will be dealt with through disciplinary action, up to and including separation from the university.
General Education Requirements

**Associate’s Degree Guide**
The general education and degree requirements listed below apply to the Associate of Science (AS) degree. The catalog year corresponds to the year of initial registration at the university as an admitted student. Students who are not enrolled for one year must apply for readmission and follow the corresponding catalog year’s requirements.

The general education requirements for an Associate’s degree requires a minimum of 27 credit hours.

Academic Programs

Advertising/Public Relations

*Department of Communication*
*Jonathan Groves, Chair*

The advertising and public relations major prepares students for careers in strategic communication in profit and nonprofit contexts. Courses develop critical thinking, written, oral, visual communication and presentation skills in the creation of research-driven integrated communication proposals. Account services, media planner, copywriter, media relations, event planning, social media strategist, fundraising/development and communication specialist are a few of the career opportunities for advertising and public relations majors. Students are encouraged to complete one or more internships to sharpen their professional skills and identify specific career interests.

**Bachelor of Science in Advertising/Public Relations**
The Bachelor of Science in Advertising/Public Relations requires a minimum of 42 credit hours.

Behavioral and Community Health

Department of Behavioral Sciences
Vickie Luttrell, Chair

The B.S. in Behavioral and Community Health is designed to help students better understand the psychological, social, cultural, economic, and environmental circumstances that affect people’s chances for a healthy life. The major is multidisciplinary and includes coverage of health behavior, mental illness and addiction, social epidemiology, ethical issues, research methodologies and data analysis, community outreach strategies, and professional development opportunities.

The program prepares students to work with individuals, groups, and families in health behavior programs, mental health centers, social service agencies, wellness centers, research centers, and media organizations, as well as in city, state and national health departments. For students who are interested in becoming substance abuse counselors the Missouri Credentialing Board (MCB) gives credit for applicable degrees, which reduces other credentialing requirements for applicants. The MCB considers the B.S. in Behavioral and Community Health to be an applicable degree.

Bachelor of Science in Behavioral and Community Health

The Bachelor of Science in Behavioral and Community Health requires a minimum of 48 credit hours.

Behavioral Science

Department of Behavioral Sciences
Vickie Luttrell, Chair

The Associate of Science in Behavioral Science is an interdisciplinary program that allows students to examine behavior through the insights provided by psychology, sociology, and criminology. Psychology is the scientific study of how people think and behave, and psychologists study everything about human experience from the workings of the brain to consciousness, memory, moral reasoning, and language. Sociology provides valuable insights into social factors that affect how institutions and organizations operate, to include race, ethnicity, gender, age, education, and social class. Criminology, which has a historically strong sociology influence, examines the psychological, environmental, and biological causes of criminal behavior, modes of criminal investigation and conviction, and how crime can be prevented.

Depending on professional interests, students may concentrate their elective coursework in a particular discipline, if desired.

Students should have math skills equivalent to MATH 100 or higher before enrolling in BSCI 274.

## Associate of Science in Behavioral Science

Business Administration

Breech School of Business Administration
Dr. Jin Wang, Dean

The aim of the business program is to provide an opportunity for students to gain a practical understanding of the business aspects of our society. The curriculum is organized to give students a knowledge of business practices and economic processes, the role of business and economics in the world marketplace and an awareness of the major business issues that confront society.

MISSION STATEMENT
Mission: Preparing ethical leaders for the global business community.
Goals: To accomplish the mission, our goals (objectives) are to instill the ability in our students to:
1. Think critically while embracing change in a dynamic global environment.
2. Demonstrate professional competency in their field.
3. Value diversity, lifelong learning, professionalism and social responsibility.
These goals (objectives) will be achieved for students through diverse educational experience with individual faculty who:
1. Develop innovative curricula, pedagogies and programs to challenge and mentor students.
2. Engage in relevant scholarship with an emphasis on pedagogical and applied research.
3. Engagement in professional and community activities.
4. Integrate professional business education with the liberal arts.

LEARNING GOALS
Ethics. Our graduates will recognize the ethical aspects of business situations, and develop their understanding of how to respond ethically and to promote ethical business practices.
Global Perspectives. Our graduates will exhibit intercultural competence in a global business environment.
Communication. Our graduates will clearly and effectively present their ideas in both written and oral communication.
Analytical Skills and Business Judgment. Our graduates will analyze business problems using appropriate theories and techniques, and use sound business judgment.
Professionalism. Our graduates will understand the importance of professionalism in business practice, and will conduct themselves as business professionals.

Admission Policy
Official admission to the Breech School of Business Administration is required to enroll in any upper-division course (numbered 300 or 400) with prefixes of ACCT, ECON, FINC, MGMT or MKTG.
To be admitted to the Breech School of Business Administration, a student must:
1. Be officially admitted to Drury University.
2. Complete a declaration of major for the Bachelor of Business Administration degree. At this time, students will be required to read and sign the Breech Student Honor Code.
3. Have completed at least 42 hours of college-level credit, including a minimum of 12 semester credit hours at Drury University.
4. Have completed all of the following preparatory courses (or their transfer equivalents) with a minimum grade of “C-” in each of the following courses:
   - ACCT 209 Principles of Accounting
   - GSTU 210 Desktop Applications
ECON 210  Principles of Microeconomics
ECON 211  Principles of Macroeconomics
MATH 201  Mathematics for Social Sciences
MATH 227  Introduction to Statistics
MGMT 250  Management Information Systems

5. Have a minimum cumulative GPA of 2.75 on all Drury University coursework.

**Conditional Admission**

A student not achieving the 2.75 overall GPA, or not achieving the required grades of “C-” in the preparatory courses listed above, or not completing at least 42 hours of college-level credit, including a minimum of 12 semester credit hours at Drury University, may be granted up to two (2) semesters of conditional admission to the Breech School. Conditional admission cannot be granted to a student not achieving both the required GPA and a minimum grade of “C-” in the specified preparatory courses. During the semester(s) of conditional admission, the student will be expected to meet all requirements for full admission. The student, subject to advisor approval, may enroll in a total of 13 hours of upper-division Breech School coursework during the terms of conditional admission. Prior to registration, students are required to complete the *Permission to Enroll in Upper-Division Breech School Courses* form with their academic advisor.

**Students Majoring in Non-Breech School Majors/Minors**

Students who must enroll in a Breech School 300- or 400-level offerings to fulfill requirements of a program NOT offered through the Breech School of Business Administration may be exempted from this admission policy, provided they have completed all other specific prerequisites for the course. Prior to registration, students are required to complete the *Permission to Enroll in Upper-Division Breech School Courses* form with their academic advisor.

**Associate of Science in Business Administration**

The Associate of Science in Business Administration requires a minimum of 24 credit hours.

Preparation Program for Master in Business Administration

**Business Essentials**

*Dr. Jin Wang, Dean of the Breech School of Business Administration*

**PMBA 501. 8 hours.** This intensive five-week course is designed to provide students with a foundation of basic Economic, Finance, Marketing, Statistic, Accounting, and Management skills. The course will meet four nights a week (Monday, Tuesday, Thursday, and Friday) from July through August. Students completing PMBA 501 will receive 8 credit hours of elective credit to apply toward an undergraduate degree from Drury University. Additionally, this course will satisfy all business class prerequisites for entry into the Drury M.B.A. program.
Business and Entrepreneurship

Breech School of Business Administration
Dr. Jin Wang, Dean

The Business and Entrepreneurship minor has been designed to enhance opportunities and professionalism within any major program of study. Whether interested in natural sciences and health care, behavioral sciences, business, the arts, or education, the Business and Entrepreneurship minor will better prepare students to be innovative within established organizations or their own enterprise.

The minor in Business and Entrepreneurship prepares future entrepreneurs by cultivating their creativity in developing new and innovative ideas, developing their abilities to initiate and sustain these ideas and fostering their commitment to social responsibility in the management of their ventures.

The minor in Business and Entrepreneurship focuses on an integration of theoretical and practical knowledge, using business theories and liberal arts education in developing entrepreneurial ideas. A key class is the Ethical Problems/Entrepreneurial Answers class that promotes ethics and critical thinking.

Business and Entrepreneurship Minor

The Business and Entrepreneurship Minor requires 18 credit hours.

Communication

Department of Communication
Jonathan Groves, Chair

Today’s citizen leader requires skill sets in critical reasoning, research, persuasion, and oral and written expression. The communication studies major develops these skills in tandem with the knowledge and experience necessary to participate effectively in organizational, group, sociopolitical, interpersonal and intercultural contexts.

Graduate paths for this major include nonprofit work, law, politics, graduate work, education, health, activism, religion and sales.

Associate of Science in Communication

The Associate of Science in Communication requires 18 credit hours.

Criminal Justice

Department of Behavioral Sciences
Vickie Luttrell, Chair

The field of criminal justice examines the environmental, psychological, and biological causes of criminal behavior, the social institutions that deal with crime, modes of criminal investigation and conviction, and how crime can be prevented.

Criminal justice professionals commonly work for academic institutions, law enforcement or other government agencies, and correctional facilities.

In addition to the course offerings, departmental majors are encouraged to work in community, social and/or correctional agencies where they can apply classroom knowledge to real problems.

Students should have math skills equivalent to MATH 100 or higher before enrolling in BSCI 274.

Associate of Science in Criminal Justice
The Associate of Science in Criminal Justice requires 24 credit hours.

Students should complete all 100-and 200-level requirements before accumulating 60 credit hours (junior status).
The university offers programs for the preparation of elementary and secondary teachers. Students intending to prepare for teaching should visit the School of Education and Child Development website at www.drury.edu/education/admission.

The professional preparation of teachers at Drury University is grounded not only in the academic disciplines, but also in a partnership with public schools. As part of the professional preparation of teachers, students participate in a series of clinical experiences that may begin as early as the freshman year and conclude in the senior year. Clinical experiences include teacher aiding in the public schools, field experiences related to areas of specialization, reading practicum and student teaching. These experiences allow Drury students to gain practical experiences working with special needs children as well as a wide variety of socioeconomic, cultural and ethnic groups.

The mission of professional education at Drury University is to:

- Develop liberally educated professionals who are highly effective teachers and instructional leaders within their respective disciplines and who are knowledgeable and skilled in the areas of child and adolescent development;
- Prepare educators who are proficient in the use of data collection and analysis techniques to ensure that all students, regardless of ability, diversity of background, or other individual differences, will reach their learning potential; and
- Add value to the lives of children of all ages and their families in rural and urban communities throughout the Ozarks’ region and beyond.

At Drury University, we seek to prepare teachers who go beyond technical competence of “what works.” We strive to nurture a disposition and personal commitment that calls for teachers to be reflective, thinking practitioners who have a vision of schools as places of energy, learning, creativity, commitment and decency for all children.

The moral and ethical insights of teaching are taught and these understandings are enculturated throughout the experiences related to the teacher education program. The opportunity to associate with other students and faculty through activities such as the Drury Student Teachers’ Association, Kappa Delta Pi, field experiences and university courses creates a texture of moral and ethical insights and values that foster and renew a high sense of purpose and vision for the teaching profession. The School of Education and Child Development at Drury University strives to create an environment in which persons identify with the teacher preparation program and work cooperatively to revitalize the profession.

Students preparing to enter the teacher education program must be formally admitted. The application for admission is available at www.drury.edu/education. Normally such application is made when a student is enrolled in EDUC 205 Diversity and Social Justice in Education. Students may enroll in the
following courses prior to formal admission to the teacher education program: EDUC 200, 201, 205, 207, 212, 302, 331, 340, and 361. Students must be formally admitted before enrolling in additional courses in the teacher preparation program.

ADMISSION REQUIREMENTS

The following criteria are applied in determining qualifications for admission to the teacher education program:

A. Application submitted to the School of Education and Child Development.

B. Cumulative and Drury GPA of 2.75 or above (includes Drury and all other institutions). Official transcripts for all other post-secondary institutions should be mailed to:

   Drury University
   Lay Hall
   900 N Benton Ave.
   Springfield, MO 65802

C. At least 12 credit hours must be completed at Drury University at the time of application. Students with an Associate of Arts (AA) or an Associate of Arts in Teaching (AAT) degree may have the requirement waived.

D. ACT or SAT score must be on file if 1) applicant graduated high school within five years of date of application to teacher education and 2) began college coursework within one year of high school graduation.

E. Passing score(s) on the state required entrance exam, Missouri General Education Assessment (MoGEA). In addition to paying the registration fee, each testing center administers a sitting fee.

F. Competency in written and oral communications:
   1. Grade of C or higher in one oral communication or speech course.
   2. Grade of C or higher in two writing composition courses.
   3. Evaluation by Drury University faculty related to dispositions.

G. Completion of the foundations of teaching courses: EDUC 200, EDUC 201, EDUC 205, EDUC 207, EDUC 302. Students transferring to Drury University with an Associate of Arts (AA) or an Associate of Arts in Teaching (AAT) must enroll in any uncompleted foundations courses during their first semester at Drury.

H. EDUC 212 or EDUC 213 must be taken concurrently with EDUC 201 or taken during the first semester at Drury if transfer credit is accepted from another institution for EDUC 201.

I. EDUC 200 Technology in the Classroom must be retaken if the course, or an approved equivalent from another institution, was completed seven or more years prior to the time of applying for admission to the teacher education program. A student previously admitted to the teacher education program must retake EDUC 200 or its equivalent, if the course was completed seven or more years prior to the time of applying for student teaching.

J. Criminal background check: Online registration at www.dhss.mo.gov/FCSR (click on “Register Online”). Print receipt verifying you are in the system and send to Lay Hall. Once the background check has been completed, the results will be mailed to the student and the School of Education and Child Development.

K. Subscription to online portfolio. This will be introduced during EDUC 200, EDUC 201 and EDUC 205.

L. It should be noted that admission to the teacher education program is not the same as being
admitted to Drury University as an undergraduate or graduate student. Admittance to the teacher education program is required for initial state certification.

M. Permission to enter professional education methods courses will normally not be granted until the student’s application for admission to the teacher certification program has been approved.

STUDENT TEACHING REQUIREMENTS

Applications for student teaching are required no later than:

1. August 1, if the individual plans to register for student teaching during the spring semester; or
2. February 1, if the individual plans to register for student teaching during the fall semester.

The following requirements must be met before a student can register for student teaching:

A. Status of full admission to the teacher education program;

B. All prerequisite course requirements are completed:

1) Cumulative grade point average of at least 2.75 based on all work completed at Drury University and all work transferred to Drury University.

2) Cumulative and Drury GPA of 2.75 or above. All foundational education courses must be completed with a grade of C or above (a grade of C- will not meet the requirement). Once admitted to the teacher education program, all education methods courses must be completed with a grade of B or higher (a grade of B- will not meet the requirement) in order to be recommended for certification. Those courses include: EDUC 338, EDUC 356, EDUC 380, EDUC 382, EDUC 407, EDUC 409, EDUC 452, EDUC 455, EDUC 361, EDUC 308, EDUC 331, EDUC 304, and EDUC 385. For those pursuing middle school, 9-12, or K-12 certification, the discipline specific content GPA must be 3.00 or higher. It should be noted that EDUC 361 (all certification areas) is an upper-level course required for teacher certification. Students can enroll in this course prior to admission to teacher education, but the course must be completed with a grade of B or higher in order to be recommended for certification (a grade of B- will not meet the requirement) so it is listed in the academic catalog as a methods course. All field experience and professional learning critical thinking courses must be completed with a grade of Satisfactory. In addition, a grade of B or higher (a grade of B- will not meet the requirement) for the 10 hours of student teaching must be earned in order to be considered a program completer and eligible to be recommended for state certification.

3) In the event that a student is disapproved for student teaching based on the grade point average or a negative decision regarding his or her potential effectiveness as a teacher, he or she will be so notified in writing. If the student desires to appeal the decision, he or she may do so in writing to the Dean of the School of Education and Child Development. The appeal will be referred to the Vice President of Academic Affairs who will appoint a committee of three faculty members with whom the applicant has had classes to make recommendations regarding this appeal.

C. Approval by the Teacher Education Council based upon a review of the student’s record indicating completion of all course requirements, grade point average requirements, recommendation from the student’s advisor and chair of the content area department and such other recommendations considered appropriate by the Dean of the School of Education and Child Development;

D. Students applying for student teaching should expect to carry a reduced academic and employment load while participating in this important experience.

E. Enrollment in student teaching (EDUC 476, EDUC 477 or EDUC 478) requires a full-day placement for a minimum of 16 weeks. Student teaching carries ten hours of credit and requires a minimum of 640
A $250 course fee is assessed for all candidates; an additional $200 is assessed for candidates student teaching out of area.

F. Students must attempt the appropriate state-determined content exam(s) and upload documentation of this attempt when applying for student teaching. If the exam(s) is passed, students are not required to enroll in EDUC 475 Review for Teacher Certification Exam. If the exam(s) is not passed, students will enroll in EDUC 475 Review for Teacher Certification Exam during the student teaching semester. **EDUC 475** is intended to provide support and assistance to students as they prepare to take the exam(s) a second time. **There is no charge for the course EDUC 475. S/U grading.**

G. **PROFESSIONAL LIABILITY**

Upon approval to student teach, candidates will receive written notification of the requirement to have professional liability insurance at the time of enrollment in student teaching. Options for coverage may be obtained through membership in either the Student Missouri State Teachers Association (MSTA) or the Student National Education Association (NEA). Candidates already employed with a local school district are subject to the requirements of the employing school district. Verification of insurance must be on file with the School of Education and Child Development office at the Springfield campus by the beginning of the semester in which student teaching takes place.

H. Teacher candidates must complete all content courses required for certification before they begin their student teaching semester.

The elementary education program and specific secondary content areas at Drury University are approved by the Missouri Department of Elementary and Secondary Education (DESE) ([www.dese.mo.gov](http://www.dese.mo.gov)). The professional education unit has been approved by the Council for the Accreditation of Educator Preparation (CAEP) ([http://caepnet.org](http://caepnet.org)). The elementary education program is also approved by the Association for Childhood Education International (ACEI) ([http://acei.org](http://acei.org)).

It is the policy of the Drury University teacher education program to accept transfer credit in professional education that are awarded only by institutions accredited by NCATE/CAEP and/or education programs approved for teacher certification by state departments of elementary and secondary education.

Elementary and secondary education programs of study are available at [http://www.drury.edu/education](http://www.drury.edu/education)

**Associate of Science in Foundations in Education**

The Associate of Science in Foundations in Education requires a minimum of 19 credit hours.

The Elementary Education Major has free electives remaining to meet the graduation requirement of at least 124 hours. Teacher candidates may elect to take courses in math, science, social science, or language arts as recommended by their advisor.

Recommended education-specific electives are provided below for those who wish to deepen their understanding of special education. The courses are designed to provide the knowledge necessary to successfully pass the content assessment for Mild/Moderate Cross Categorical Disabilities required for add-on certification in this area. These courses will not lead to initial certification in the area of Mild/Moderate Cross Categorical Disabilities.

All students are required to earn the specified grades for all courses leading to state certification. A complete list of those grade requirements is provided at [http://www.drury.edu/education/state-teacher-certification](http://www.drury.edu/education/state-teacher-certification).

Students are required to use the program of study found at www.drury.edu/education to fulfill state certification requirements. This documentation should be reviewed with an assigned academic advisor each semester prior to registration.

The Missouri Department of Elementary & Secondary Education-Office of Educator Quality is working with representative stakeholder groups to redesign the standards for educator preparation including certification requirements. These changes and implementation schedule will be communicated to students through individual advising sessions, meetings, and/or other university communications. If there are any questions and/or concerns, please contact the Director of Educator Preparation in the Office of Educator Quality (in Jefferson City, Missouri).

**Bachelor of Science in Secondary Education**
The Bachelor of Science in Secondary Education requires a minimum of 46 credit hours.

Students seeking Missouri state certification in a secondary education content field must complete the required courses for that academic major. The required courses that meet graduation and state certification requirements can be acquired from the School of Education and Child Development and/or the content area department.

Secondary Education Majors must select one of the content areas below for certification:

- Biology
- English
- History

Concurrent Credit
The School of Education and Child Development offers a concurrent credit option for undergraduate education students meeting the requirements described in the Graduate Catalog. Eligible students may enroll in up to 9 credit hours of selected graduate courses from the Master in Education programs. Successful completion of these courses will earn both undergraduate credit toward the bachelor’s degree and graduate credit toward a master in education degree. This opportunity allows students to save on tuition costs and expedite their progress toward a Master in Education degree.

Troops to Teachers Program at Fort Leonard Wood
(Certification Only)

Offered at the Ft. Leonard Wood/St. Robert Annex Campus Only

Drury University provides the Troops to Teachers program at the Fort Leonard Wood/St. Robert Annex campus. This program for qualified military personnel and retirees operates under the national Troops to Teachers program managed by Defense Activity for Non-Traditional Education Support (DANTES).

Troops to Teachers is a Department of Defense program that helps eligible military personnel begin a new career as teachers in public schools where their skills, knowledge and experience are most needed. At Drury University, the Troops to Teachers program prepares military veterans for careers in education. Drury University offers certification in the areas of Elementary Education and Middle School (grades 5-9) mathematics, science, social studies, and language arts.

Students in the Troops to Teachers program at Drury University pursuing teacher certification are not required to earn a degree; they only earn certification in their chosen teaching field.

Students in the Troops to Teachers program may apply for admission to the Elementary or Middle School Curriculum and Instruction Master’s in Education program at Drury University to enroll in graduate level courses required for teacher certification. Students may choose to fully complete the graduate degree or choose the undergraduate course options and not pursue a graduate degree.
Emergency Management

Ty Davisson and Ryan Nicholls, Content Experts

The Bachelor of Science in Emergency Management degree program is designed to provide a well-rounded learning experience to current and future emergency management leaders in the public, private, and voluntary sectors. The curriculum blends theoretical perspectives with professional practice and emphasizes application of knowledge to real-world practical settings. It highlights the fundamentals of emergency management while providing an interdisciplinary course of study in the skills and practices necessary to enhance resiliency for communities or organizations.

Associate of Science in Emergency Management

The Associate of Science in Emergency Management requires a minimum of 18 credit hours.

- EMMT 103 Exercise Concepts and Design 3 hrs.
- EMMT 202 Hazard Identification 3 hrs.
- EMMT 203 Introduction to Terrorism 3 hrs.
- LDST 101 Foundations of Organizational Leadership 3 hrs.
- LDST 250 Financial Basics for Leaders 3 hrs.

Bachelor of Science in Emergency Management

The Bachelor of Science in Emergency Management requires a minimum of 42 credit hours.

- EMMT 202 Hazard Identification 3 hrs.
- EMMT 301 Social Aspects of Disaster 3 hrs.
- EMMT 303 Disaster Planning and Preparedness 3 hrs.
- EMMT 305 Disaster Response 3 hrs.
- EMMT 307 Disaster Recovery 3 hrs.
- EMMT 401 Hazard Mitigation 3 hrs.
- EMMT 403 Private Sector Crisis & Emergency Management 3 hrs.
- EMMT 405 Public Information Management 3 hrs.
- EMMT 497 Internship 3 hrs.
- LDST 250 Financial Basics for Leaders 3 hrs.
- LDST 300 Theories/Models of Leadership 3 hrs.
- LDST 331 Negotiation/Conflict Resolution 3 hrs.
- LDST 400 Grant Writing 3 hrs.
English and Writing

Department of Languages and Literature
Kevin Henderson, Chair

The Department of English has the following Learning Objectives

Students should be able to:
1. Challenge ideas critically and creatively;
2. Appreciate the changing canons of American, British and world literature and question the authority of classic texts;
3. Deploy a vocabulary for analyzing poetry, fiction, nonfiction, drama and other cultural artifacts in terms of form and content;
4. Respond specifically and meaningfully to their own writing and to that of their peers;
5. Write with clarity, insight, purpose and power for a variety of audiences and occasions;
6. Analyze language in its historical, cultural, literary and linguistic contexts;
7. Utilize helpful primary and secondary sources so that they can become independent researchers and writers;
8. Demonstrate the link between their study of literature and writing and their lives beyond college, including social issues and vocations.

Associate of Science in English and Writing
The Associate of Science in English and Writing requires a minimum of 24 credit hours.

**Foundations** 18 hrs.
ENGL 200 Literature Matters 3 hrs.
ENGL 207 Expository Writing: Art of the Essay 3 hrs.
ENGL 253 Grammar and Style 3 hrs.
ENGL 266 Creative Writing I-Fiction 3 hrs.
ENGL 267 Creative Writing I-Poetry 3 hrs.
ENGL 268 Creative Writing I-Non-Fiction 3 hrs.

**British Literature**
ENGL 202 British Literature II-Nineteenth Century Through The Present 3 hrs.

**American Literature**
ENGL 204 American Literature II-1865-1980 3 hrs.

Environmental Policy and Regulations

*Department of Biology*
*Kevin P. Jansen, Chair*

The Environmental Studies majors are designed to prepare students for careers in Environmental Management as either regulatory agents in military or civilian regulatory agencies, or as compliance officers in businesses, public schools, and/or hospitals. Graduates may also pursue careers in environmental consulting firms and not-for-profit environmental organizations. Both the B.S. and A.S. degrees are grounded in the basic sciences to ensure a solid foundation for the applied discipline of environmental management.

**Associate of Science in Environmental Policy and Regulations**
The Associate of Science in Environmental Policy and Regulations requires a minimum of 24 credit hours.

Environmental Management and Assessment

Department of Biology  
Kevin P. Jansen, Chair

The environmental assessment and management degree is grounded in the basic sciences to ensure a solid foundation for the applied discipline of environmental management but also provides practical coursework relevant to the field. This degree is designed to prepare students for careers in environmental management as either regulatory agents in military or civilian regulatory agencies, or as compliance officers in businesses, public schools, and/or hospitals. Graduates may also pursue careers in environmental consulting firms and not-for-profit environmental organizations.

Bachelor of Science in Environmental Management and Assessment

General Biology

*Department of Biology*
*Kevin P. Jansen, Chair*

The department of biology offers a Bachelor of Science degree in the CCPS program. This degree is designed to provide students with a broad background in biology that will allow the student to pursue a variety of postgraduate opportunities, such as allied health professions, positions in environmental science or biology-related positions in industry. Students majoring in general biology must take a minimum of 35 semester hours in biology.

**Bachelor of Science in General Biology**

General Studies

TBA, Coordinator

The programs for the degree Bachelor of General Studies (BGS) and the Associate of Science (AS) with an area of concentration in general studies are designed to provide an alternative to conventional degree programs and majors.

The BGS degree program is designed specifically for
(1) Persons with technical training who wish to broaden their specialized background to include a liberal arts education, or
(2) Persons who wish to develop an interdisciplinary program tailored to their individual needs and interests.

A complete description of the requirements for the General Studies major can be found in the Academic Affairs section of this catalog under the sub-head: “Bachelor of General Studies.”

Associate of Science in General Studies
The Associate of Science in General Studies requires a minimum of 21 credit hours.

Graphic and Digital Design

Department of Fine and Performing Arts
Stephen Bomgardner, Chair

The Department of Fine and Performing Arts supports a variety of approaches to the creation and examination of both the visual and performing arts. Through creative endeavor we challenge our students to celebrate, explore and express the human condition, pushing through conventional boundaries while forming meaningful connections with both local and global communities. We affirm the arts as an integral part of our culture and a critical component of a liberal arts education in the 21st century.

The department offers a variety of majors in the discipline of arts administration, music, theatre, and visual arts. Students are encouraged to explore connections that embrace the diversity of the liberal arts.

Programs in art and art history offer:
- Introductory courses designed to develop appreciation and increased understanding of the fine arts and their contribution to the cultural life of society.
- Advanced courses leading to and academic major or minor in art history, design arts or fine arts.
- Special programs formulated to prepare the student for graduate study or a professional career.
- Support courses leading to a professional degree in architecture and state certification in art education.

Prior to selecting the Graphic and Digital Design major, students should consult with their advisor and the chair of Art and Art History. All students who decide to major in art history, Graphic and Digital Design, or fine arts should officially elect a faculty member from the department as their formal advisor and consult with that faculty member prior to course registration each semester.

This major is appropriate for students who:
- Wish to pursue a career in graphic design, web development, commercial photography, art direction, and multimedia artists; or
- Plan to seek admittance into a graduate program in fine arts, in which additional Advanced Studio coursework and a second major in art history or fine arts is highly recommended.

The graphic design and design arts major is only available through the Springfield campus.

Please note that ARTZ 111 is offered in the fall semester only. ARTZ 496 Apex Studio is to be taken in the spring semester of the year the student graduates. To enroll in ARTZ 496 students are required to fill out a “Permission to Register for Special Coursework” form.
**Bachelor of Science in Graphic and Digital Design**
The Bachelor of Science in Graphic and Digital Design requires a minimum of 24 credit hours.

Health Services Management

Continuing Professional Studies
TBA, Chair

The Health Services Management major is particularly appropriate for those who want the leadership, supervisory, administrative skills and degree required for upward mobility within healthcare organizations. These individuals already have the appropriate academic preparation and licensures, the necessary clinical skills, and the proper in-service training in a health-related discipline. This degree program has two tracks. The first option is a degree completion program for registered nurses, radiological technologists, respiratory therapists, physical therapy assistants, occupational therapy assistants, emergency medical services personnel, and other related professionals. The second is for students participating in the Drury University/Cox College Dual Health Degree Cohort.

Health and Wellness

Department of Biology
Kevin P. Jansen, Chair

The Associate of Science degree in Health and Wellness is intended for anyone seeking a healthier lifestyle for themselves, their families, or clients in non-clinical settings. This program is designed to prepare students for careers in recreation, health and wellness coaching, and personal training. This program is also designed for health care professionals interested increasing the knowledge of health and wellness and integrating it into their practice.

Associate of Science in Health and Wellness
The Associate of Science in Health and Wellness requires a minimum of 21-25 credit hours.

History

Department of History, Philosophy and Religion
Ted Vaggalis, Chair

History is the study of peoples, societies and events from the earliest times to the present. By studying the past, historians seek to provide meaningful interpretations of the human experience. History is grounded in the examination of primary sources such as documents, wills, poems or artifacts in order to illuminate the past. Studying the traditions, events and decisions of those in the past provides insights for the contemporary world. The history major serves as excellent preparation for careers in education, public policy, consultancy, museum work, law, park service, libraries and business. History majors have attended graduate and professional schools in history, anthropology, museum studies, divinity studies, law and medicine. The analytical thinking and writing skills associated with history provide important professional and civic competencies for practical application in many fields.

The Department of History offers introductory survey courses, research methods seminars and upper level subject studies in American, European, African, Asian and Middle Eastern history. Many of the courses are writing intensive and strive to prepare the history major for professional careers in the field.

The History Program offers two tracks, one for History majors, and the other for students pursuing majors in both History and Secondary Education. Track 1: History, requires a minimum completion of 42 credit hours. Track 2: History-Secondary Education requires a minimum of 42 hours. Do note, Track 2: History-Secondary Education requires the necessary Department of Education courses needed to earn a major in Secondary Education. Please refer to the Secondary Education section of this catalog for specific requirements.

The following courses are required for all History majors: 39 hrs.

Human Services

Department of Behavioral Sciences
Vickie Luttrell, Chair

The field of Human Services focuses on meeting the basic needs of our communities, including the health and well-being of individuals and families, assistance with social services, helping with preventing and solving problems, and striving to provide the highest quality of life possible. In the program, students take courses related to counseling, diversity, human development, relationships and group dynamics, and helping people in various capacities.

Although many career paths require advanced training and/or certification, students majoring in Human Services commonly become social workers, mental health counselors, human service assistants, case workers, and public administrators.

Bachelor of Science in Human Services
The Bachelor of Science in Human Services requires a minimum of 42 credit hours.

Law Enforcement

Tony Bowers, Director  
Department of Behavioral Sciences  
Vickie Luttrell, Chair

Drury University Law Enforcement Academy
The Drury University Law Enforcement Academy provides professional training for those interested in pursuing a career in law enforcement.

The 750-hour basic training academy is offered on the Drury University campus in Springfield, Missouri, and is certified by the State of Missouri Department of Public Safety. The academy meets the State of Missouri’s minimum training requirement for Class A certification of peace officers.

Brief summaries of the classwork involved in the 24 credit hour undergraduate curriculum can be found under the LEA course descriptor code in the Course Descriptions section of this catalog.

In outline, the academy provides training for its students in the following areas:

**Legal Studies**  
- Constitutional law  
- Traffic law

**Interpersonal Perspectives**  
- Ethics and Professionalism  
- Human Behavior  
- Police Supervision

**Technical Studies**  
- Patrol Duties/ Traffic Enforcement  
- Criminal investigation  
- Report Writing  
- Juvenile Justice and Procedures  
- First Aid (First Responder)  
- SFST / DWI certification  
- Type III BAC certification  
- Stationary Radar Certification

**Skill Development**  
- Defensive Tactics  
- Firearms  
- Driver Training  
- Practical Application Exercises  
- Physical Fitness
Certificate in Law Enforcement Studies

This program will provide above average training to those who seek to become a peace officer in Missouri and other states. The Drury Law Enforcement Academy (LEA) provides 750 contact hours of training, (150 hours more than required by the State of Missouri-POST) for those who seek a Missouri Class A Peace Officer license. POST sets learning objectives for each block of training objective each training academy develops lesson plans to meet those objectives.

Certificate in Law Enforcement Studies

The Certificate in Law Enforcement Studies requires 24 credit hours.

- LEA 200 Basic Peace Officer Training I 3 hrs.
- LEA 210 Basic Peace Officer Training II 3 hrs.
- LEA 211 Basic Peace Officer Training III 3 hrs.
- LEA 282 Defensive Tactics for Peace Officers 3 hrs.
- LEA 283 Fundamentals of Firearm Marksmanship 3 hrs.
- LEA 284 Professionalism and Ethics in Law Enforcement 3 hrs.
- LEA 285 Foundations of Law Enforcement Leadership 3 hrs.
- LEA 293 Basic Peace Officer Training IV 3 hrs.

Associate of Science in Law Enforcement

The Associate of Science in Law Enforcement requires 24 credit hours.

- CRIM 102 Introduction to Criminology 3 hrs.
- CRIM 221 Victimology 3 hrs.
- LEA 200 Basic Peace Officer Training I 3 hrs.
- LEA 210 Basic Peace Officer Training II 3 hrs.

- LEA 282 Defensive Tactics for Peace Officers 3 hrs.
- LEA 283 Fundamentals of Firearm Marksmanship 3 hrs.
- LEA 293 Basic Peace Officer Training IV 3 hrs.
Bachelor of Science in Law Enforcement with a Leadership Concentration

Drury University’s Bachelor of Science (B.S.) in Law Enforcement with a Leadership Concentration is designed to prepare new and veteran law enforcement personnel with theoretical and practical knowledge of current investigative and procedural techniques, in addition to developing effective communication and leadership skills.

This degree prepares graduates for a successful, rewarding career in local, state, and federal justice systems. Our degree program is specifically designed for the working professional. The B.S. in Law Enforcement can be completed through a combination of evening, online, and blended courses.

The Bachelor of Law Enforcement with a Leadership Concentration requires a minimum of 45 credit hours.

Organizational Studies

Steven K. Bryant, Content Expert

These degree programs are designed for adults who wish to assume leadership, supervisory and administrative roles within organizations. Coursework focuses on the behavioral and practical aspects of leading, motivating, and communicating with individuals in modern organizations.

Associate of Science in Organizational Studies
The Associate of Science in Organizational Studies requires a minimum of 21 credit hours.

- COMM 231 Integrated Brand Management 3 hrs.
- ECON 210 Principles of Microeconomics 3 hrs.
- LDST 101 Foundations of Organizational Leadership 3 hrs.
- LDST 250 Financial Basics for Leaders 3 hrs.
- LDST 260 Fundamentals of Leadership I 3 hrs.
- LDST 270 Fundamentals of Leadership II 3 hrs.
- MATH 227 Introduction to Statistics 3 hrs.

Bachelor of Science in Organizational Communication and Development Major
The organizational communication and development major provides a broad base of knowledge including advertising, psychology, conflict resolution and ethical issues in addition to the foundations of communication, leadership and organizational principles.

The Bachelor of Science in Organizational Communication and Development requires a minimum of 36 hours.

- COMM 231 Integrated Brand Management 3 hrs.
- LDST 101 Foundations of Organizational Leadership 3 hrs.
- LDST 250 Financial Basics for Leaders 3 hrs.
- LDST 300 Theories and Models of Leadership 3 hrs.
- LDST 310 Contemporary Workforce Issues 3 hrs.
- LDST 325 Leading & Integrating Technology in Organizations 3 hrs.
- LDST 331 Negotiation & Conflict Resolution 3 hrs.
- LDST 338 Organizational Relations 3 hrs.
- LDST 420 Managing Multicultural Organizations 3 hrs.
- LDST 425 Leading Corporate Social Responsibility and Sustainability 3 hrs.
- LDST 450 Ethics and Leadership 3 hrs.
- MATH 227 Introduction to Statistics 3 hrs.
Medical Sciences

Associate of Science in Emergency Medical Science
Students pursuing an associate of science degree in emergency medical science are required to have completed an approved emergency medical science program for which 30 semester hours credit for satisfactory completion will be awarded. Credit also is awarded for military training in this specialty upon completion of national registry certification.

The Associate of Science in Emergency Medical Science requires 34-38 credit hours.

Transfer Program 30 hrs. (minimum)
Choose One: 4-8 hrs.
BIOL 207: Anatomy and Physiology 4 hrs.
BIOL 205: Human Anatomy & BIOL 206: Human Physiology 8 hrs.

Associate of Science in Radiologic Technology
The Radiologic Technology Program developed between Drury University and the Rolla Technological Institute (RTI) is a 20-month, full-time certificate program. The course consists of classroom instruction, lab demonstrations and clinical training in local health care facilities correlated into six semesters. The program satisfies requirements set forth by the Joint Review Committee for Education in Radiologic Technology. The following curriculum may vary depending on when the student starts the program.

A maximum of 45 semester hours of credit may be awarded for completion of the radiologic technology program and the national registry certification program. Credit also is awarded for military training in this specialty upon completion of national registry certification.

The Associate of Science in Radiologic Technology requires 49-53 credit hours.

Transfer Program 45 hrs. (minimum)
Choose One: 4-8 hrs.
BIOL 207: Anatomy and Physiology 4 hrs.
BIOL 205: Human Anatomy & BIOL 206: Human Physiology 8 hrs.

Associate of Science in Surgical Technology
Drury awards 30 semester hours credit for satisfactory completion of an approved surgical technology program to be used toward the Associate of Science in Surgical Technology. Credit also is awarded for military training in this specialty upon completion of national registry certification.

The Associate of Science in Surgical Technology requires 34-38 credit hours.

Transfer Program 30 hrs. (minimum)
Choose One: 4-8 hrs.
BIOL 207: Anatomy and Physiology 4 hrs.
BIOL 205: Human Anatomy & BIOL 206: Human Physiology 8 hrs.
Paralegal Studies

David Mercer, Content Expert

The Paralegal Studies degree provides a conceptual appreciation for the essential principles, doctrines, rules, and structural elements of the American legal system and the practice of law. This program provides a focused study of American court systems, constitutional law, criminal law, civil law (including torts, contract law, and family law), legal research, legal writing, discovery, and interviewing and investigating. Through the Legal Practicum, which is an unpaid internship with a practicing attorney, emphasis is also placed on a practical application of the above legal concepts in the real practice of law. This degree provides a strong basis for paralegals seeking employment in a wide variety of legal practices.

Associate of Science in Paralegal Studies
The Associate of Science in Paralegal Studies requires a minimum of 21 hours.

Students must have a cumulative GPA of 2.75 in the required LEGA courses and the two ENGL writing courses (ENGL 150 and ENGL 207) before registering for LEGA 275.
Pre-Ministerial Studies

*Department of History, Philosophy and Religion*  
*Ted Vaggalis, Chair*

The Associate of Science in Pre-Ministerial Studies degree is designed to prepare the student for entry into a Bachelor’s degree, seminary, or for lay work in religious organizations. It provides an introduction for an ecumenical religious education, and ethically informed approach to local, regional, and global inequities; and strategies for leadership in religious organizations.

**Associate of Science in Pre-Ministerial Studies**

The Associate of Science in Pre-Ministerial Studies requires a minimum of 21 credit hours.

Psychology

Department of Behavioral Sciences
Vickie Luttrell, Chair

Psychology is the scientific study of behavior and mental processes. As a discipline, psychology helps students better understand themselves and others, and it has real-world applications ranging from stress, health, and mental illness to personal development, social interaction, and group dynamics, just to name a few. Although many career paths require advanced training and/or certification, students majoring in psychology commonly become mental health counselors, marriage and family therapists, school counselors, social workers, child care workers, and case managers. In addition to the course offerings, departmental majors are encouraged to work in community, social and/or correctional agencies where they can apply classroom knowledge to real problems.

Students should have math skills equivalent to MATH 100 or higher before enrolling in BSCI 274.

Spanish

Department of Languages and Literature
Kevin Henderson, Chair

The completion Bachelor’s Degree allows students who already have an Associate’s Degree in Spanish to build on that foundation to complete a Bachelor’s Degree. This completion degree will be an option for students in seated classes, but will also be fully available online. Of these online classes, students must be available for regular face-time communication with the instructor while completing the senior seminar.

Exit Proficiency Exam: Students must test at, at least, the ACTFL level of “Advanced high” in speaking and listening, as determined by a Drury Administered Oral Proficiency Interview Exam (OPI).

Bachelor of Science in Spanish

Course Descriptions

Accounting (ACCT)

**ACCT 210 Accounting for Management. 3 hours. Prerequisite:** DAY-ACCT 209, MGMT 170. CCPS-ACCT 209, GSTU 210 or GSTU 211. This course provides an introduction to concepts essential to managerial decision-making as well as the tools and techniques of financial statement analysis with an emphasis on the use of financial statements for external and internal decision-making. Among the topics covered are profitability and ratio analysis, cash flows analysis, present value, inventory costing, cost-volume-profit analysis, variance calculation, and budgeting.
Anthropology (ANTH)

**ANTH 111 Introduction to Anthropology. 3 hours.** A survey that builds on basic anthropological concepts, methodologies, and theories to examine human cultures in a variety of geographic and historical contexts. Topics include human origins, biological evolution, archaeology, gender, health, religion, family and marriage, economics, political organization, and representation.

**ANTH 112 Introduction to Archaeology. 3 hours.** An overview and analysis of the basic knowledge and methods utilized in the excavation and reconstruction of the remains of past cultures.
Art History (ARTH)

ARTH 151 History of Art and Architecture I. 3 hours. An analytical survey of western traditions in art and architecture from the Paleolithic through the Middle Ages, including such periods and styles as Egyptian, Greek, Roman, Early Christian, Romanesque and Gothic. Analysis of these traditions develops an awareness of non-western traditions. Dual Credit Course Only.

ARTH 152 History of Art and Architecture II. 3 hours. An analytical survey of western traditions in art and architecture from the Renaissance to the present, including such periods and styles as Baroque, Neoclassical, Romanticism, Modern and Contemporary. Analysis of these traditions develops an awareness of non-western traditions. Dual Credit Course Only.

ARTH 153 Visual Literacy-Art History and Culture. 3 hours. Using a range of visual objects, from contemporary advertisements to works of art, from ancient artifacts to architecture and graphic novels, this course introduces students to the skills of critical seeing, analysis and interpretation to help them make meaning from, and discern cultural values encoded within, visual imagery.

ARTH 350 Modern Art. 3 hours. An in-depth examination of art from the Romantic period (circa 1800) to the emergence of the Modern Period (1850) and through the twentieth century to 1990.

ARTH 356 Contemporary Art. 3 hours. This course presents an international survey of contemporary art from 1970 to the present. It examines such topics as post-modernism, feminist art, instrumentalism and outsider art. Course may include on-site visits to galleries and museums.

ARTH 360 History of Photography. 3 hours. A survey of the aesthetic and technical development of photography from its origin to the present. Particular emphasis will be given to the contextual relationships of photographic imagery to the visual arts and to the culture at large.

ARTH 364 The Printed Book as Art and Artifact, 1450 to 1850. 3 hours. An introduction to printing history and the history of the book. This course examines the development of printing, including the development of allied arts such as type-cutting and casting, papermaking, bookbinding and illustration. It also seeks to study the cultural contexts of printing and the book, with special emphasis on the rise of a reading public. Students will examine and handle examples from the library’s rare book collection.

ARTH 370 Asian Art and Architecture. 3 hours. A survey of the arts of China, Japan, Korea, India and South Asia. The course covers the major movements in Asian art and architecture from prehistoric cultures to the present.

ARTH 371 Early Islamic Art and Architecture. 3 hours. An in-depth examination of Islamic art and architecture in its formative period from the seventh through the 14th centuries. This course seeks an understanding of Islamic art and architecture in its cultural context by locating both its unique characteristics and its roots in Sassanian, Byzantine and Arabic traditions.

ARTH 374 Native American Architecture. 3 hours. Prerequisite: ARTH 153. This course examines the architectural traditions of indigenous peoples of North America and their relationship to historical, environmental, religious, economic and social imperatives.
Design Art and Fine Arts (ARTZ)

**ARTZ 111 Foundations of Studio and Design. 3 hours.** An introduction to design. Basic creative approaches and design expressions are explored through studio projects and class discussions. This course is the first in a sequence of studio courses for both art and architecture majors, but also serves non-majors. *Offered fall semester.*

**ARTZ 123 Drawing. 3 hours.** Students will work in a variety of drawing media and techniques solving representational problems. This course includes an introduction to figure drawing.

**ARTZ 205 Weaving I. 3 hours.** An introduction to principles and techniques of loom and off-loom weaving. *Course fee required.*

**ARTZ 206 Fibers I. 3 hours.** An introduction to two and three dimensional fiber techniques and structures. Emphasis will be placed on using a variety of techniques in the execution of assigned problems. Experimental use of materials will be encouraged. *Course fee required.*

**ARTZ 210 Graphic Design I. 3 hours.** This course familiarizes students with the foundations skills of graphic design from sketch through comprehensive design. It introduces vocabulary, research, typography, design process, and exploration of design elements and principles through visual design problem solving. Students will develop presentation skill and familiarity of professional tools and techniques. This course will introduce the student to industry standard software applications and critical analysis of design work through written and verbal presentations. Studio fee required.

**ARTZ 230 Painting I. 3 hours.** This course will cover the studio experience and demonstration in observation-based painting. Problems are assigned as a means of allowing students to come to terms with the technical aspects of painting through actual involvement with the painting process.

**ARTZ 240 Ceramics I. 3 hours.** Exploration of hand building and wheel techniques and basic principles of glazing. *Course fee required.*

**ARTZ 250 Sculpture I. 3 hours.** This course is an introduction to sculpture. In the studio the student will explore various approaches to contemporary and traditional sculptural problems by working with a variety of media. This course focuses on developing the technical skills and aesthetics considerations as they relate to various materials and processes used in sculpture. *Course fee required.*

**ARTZ 260 Photography I. 3 hours.** This course covers basic principles of photography, both digital and analog. Students will learn manual camera operation as well as darkroom printing techniques and basic Photoshop skills within a historical and cultural context of the medium. Students will be introduced to critical analysis of art works through written and verbal presentations. Both a DSLR and SLF 35mm camera with shutter and aperture control are required for this course. Cameras are available to rent throughout the semester. Course fees required.

**ARTZ 310 Graphic Design II. 3 hours.** *Prerequisite: ARTZ 210.* This course is a continuation of the exploration of graphic design elements and principles study through more complex and comprehensive solutions. The student will deal with experimentation through research, conceptual thinking and process dealing with brand identity, logo, publication and UX/UI design problems. Students will learn new tools and techniques for the development of design solutions from prototype through comprehensive solution. The students will further develop writing and presentation skills through critical analysis of historical design works and user/audience research. Studio fee required.

**ARTZ 311 Publication Design. 3 hours.** *Prerequisite: ARTZ 210 and ARTZ 310.* This course explores the design and production of printed material, the use of grid design, the study of typography and software production techniques for books, magazines, newspapers and electronic publications. Students will build strong technical skills as it relates to prepress production and photo editing, typography and layout, while conceptualizing, designing and producing projects. Students will continue to develop writing, research and presentation skills related to the professional practice in development of their work. Studio fee required.
ARTZ 312 Illustration. 3 hours. Prerequisite: ARTZ 123. A course designed to give a general understanding and awareness of illustration styles and techniques in a variety of media.

ARTZ 328 Digital Illustration. 3 hours. Prerequisite: ARTZ 210 and ARTZ 310. This course will explore the production, manipulation and techniques involved in the creation of digital imagery. The projects will include topics such as conceptual approach to illustration, subject matter, editorial and business/information graphics, retouching, compositing, color correction and production of visual imagery. Emphasis will be placed on creativity, reasoning, research and technical proficiency. The students will develop contemporary illustration skills related to the field while conducting research, writing and presentation. Studio fee required.

ARTZ 329 Typography. 3 hours. Prerequisite: ARTZ 210 and ARTZ 310. This course will explore the fundamentals of typographic form and function in a variety of traditional and contemporary media. Through a series of exercises, the student will investigate the relationship between the visual and verbal language, complex problems addressing hierarchy, communication, and comprehension and gestalt theory. This course will also explore vocabulary, history, grid design and experimentation while expanding on the student’s research, writing and presentation skills. Studio fee required.

ARTZ 335 Painting: Studio Explorations. 3 hours. Prerequisite: ARTZ 230. In this course students will learn advanced studio problems in painting with an emphasis on the further development of one medium and of individual expression. Students will further develop their writing and presentation skills through critical analysis of works of art.

ARTZ 338 Painting: The Expanded Field. 3 hours. Prerequisite: ARTZ 230 and ARTZ 335. This course continues the acquisition of technical skills and builds on skills and concepts introduced in ARTZ 230 and ARTZ 335 while focusing more fully on the evolution of the individual investigation in the student’s work. Exploration and critique of personal and/or cultural ideologies, beliefs, and interests through the activity of painting and reflection on the results and their implications will be investigated. Students will develop a framework with which to critically evaluate their own artistic investigations through research, writing, and presentation.

ARTZ 345 Ceramics: Studio Explorations. 3 hours. Prerequisite: ARTZ 240. This course will expand on exploration of ceramic processes, materials, tools, and equipment such as hand building, wheel throwing, mold-making or slip casting. Continued development of personal expression, conceptual development, aesthetic and technical competency will be emphasized. Students will further develop their writing and presentation skills through critical analysis of works of art. Course fee required.

ARTZ 355 Sculpture: Studio Explorations. 3 hours. Prerequisite: ARTZ 250. This course will expand on exploration of sculptural processes, materials, tools, and equipment. Emphasis will be placed on developing proficiency in the selection, use, and manipulation of materials as well as a mastery of the processes involved. Continued development of personal expression, conceptual development, aesthetic and technical competency will be emphasized. Students will further develop their writing and presentation skills through critical analysis of works of art. Course fee required.

ARTZ 358 Sculpture: The Expanded Field. 3 hours. Prerequisites: ARTZ 250, ARTZ 355. This course continues the acquisition of technical skills and builds on skills and concepts introduced in ARTZ 250 and ARTZ 355 while focusing more fully on the evolution of the individual investigation in the student’s work. Investigation and use of contemporary processes, materials, and concepts prevalent in the current expanded field of sculpture will be emphasized. Important theoretical approaches to contemporary works will be covered through a thematic progression. Students will develop a framework with which to critically evaluate their own artistic investigations through research, writing, and presentation. Course fee required.

ARTZ 365 Photography: Studio Explorations. 3 hours. Prerequisite: ARTZ 260. This course will expand on fundamental skills by introducing studio lighting with the use of DSLR, medium-format and large-format cameras. Retouching, scanning and color management will also be taught in this course. Students will
further develop their writing and presentation skills through critical analysis of works of art. All cameras required for this course are available to check out during the semester. Course fee required. This course has been approved as an Honors qualified course.

**ARTZ 368 Photography: The Expanded Field. 3 hours.** *Prerequisite: ARTZ 260 and ARTZ 365.* In this course, students will be encouraged to explore advanced photographic techniques such as alternative processed, silkscreen, solar plate printmaking, mural printing, and digital projection while developing a portfolio based on each student’s conceptual investigation of the photographic image. Students will develop a framework with which to critically evaluate their own artistic investigations through research, writing, and presentation. Course fee required.

**ARTZ 380 Field Studies: Design and Fine Art. 3 hours.** A course designed to promote first-hand, in-depth experience with works of art and/or architecture in order to foster the integration of theoretical and applied learning skills in the design and fine arts major. Students will participate in an off-campus field study, the exact nature of which will be determined by the interests of the student and must be approved in consultation with an art faculty member.

**ARTZ 435 Painting: Contemporary Art Practice. 3 hours.** *Prerequisite: ARTZ 230 and ARTZ 335.* This course explores painting as a process, artifact, and concept by integrating studio exploration and critique with examination of works by contemporary artists to relate one’s painting practice within the context of contemporary artistic dialogue, work, and practices. Professional skills will be developed through the activity of contemporary art practice, which includes research, writing, and presentation.

**ARTZ 455 Sculpture: Contemporary Art Practices. 3 hours.** *Prerequisites: ARTZ 250 and ARTZ 355.* This course explores sculpture as a process, artifact, and concept by integrating studio exploration and critique with examination of works by contemporary artists to relate to one’s sculpture practice within the context of contemporary artistic dialogue, work, and practices. Professional skills will be developed through the activity of contemporary art practice, which includes research, writing, and presentation. Course fee required.

**ARTH 465 Photography: Contemporary Art Practice. 3 hours.** *Prerequisite: ARTZ 260 and ARTZ 365.* This course explores photography as a process, artifact, and concept by integrating studio exploration and critique with examination of works by contemporary artists to relate one’s photography practice within the context of contemporary artistic dialogue, work, and practices. Professional skills will be developed through the activity of contemporary art practice, which includes research, writing, and presentation. Course fee required.

**ARTZ 496 Apex Studio. 3 hours.** This course requires design art and fine art majors to create and exhibit work that utilizes the knowledge gained while in the department of art and art history and within their comprehensive liberal arts experience. Significant responsibility lies with the student to work independently to develop a project or body of work that demonstrates the student’s development of a sense of creative and intellectual authority. This Apex work will be included in a comprehensive portfolio that must also be completed in this course.

**ARTZ 301, 302, 401, 402 Advanced Studio. 1-3 hours.** *Prerequisite: Departmental permission.* These courses are offered to encourage individual work for advanced students under the supervision of a specific instructor.

**ARTZ 290, 390, 490 Selected Topics. 1-3 hours.**

**ARTZ 291, 391, 491 Research.**

**ARTZ 397, 497 Internship. S/U Grading.**
Biology (BIOL)

BIOL 100 Principles of Biology. 3 hours. This course provides an introduction to basic scientific terminology, biology, and chemistry. It is designed to prepare students for more rigorous science curriculum. Will not satisfy biology major requirements. General education requirement for non-science majors.

BIOL 102 General Biology. 4 hours. This course will provide students with an overview of biology from cellular structure to classification of organisms. This course will also introduce basic ecological principles.

BIOL 104 Biology in the Contemporary World. 3 hours. A study of the basic life processes of humans as they function in society and the ecosphere. A laboratory component is included. General education requirement for non-science majors.

BIOL 106 Conservation Theory and Management. 3 hours. Prerequisite: BIOL 102. A study of our natural resources, current status, future prospects, development of the past compared to present practices. A review of outstanding conservationists and their ideas.

BIOL 110 Fundamentals of Cell Biology. 4 hours. Prerequisite: CCPS-BIOL 102. An introductory course focusing on major biological concepts relating to molecular and cellular biology and genetics. Lecture and laboratory. Intended for students majoring in science-related disciplines.

BIOL 130 Introduction to Bio-Medical Sciences. 3 hours. Biology 130 will teach students the basic biological principles of nutrition, pathophysiology, microbiology, pharmacology, and control of infectious disease as it relates to health and disease in humans.

BIOL 135 Medical and Dental Terminology. 1 hour. Biology 135 will teach students the basic terminology related to anatomy, physiology, and diseases of the human body.

BIOL 161 Forest Ecology. 2 hours. The class will introduce the student to the total forest ecosystem. It will explore the relationships of plants and animals from the forest floor to the upper canopy. The importance of microclimates to various vegetation groups will be analyzed. Will not satisfy biology elective.

BIOL 162 Fruits, Nuts and Berries of the Ozarks. 2 hours. Examination of the mast crop in Missouri. Topics to include the many various types of fruits (berries, drupes, samaras, follicles, legumes, pods, achenes, strobiles, etc.) found in the Ozarks. Field work and a collection will be required. Offered fall semester. Will not satisfy biology elective.

BIOL 172 Exploring Molecular Biology. 3 hours. Prerequisite: CCPS-BIOL 102. This course examines the structure and function of nucleic acids and proteins. The molecular mechanisms of replication, transcription, mRNA processing and translation will be emphasized. In addition, regulation of these processes will be explored. Intended for students majoring in biology or related disciplines.

BIOL 181 Mechanisms of Genetic Inheritance. 3 hours. Prerequisite: CCPS-BIOL 172. Co-requisite: CCPS-BIOL 181-L. This course will apply the knowledge acquired in BIOL 172 to the inheritance patterns of genetic traits between individuals and within populations.

BIOL 181-L Mechanisms of Genetic Inheritance Lab. 1 hour. Co-requisite: BIOL 181. This lab must accompany BIOL 181 and will provide laboratory experiences to enhance understanding of genetic inheritance.

BIOL 182 Evolution. 2 hours. Prerequisite: CCPS-BIOL 172. DAY-BIOL 181. An introduction to the principles of evolutionary biology, including the history, processes and patterns of evolution as well as systematic biology.

BIOL 200 Ecology. 3 hours. Prerequisite: CCPS-BIOL 172. DAY Prerequisite or Co-requisite-BIOL 182. An introduction to ecological principles, emphasizing processes and patterns within the six sub-disciplines of ecology. The laboratory will integrate common field methods with experimental design and data analysis. Lecture and laboratory.

BIOL 200-L Ecology Lab. 1 hour. Co-requisite: BIOL 200. This lab will accompany the Ecology class and
will provide laboratory experiences to enhance understanding of the ecological concepts.

**BIOL 201 Biodiversity. 3 hours.** *Prerequisite: CCPS-BIOL 172. DAY-BIOL 200.* An introduction to the trends and patterns of biological diversity and our understanding of the biosphere. The class will focus on the evolution of genomes and systems using several model organisms. The generation and loss of biodiversity will be examined. Lecture and laboratory.

**BIOL 205 Human Anatomy. 4 hours.** An introduction to the gross and microscopic anatomy of the human body. Mammalian examples of major systems are studied in the laboratory. *Lecture and laboratory.* *Offered fall semester.*

**BIOL 206 Human Physiology. 4 hours.** This course examines the organization and function of the human body as a whole and the interrelations of its various systems, organs, tissues and cells. *Lecture and laboratory.*

**BIOL 207 Anatomy and Physiology. 4 hours.** An introduction to basic anatomy and physiology of the human body from a single cell to the coordinated whole. Special emphasis is placed on conditions that may upset the delicate balance of each system and produce disease. Medical terminology will be integrated into the course to expand the student’s medical vocabulary. *Lecture and laboratory.*

**BIOL 208 Microbiology. 4 hours.** *Prerequisite: CHEM 103 or CHEM 107. DAY-BIOL 110 or BIOL 172.* A study of bacterial diversity, physiology, biochemistry and genetics as they relate to the environment and to human welfare. Fungi and viruses are also discussed. Laboratory methods for the identification of bacteria are introduced. *Lecture and laboratory.*

**BIOL 210 Wildlife Management: Theory and Practice. 3 hours.** *Prerequisite: BIOL 200.* History of wildlife management in the United States. Examination of basic ecological principles including population dynamics. Emphasis on habitat requirements with specifics on various game in Missouri.

**BIOL 217 Anatomy and Physiology II. 4 hours.** *Prerequisite: BIOL 207.* This course continues the study of the Anatomy and Physiology of the human body (a continuation of BIOL 207 Anatomy and Physiology). Topics include the structure, function and interrelationship between the endocrine, cardiovascular, lymphatic, immune, respiratory, urinary and digestive systems. *Lecture and laboratory.*

**BIOL 245 Introduction to Human Nutrition. 3 hours.** A study of the essential nutrients and their value in the various food groups, their functions in the body, and how to determine the food needs of the individual.

**BIOL 250 Foundations of Medical Terminology. 3 hours.** This course examines the various aspects of medical terminology including word origins, definitions, spelling, and pronunciation.

**BIOL 302 Human Nutrition. 3 hours.** *Prerequisite: CCPS-CHEM 107 and BIOL 172. DAY-BIOL 110 or BIOL 172.* A study of food as it functions to meet body needs with emphasis on utilization, food sources, selection of adequate diets, individual, community and world health problems and diet therapy.

**BIOL 307 Botany. 4 hours.** *Prerequisite: CCPS-BIOL 201. DAY-BIOL 200.* Introduction to the photosynthetic way of life in algae and plants. This course will consider plant structural and functional adaptations related to water retention and distribution, gas exchange, light absorption and energy conversion, anti-gravitational support, reproduction and dispersal; followed by a comparative study of the main plant groups from algae to flowering plants, emphasizing structural diversity and evolutionary trends. The laboratory exercises will present an introduction to plant (and algae) cells, tissues, and organs through comparative anatomy and morphology analyses.

**BIOL 308 Immunology. 3 hours.** *Prerequisites: CCPS-BIOL 102, BIOL 172, and CHEM 107. DAY-BIOL 181 or CHEM 238.* A study of the immune response and its relationship to the diagnosis, prevention and treatment of disease. Topics include immune systems, immunopathology and antibodies.

**BIOL 309 General Zoology. 4 hours.** *Prerequisite: CCPS-BIOL 201. DAY-BIOL 200.* A study of major animal phyla including protozoans, with an emphasis on comparative structure and function, taxonomy,
fundamental life processes, and ecological interactions. Lecture and laboratory.

**BIOL 310 Field and Systematic Botany. 4 hours.** Prerequisite: CCPS-BIOL 201. DAY-BIOL 200. A taxonomical survey of flowering plants. This course will discuss history, theories and methods of classification, identification, nomenclature and description of plants, followed by taxonomical characteristics of the main plant families. Laboratory exercises and field trips will focus on the use of taxonomic keys, construction of floral diagrams and formulas, identification and recognition of local flora, preparation of field data records and herbarium specimens.

**BIOL 312 Advanced Ecology. 4 hours.** Prerequisite: CCPS-BIOL 201. DAY-BIOL 200. A study of ecological principles, focusing on a modern understanding of ecological systems, patterns and processes. The laboratory will include common field techniques and emphasize experimental design and data analysis.

**BIOL 313 Advanced Microbiology. 4 hours.** Prerequisites: CCPS-BIOL 181 and CHEM 238. CCPS-BIOL 181 and CHEM 107. This course will examine the unique physiology of the Archaea and Procaryotae and their roles in ecology and human disease. Techniques for identification of these organisms also will be studied. Lecture and laboratory.

**BIOL 315 Field Techniques in Environmental Biology. 3 hours.** Prerequisite: BIOL 201. The practical application of biological field techniques will be covered including statistical methods of reviewing data. The analysis of data along with the writing of laboratory reports also will be emphasized.

**BIOL 316 Advanced Genetics. 4 hours.** Prerequisites: CCPS-BIOL 201 and CHEM 107. DAY-BIOL 181 and CHEM 238. A study of the molecular basis of gene expression and the mechanisms by which genetic material is inherited. Lecture and laboratory.

**BIOL 325 Epidemiology. 3 hours.** Prerequisite: BIOL 181. A study of epidemiological theory and practice. The distribution of health related problems in a population and the application of this theory to control health problems will be examined. Areas included in this study will be measures of disease occurrences, causal effects and statistical analysis of these events.

**BIOL 327 Biology of Terrestrial Plants and Animals. 4 hours.** Prerequisite: BIOL 201. An ecological and taxonomic survey of local terrestrial plants and animals including laboratory and field exercises on identification, sampling methods and preparation of study specimens.

**BIOL 337 Introduction to Virology. 3 hours.** Prerequisite: CCPS-BIOL 201. DAY-BIOL 181. An introduction to how viruses replicate and cause disease. Survey of major groups of animal viruses is included.

**BIOL 338 Biology of Lakes and Streams. 4 hours.** Prerequisite: BIOL 201. An examination of Missouri’s lakes and streams with emphasis on structural morphology, habitats, flora and fauna characteristics and limnology. Also included will be laboratory and field exercises on identification, sampling methods and preparation of study specimens.

**BIOL 339 Fishes of Ozark Lakes and Streams. 3 hours.** Prerequisite: 3 hours of Biology or permission of instructor. This course is an introductory survey of freshwater fishes with emphasis on the local fish fauna. Principles of the natural history, taxonomy, ecology, and biology will be presented in lectures and by hands-on lab and field experiences.

**BIOL 344 Toxicology. 3 hours.** Prerequisite: CCPS—BIOL 201. DAY—BIOL 200, CHEM 238 and CHEM 238L. This course examines the basic concepts of the effects of toxins on human health, ways toxins are encountered and the consequences for individual and future generations. Methods of treatment are also discussed.

**BIOL 364 Neuroanatomy. 4 hours.** Prerequisites: CCPS-BIOL 102 and BIOL 172. DAY-BIOL 172. An in-depth study of the biology of the nervous system emphasizing the relationship between neuroanatomy and neuropathology. Lecture and laboratory. Offered spring semester. Will not satisfy Biology major requirements.

**BIOL 371 Entomology. 3 hours.** Prerequisite: BIOL 201. This course is designed to introduce students to the local insect fauna. It will investigate taxonomy, morphology, physiology, ecology and behavior of
insect orders. Integrated pest management will be introduced. Methods and techniques for collecting and mounting insects will be utilized.

**BIOL 381 Pharmacology. 3 hours. Prerequisite: CHEM 107.** A discussion of drug classes and thorough investigation of the pharmacokinetics and pharmacodynamics of drug class representatives with emphasis on the therapeutics and toxicology in health and diseased states. Covers the basic concepts for monitoring, evaluating and optimizing drug therapy for clients across the lifespan in a variety of settings.

**BIOL 382 Pathophysiology. 3 hours. Prerequisites: CCPS-BIOL 205 and BIOL 206, or BIOL 207; and CHEM 107. DAY-BIOL 181 and BIOL 206 or BIOL 378 and CHEM 238.** Human physiological responses to disease, stress and the environment are studied. Pathophysiological processes are analyzed in view of current research.

**BIOL 489 Senior Seminar. 3 hours. Prerequisite: Senior Standing.** This course will provide senior students guidance in selection and completion of a capstone experience in biology.

**BIOL 290, 390, 490 Selected Topics, 1-3 hours.**

**BIOL 291, 391, 491, Research.**

**BIOL 397, 497 Internship. S/U Grading.**
Behavioral Sciences (BSCI)

BSCI 108 Writing in Behavioral Sciences. 3 hours. In this writing-intensive course, students will become familiar with how to use electronic databases to locate scholarly, peer-reviewed work and will write a scientific review paper on a topic of interest. Students will also be introduced to the writing style developed by the American Psychological Association.

BSCI 200 Research Methods for the Behavioral Sciences. 3 hours. Prerequisite: PSYC 101, SOCI 101, or CRIM 102. Considers the major methods of the social sciences, including applied statistics. Topics include: research design, surveys, secondary data and other unobtrusive methods, evaluation research, sampling and research reports.

BSCI 274 Statistical Foundations for Behavioral Sciences. 3 hours. Prerequisites: CRIM 102, PSYC 101, or SOCI 101 and a college-level math course. This course provides a general overview of descriptive and inferential statistical techniques behavioral researchers use to analyze data. Topics will include frequency distributions and graphing, measures of central tendency, variation, and relative standing, simple linear regression, and hypothesis testing. Should be taken before a student accumulates 60 credit hours (junior status).

BSCI 349 Behavioral Research. 3 hours. Prerequisite: BSCI 200, BCSI 274 and three additional hours in the major. Students enrolled in this course will complete an original research project from beginning to end, to include writing a literature review, generating hypotheses, devising a research strategy, collecting data, analyzing data and reporting findings in a scientific paper.

BSCI 435 Psychological Tests and Measurements. 3 hours. Prerequisites: CCPS-CRIM 102, BSCI 274, plus three additional hours in criminology. DAY-BSCI 109, BSCI 200, BSCI 275, BSCI 275-L. DAY-Co-requisite: BSCI 435-L. An intensive study of the theory of measurement with emphasis on errors in measurement, validity, reliability, item analysis, test construction and prediction. A laboratory period will include training in the construction taking, scoring and interpretation of psychological tests.

BSCI 493 Senior Seminar. 3 hours. Prerequisites: CCPS-Senior standing, BSCI 200, BSCI 274. DAY-BSCI 109, BSCI 200, BSCI 275, BSCI 275-L. This is the capstone course for the major. Current issues in the field are researched and presented in a seminar setting. Students practice the writing, oral communication and critical thinking skills necessary to succeed in graduate school and their future careers.

BSCI 290, 390, 490 Selected Topics, 1-3 hours.
BSCI 291, 391, 491, Research.
BSCI 397, 497 Internship.
Chemistry (CHEM)

CHEM 101 Chemistry – A Human Concern. 3 hours. This basic course is designed for students with major interests in areas that include topics such as energy and the environment; food, people and chemistry; metals and life; etc. Three lecture hours per week.

CHEM 103 Fundamentals of Chemistry. 3 hours. Prerequisite: MATH 100. A terminal course dealing with fundamentals and basic concepts of chemistry primarily designed for general college students, as well as those in specialized programs such as nursing. Three lecture hours per week.

CHEM 107 General Chemistry I. 4 hours. Prerequisite: MATH 109. Development of the modern concepts dealing with the behavior of matter, kinetic theory, atomic theory, chemical bonding and periodic classification. Three lectures and one laboratory period. Held only on Springfield campus and St. Robert campus.

CHEM 108 General Chemistry II. 4 hours. Prerequisite: CHEM 107 & MATH 109. A continuation of CHEM 107, solutions, electrochemistry and chemical equilibrium. Laboratory devoted to solution phenomena including semi-micro qualitative analysis. Three lectures and one laboratory period.

CHEM 212 Elementary Organic Chemistry. 3 hours. A terminal course on the chemistry of carbon compounds designed for students in geology, medical technology programs or others who require an introductory course covering the entire field of organic chemistry. Three lecture hours per week.

Communication (COMM)

COMM 111 Communication with the Deaf (Signing). 3 hours. Course will deal with basic instruction of fingerspelling and American Sign Language (Ameslan) to allow students to communicate expressively and receptively with the deaf.

COMM 112 American Sign Language II. 3 hours. A continuation of COMM 111 for the purpose of learning and maintaining the skills needed for expressive and receptive communication through the use of sign language.

COMM 202 Oral Interpretation. 3 hours. Oral interpretation is the emotive performance of the printed page. Through in-class projects, this class explores the tenets of recitation and dramatic delivery as well as the assessment of literary aesthetics and performative form. The evaluation of interpretive personae and historical merit also are explored.

COMM 208 Introduction to Argumentation and Debate 3 hours. This course helps students develop the foundational knowledge and skills needed to become effective critical thinkers and communicators. Students will examine different types of argument structures and logical fallacies, learn how to evaluate and use evidence in constructing persuasive cases, and develop skill in refuting claims orally and in writing. Readings, discussions, and case studies will explore the interconnectedness between argumentation strategies and communication context. This course prepares students for participation in competitive debate experiences and other public advocacy roles.

COMM 211 Presentational Speaking. 3 hours. Principles and practice of effective oral communication. This course focuses on researching, composing, and delivering formal and informal presentations. Topics include ethics and public speaking, listening, research, analyzing and adapting to audiences, message construction, outlining, delivery of messages, effective use of visual aids, and critically evaluating public address. The course emphasizes informative and persuasive speaking. Designed for students who seek to improve speaking and critical thinking skills.

COMM 215 Foundations of Communication Theory. 3 hours. Introduction to the fundamental questions, methods and theories that define the communication discipline and communication professions. Students also will survey approaches to the study of interpersonal relationships, organizational dynamics, public discourse, mass media and cultural criticism as well as the history and development of the communication field. This introduction will help students make informed decisions about the focus and trajectory of their study and career.

COMM 220 Business Communication and Writing. 3 hours. Topics considered in this course include basic principles of effective oral and written communication, a brief survey of standard English grammar and usage, and the forms and styles of business correspondence.

COMM 221 Multimedia Writing. 3 hours. Provides a writing foundation for multiple disciplines, including print journalism, broadcasting, web and public relations. Students will learn about compiling information effectively for audiences and presenting content through social media.

COMM 229 Business and Professional Presentations. 3 hours. Designed to familiarize students with communication skills in a variety of organizational, business and professional settings. Practice in planning and doing oral presentations effectively.

COMM 231 Integrated Brand Management. 3 hours. This course will highlight the changes taking place in the world of integrated marketing communications – the process of communicating to promote products, services, and ideas. No longer is it just print or broadcast images connecting with audiences; skilled marketers must understand the importance of social media and the power of the audience. COMM 231 will introduce you to the communication tools, techniques, and media that practitioners use to design strategies to connect with audiences.
COMM 236 Rock and Roll: A Survey. 3 hours. An overview of rock and roll by placing it within the context of social history from the 1950s to the present time.

COMM 237 Music and Politics. 3 hours. Seminar-style course. Provides an overview of the intersection of popular music and politics with a focus from the mid-1970s to contemporary times.

COMM 238 Social History of Comic Books. 3 hours. Seminar-style course based on weekly reading and written assignments. Provides an overview of the intersection of comic books with American popular culture and history. A research component (consisting of researching for books, magazine/journal articles and newspaper articles) also is integrated into the course, thereby providing an added dimension. An annotated bibliography also is required and prior approval of bibliography topic is necessary.

COMM 245 Studio Production. 3 hours. Exposes students to the principles of multi-camera video production as the basis for in studio or remote, live programs. Students will perform all aspects of studio production including live camera, switching, audio, lighting and floor management.

COMM 271 TV Activities. 1 hour. Prerequisite: COMM 226 or prior experience approved by instructor. Students work with the instructor to identify relevant multimedia projects for Drury University, the Springfield community, and/or DUTV. Students will coordinate studio or field productions and take story content into post production to generate programming for broadcast. This applied learning environment allows students to oversee video production projects from start to finish.

COMM 285 Communication and Ethics. 3 hours. Prerequisite: CCPS-None. DAY-COMM 215. Introduction to ethics in communication studies. Students examine conceptual perspectives for understanding and evaluating communication ethics in interpersonal relationships, small groups, organizations and intercultural contexts. This course is designed to stimulate the moral imagination, reveal ethical issues inherent in communication and provide resources for making and defending choices on ethical grounds.

COMM 332 Intercultural Communication. 3 hours. A survey of critical and qualitative inquiry into intercultural communication. This course provides an introduction to the tenets of intercultural research as well as in-depth analysis of intercultural communication competency and cultural criticism. Topics include introductory readings in ethnography, social anthropology and communication studies, and numerous case studies across various cultures. Theories include nonverbal communication analysis and facework across cultures. Diversity issues and identity politics are explored.

COMM 340 Advertising and Public Relations Research and Strategy. 3 hours. Prerequisites: COMM 215, COMM 231. Focuses on strategic thinking and research skills in the development of advertising and public relations messages and campaigns. Students will learn how to gather and interpret primary research that supports an understanding of audience attitudes, behaviors, knowledge and media consumption habits. Students will draw on research and theory to develop integrated communication proposals that solve the needs of business and/or nonprofit organizations.

COMM 342 Interpersonal Communication Theory. 3 hours. Prerequisite: COMM 215. Interpersonal communication is the process of interacting with someone on a one-to-one basis. This class will provide a survey of theories and research that define the field of interpersonal communication within specific relationships and contexts. Topics include social support, rituals, relational maintenance and termination, compliance gaining, sex and gender differences, relational intrusion, face management and conflict.

COMM 351 Principles of Persuasion and Influence. 3 hours. Prerequisites: COMM 211, COMM 215. A study of the persuasive process in contemporary culture. Students study basic theories of
persuasion and public speaking in an effort to become responsible consumers and creators of public persuasion. Practical applications are made by presenting persuasive speeches and critical projects.

COMM 353 Mass Media and Society. 3 hours. The history and current status of mass media in America, including newspapers, magazines, books, motion pictures, the recording industry, radio and television. Students will also explore theories and research examining the effect media have upon society.

COMM 386 Web Communication. 3 hours. COMM 221. Explores audience engagement on the Internet, teaching students basic web-design and social media skills. Using media-usage theory as a guide, students will develop an overall online communication strategy and web presence that incorporates interactivity and new ways to tell stories. Serves as the capstone experience for the Web Communication and Design minor.

COMM 387 Organizational Communication. 3 hours. Prerequisite: COMM 215. Analysis of how organizations are produced and affected by communication. This course provides an in-depth examination and application of theories, contemporary perspectives and research in fields of organizational communication. Topics include organizational structures, culture, socialization, decision making, diversity, stress, burnout, technology processes and leadership.

COMM 413 Campaigns. 3 hours. This course will introduce to research design, execution, and data analysis in promotional settings. Students will also work through a series of case studies to train them for today's fast-moving environment. Today's brand managers must understand how to dissect a variety of scenarios to connect authentically with their target audiences.

COMM 421 Strategic Media. 3 hours. Prerequisites: CCPS-COMM 215, COMM 221, COMM 231. DAY-COMM 231. Strategic media choices make it possible to connect messages and audiences. In this course students will learn how to create effective media plans by developing their knowledge of media research tools, media buying, audience segmentation and audience measurement. The roles of traditional and new media will be examined, with particular attention given to the opportunities and metrics associated with social media.

COMM 422 Argumentation and Advocacy. 3 hours. Prerequisite: COMM 211. The First Amendment coupled with our marketplace of ideas mentality requires that competent communicators get and practice critical-thinking skills. Argumentation and Advocacy explores these skills in tandem with the public discourse vehicle. Students are required to examine and deploy various approaches in making and evaluating arguments in a public setting. Theories explored include transmission models of communication, Stephen Toulmin’s model of argumentation and critical theory as it is applied to communication studies and the professions.

COMM 433 Strategic Writing for Advertising and Public Relations. 3 hours. Prerequisites: CCPS-COMM 215, COMM 221, COMM 231. DAY-COMM 221. A writing-intensive course where students learn to produce highly targeted messages for key publics including media representatives, customers, donors and other organization stakeholders. Students will develop skills in information gathering, editing, critical thinking and audience analysis through the production of advertising copy, news releases, direct mail packages, public service announcements and other strategic communication tools.

COMM 441 Advertising/PR Campaigns. 3 hours. Prerequisites: COMM 340, COMM 433. “Campaigns” is the culminating professional experience for the advertising and public relations major. Using a case study created by a real-world client, the course gives students the opportunity to integrate previously acquired knowledge and skills in the area of integrated marketing communications. Student teams model an agency setting to develop a comprehensive campaign to be presented both orally and in plans book form.

COMM 489 Professional Seminar. 3 hours. This is a professional capstone course that requires students to demonstrate the knowledge and skills they have acquired as advertising/public relations
majors. Students will produce a professional portfolio, resume, cover letter, and other critical career building tools. Course topics include personal branding, professional networking, job interviewing, and contract negotiations.

COMM 290, 390, 490 Selected Topics. 1-3 hours.
COMM 291, 391, 491 Research.
Criminal Justice (CRIJ)

Courses listed under the Criminal Justice (CRIJ) heading award credit for specialized education and training provided by specific military and civilian agencies. These courses are available exclusively to students who meet eligibility requirements.

CRIJ 271 Basic Corrections Officer Training. 6-9 hours. This course includes instruction provided by the Missouri Department of Corrections in a training academy for custody and non-custody staff. Topics include corrections theory and profession, administrative procedures and policies, legal studies, interpersonal perspectives, technical studies and skill development. S/U Grading.

CRIJ 309 Child Abuse Prevention and Investigative Techniques. 3 hours. Focuses on the conduct of interviews, gathering of physical evidence, sensitivity to the needs of victims and non-offending parents and special legal considerations as they pertain to the investigation of child abuse. S/U Grading.

CRIJ 310 Domestic Violence Intervention Training. 3 hours. Focuses on effective intervention and investigation of family dysfunctional incidents using a multidisciplinary approach. Emphasis on protection of the victim and return of the family to a healthy state. S/U Grading.

CRIJ 290, 390, 490 Selected Topics, 1-3 hours.
CRIJ 291, 391, 491 Research.
Criminology (CRIM)

CRIM 102 Introduction to Criminology. 3 hours. A survey course designed to provide a general theoretical understanding of crime problems in the U.S. The basic sources of crime, the justice machinery and society’s reaction to crime are examined.

CRIM 104 Ethics in Criminal Justice. 3 hours. Prerequisite: CRIM 102. A study of ethical thoughts and issues facing the criminal justice professional. Topics include constitutional ethics and professional code of conduct.

CRIM 201 Law and Society. 3 hours. Prerequisite: CRIM 102. Considers social, cultural and political forces which influence the formation of laws and legislative processes. Theories of the origins of law are discussed and then applied to historical legal cases.

CRIM 211 Police Patrol. 3 hours. Responsibilities, powers and duties of the uniformed patrol officer, patrol procedures, mechanics of arrest and all other functions of the officer on patrol.

CRIM 221 Victimology. 3 hours. Analysis of major perspectives on victimization. Emphasis is on the role of the victim in the generation of crime, experience of the victim in the criminal justice system and on patterns of victimization.

CRIM 222 Introduction to Forensic Science. 3 hours. This course provides a basic overview of the theoretical frameworks and techniques used in forensic science. The focus will be on the history and development of the field and subfields of forensic science, crime scene analysis, and methodologies utilized for collection and interpretation of crime scene data.

CRIM 232 Criminal Justice Organization and Management. 3 hours. This course is designed to provide an understanding of the organization, administration and management procedures and techniques as they apply to criminal justice agencies. Special focus on modern management and organizational theory as it applies to criminal justice agencies in the areas of public relations, communication, personnel development and labor management.

CRIM 301 Principles of Forensic Science. 3 hours. Designed to acquaint the student with procedures utilized in the investigation of a crime. It considers theories of physical sciences as they apply to the investigative methodology of a crime. The process is examined within the context of the most recent technological advances in criminal investigation.

CRIM 302 Anatomy of a Murder. 3 hours. Prerequisite: CRIM 102. This course details investigative principles and techniques pertinent to a homicide investigation. Detailed information regarding proper evidence handling, scene security, suspect and witness interview techniques will be learned. Information regarding different types of homicide and suicide and their investigation will be examined.

CRIM 303 Serial Homicide. 3 hours. Prerequisite: CRIM 102. This course discusses serial murder, victims and suspects. Case studies will be the primary study tool. Included in the course content will be the psychological and mental make-up of killers, the roles of victims and avoidance tactics.

CRIM 304 Understanding Gangs. 3 hours. The goal of this course is to familiarize students with the concepts of gangs and their culture in the U.S. and abroad. The course will primarily focus upon gangs that are in the U.S. but some international boundaries and relations will be revealed.

CRIM 310 Child Abuse/Neglect. 3 hours. This course will examine the different types of child abuse and child neglect, the different physical and behavioral signs of abuse/neglect and some of the causes. An in-depth look at the child abuse law and what happens in the juvenile justice system when a child is reported to have been abused or neglected.

CRIM 311 White Collar Crime. 3 hours. Intensive study of crimes committed by people or corporations during the course of legitimate work.

CRIM 321 Deviance and Social Control. 3 hours. This course provides several perspectives on the nature and sources of deviance. Included in the survey are societal responses to deviance and processes to control deviance.
CRIM 322 Juvenile Law. 3 hours. A study of law as it applies to the juvenile who becomes involved in the criminal justice system.

CRIM 323 Probation and Parole. 3 hours. A course which examines the correctional process as it applies to the correctional client under supervision in the community. Considers both the pre-incarcerated and post-incarcerated client, and the differences in approach.

CRIM 324 Criminal Law. 3 hours. Prerequisite: CRIM 102. This course provides an introduction to the rules and principles of criminal law. Emphasis will be given to the statutes and cases that constrain and shape criminal law as well as the rules and laws governing arrest, search, and seizure.

CRIM 331 Advanced Criminology. 3 hours. Prerequisite: CRIM 102. An intensive study of different theories explaining why people violate the law. Special consideration will be given to applying theories of crime.

CRIM 332 Juvenile Delinquency. 3 hours. Prerequisite: PSYC 101 or CRIM 102 or SOCI 101. A systematic analysis of theories of juvenile delinquency and how the juvenile justice system manages delinquents. Consideration is also given to solutions of delinquency.

CRIM 337 Death Penalty. 3 hours. The purpose of this course is to provide students with an understanding of the social, political and historical forces that have helped shape the practice of the death penalty in America and the international community. Emphasis will be placed on the relationship between race, class and gender and imposition of capital punishment as well as the influence of U.S. Supreme Court rulings on the administration of the death penalty.

CRIM 340 Case Preparation. 3 hours. Gathering data and interviewing witnesses and criminal offenders. The fundamentals of case writing including proper forms, word study and acceptable English usage.

CRIM 341 Justice, Punishment, and Ethics. 3 hours. A philosophical and pragmatic examination of justice and punishment. The course will provide the student with an understanding of the conceptual foundations of justice.

CRIM 342 The Correctional System. 3 hours. Provides a basic framework for understanding crime and criminal justice. Topics include: community-based treatment programs, correctional treatment institutions and civil rights of offenders.

CRIM 348 Comparative Criminal Justice Systems. 3 hours. This course will provide the student with an understanding of the criminal justice process as it functions in other countries of the world. A comparison of the development for both civil and common laws systems will provide insight to our system of justice and its increasing interaction on an international scale.

CRIM 360 The Judicial Process. 3 hours. An in-depth look at the judicial branch of government, emphasizing the state and federal judicial systems. The role of the prosecution, defense, judge and jury are examined, as well as judicial procedure.

CRIM 364 Wrongful Convictions. 3 hours. Prerequisite: CRIM 301. This course will emphasize the causes of wrongful convictions and the procedural mechanisms that allow for the litigation of those claims. The focus of this class will be the types of evidence and testimony that leads to wrongful convictions, real life examples of wrongful conviction, as well as state and federal post-conviction remedies.

CRIM 365 The Innocence Project Clinic. 3 hours. Prerequisite: CRIM 364. In partnership with the University of Missouri-Kansas City Law School, students will review cases of potential wrongful conviction. Through a collaborative process, submitted cases will be researched, evidence will be evaluated, conclusions and recommendations will be presented for class discussion and, eventually, MIP review. Students participating in The Innocence Project Clinic will be expected to respect the confidential nature of the work required.

CRIM 290, 390, 490 Selected Topics. 1-3 hours.

CRIM 291, 391, 491n Research.

Computer Science (CSCI)

CSCI 110 Basic Computer Science. 3 hours. This course is designed to familiarize students with the major ideas of computer science. It provides brief introductions to basic concepts of hardware, software, computer security, networking, the web, artificial intelligence, computer game development, and programming. It explores the role of computers in modern life, with special emphasis on ethical issues.
English for Academic Purposes (EAP)

Charlyn Ingwerson, Program Coordinator

The Drury University English for Academic Purposes (EAP) Program, housed in the Department of English, is a rigorous one-semester program designed to provide an intensive learning experience for students who need to improve their listening, speaking, reading, writing, and comprehension skills in English.

The EAP program is a 6-course program. Students participate in conversation tables and attend university events with their American tutors as a component of their intensive acculturation experience.

ENGL 109 English for Academic Purposes: American English Pronunciation. 1 hour. Designed for international students who wish to improve their pronunciation of American English, this course focuses on consonants, vowels, word stress, sentence stress, intonation, emphasis and linking.

ENGL 110 English for Academic Purposes: Oral Communication. 3 hours. A practical course designed for international students to improve their skills in both listening and speaking. Class content is discussion-oriented, includes both personal and public discourse, public speaking and group presentation projects, and emphasizes clarity in pronunciation.

ENGL 111 English for Academic Purposes: Writing and Research. 3 hours. This course prepares international students to become college writers. The class teaches rhetoric and logic; style and voice; ethical research methods, documentation, and standards of academic integrity.

ENGL 115 English for Academic Purposes: Intensive English as a Second Language. 3 hours. This course includes lectures, activities, and projects designed to acculturate students to the liberal arts classroom at Drury University, as well as the Springfield community.

ENGL 116 English for Academic Purposes: Grammar. 3 hours. This course is student goal/task-focused on strategies to improve language facility; that is, individualized instruction seeks to help each student improve his or her use of grammar in both written and oral communication, and develop personal study strategies.

ENGL 117 English for Academic Purposes: Reading. 3 hours. Course emphasis is both on improving reading comprehension strategies, and responding meaningfully to the writing of others. Course focus is on the American Experience.

ENGL 120 Field Studies in Academic Culture. 3 hours. Designed as the field studies component to ENGL 115, this course focuses on acculturation to university life. This class allows students to experience a full-credit humanities course as a language-learner observer and participant.
Economics (ECON)

**ECON 210 Principles of Microeconomics. 3 hours.** An introduction to the theory of markets. The course will examine the determination of product and resource prices; the theory of the firm, the role of competition, the impact of monopoly, externalities and government regulation; international economic relations.

**ECON 211 Principles of Macroeconomics. 3 hours.** An introduction to the theories that explain the performance of the overall economy. The course will explore the determination of the level of employment, output and the price level; the monetary and banking systems; problems and policies of economic instability, inflation and growth and principles of economic development; other economic systems.
Instructional Technology (EDTE)

EDTE 220 Introduction to Web Design. 3 hours. Prerequisite: GSTU 210. An introductory survey of languages and tools used to develop interactive and educational websites that effectively communicate ideas, concepts and information. Students will receive hands-on experience in a variety of web technologies and coding languages to develop fully functional sites. Tools and applications utilized reflect current industry standards and toolsets available in educational institutions. This course will not lead to a public school teaching certificate.

EDTE 301 Writing for the Web. 3 hours. Prerequisite: ENGL 150. This course is designed to familiarize candidates with web writing knowledge and skills. Writing effectively in the web environment will be a major focus of this course as participants explore effective styles of communicating ideas and information for publication on the World Wide Web. Analysis of practical techniques for successful web writing through a variety of activities and exercises will help students develop in the area of web writing. The course will include a combination of lectures, class discussions, online activities and practical web writing applications.

EDTE 310 Psychology of the Adult Learner. 3 hours. Prerequisite: PSYC 101. This course provides an in-depth examination of current research and literature addressing lifespan developmental theories and principles of learning associated with the adult age group involved in diverse learning communities. Attention is given to investigating adult cognitive abilities, psychomotor functions, performance aptitude, motivation and personality traits. Emphasis will be on the application of learning theory concepts and implementing teaching techniques within instructional settings.

EDTE 311 Psychology of Learning. 3 hours. Prerequisite: PSYC 101. This course is designed to explore the fundamental concepts, principles, theories and methods impacting learning and instruction. Basic theories of learning, particularly the behavioral and cognitive theories, and the more recent theories such as Brain-based learning and Multiple Intelligences will be studied. This course will also examine major historical contributions to the contemporary understanding of human learning; review theoretical perspectives associated with learning; investigate the role of cognition in learned behavior; evaluate models of learning; identify various influences on human learning; describe basic constructs used to explain learned behavior (e.g., reinforcement, extinction, etc.); analyze how particular behaviors are created and maintained; and apply learning principles to improve instruction.

EDTE 320 Methods of Online Instruction. 3 hours. Teaching and learning online is the primary focus of this course. Students will design learning that is deliverable online, either asynchronous or synchronous, using the appropriate technology. Students will determine what method of instruction will best meet deployable instructional goals; will learn how to conduct a needs assessment specifically for online instruction and what methods have been found to motivate students in an online environment. The student will be able to develop, design and create an online instructional module using standard computer software and will learn the basics of online evaluation measures to determine the effectiveness of created online instructional programs. The student will also compare the various online structural technologies such as WebCT, Saki and Blackboard to determine the most effective for a particular project.

EDTE 330 Test Development and Delivery. 3 hours. This course explores the test development and delivery process within the instructional technology field. Emphasis is placed on test design, item development, and test construction and delivery. Presentation of delivery systems involving written, computer-based, interest-based and web-based testing will be surveyed. Theory and development of criterion-referenced tests to include development of test plans, item development, validation, reliability, item analysis and production of final test versions are studied. A foundation for test delivery, testing evaluation, immediate scoring, and reporting and analysis of data as applied to both traditional and non-traditional learning will be provided. Test reliability, validity, administration, proctoring and web-based
building are also covered.

**EDTE 340 History, Security and Ethics of Technology. 3 hours.** This course is designed to prepare educators with historical, security and ethical situations that will be encountered in educational or instructional technology.

**EDTE 350 Design and Delivery of Instruction. 3 hours.** A study of the systematic processes of translating principles of learning and instruction into plans for instructional materials and activities. These processes include designing training programs, developing design strategies and models, and improving instructional effectiveness. Specifications for educational products and systematic planning procedures will be developed. The use of computer models and simulations will enhance the instructional design process.

**EDTE 410 Instructional Product Development. 3 hours.** Introduces the student to the use of educational models to create instruction that is appropriate from a pedagogical and practical viewpoint. Emphasis on theories and models to support analysis of the learner environment and needs, design of a set of specifications for effective, efficient and relevant learner environment; development of all learner and management materials, and evaluation of the results of the development using formative and summative methods. Students will be asked to make well-informed decisions regarding modification to products, materials and programs (formative) and to determine the value of existing products, materials and programs for possible adoption (summative).

**EDTE 420 Simulation and Gaming. 3 hours.** This course provides the basis of understanding training or instructional strategies; e.g., distance education, active learner, participation, individualized instruction vs. group instruction, gaming, tutorials, simulation. The student will compare various simulation and gaming educational experiences to evaluate the effectiveness of these approaches. The course will explore the impact of educational gaming in the pedagogy needed in the 21st century. Simulations and virtual reality will be explored with emphasis on the educational benefit to be gained by these concepts and technology. The course will study the history of simulations and gaming in instructional system design. The student will learn the decision factors needed by industry or government to plan, design, implement and evaluate a simulation or gaming instructional methodology.

**EDTE 430 Educational Evaluation. 3 hours.** This course provides the basis of understanding the terminology and methods used in educational evaluation. Students will study procedures for conducting summative evaluation to include analysis of test results, student critique and external feedback. The course includes study of processes and procedures used in the design, development and conduct of evaluations of technical and professional training programs to include both effectiveness and efficiency assessment. The student will learn how to conduct formative evaluation for all phases of the instructional design process, to develop evaluation plans and to interpret educational evaluation research.

**EDTE 493 Educational Leadership Seminar. 3 hours.** This is the capstone course for the instructional technology major. The development of concepts of leadership and the techniques through which leadership is exercised are studied. Students examine and research the influence of changing political, social and economic forces as they affect the role of the leader in education and related commercial fields.

**EDTE 290, 390, 490 Selected Topics. 1-3 hours.**

**EDTE 291, 391, 491 Research.**

**EDTE 397, 497 Internship**
Education (EDUC)

EDUC 200 Technology in the Classroom. 3 hours. This is an introductory course in educational technology. Candidates will learn how educational technologies can be applied to enhance teacher effectiveness and assist students in reaching learning objectives. Candidates will develop foundational skills in the evaluation, selection and use of technologies according to best practices and educational theories.

EDUC 201 Teacher Aide. 1 hour. A clinical experience where students determine the specific time block to be spent in public schools. Complete Placement Application in Teacher Education office. 30 hours total required. Three seminars, time announced. S/U Grading. Taken concurrently with EDUC 212. Course fee required.

EDUC 205 Diversity and Social Justice in Education. 3 hours. This course focuses on issues of diversity, oppression and social justice. It is designed to prepare pre-service teachers to be knowledgeable of biases based on race, ethnicity, culture, religion, age, gender, sexual orientation, social and economic status, political ideology, disability and how these contribute to discrimination and oppression. Students will learn about diverse cultures, family structures, roles, immigration and assimilation experiences of marginalized groups. Students will also learn about the influence of dominant culture on these diverse and marginalized groups. Additionally, this course will examine the adaptive capabilities and strengths of these marginalized groups and how such capabilities and strengths can be used in effective educational settings. The course will assist pre-service teachers in understanding the complex nature and dynamics of social oppression, diversity and social functioning. Students will explore their own personal beliefs, and behaviors that may limit their ability to effectively interact in educational settings with people of diverse backgrounds, in particular, disadvantaged and oppressed persons. Themes included justice, suffering, the role of the government, poverty, and society’s response to them. Initiatives and response of both secular and faith-based groups to injustices in the past (e.g. Civil Rights, abolitionism), will be examined.

EDUC 207 Psychology of Human Growth and Development. 3 hours. A study of the process of human development from conception through adolescence with particular emphasis on development during the elementary school, middle school and high school age periods of growth and development. The course will emphasize the contemporary research, theory and findings in the areas of cognitive, emotional and physical development with a focus on psychological processes and structures and their implications for the education process.

EDUC 212 Professional Preparation for the Field of Teacher Education. 0 hours. This course provides students with the essential information necessary to pursue admission to the teacher education program at Drury University. In addition, the course focuses on the general expectations of the program in terms of professional dispositions, background checks, electronic portfolio and other candidate assessments, design of lesson plans and the three levels of clinical and internship experiences. Students learn how to access university resources and supports and develop an understanding of the roles of faculty, staff, advisors and administrators. This course must be taken concurrently with EDUC 201 or in the first semester of the education program. S/U Grading.

EDUC 213 Professional Preparation for the Field of Teacher Education. 0 hours. This course provides transfer students with the essential information necessary to pursue admission into the teacher education program at Drury University. In addition, the course focuses on the general expectations of the program in terms of professional dispositions, background checks, electronic portfolio and other candidate assessments, design of lesson plans, and clinical and internship experiences. Students learn how to access university resources and supports and develop an understanding of the roles of faculty, staff, advisors, and administrators. This course must be taken in the first semester of the education program. S/U grading.
EDUC 302 Educational Psychology and Assessment. 3 hours. Prerequisites: Behavioral science majors: PSYC 230; Education majors: EDUC 205 and EDUC 207. This course is designed to introduce different theories and principles of development, learning, motivation and assessment of student learning. The major emphasis in this course is on how to apply these principles in classroom practice in both typical and multicultural settings. Normally taken in the second semester of the sophomore or junior year.

EDUC 303 Secondary Education Field Experience I. 1 hour. Prerequisite: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program. A clinical experience required of secondary education majors prior to enrollment in student teaching. S/U Grading.

EDUC 304 Teaching in Diverse Classrooms. 3 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302, and Formal admission to teacher education program. This course recognizes the need to support the learning of all students and will expose undergraduate-level students to the challenges and issues, and experiences faced by students from groups identified by race, ethnicity, language, socioeconomic status, exceptionalities, sexual identity, religion, and culture.

EDUC 308 Secondary Content Area Literacy. 3 hours. Prerequisite: EDUC 205, EDUC 207, EDUC 302, and formal admission to teacher education program. A three-credit hour course designed to acquaint candidates with the role of literacy at the secondary level. Emphasis is placed on factors which influence literacy and learning from content-specific text material as well as the acquisition and refinement of associated teaching practices. This course will include reviewing current research regarding adolescent literacy; implementing best practices to foster constructive literacy skills; and integrating literacy, writing, and study skills into secondary school content areas.

EDUC 331 Content Area Literacy. 3 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302. This course will include strategies for teaching subject matter to utilize and further develop functional reading. Methodology of teaching reading skills, vocabulary development in specific subject areas and study skills will be included.

EDUC 338 Elementary School Curriculum. 3 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program. A course that provides the elementary school teacher with methods to integrate the humanities (art and music), physical education and health, and social sciences. Lesson planning, effective teaching techniques and evaluation of instructional outcomes are studied in a unified approach to curriculum development.

EDUC 340 Education of the Exceptional Child. 3 hours. Prerequisite: EDUC 205. This course surveys all areas of exceptionality. It is designed to help the prospective teacher identify and understand the problems of students with atypical learning patterns.

EDUC 356 Methods of Teaching Children’s Literature. 2 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program. A study of historical and current trends with opportunity to both read extensively and explore strategies for enriching the elementary school curriculum through the use of children’s literature.

EDUC 357 Families of Exceptional Learners. 3 hours. Prerequisite: EDUC 340. Children learn best when close cooperation exists between school and home. For children with learning problems, it is all the more necessary for skills learned in school to be reinforced in the home. This course will include the study of legal aspects specific to working with families of children with exceptionalities including the rights of families. In addition, requirements will include researching and reporting on effective practices and resources to support families and their children. Objectives and assignments will address the effects of exceptionalities on children’s learning and on family dynamics. The impact of primary language, culture, and familial backgrounds on children’s academic and social abilities, their attitudes, values, interests, and career options will be examined. Students will review techniques for advocacy and collaboration with families and others who are involved in students’ educational programs.

EDUC 361 Collaborative Classroom Environments. 3 hours. Prerequisite: EDUC 205. This course is designed to maintain positive classroom environments by acquainting students with concepts and
techniques of behavioral interventions; practical applications of behavior management techniques is emphasized. Students will learn how to design learning environments that are inclusive for all students.

**EDUC 368 Intro. To Evaluation & Assessment. 3 hours.** *Prerequisite: EDUC 302.* This course will include an overview of varied assessment methods, procedures, and tools. Students will review administration and interpretation procedures for formal and informal assessments used in the evaluative process for identifying education disabilities of school-age students. Psychometric principles of assessment will be presented. Emphasis will be placed on developing knowledge and skills related to assessment across domains including social, communication, academic, cognitive, and adaptive. Students will participate in application activities to include the review of case history data and collection of data to apply to the development of evaluation plans. Students will demonstrate professional dispositions related to the ethics of testing and practice using assessment data to design and execute educational programming. Roles of multidisciplinary team members will be discussed including general educators, special educators, administrators, students, and family members. Supporting the assessment needs of diverse learners to include individuals with disabilities and those from culturally and linguistically diverse backgrounds will be emphasized.

**EDUC 369 Intro. To Mild/Mod Disabilities. 3 hours.** *Prerequisite: EDUC 340.* The physical, psychological, social, and educational characteristics of school-age children with mild/moderate disabilities will be reviewed in this course. In addition, Federal and State criteria for identification of categorical disabilities as well as supporting legal mandates will be reviewed. Students will learn strategies for differentiation of instruction, approaches for integrating these students into regular education classrooms, and methods for collaborating with other educators to identify and address the needs of students with disabilities. Course content will also address assessment procedures and practices used to identify children with disabilities and monitor their performance across academic settings. Students will complete applied activities and discussions, case analyses, and literature reviews.

**EDUC 380 Methods of Teaching Elementary Mathematics. 3 hours.** *Prerequisites: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program.* Basic principles of instruction and curriculum development in elementary school mathematics. Learning centers, games and diagnostic/prescriptive treatment are explored.

**EDUC 382 Methods of Teaching Elementary Science. 3 hours.** *Prerequisites: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program.* Basic principles and new trends of instruction and curriculum development in elementary school science. Unit planning, laboratory activities, evaluation strategies and science learning centers are emphasized.

**EDUC 385 Secondary School Curriculum. 3 hours.** *Prerequisites: EDUC 205, EDUC 207, EDUC 302, formal admission to teacher education program.* Students study principles of instruction and curriculum development. They create courses, units, micro-tech and prepare learning situations utilizing different teaching strategies.

**EDUC 401 Literacy Practicum I. 1 hour.** *Prerequisites: Formal admission to the teacher education program.* Provides the student with the opportunity to integrate literacy theory and practice by working with learners in classrooms or other field settings. S/U Grading. Taken concurrently with EDUC 407.

**EDUC 402 Literacy Practicum II. 1 hour.** *Prerequisites: formal admission to the teacher education program.* A clinical experience that provides the student with the opportunity to utilize remedial literacy teaching methods with learners experiencing difficulty with literacy. S/U Grading. Taken concurrently with EDUC 452.

**EDUC 407 Methods of Teaching Literacy. 3 hours.** *Prerequisites: EDUC 205, EDUC 207, EDUC 302 and formal admission to the teacher education program.* Principles and strategies for teaching elementary school literacy. Introduction to emerging concepts for meeting individual differences through diagnosing differences. Foundations of literacy instruction will be discussed as well as varying approaches. Application of current research findings will be included. Taken concurrently with EDUC 401.
EDUC 409 Methods of Teaching Language Arts-Elementary. 2 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302 and formal admission to the teacher education program. Basic principles and new trends of instruction for development of oral language, writing and spelling skills at the elementary school level.

EDUC 452 Correction of Literacy Problems. 3 hours. Prerequisites: formal admission to the teacher education program. A presentation of remedial methods of teaching literacy to elementary and secondary school students who exhibit literacy difficulty with emphasis on recent research, on diagnosis and prescriptive teaching strategies. Taken concurrently with EDUC 402.

EDUC 455 Correction of Disabilities in Mathematics. 3 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302 and formal admission to the teacher education program. Correction of Disabilities in Mathematics will focus on the causes of, diagnosis of, and treatment for difficulties in mathematics. A presentation of methods of teaching remedial mathematics to elementary and secondary school students who exhibit difficulty with mathematics with emphasis on recent research, diagnosis and prescriptive teaching strategies.

EDUC 475 Review for Teacher Certification Examinations. 0 hours. Prerequisite: Formal admission to the teacher education program. A course designed to review and synthesize the skills and content knowledge related to the various fields of teacher certification including analysis and techniques for solving problems on teacher certification examinations. Attempting the appropriate state-determined content exam(s) is required for approval to student teach, so only those students who do not pass the state-determined content exam(s) will be administratively enrolled in the course. Offered each semester and summer session. S/U Grading. Taken concurrently with EDUC 476 or EDUC 478.

EDUC 476 Student Teaching – Elementary. 3-10 hours. Prerequisite: Approval of the Teacher Education Council. Observation and supervised practice teaching at the elementary school level (grades 1-6). Taken concurrently with EDUC 475, if a passing state content assessment score is not obtained. Course fee required.

EDUC 477 Student Teaching-Middle School (Grades 5-9). 3-10 hours. Prerequisite: Approval of the Teacher Education Council. Observation and supervised teaching at the middle school level (grades 5-9). Taken concurrently with EDUC 475 if a passing state content assessment score is not obtained. Only available to post-baccalaureate students. Course fee required.

EDUC 478 Student Teaching – Secondary. 3-10 hours. Prerequisite: Approval of the Teacher Education Council. Observation and supervised practice teaching at the secondary school level (grades 9-12). Taken concurrently with EDUC 475, if a passing state content assessment score is not obtained. Course fee required.

EDUC 480 Student Teaching Support Seminar. 2 hours. Prerequisite: Formal admission to the teacher education program. This course is designed to provide both professional and personal support during a teacher candidate’s student teaching experience. Teacher candidates will engage in discussion and assignments related to lesson planning, assessment, classroom management, communication, and collaboration in their student teaching environment. Guidance in professional development and career planning will be provided. Taken concurrently with EDUC 476 or EDUC 478. S/U grading.

Methods Courses Related to Specific Teaching Areas:

EDUC 350 Methods of Teaching the Biological and Physical Sciences. 2 hours. Prerequisites: EDUC 205, EDUC 207, EDUC 302 and formal admission to the teacher education program. Must be taken prior to student teaching. A course adapted to the needs of those preparing to teach the natural sciences in the public schools at the middle school and high school levels. Offered fall semester.

EDUC 379 Middle School Philosophy. 3 hours. Prerequisite: Formal admission to the teacher education program. This course provides an understanding of the philosophy, history, structure, and future
direction of the middle level education, as well as how those topics relate to the characteristics of the adolescent. Topics include an overview of curriculum and instructional strategies appropriate for middle level education. These topics also consider culturally diverse populations and special needs students.

**EDUC 383 Middle School Curriculum and Instruction. 3 hours.** *Prerequisite: Formal admission to the teacher education program.* Candidates will examine education programs appropriate for students in late childhood and early adolescence. The course will review and evaluate curriculum, instruction and organization associated with middle schools. Curricular and instructional programs designed especially for pre-adolescent youth will be examined and contrasted with other levels of education. Distinctive physical, emotional, social, and intellectual needs of the middle school student will be researched.

**EDUC 384 Methods of Teaching Secondary Social Studies and Economics. 2 hours.** *Prerequisites: EDUC 205, EDUC 207, EDUC 302 and formal admission to the teacher education program. Must be taken prior to student teaching.* A methods course that prepares students to teach secondary social studies. Course will include a study of the social studies curriculum at the middle school and high school levels, lesson planning, simulation games, value clarification, inquiry approach to teaching, materials and textbooks. *Offered fall semester.*

**EDUC 446 Methods of Teaching Secondary English. 2 hours.** *Prerequisites: EDUC 205, EDUC 207, and EDUC 302 and formal admission to the teacher education program. Must be taken prior to student teaching.* Units related to methods of teaching the middle school and high school student the novel, poetry and short story, and a unit on methods of teaching writing and grammar will be included. Teaching of writing unit fulfills one semester hour credit toward completion requirement for certification in English.
Emergency Management (EMMT)

EMMT 101 Introduction to Emergency Management Principle and Practice. 3 hours. This course provides students with insight into the profession of emergency management, its history, principles, participants, functions, structure, and future. This course includes concepts related to accreditation of emergency management programs, professional associations, and professional credentials.

EMMT 103 Exercise Concepts and Design. 3 hours. This course examines the role of disaster exercises in emergency management and business crisis management programs. The objective is to develop exercises in all four phases of emergency management, analyze emergency management capabilities, and use exercises to enhance strategic planning. Focus is on designing, conducting, and evaluating disaster exercises. Best practices are used to understand the application of "lessons learned" and after-action reports to support continuous improvement.

EMMT 202 Hazard Identification. 3 hours. This course provides an overview of hazards and threats with an analysis of the causes, characteristics, nature and effects of such disasters as tornadoes, drought, earthquakes, pandemics, fires, flooding, hazardous materials, hurricanes, industrial accidents, terrorism, cyber and technological threats, nuclear power plant accidents, power failures, volcanoes, and other catastrophic hazards.

EMMT 203 Introduction to Terrorism. 3 hours. This course focuses on the historical roots of terrorism and stresses the importance of understanding the past to adequately prepare for the future. Through a historical perspective, this course provides basis for and discusses aspects that make contemporary terrorism of today different from traditional terrorism of the past.

EMMT 301 Social Aspects of Disaster. 3 hours. This course provides an overview of how individuals, groups, families, organizations, communities, and countries handle disasters before, during, and after they occur. The concepts of human behavior in disaster, disaster myths vs. reality; group disaster behavior; community social systems and disaster; cultures, demographics and disaster behavior distinctions are explored.

EMMT 303 Disaster Planning and Preparedness. 3 hours. This course provides an overview of the preparedness phase of emergency management. Topics include emergency planning, public information and education, risk and vulnerability assessments, continuity of operations, communication and information management, gap analysis and capacity building, funding strategies, and exercises.

EMMT 305 Disaster Response. 3 hours. This course provides an overview of the response phase of emergency management. In this course, students will be introduced to identifying the needs of the affected population, the role of the incident command system, various response problems, and how first responders and emergency managers may overcome response challenges.

EMMT 307 Disaster Recovery. 3 hours. This course provides an overview of the recovery phase of emergency management. It examines how people, groups, organizations, communities and governments manage disasters in the immediate aftermath and recover from their effects, including social, physical, business, and infrastructure problems as well as intra- and inter-organizational issues.

EMMT 308 Introduction to Systems Thinking in Emergency Management. 3 hours. Prerequisites: Junior standing, EMMT 101, EMMT 202, EMMT 303, and EMMT 305. This course provides analysis and application of systems-thinking concepts and methodologies to problems encountered in emergency management.

EMMT 309 Public Policy Issues in Emergency Management. 3 hours. Prerequisite: EMMT 101. This course provides an examination of the legal and regulatory principles, policies, and issues that affect emergency management. The aim is to analyze key forces that influence policy, apply the principles of policy and law, and identify and analyze emerging issues to improve organizational preparedness. Emphasis is on how emergency management policy and legislation is developed and maintained at international, national, regional, state, and local levels.
EMMT 401 Hazard Mitigation. 3 hours. Prerequisite: EMMT 202. This course examines the processes and principles of disaster mitigation including mitigation planning, the benefits of mitigation, and the development and implementation of appropriate mitigation measures.

EMMT 402 Risk and Vulnerability. 3 hours. Prerequisites: EMMT 101 and EMMT 202. This course provides an introduction to analytical techniques and methodologies for identifying risk through threat and vulnerability assessments of various types of public and private infrastructure. An all-hazard approach is employed, considering natural and human-caused hazards.

EMMT 403 Private Sector Crisis and Emergency Management. 3 hours. Prerequisite: EMMT 101. This course examines the field of emergency management within the private and non-governmental sector. Topics include: contingency and continuity of business planning, business risk management, and emergency response skills required by private sector companies.

EMMT 405 Public Information Management. 3 hours. Prerequisites: Junior standing and EMMT 202. A review of the skills needed to effectively deal with the public and media before, during, and after an emergency event. Topics will include: understanding the roles and responsibilities of the Public Information Officer, understanding the roles and responsibilities of the media, conducting awareness campaigns, writing news releases, public speaking, granting interviews, media management, and dealing with high-profile incidents.

EMMT 406 Emergency Management and Disaster Research. 3 hours. Prerequisites: Junior standing, EMMT 101, EMMT 202, EMMT 303, EMMT 305. This course provides an overview of current research principles and approaches to the study of disasters and emergency management and how to understand and apply scholarly work from the field of disaster research.

EMMT 290, 390, 490 Selected Topics. 1-3 hours.

EMMT 291, 391, 491 Research.

EMMT 397, 497 Internship.
Entrepreneurship (ENTR)

**ENTR 210 Entrepreneurship Exploration. 3 hours.** An exposure to the dynamics of identifying opportunities and dealing with the risks of implementing new ideas and ventures, while focusing on the early development of independent ventures as well as those within established organizations. Both individual and organizational level issues will be addressed. Includes an analysis of the major functional areas of the start-up firm: accounting, finance, human resources, information systems, logistics, management, marketing, production/operations, purchasing and sales, as well as considerations for entrepreneurship in the international marketplace.

**ENTR 250 Ethical Problems/Entrepreneurial Answers. 3 hours.** This course introduces students to the concerns that exist in the 21st century and helps them discover the efforts that they as university students can make to help alleviate social problems now and throughout their life. This course will look at effective responses to social needs and innovative solutions to social problems through case discussion, intensive research and writing projects, guest speakers and experiential projects.

**ENTR 301 Entrepreneurship Adventure. 3 hours.** In this course, students will read about, discuss and research innovation theories and innovators. Students will get hands-on experience with tools such as business research databases, Excel and QuickBooks. Accumulated knowledge, creativity and acquired skills will be applied to a real-world start-up project with an entrepreneur.

**ENTR 401 Building Community through the Arts. 3 hours.** This course will offer an integrated and experiential approach to creativity in everyday living and learning. Working with at-risk adults, students will develop arts programming that will enrich the adults’ lives, improving their communication skills, developing their creativity and building confidence. The course culminates with an art opening for the participants in the Drury on C-Street Gallery.

**ENTR 290, 390, 490 Selected Topics. 1-3 hours.**

**ENTR 291, 391, 491 Research.**

**ENTR 397, 497 Internship. S/U Grading.**
ENGL 114 College Writing, Reading, and Study Skills. 3 hours. This course is designed for students returning to, or starting, college after being out of formal education for several years. Emphasis is placed on acquiring basic composition, reading, and study techniques that will lay the foundation for the student’s college career.

ENGL 150 Composition. 3 hours. Writing course designed to develop students’ abilities to write in a variety of modes for a wide range of purposes.

ENGL 200 Literature Matters. 3 hours. One of three foundational courses for majors and potential majors in English, Literature Matters introduces students to a central set of problems in contemporary literary studies (for example, Identity and Empire, Shakespeare to Ondaatje). The course includes important canonical works as well as neglected or emerging writers. There is a focus on how to read and understand literature; how reading and writing literature influence identity, meaning, and value; and how to develop strategies for reading, discussing, and writing about literary works. Attention is also given to narrative structure. Students are strongly encouraged to enroll in this course in the spring semester of their freshman or sophomore year. Offered spring semester.

ENGL 201 British Literature I: Medieval through Eighteenth Century. 3 hours. Students discuss canonical texts of early British writing, with particular attention to close-reading and appreciation. The course often pursues a single theme, genre or motif through the readings.

ENGL 202 British Literature II: Nineteenth Century through the Present. 3 hours. This course introduces students to major writings from the past 200 years of British writing, with particular attention to close-reading and appreciation. The course often pursues a single theme, genre or motif through the readings.

ENGL 203 American Literature I: 1620-1865. 3 hours. Students become familiar with major writings from pre-Civil War American culture, with “flashbacks” to colonial American literature. This course often pursues a single theme, genre or motif through the readings.

ENGL 204 American Literature II: 1865-1980. 3 hours. This course introduces students to major texts of late-nineteenth and twentieth-century literature, with particular attention to modernist and postmodernist writing.

ENGL 207 Expository Writing: Art of the Essay. 3 hours. Prerequisite: CCPS-ENGL 150. DAY-None. Expository Writing provides students with valuable opportunities to write in a wide variety of modes of nonfiction, including narrative essays, film and book reviews, cultural analyses and journalistic essays. Students read and discuss published nonfiction and participate in workshops where they respond to one another’s writing in small groups. The workshop format enables students to respond to issues of form, purpose, voice, and audience.

ENGL 208 Practicum: Tutoring in a Writing Center. 1 hour. Prerequisite: ENGL 207. Students work in a tutorial setting two hours per week and meet one hour per week to discuss assigned readings in composition studies. S/U Grading.

ENGL 212 Comparative Mythology. 3 hours. A study of mythic literature in ancient, medieval, and contemporary cultures, with close attention to the archetypal codes revealed in all mythologies, and universal narrative structures.

ENGL 235 The History of Film. 3 hours. A survey of major international and American film accomplishments beginning with Griffith and Chaplin and continuing through contemporary directors such as Bergman, Fellini and Allen. Some attention will be given to film technique, theory and analysis.

ENGL 236 Ozarks Culture and Folklore. 3 hours. The main goal of this class is to provide a firm foundation in critical thinking, research, writing and effective communication in terms of gaining cultural insights while encouraging an appreciation for the culture of the Ozarks. To do that, we’ll take a look at the people, the food, the music, the legends, the lore, the jargon and the habits/ethics of the Ozarks’ hill people from the 1800s to the present time. Additional goals include promoting critical thinking,
teamwork, self-confidence and storytelling as educational tools.

**ENGL 251 Editing and Publishing. 3 hours.** *Recommended prerequisite: ENGL 253.* This practical course is devoted to publishing and editing in both print and electronic media.

**ENGL 253 Grammar and Style. 3 hours.** *Prerequisite: CCPS-ENGL 150. DAY-None.* Students intensively investigate modern English grammar and usage. The course acquaints students with models of understanding and teaching grammar and with opportunities for experimenting with a variety of styles.

**ENGL 266 Creative Writing I – Fiction. 3 hours.** *Prerequisite: CCPS-ENGL 150. Day-None.* Students learn techniques for and practice in writing fiction. The course focuses on student workshops.

**ENGL 267 Creative Writing I – Poetry. 3 hours.** *Prerequisite: CCPS-ENGL 150. Day-None.* Students learn techniques for and practice in writing poetry.

**ENGL 268 Creative Writing I – Nonfiction. 3 hours.** *Prerequisite: CCPS-ENGL 150. Day-None.* Students learn techniques for and practice writing nonfiction.

**ENGL 301 Theory and Practice. 3 hours.** *Prerequisite: CCPS-ENGL 150. DAY-None.* This course introduces students to advanced research skills in literary studies. It focuses upon the central questions in literary studies and provides students with the critical and theoretical background to make sense of these questions.

**ENGL 302 Women Writers. 3 hours.** A study of British and American literary works written by women. Particular consideration will be given to feminist modes of inquiry and critical thought as well as to the contributions of women in literary scholarship.

**ENGL 303 Single Author. 3 hours.** This course provides in-depth study of a single author’s literary work. *May be repeated when authors vary.*

**ENGL 305 Studies in Ancient through Medieval Literature. 3 hours.** This course focuses on the literature of ancient and medieval cultures. Themes vary annually and may include “Representing Good and Evil in the Middle Ages” or “Forms of Love in the Middle Ages.” Counts for the Medieval Studies minor when content focuses on the Middle Ages. *This course may be repeated when content varies.*

**ENGL 306 Studies in Sixteenth through Eighteenth Century Literature. 3 hours.** This course asks students to investigate selected topics in literature and culture of the Renaissance through the eighteenth century, including European, British, and other cultures. *This course may be repeated when content varies.*

**ENGL 307 Studies in Nineteenth through Twentieth Century Literature. 3 hours.** This course requires students to engage the literature and culture of the nineteenth and twentieth centuries, with particular attention to interdisciplinary study of Victorian, post-Victorian, Modernist, and Postmodern cultures in the Americas and Europe. *This course may be repeated when content varies.*

**ENGL 311 Studies in Contemporary Literature. 3 hours.** This course investigates trends in recent literature, written in or translated into English. Texts will date from about 1980 and later. *This course may be repeated when content varies.*

**ENGL 317 African-American Literature. 3 hours.** The backgrounds of African-American culture in African and Caribbean literatures, as well as the history of black American literature in the nineteenth and twentieth centuries, with focus on the contemporary scene.

**ENGL 342 Shakespeare and Ethics. 3 hours.** Students read Shakespeare’s plays with a focus on the moral component of his drama. We ask how Shakespeare understood what it meant to live well, and how he understood good and evil and the problems of achieving moral clarity and moral maturity in our personal and in our public lives.

**ENGL 344 Studies in World Literature. 3 hours.** *Recommended prerequisite: ENGL 301.* Students study works outside the Anglo-American tradition.

**ENGL 353 Nature of the English Language. 3 hours.** In this diachronic study of the English language, special attention is given to the development of the English language from its Anglo-Saxon origins to the present and to the varieties of English spoken in contemporary American society.
ENGL 355 Small Press Publishing. 3 hours. Prerequisite: ENGL 253. This course provides an opportunity to explore book binding, book structures, limited edition runs and writing for small-press publishing.

ENGL 366 Creative Writing II – Fiction. 3 hours. Prerequisite: ENGL 266, ENGL 267, or ENGL 268. By participating in writing workshops, students learn advanced techniques for and practice in writing fiction.

ENGL 367 Creative Writing II – Poetry. 3 hours. Prerequisite: ENGL 266, ENGL 267, or ENGL 268. This course trains students in advanced techniques for and practice in writing poetry.

ENGL 368 Creative Writing II – Nonfiction. 3 hours. Prerequisite: ENGL 266, ENGL 267, or ENGL 268. This course provides advanced study of different kinds of nonfiction writing, with a practical emphasis aimed at preparing apprentice writers to publish their work as they become familiar with a wide range of publications.

ENGL 375 Land and Literature. 3 hours. This course traces the roots of contemporary thinking about the land in literature both ancient and modern. We will read a series of texts from the Bible, classical Greek culture, early modern England and nineteenth- and twentieth-century America. Students should develop a sophisticated, wide-ranging understanding of how contemporary American culture has imagined (and treated) the natural world.

ENGL 381 Southern Literature. 3 hours. Literature of the southern American states in the context of the South’s characteristic cultural identity.

ENGL 455 Advanced Writing Workshop. 3 hours. Prerequisite: Any 300-level imaginative writing course such as THTR 354, ENGL 366, ENGL 367, or ENGL 368. This intensive workshop provides writing majors a final opportunity to refine their poetry and prose. Students will be required to submit their work for publication and to create a professional portfolio.

ENGL 493 Senior Seminar. 3 hours. Prerequisites: ENGL 301 and senior status. This seminar-style course provides a capstone for both the English and Writing majors. Students will do independent research and synthesize their education at Drury, looking backward at how they have developed, and forward to where they will go next. Course only available in the spring semester on the Springfield campus.

ENGL 290, 390, 490 Selected Topics. 1-3 hours.
ENGL 291, 391, 491 Research.
ENGL 397, 497 Internship. S/U Grading.
Environmental Studies (ENVR)

**ENVR 170 Introduction to Environmental Science. 3 hours.** This course provides an introduction to the scientific principles that inform environmental problems and solutions. While acknowledging that all environmental problems have their root in cultural and political contexts, this course will focus on the science that we use to explore human impacts on the planet at local and global scales, and the science that informs alternative ways of living on the planet.

**ENVR 202 Introduction to Environmental Chemistry. 4 hours.** This course is an introductory study of environmental science from a chemistry perspective. Students in this course are expected to have a working knowledge of chemistry. Topics include environmental pollution of soil, water, water treatment, geochemistry, atmospheric chemistry, air pollution, hazardous materials and resources. Lecture and laboratory.

**ENVR 220 Introduction to Environmental Issues. 3 hours.** An introductory approach to the factual and ethical views regarding current and future environments designed to familiarize students with various frameworks and choices. Course explores several contemporary approaches to environmental ethics and representative theoretical problems.

**ENVR 315 Environmental Laws and Regulations. 3 hours. Prerequisite: ENVR 220.** An introduction to hazardous waste regulations, solid waste management programs, the Clean Air Act, OSHA regulations, the Clean Water Act, environmental audits, remediation technology, and issues relating to the impact of environmental laws on society.

**ENVR 316 Environmental Compliance. 3 hours. Prerequisite: ENVR 315.** This course will provide a “next logical step” beyond Environmental Laws and Regulations, and focus on the practical and policy issues, as well as the varying options that may be available for compliance with those laws and regulations. It is specifically designed in addition to be of particular interest and use to those in the workplace who may currently have or may anticipate having responsibilities in the areas of environmental management and compliance issues.

**ENVR 321 Hazardous Materials. 3 hours. Prerequisites: CHEM 107 and ENVR 315.** Provides an in-depth examination of substances classified as hazardous by various agencies and programs including the Department of Transportation, the Occupational Safety and Health Administration and the U.S. Environmental Protection Agency. The course will explore chemical emergency preparedness, risk assessment, and emergency response planning and training. This course also qualifies as providing the skills and competencies required for employer certification under OSHA’s Hazardous Waste Operations and Emergency Response Rules, 29 CFR 1910.120, and National Fire Protection Association Standards, NFPA 472, for Hazardous Materials Response, Awareness Level. *Military credit given for this course if taken CBRN course #494-74D30-C45 CBRN Advanced Leader Course.*

**ENVR 326 Environmental and Community Health. 3 hours. Prerequisite: ENVR 220.** This course will examine the relationships between the environment and human health. Specifically, looking at how our environment affects personal and community health throughout the world. *Offered spring semester.

**ENVR 345 Environmental Assessment I: Water Monitoring. 3 hours. Prerequisite: ENVR 321.** This course include building an understanding of the fundamentals of water pollution, point and non-point sources and the influence of natural and anthropogenic processes on water sources. This course includes limited use of water testing instrumentation for monitoring water quantity and quality along with limited field experiments. Additionally, students will gain skills in management analysis, interpretation, oral reporting, and technical writing related to the reporting of complex environmental data sets. The hands-on, real-world experiences in water quality monitoring and maintenance includes required field trips that may extend beyond class time. *Military credit given
ENVR 346 Environmental Assessment II: Air Monitoring. 3 hours. Prerequisite: ENVR 321. This course includes building an understanding of the fundamentals of air pollution including sources, and the influence of natural and anthropogenic processes on the atmosphere. Additionally, students will learn about the roles of local, state and federal governments in air pollution control and the importance of the Clean Air Act. Students will also receive limited training in the use of field and laboratory instrumentation for air monitoring outdoor and indoor air quality. Note: Additionally, students will gain skills in management, analysis, interpretation, oral reporting, and technical writing related to the reporting of complex environmental data sets. The hands-on, real-world experiences in water quality monitoring and maintenance includes required field trips that may extend beyond class time. (Military credit given for this course if taken CBRN course #4K-F20/494-F28: Civil Support Skills and course #6H-F38/300-F32(CT): Analytical Laboratory System Operator).

ENVR 347 Environmental Assessment III: Environmental Analysis & Remediation. 3 hours. Prerequisite: ENVR 321. This course will focus on the fundamentals associated with environmental remediation in relation to the overall environmental quality and protection. Students will participate in Sample planning and conduct real-world environmental soil sampling and monitoring projects, as well as practices related to risk assessment, quality assurance and control, laboratory practice and safety. Topics covered include contaminant fate and transport; physical, chemical, and biological processes/characteristics of the air, soil, and water; remediation/restoration methods; environmental monitoring; environmental regulations; and water/wastewater treatment. Students will gain skills in oral reporting, and technical writing related to the reporting of complex environmental data sets.

ENVR 348 Environmental Assessment IV: Environmental Impact Assessment. 3 hours. Prerequisite: ENVR 321. The course includes lectures and field practicum concerning problems addressed by environmental assessments and impacts. This lab involves students' analysis of impact assessments, principles, practices, and their evolution. Also included are practical implications of current regulatory requirements such as the National Environmental Policy Act NEPA, the endangered species act and the wetland act. Students will gain skills in oral reporting, and technical writing related to the reporting of complex environmental data sets.

ENVR 494 Senior Seminar in Environmental Management and Assessment. 3 hours. Prerequisites: ENVR 345, ENVR 346, ENVR 347, ENVR 348, and senior status. This experience includes weekly seminars and group discussions to enrich and broaden student perspectives on the practice and development of environmental technology. Students will be expected to participate in oral and written reporting of seminar topics.

ENVR 290, 390, 490 Selected Topics. 1-3 hours.
ENVR 291, 391, 491 Research.
Exercise and Sport Science (EXSP)

EXSP 101 Varsity Participation. 1 hour. Varsity athletes may enroll for credit for athletic participation. Limited to one semester. (Meets activity class).

EXSP 106 Beginning Basketball. 1 hour. Instruction in the basic skills and tactics of basketball. Students will practice skills and acquire knowledge necessary for participation as a fitness or leisure-time activity. *Offered fall semester of odd-numbered years.*

EXSP 110 Introduction to Indoor Cycling. 1 hour. Students receive instruction in basic fundamentals of indoor cycling, including proper bike set-up, hand positions and core movements, safety, mental training and visualization, heart rate monitoring, and proper breathing. Students will set fitness goals and work towards achievement of their goals as they practice and refine these fundamentals.

EXSP 113 Beginning Swimming. 1 hour. The student is instructed in the basic swimming strokes including freestyle, breaststroke and backstroke. An emphasis is placed on safety and learning to be comfortable in the water.

EXSP 150 Tennis. 1 hour. Students will receive instruction in executing the basic techniques of forehand, backhand and service. The course also covers tactics, scoring, rules and etiquette. Students will practice skills and acquire knowledge necessary for participation as a fitness or leisure time activity.

EXSP 160 Bowling. 1 hour. Students will receive instruction in the basics of the bowling delivery. The course also covers tactics, scoring, rules and etiquette. Students will practice skills and acquire knowledge necessary for participation as a fitness or leisure time activity. *Course fee required.*

EXSP 194 Personal Fitness. 1 hour. Students will be introduced to activities that enhance wellness lifestyles. These activities will include the areas of aerobic conditioning, resistive exercise, and flexibility protocols.

EXSP 209 Intermediate Racquetball. 1 hour. Builds on the skills taught in beginning racquetball. A higher level of technical instruction.

EXSP 216 Weight Training. 1 hour. This course introduces the basic techniques needed for developing muscular strength and endurance. Includes instruction on the use of weight machines and free weights.

*Theory Courses in Health, Physical Education, and Recreation:*

EXSP 210 American Red Cross First Aid. 2 hours. The Standard First Aid and Personal Safety book is used. An American Red Cross Certificate may be obtained.

EXSP 220 Personal Wellness. 2 hours. This course introduces students to key components of wellness. Students will become familiar with testing methods and personal program development for areas such as: aerobic and anaerobic training, stress management and nutrition. Critical thinking about contemporary wellness issues will be discussed.

EXSP 345 Wellness and Health Promotion. 3 hours. This course is designed to provide a student with the basic principles for developing wellness and health promotion programs. It will emphasize various dimensions of wellness/health promotion programs and the benefits of individual and group interaction. The course will focus on developing professional programming skills and personal growth.

EXSP 290, 390, 490 Selected Topics. 1-3 hours.

EXSP 291, 391, 491 Research.

Finance (FINC)

FINC 103 Personal Financial Management. 3 hours. This course provides an introduction to personal financial management. Topics addressed include managing debt, establishing credit, investing for retirement, insurance, and taxes.

FINC 331 Corporate Finance. 3 hours. Prerequisites: ACCT 210, MGMT 228 and admission to Breech School of Business. This course is an investigation of the study of corporate finance and its implications. Topics covered include financial statement analysis, cash flow, taxes, the financial environment, interest rates, risk and return, time value of money, and the valuation of stocks, bonds and firms. The course emphasizes that financial managers must deal with various models, assumptions and cultures and are often called upon to make decisions based on qualitative as well as quantitative factors.

FINC 335 Investments. 3 hours. Prerequisites: ACCT 210, MGMT 228 and admission to Breech School of Business. This course provides an introduction to investments. Specific topics include an overview of how security markets operate, investment companies, analysis of equity and fixed income securities and a basic introduction to derivative securities and portfolio management.

FINC 290, 390, 490 Selected Topics. 1-3 hours.
FINC 291, 391, 491 Research.
French (FREN)

FREN 101 Elementary French I. 3 hours. Designed to develop, with FREN 102, an elementary proficiency in French. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides an introduction to the cultures and cultural practices of the French-speaking world.

FREN 102 Elementary French II. 3 hours. Prerequisite: FREN 101. A continuation of FREN 101 designed to continue the development of an elementary proficiency for producing and comprehending the French language. This course provides instruction for and assesses students' reading, writing, speaking, listening, and develops students' knowledge of the cultures and cultural practices of the French-speaking world.

FREN 103 Tools of Elementary French I. 3 hours. Designed to develop, with FREN 104, an elementary proficiency in three of the five language and cultural skills covered in French 101. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking and listening in French and cultures and cultural practices of the French-speaking world.

FREN 104 Tools of Elementary French II. 3 hours. A continuation of French 103, designed to continue the development of an elementary proficiency in three of the five language and cultural skills covered in French 102. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking and listening in French and cultures and cultural practices of the French-speaking world.

FREN 201 Intermediate French III. 3 hours. Prerequisite: FREN 102. Designed to develop, with French 202 a more advanced proficiency in French. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides a continuation of study of the cultures and cultural practices of the French-speaking world.

FREN 202 Intermediate French IV. 3 hours. Prerequisite: FREN 201. A continuation of FREN 201, designed to continue the development of a more advanced proficiency in French. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides a continuation of study of the cultures and cultural practices of the French-speaking world.

FREN 203 Tools of Intermediate French III. 3 hours. Designed to develop, with FREN 204, a more advanced proficiency in three of the five language and cultural skills covered in French 201. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking and listening in French and cultures and cultural practices of the French-speaking world.

FREN 204 Tools of Intermediate French IV. 3 hours. A continuation of FREN 203, this course is designed to continue the development of a more advanced proficiency in three of the five language and cultural skills covered in FREN 202. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking and listening in French and cultures and cultural practices of the French-speaking world.

FREN 290, 390, 490 Selected Topics. 1-3 hours.
FREN 291, 391, 491 Research.
Geography (GEOG)

GEOG 223 Introduction to Meteorology. 4 hours. This course explores the processes that produce weather and climate patterns. Topics of study include earth/sun relationships, global pressure and wind systems, weather forecasting, severe storms, and global climate change.

GEOG 340 Geography of Food, Agriculture, and the Environment. 3 hours. Humans use more of our planet's surface for food production than for any other use. The oceans also serve as a primary food source. This class explores how crops and food specialties have developed around the world. The primary goal of this course is to examine the environmental problems that result from food production and to explore more sustainable options for agriculture, fisheries and wild lands. The course will include a field trip to a sustainable farm and meetings with federal agricultural professionals. An additional goal is to gain an appreciation of the regional differences in food by sampling examples of world cuisine. Offered spring semester.
General Studies (GSTU)

GSTU 101 Introduction to Computers and Software. 3 hours. This course provides an opportunity for students to learn how to use the most common computer software programs and information resource facilities. While providing basic information about microcomputer structure and components, operating systems and an introduction to various applications such as word processing, spreadsheet applications, presentation software and the Internet will be covered.

GSTU 102 Introduction to the Internet. 1-2 hours. Course designed to give participants a grand tour of the super highway. Buckle your seat belts and you will learn about how to bookmark sites, taking those bookmarks from one computer to another. You will probably find yourself on the Internet, as well as thousands of recipes. Learn to find your family tree and grow into a web surfer.

GSTU 104 Introduction to Web Page Development. 1-3 hours. Course designed to teach the student how to make a basic webpage. Using freeware and other software the student will discover how to make a dynamic webpage. The student will discover the main elements of a webpage. No HTML knowledge is required.

GSTU 105 Digital Cameras and Scanner. 1-2 hours. Prerequisite: basic computer skills. Course designed to introduce the basics of digital cameras, scanning pictures and utilizing free software to manipulate graphics or images.

GSTU 106 Introduction To Blended and Online Learning. 1 hour. An introduction to strategies and skills for succeeding in blended and online learning environments, effectively using a Learning Management System (LMS), successfully navigating educational resources related to enrollment and academic advising, accessing electronic campus resources and other services remotely, and using learning technology to increase student effectiveness in both group and individual settings.

GSTU 107 Legislative Seminar. 3 hours. This course is for dual credit delivery only. This class offers an outstanding opportunity to learn about the state government process using a hands-on approach. Much of the class will be working to compile information for papers. This will include days for class work at school, days in the library for research, and days where students will be working in the capitol building. There will also be times that the students will be in the capitol building. There will also be times that the students will be in the capital building. There will also be times that the students will be in the capital building after school hours. This course gives high school students a chance to learn about the Missouri legislature on a college level in an engaging environment. Dual credit course only.

GSTU 110 Foundations of College and Professional Success. 3 hours. This course will introduce students to the principles and tools which will enhance their effectiveness as students and professionals. Topics will include information literacy and research, online tools and the learning management system, academic integrity, time management, professionalism and career development.

GSTU 201 Excel – Beyond the Basics. 1-2 hours. Prerequisite: LIBR 211, or knowledge of creating spreadsheets using basic formatting skills in Excel and inserting basic formulas. Intermediate course designed to enhance and expand basic skills using Microsoft Excel.

GSTU 202 Word – Beyond the Basics. 1-2 hours. Prerequisite: LIBR 211. This course is designed to enhance and expand basic skills using Microsoft Word. Covered in this course: formatting research papers, resumes and other professional documents, formatting using MLA or APA templates, tables and charts, using outlines, headers, footers, page numbers, etc.

GSTU 204 Photoshop. 1-2 hours. This class instructs the student in the basics of Photoshop, the powerful industry standard digital image editing tool. Students learn to use the tools in Photoshop: layers, filters, and techniques for fixing and enhancing photos. Students should have a basic knowledge of computer applications in order to take this class.

GSTU 206 Global Society. 3 hours. For Cox College Students Only. This study covers five major
geographic areas with emphasis on cultural habits including race, ethnicity, religion, economics, food and entertainment. Societies studied are Japan and the Pacific Rim, Mexico and neighboring countries, the Bushmen of Africa and the journey through the ages, Egypt and Germany. Students have weekly research on the area being studied broken into education, healthcare, government, and current situations relating to area. Emphasis is given to how the basic study of sociology perspectives moves into the global environment. We address ascribed versus achieved and class status seen in the various societies. Students learn to compare/contrast with the countries being presented and with the United States.

GSTU 210 Desktop Applications for PCs. 3 hours. This course focuses on the use of advanced software applications using the latest Microsoft Office software. Students will produce comprehensive, real-world solutions to solve business related problems. Students will utilize Word, Excel, PowerPoint applications and Internet resources. Meets BBA degree technology requirement.

GSTU 211 Desktop Applications for Macs. 3 hours. This course focuses on the use of advanced software applications using the latest Microsoft Office software. Students will produce comprehensive, real-world solutions to solve business related problems. Students will utilize Word, Excel, PowerPoint applications and Internet resources. Meets BBA degree technology requirement.

GSTU 493 Senior Seminar. 3 hours. Prerequisite: LIBR 211. This course helps students relate their primary field of interest (mathematics and science, humanities and fine arts, or social sciences) to various world cultures. Students will exit the class with a greater understanding of the world around them and their role in it. Students registering for this capstone class for the Bachelor of General Studies degree must have senior status with 90 or more earned college hours.

GSTU 290, 390, 490 Selected Topics. 1-3 hours.

GSTU 291, 391, 491 Research.

History (HIST)

HIST 101 United States History to 1865. 3 hours. A broad survey of the major political and social developments from the time of Columbus to the Civil War. Offered fall semester.
HIST 102 United States History, 1865 to present. 3 hours. A broad survey of the major political and social developments from the Civil War to the present. Offered spring semester.
HIST 107 World History to 1500. 3 hours. A survey of world history with a focus on the nature of changes in global frameworks and their causes and consequences, as well as comparisons among major societies. It emphasizes relevant factual knowledge, leading interpretive issues, and skills in analyzing types of historical evidence.
HIST 108 World History from 1500. 3 hours. A broad survey of world history from 1500 to present. Exploration of various modern world cultures with a focus on connections and conflicts between them.
HIST 109 Asian History to 1700. 3 hours. This course examines the cultural traditions and transformations in Asian history from its origins to around 1700. Identifies specific historical events, political developments and philosophical, religious and social innovations in the history of East Asia and Southeast Asia as well as highlights the contributions and transformations as it interacts with other world civilizations.
HIST 110 Ancient Civilizations. 3 hrs. This course provides an introduction to ancient civilizations from the earliest societies through the Byzantine Empire, approximately 700 CE. The class concentrates on the ancient civilizations of India, Mesopotamia, Egypt, Greece, and Rome, while also examining the influence of other societies such as the Hebrews, the Phoenicians, the Minoans, and the Mycenaeans. Emphasis placed on culture and society, texts, and surviving artifacts and monuments.
HIST 111 Geographical History. 3 hours. A study of various ways to examine the connection between geography and history-how geography has affected and been shaped by historical developments, including but not limited to physical, political, cultural, and environmental elements. Specific attention will be placed on how the movements of people and human-environmental interactions impact ecosystems and cultures.
HIST 160 Genocide in History. 3 hours. The last two centuries have seen mass violence on a scale unprecedented in human history. Among the most horrifying forms this violence took was the attempt to systematically exterminate whole religious/ethnic/national groups, which Raphael Lemkin coined the term "genocide" to describe. In this course, we examine individual historical cases of genocide and also consider theoretical approaches that seek to explain its causes and dynamics. Offered through dual credit agreements at selected high schools.
HIST 219 Early Modern European History. 3 hours. This course explores European history from the fifth to the seventeenth century. Particular attention is placed on religion, society, culture, and politics.
HIST 245 Europe in the Twentieth Century. 3 hours. A study of major developments in twentieth-century Europe: World War I, the rise of fascism and communism, the Depression, World War II, Cold War, the collapse of communism, contemporary issues; a brief survey of the late 19th-century precursors to these events.
HIST 251 History of Slavery. 3 hours. Exploration into the history and social, political, and cultural significance of slavery and the slave trade in various societies and cultures; from slavery in the ancient world to transatlantic slave trade to slavery and its legacy in the modern era.
HIST 259 Engaging the Past. 3 hours. Through the use of the course’s thematic material, students will be introduced to the basic skills used by historians in their investigation of the past, including a close reading and contextualization of primary source texts, the study of historical interpretations and controversies, citation and research methods, effective writing techniques, and oral communication skills.
HIST 265 Native American History. 3 hours. Examines the history of Native Americans from the 1400s to
the present. Topics include cultural diversity before European invasions as well as Indian-European encounters. The slave trade, Indian Removal, accommodation, and resistance will also be discussed. From Cahokia mounds to the Great Plains resistance, the class provides insights into the complexity of Native American societies and the diversity of the American experience.

**HIST 320 The American Revolution. 3 hours.** This course examines the revolutionary origins of America and its transition into a new nation. Topics include the experiences of soldiers, the transformation of politics, and the social revolution that followed war. Changes for Native Americans, African Americans, and women will also be examined as well as the global implications of the Revolution, and its influence on future anti-colonial rebellions.

**HIST 321 Women in European History. 3 hours.** Exploration of the lives and voices of European women throughout history and the ideologies that Western society has projected concerning women.

**HIST 323 Women in American History. 3 hours.** Exploration of the lives and voices of American women from colonial times to the present. Examines the following issues thematically: women and sexuality, women and education, women and the fight for rights, and women and the public sphere (work, religion and politics).

**HIST 330 The American Civil War. 3 hours.** The causes, nature and consequences of the Civil War; emphasis placed on political and social interpretations of the war as well as its military events.

**HIST 332 The Lewis and Clark Expedition. 3 hours.** A study of the Lewis and Clark expedition; the Native American tribes encountered; and the impact the voyage had on the men who undertook it, the people they met and the young United States.

**HIST 334 Russia and the Eurasian Republics. 3 hours.** A study of the historic legacy of the multi-ethnic Russian state and the Eurasian Republics. Emphasis on the resurgence of ethnicity and national identity, revival of religion and the emergence of new socio-political groups. *Meets cultural diversity requirement.*

**HIST 335 History of the American Frontier. 3 hours.** A study of the growth of Western institutions and their influence on our national life.

**HIST 342 The European Witch-Hunts. 3 hours.** This course examines the witch-hunts in Early Modern Europe. To understand the historical context, the course examines magic, heresy, witch-hunts and the shifting definitions in the late Middle Ages. Primary sources highlight the words of the accused and the accusers. Additional foci include the popular modern myths associated with the witch-hunts, as well as examination of modern witch-hunts.

**HIST 343 Latin American History. 3 hours.** This course examines the history of Latin America. Beginning with the indigenous societies of Central and South America, as well as the Caribbean, it follows the growth of colonial societies as indigenous European, and African populations formed new and diverse cultures. Concludes with a history of decolonization and modern Latin American history.

**HIST 344 History of Modern Africa. 3 hours.** This course examines the history of Africa since 1700, especially the slave trade, missionary activity and imperialism. Second half of class focuses on the development of nationalist ideologies and independence movements, decolonization, and the formation of independent African states, as well as contemporary crises.

**HIST 345 History of Modern Asia. 3 hours.** A survey of Asian developments from human origins to the present, with an emphasis on the events, themes and developments most directly related to the emergence of modern Asia.

**HIST 346 History of Modern China. 3 hours.** An in-depth study of contemporary Chinese culture and history, with an examination of revolutionary movements and modernization.

**HIST 347 History of Modern Japan. 3 hours.** An in-depth study of contemporary Japanese history and culture, examining the Meiji Restoration, Japanese expansion and interaction in Asia, World War II and the challenges faced by Japan after World War II.

**HIST 350 African-American History. 3 hours.** A survey of nineteenth and twentieth century African-American history, with an emphasis on cultural, social, economic and political issues.
**HIST 380 Hitler and Stalin. 3 hours.** This course will consider the phenomena of Nazism and Stalinism, focusing on systems of authority, culture, daily life, and the use of violence. *Writing intensive course.*

**HIST 385 Cold War. 3 hours.** An analysis of specific Cold War controversies, particularly those that took place in the Third World; an examination of ideological, cultural and socio-historical aspects of the Cold War.

**HIST 493 Senior Seminar. 3 hours.** Prerequisites: *HIST 101, HIST 102, HIST 107, HIST 108, HIST 259 and senior status.* Serves as a capstone class for graduating history majors and involves completing a major research paper using historical documents. Focus is on research skills, writing and revision, interpreting primary sources and historiography.

**HIST 290, 390, 490 Selected Topics. 1-3 hours.**
**HIST 291, 391, 491 Research.**
**HIST 397, 497 Internship. S/U Grading.**
Health Science (HSCI)

HSCI 151 Introduction to Practical Dental Assisting. 4.5 hours. This course is an introduction to the dental assisting profession. Emphasis is placed on staff/patient interaction, scheduling and flow in a dental office, OSHA and legal implications and infection control in the dental setting. A general background in dental history as well as definition of dentistry and each of the dental specialties will be included.

HSCI 152 Dental Radiology & Radiography. 2 hours. Prerequisite: HSCI 151. This course will focus on the science of Radiology, specifically as it applies to the Dental Profession. Emphasis will be placed on radiation precautions and the importance of radiographs as part of the patient record. Skills will include the taking, processing and mounting of diagnostic quality radiographs.

HSCI 153 Preventive Dental Care. 1.5 hours. This course will focus on preventative measures in maintaining good oral health. Emphasis will be placed on routine dental exams as well as the dental prophyaxis and maintenance of periodontal tissues, preventive procedures such as sealants and providing general dental care. Other areas of study will include a balanced diet and how our eating habits affect our oral health.

HSCI 154 Dental Materials & Instrumentology. 1.5 hours. This course will explore the different dental materials used in restorative dentistry. A detailed analysis of each material will be given including the chemical make-up and manipulation techniques for each material as well as safety precautions for use. The student will learn indications and contraindications for use of each material in different situations as well as the role the dental assistant plays in preparation and delivery of dental materials. A detailed study will also be made of the dental instruments needed to complete various procedures. The student will learn to identify and describe the use of each instrument.

HSCI 155 Restorative Dentistry. 1.5 hours. This course is an introduction to restorative dentistry. In this course, the student will build upon their knowledge of dental instruments and materials as well as basic patient care in order to complete a chairside restorative procedure. Different forms of restorations focused on in this course include amalgam and composite restorations, endodontic procedures, aesthetic restorations and fixed prosthetics. The student will learn to properly prepare and place various matrix systems and efficiently assist the dentist all while keeping the patient comfortable.
Leadership Studies (LDST)

LDST 101 Foundations of Organizational Leadership. 3 hours. General introduction to, and analysis of, historical and current theories of leadership. Study of leadership process involving interaction of leaders and followers in organizational settings such as public/private, profit and nonprofit.

LDST 250 Financial Basics for Leaders. 3 hours. Leaders at all organizational levels need an understanding of what makes their organizations go—money! Whether it is a for-profit business or a "non-profit," the financial aspects of operation affect the company's ability to achieve goals and the leader's ability to make decisions. This course includes the "basics" of using various financial statements, cash management plans, capital budgets, ratios and other tools to assist the leader in directing the organization. In addition, pricing strategies, economic decision-making models, financing options and internal accountability will be considered. Finally, measurements of financial performance and requirements for validity of financial information will be discussed from the perspective of what the leader needs to know to function effectively and meet his/her financial responsibilities.

LDST 260 Fundamentals of Leadership I. 3 hours. A broad background is essential for leaders in today's organizations. This course and its companion, Fundamentals of Leadership II, are intended to give AS degree candidates experience for the full range of issues faced by leaders at all levels. Principles of conflict resolution, various leadership theories, styles and philosophies, as well as contemporary motivational methods will be considered. Elements of leading technology professionals and other specialists will also be included. Through class discussions and course materials, students will receive key aspects of generalist leadership to enable them to grasp and resolve organizational operations issues.

LDST 270 Fundamentals of Leadership II. 3 hours. This course builds on material covered in LDST 260, Fundamentals of Leadership I, and provides AS degree candidates an additional opportunity to explore issues applicable to leaders at all levels. Using leadership theories and methods to deal with group dynamics and other behavioral issues will be considered, along with current contemporary issues such as discrimination, harassment, disabilities, benefits, and appearance in the workplace. An introduction to corporate social responsibility and the need for diversity and consideration of cultural differences in organizations will also be included. Finally, and perhaps most importantly, key legal issues and ethical principles of leadership will be covered. Through course materials and discussions, students will receive essential components of generalist leadership to equip them to excel in today's organizations.

LDST 275 Leadership for Professional, Charitable, and Religious Organizations. 3 hours. Significant opportunities exist for leaders in the nonprofit community, including religious, charitable and professional organizations. Making students aware of these possibilities and the differences/similarities of these agencies to the for-profit world are the primary purposes of this course. Understanding the basics of nonprofit leadership will help students in the Leadership Studies degree programs be well-rounded and equipped to apply their skills in the nonprofit area. Students may choose among three "tracks" of emphasis during the course: religious organizations, charities, and professional associations. Specialization will be achieved through use of a "core" text and a supplemental text for the track chosen.

LDST 300 Theories and Models of Leadership. 3 hours. During this course students will analyze the theories, processes, and structures to become effective leaders within a wide variety of organizations. Topics of study include theories of leadership, leadership challenges, functions of the leader, and skills of the leader. Additional emphasis is placed upon the importance of life-long learning and the development of leadership skills in the workplace to include such skills as ethics, teamwork, diversity, goals, change, conflict, communication, motivation, leadership, problem solving, and decision making.

LDST 310 Contemporary Workforce Issues. 3 hours. This course explores current workforce issues faced by leaders in public and private sector organizations. Course content includes a discussion of present-day topics including discrimination, sexual harassment, disability law, the "glass ceiling" as it relates to women in leadership, unions and their continued applicability in American industry, international
cultures and their impact on organizations, as well as technology and its applications and challenges. General management of all types of organizations and personnel will also be considered.

**LDST 325 Leading & Integrating Technology in Organizations. 3 hours.** Technology pervades all organizations today and is likely to increase in prominence in the future. Leaders (who may be themselves non-technical) need to know how to relate to technology experts and other technical professionals on whom they depend for success. In addition, the ever-increasing use of technology dictates that organizations develop and enforce policies relating to email, social media accounts, use of organization computers, security of data, and many other facets of operation not previously thought of as important. In this course, students will consider the unique aspects of leading and motivating technical professionals and develop an understanding of the policies contemporary organizations must have to succeed in a technology-driven world. Students will also discuss methods on which to rely in considering requests for technology-related capital equipment, software, and other enhancements, as well as ways to evaluate the job performance of technical specialists.

**LDST 331 Negotiation and Conflict Resolution. 3 hours.** This course examines conflict causes and effects as well as ethical issues. Students will use case studies and simulations to practice skills for conflict resolution. An investigation of theoretical and practical aspects of conflict assessment, negotiation, problem solving and mediation are integral to this process.

**LDST 338 Organizational Relations. 3 hours.** Successful leaders in organizations have an understanding of basic individual and group behavior. Great leaders have exceptional insight into essential relationships and how to interact effectively with their coworkers. Great managers know how to help people under their supervision succeed. This course offers an emphasis on typical interpersonal, managerial and leadership relationships, with an emphasis on the things effective managers and leaders do to ensure success. The differences between management and leadership will be discussed and we will look at personal leadership styles and evaluate ourselves to identify strengths as well as areas requiring development. In addition, we will discuss effective leadership behaviors and why they work. Models and concepts regarding leadership that are put forth in the texts will be discussed along with team and individual dynamics that may affect workplace behavior. Self-reflective writing may also be included in the learning process.

**LDST 350 Organizational Legal Issues and Policies. 3 hours.** This course examines environmental forces that impact the organization with an emphasis on applicable legal issues. Emphasizing an understanding of law as a basis for critical examination of legal, governmental and regulatory processes confronting today's organizations. Topics include dispute resolution, workplace crimes, contract liability and electronic communication laws.

**LDST 400 Grant Writing. 3 hours.** This course provides information, resources and hands-on exercises that cover aspects of identifying program/community needs, locating funding sources and programs, outlining a prospectus, writing a successful proposal and discussing the reasons proposals fail. The course also explores reading Requests for Proposals (RFP) and understanding the proposal review process. Emphasis is on understanding the grant process and preparing proposals for federal agencies and corporate and private foundations.

**LDST 420 Managing Multi-Cultural Organizations. 3 hours.** The United States has always been referred to as a ‘melting pot’ with people from all cultures residing throughout. In addition to being a capable communicator with different cultures within the U.S., managers must also be able to interact with individuals living in other countries. As the U.S. becomes more and more ethnically diversified the world is becoming smaller through technology, e-commerce, and political interdependence. Even small businesses need skills in multi-cultural communication to understand the complexities of business and culturally specific practices.

**LDST 425 Leading Corporate Social Responsibility and Sustainability. 3 hours.** Twenty-first century leaders must be prepared to do more in their organizations than maximize profitability. They must also
satisfy expectations that their organizations demonstrate a strong commitment to society in its values on social, environmental and economic goals; protect society from negative company actions or accidents; share the benefits of operation with constituents and become more profitable by "doing well by doing good." In addition, leaders must show conscious efforts to protect natural resources and implement strategies to ensure their sustainability for future generations. In this course, students will gain an understanding of the complex relationship between concern for the environment and the goals of organizations, as well as the philosophy that the most successful organizations are those that "give back" to society. Discussions will center on leadership actions to promote corporate social responsibility (CSR) and sustainability, including consideration of wasted resources, pollution and other environmental impacts of organizations. CSR and sustainability are now global expectations and will likely become even more significant in the future. Leaders who realize this and are prepared to help their organizations meet these challenges are primed for future success.

LDST 435 Strategic Leadership. 3 hours. Leaders of today's organizations are expected to have the vision for the future direction of the operation and to apply principles of strategic leadership to achieve it. To be successful, leaders must think strategically and make excellent use of available resources in accomplishing the organization's goals. In this course, students will discuss an approach to strategic leadership that considers the organization's environment, both external and internal. The basics of developing strategy to achieve goals at several operational levels will also be discussed, along with how such strategy may be effectively implemented and controlled. For those aspiring to one day be top leaders of progressive organizations, this course may be essential.

LDST 450 Ethics and Leadership. 3 hours. Prerequisites: LDST 300, LDST 331, and senior standing. Women and men within organizations are compelled to make decisions that in turn affect the organization itself. This course examines ethical questions that directly affect how organizations function, internally and externally, through what they choose to relay and omit to their various audiences. Cases and academic studies will be analyzed that reflect how ethical and unethical communication affected the fortunes of organizations. We will also evaluate our personal ethics through a series of self-evaluation exercises and relate what we are learning to the "real world" through monitoring of current events during the course.

LDST 290, 390, 490 Selected Topics. 1-3 hours.
LDST 291, 391, 491 Research.
Law Enforcement Academy (LEA)

**LEA 200 Basic Police Officer Training I. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy.* Overview of the United States and Missouri Peace Officer Standards and Training (P.O.S.T.) Commission, for a Class A Peace Officer license.

**LEA 210 Basic Police Officer Training II. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy and completion of, or concurrent enrollment in, LEA 200.* A comprehensive study of Missouri traffic law, accident investigation, and accident diagramming.

**LEA 211 Basic Police Officer Training III. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy and completion of, or concurrent enrollment in, LEA 200.* Overview of interpersonal perspectives, technical studies and skill development. Students will be introduced to activities that enhance wellness lifestyles including aerobic conditioning, resistive exercise and flexibility protocols. Provides first responder and CPR training.

**LEA 282 Defensive Tactics for Peace Officers. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy.* Acquaints students with the base defensive tactics system and legal basis for using force. The student level program focuses on simple and effective field-tested tactics that are effective for officers of various skill levels, conditioning, physical size and strength level.

**LEA 283 Fundamentals of Firearm Marksmanship. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy.* Proper weapon-handling skills and tactics utilizing handguns and shotguns familiar to law enforcement. Covers the legal elements necessary for the lawful use of both deadly and non-deadly force as they relate to self-defense; defense of other persons, premises, or property; and when making an arrest. Minimum course qualification scores of 70% for weapons are required for successful completion of skill development area.

**LEA 284 Professionalism and Ethics in Law Enforcement. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy.* Introduction to ethics in law enforcement. Students examine conceptual perspectives for understanding and evaluating law enforcement ethics in interpersonal relationships, small groups, organizations and intercultural contexts. This course is designed to stimulate the moral imagination, reveal ethical issues inherent in law enforcement and provide resources for making and defending choices on ethical grounds.

**LEA 285 Foundations of Law Enforcement Leadership. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy.* General introduction to, and analysis of, historical and current theories of leadership. Study of leadership process involving interaction of leaders and followers in organizational settings such as police and sheriff departments.

**LEA 293 Basic Police Officer Training IV. 3 hours.** *Prerequisite: Admission to Law Enforcement Academy and completion of, or concurrent enrollment in, LEA 200.* Culmination of skills and concepts covered in LEA classes with students engaging in practical applications of traffic law enforcement, interviewing skills, domestic violence investigation, DWI enforcement, searching for and apprehension of armed intruders. Final written physical testing.
Paralegal Studies (LEGA)

LEGA 110 Introduction to Law and Legal Reasoning. 3 hours. The survey of law includes extensive study of the judicial branches of government, including the function of judge, jury, plaintiff and defendant. The course also looks at substantive law, and provides an introduction to the process of applying legal rules to specific factual situations.

LEGA 120 Legal Research and Writing. 3 hours. This course is designed to introduce, explore and use the systems, methods, and practical realities of traditional and electronic legal research. Through a variety of realistic and relevant legal writing projects, the student will gain an understanding of how strong legal research is translated into strong, effective legal writing. The projects include legal memoranda, trial briefs, and appellate briefs. Students will be expected to demonstrate proficient, flexible, and accurate writing skills, and proper use of legal citations.

LEGA 201 Interviewing and Investigating. 3 hours. Prerequisite: LEGA 110, ENGL 150 or ENGL 207. This course emphasizes communication skills the paralegal must have to function. As a lawyer excels in written and verbal skills, so must the legal assistant excel. Interviews of clients and statements of witnesses are prepared by students under supervision. Demonstrated proficiency is required for successful completion.

LEGA 202 Wills, Estates and Trusts. 3 hours. Law applicable to estates and trusts, designed primarily for the individual and for those such as insurance experts who must deal with such problems in their professional work. Taxation will be considered.

LEGA 245 Real Estate Law. 3 hours. A comprehensive study of real estate law designed for the person who has had no training in law. All phases of real estate transactions, including new developments, such as the open-end mortgage. For real estate brokers and salespeople, those concerned with the financing of real estate, investors in real estate, and promoters and developers of real estate.

LEGA 261 Litigation. 3 hours. This course includes study of Missouri and federal civil procedures, trial preparation including discovery, trial and post-trial matters. Designed for the paralegal candidate.

LEGA 262 Tort Law. 3 hours. This course explores the different causes of action comprising tort law. Negligence, strict liability, workers compensation, and intentional torts will be covered.

LEGA 263 Social Security/Workers Compensation Law. 3 hours. This course explores the rights, duties, and obligations of employers and employees within the Worker’s Compensation and Social Security system.

LEGA 264 Family Law. 3 hours. This course introduces the basics of family law such as the law surrounding juveniles and marriage.

LEGA 275 Professional Practicum. 3 hours. It is recommended this course be completed after 45 hours of acceptable degree credits. This course is a practicum experience. Each student individually coordinates the course with the program coordinator under the approval of the dean of the College of Continuing Professional Studies. The practicum provides the student with a practicum experience in a law office. S/U Grading.

LEGA 290, 390, 490 Selected Topics. 1-3 hours.

LEGA 291, 391, 491 Research.

Library and Information Systems (LIBR)

LIBR 211 Information Research Skills. 1 hour. An introduction to strategies and skills for defining information needs, understanding principles of information organization and retrieval, identifying appropriate library and non-library resources, evaluating information and using it legally and ethically. Knowledge and skills acquired apply to research for classroom purposes and for personal needs. Course must be completed prior to sophomore standing. Required for all bachelor degrees.
Mathematics (MATH)

**MATH 100 Intermediate Algebra. 3 hours.** Prerequisite: pre-algebra or beginning algebra in high school or college. The traditional topics of intermediate algebra through quadratic equations and functions.

**MATH 101 Fundamental Mathematical Concepts I. 3 hours.** Prerequisite: one year of high school algebra or MATH 100. Development of the number systems — whole numbers through real numbers. Problem-solving strategies, functions, elementary logic and set theory are included.

**MATH 102 Fundamental Mathematical Concepts II. 3 hours.** Prerequisite: MATH 101. An introduction to geometric concepts, measurement, probability, statistics and basic computer concepts.

**MATH 109 College Algebra. 3 hours.** Prerequisites: MATH 100 or one year of high school algebra and one year of high school geometry. A study of functions and graphs, solutions of equations and inequalities and the properties of polynomial, rational, exponential and logarithmic functions.

**MATH 110 Trigonometry. 3 hours.** Prerequisite: MATH 109 or two years of high school algebra and one year of high school geometry. The study of trigonometric, logarithmic and exponential functions and their applications.

**MATH 201 Mathematics for Social Sciences. 3 hours.** Prerequisite: MATH 109. Topics from finite mathematics and calculus with applications in the social sciences.

**MATH 205 Mathematical Connections. 3 hours.** Prerequisite: At least two years of high school algebra. A quantitative reasoning course for students in the liberal arts, focusing on applications of mathematics to social issues in our world. Contains the study of providing urban services, making social choices, constructing fair voting systems, and planning the fair division of resources.

**MATH 211 Precalculus. 3 hours.** Prerequisite: High-school level algebra skills and/or successful completion of College Algebra are required. This course is designed to prepare students for Calculus I. It covers a variety of topics from algebra, with emphasis on the development of rational, exponential, logarithmic and trigonometric functions, including their essential properties, graphs and basic applications. Additional topics range from linear systems to conic sections.

**MATH 227 Introduction to Statistics. 3 hours.** Prerequisite: One year of high school algebra. A course to acquaint the student with the basic ideas and language of statistics including such topics as descriptive statistics; correlation and regression, basic experimental design, elementary probability, binomial and normal distributions, estimation, and tests of hypotheses and analysis of variance.

**MATH 231 Calculus I. 4 hours.** Prerequisites: Two years of high school algebra and one semester of high school trigonometry. A study of the fundamental principles of analytic geometry and calculus with emphasis on differentiation.
Management (MGMT)

MGMT 228 Analytical Methods. 3 hours. Prerequisites: GSTU 210, MATH 227. Study of common techniques for quantitative analysis, and decision making including probability distributions, forecasting models, multivariate correlation and regression, linear programming, queuing analysis and simulation. Team and individual research and problem solving, report writing, and oral presentations. Critical evaluation of assumptions in decision making including qualitative considerations.

MGMT 250 Management Information Systems. 3 hours. An introduction to the study of the design and application of management information systems in business.

MGMT 301 Leadership and Organizations. 3 hours. Prerequisite: ACCT 210, admission to Breech School of Business. Introduction to management of organizations, including strategy, leadership and organizational design. Projects in leadership development and evaluation. The project will include a paper and presentation as part of the deliverables.

MGMT 321 Legal and Ethical Environment of Business. 3 hours. Prerequisite: Admission to Breech School of Business. This course is an overview of laws and regulations as they pertain to the business atmosphere. Topical areas include procedural laws and the court system; alternative means of dispute resolution; constitutional law, torts/products liability, business crimes, contracts, sales, forms of business organizations; and employment regulation. Case analysis and ethical implications are discussed in each area.

MGMT 373 Human Resource Management. 3 hours. Prerequisite: MGMT 301 and Admission to Breech School of Business. A survey of the major human resource management functions including planning, staffing, training and development, performance management, compensation, health, safety and security, and employee and labor relations.

MGMT 422 Corporate Policy and Ethics. 3 hours. Day School Prerequisite: ECON 311 or ECON 312 (as required for your major), MGMT 301, MKTG 337, and admission to Breech School of Business. Continuing Studies Prerequisite: MGMT 301, MKTG 337, and admission to Breech School of Business. Senior seminar course for students majoring in accounting, computer information systems, economics, finance, management or marketing. Study of the roles, responsibilities and challenges of business in modern global society. Case analyses and research discussed in seminar format. Emphasis upon critical thinking, effective communication and development of socially responsible business leadership.

MGMT 424 Business Simulation Workshop. 3 hours. Prerequisites: Admission to Breech School of Business. Senior standing. It is recommended this course be taken concurrently with MGMT 422 and/or final semester prior to graduation. The Business Simulation Workshop offers students the opportunity to learn about, and engage in, a competitive business environment via the CapSim business simulator. Students will partner in close teams to develop a deep understanding of general business strategies and tactics, and they will apply this theoretical understanding by managing various functional areas of a simulated manufacturing firm. By the end of the course, students will understand the basic principles of strategic business management, as well as the decisions that managers make in pursuit of their strategic goals and objectives. Business professionalism constitutes an essential component to the course, as it represents a key success variable in communicating and substantiating business decisions to external business constituents. For this reason, students will make multiple presentations in the course of the semester, to one another, as well as visitors from the business community whenever possible.

MGMT 447 Survey of International Business. 3 hours. Prerequisite: Admission to Breech School of Business. This course examines the role that political, economic, technological, and sociocultural factors...
play in today’s globalized business environment. To this end students will develop an understanding of organizational and competitive issues and challenges which characterize global business. Through case study, students will explore recent efforts by multinational organizations to effectively address these issues and challenges.

**MGMT 476 Nonprofit Organizations. 3 hours.** Prerequisite: Admission to Breech School of Business. This course is designed to support the Arts Administration major, but is an appropriate elective for several majors such as Management, Strategic Communication, or Organizational and Leadership Communication. The focus of the course is on the development and ongoing operation of nonprofit organizations, particularly those involved in the arts. Incorporation, taxation, financial reporting, marketing, donor database management, contracting, and personnel issues are examples of topics covered.
Marketing (MKTG)

**MKTG 337 Marketing. 3 hours.** Prerequisite: Admission to Breech School of Business. Introduction to effective marketing concepts, strategies, and practices. An analytical approach to recognition of alternative strategic paradigms and their effect on a firm’s marketing. Ethical and social responsibilities of effective domestic and global marketing. Individual and team projects with operating sponsors.
Music (MUSC)

**MUSC 115 Introduction to Music. 3 hours.** An introductory course in the music of our western culture for non-music majors. Learning how to listen to music and acquiring a basic knowledge of the musician's technique and vocabulary.

**MUSC 117 Music Theory I. 3 hours.** Introduction to the basic music vocabulary. Elements of tonal music approached through hearing, writing and analytical work in diatonic harmony and basic species counterpoint.

**MUSC 118 Music Theory II. 3 hours.** *Prerequisite: MUSC 117.* Continuation of diatonic harmony with an emphasis on 4-part writing. Analysis of Bach chorales and an introduction to musical forms.

**MUSC 165 Pep Band. 1 hour.** Pep Band is a performing ensemble that performs at all regular season home games for the men's and women's basketball teams. The Pep Band also plays for all home playoff games and may travel with the teams to the NCAA tournament. Membership in the ensemble is open to all Drury students regardless of major as well as to Drury faculty and staff and Springfield community members.

**MUSC 221 African-American Music. 3 hours.** This course is a study of the musical and cultural influence of African Americans, from their West-African roots to the present day, on American musical styles. Attention will be given to the mixing of these components with traditional European influences to shape such American musical genres as ragtime, blues, Dixieland, jazz, bebop, rhythm and blues, soul, jazz-rock, fusion, and rock and roll.

**MUSC 315 Latin-American Music. 3 hours.** This course focuses on the interdisciplinary nature of Latin-American music and its territorial history and politics, marked with the flavor and inheritance of multiple processes of acculturation, from native aborigines, to Africans and Europeans. Different paths taken by music and musicians in different places of Latin-America provide the context for understanding different societies and basic musical principles. This seminar is divided into discussion sessions and experiential activities where students have the opportunity to listen, observe, experience, dance, react, think and feel different rhythms, people, geographies, histories, stories, politics and cultures.
Nursing (NRSI)
All NRSI courses are taught through Cox College. For course description information, reference the Cox College catalog.
Public Administration (PADM)

PADM 493 Senior Seminar. 3 hours. Prerequisites: PADM 101 and PADM 201. This course is designed to bring together everything students have learned in the public administration courses. With the guidance of a faculty member, students will develop a research or experiential project which will demonstrate the knowledge and skills expected upon completion of the major. This information will be presented in both a written and oral presentation. Satisfactory completion of this course will demonstrate a solid understanding of the ethical, budgetary, and legal issues involved in public administration.

PADM 290, 390, 490 Selected Topics. 1-3 hours.
PADM 291, 391, 491, Research.
PADM 397, 497 Internship.
Professional Development (PDEV)

**PDEV 125 Healthy Cooking. 1 hour.** This course will provide students with simple, healthy meal and snack options to arm them with the knowledge to cook and eat healthy for a lifetime. This course will serve as a mandatory course for the Wellness Certificate.

**PDEV 200 Introduction to Global Leadership and Sustainability. 3 hours.** This course furthers the discussion of student leadership theory with the statement “Let’s change the world.” To develop a personal philosophy of global leadership, student leaders will be mindful of the role of diversity of our increasingly multi-cultural society and the manner in which issues of environment and sustainability relate to global leadership.

**PDEV 276 Leadership in Youth Organizations. 3 hours.** Leaders in youth organizations (be they school groups, scouting, church youth, or other groups) must be able to provide leadership to their peers, just as leaders of any organizations. Providing leadership to other youth comes with its own challenges and techniques, which will be addressed in this course. *This course is ideal for dual credit and dual enrollment student who are active in one or more youth organizations.*

**PDEV 286 Career/Life Planning. 2 hours.** Career/Life Planning uses a systematic approach to self-assessment, career research, goal-setting and implementation of a career development plan. Students will learn specific skills, research knowledge, and information upon completing the course objectives and activities.

**PDEV 289 Introduction to Leadership Development. 3 hours.** In this class, students will study leadership and how it relates to the individual, the team and the community. The interdependent relationship between leaders, followers, and creating positive change will be considered. Students will investigate their personal strengths and challenges in leadership, seek to understand how leadership relates to group effectiveness, and explore community issues and local resources. A variety of leadership theories will be explored with an emphasis on the social change model of leadership development. This course includes a service-learning project.
Philosophy (PHIL)

PHIL 100 Introduction to Logic and Critical Thinking. 3 hours. This course helps students learn to think clearly, concisely and analytically, through a familiarity with the reasoning methods of logic in terms of learning how to define terms, formulate arguments, and analyze statements critically and objectively. The course deals with the language of logic and the methods of deductive and inductive reasoning.

PHIL 101 The Meaning of Life. 3 hrs. The meaning of life is a question that all people confront at some point in their lives. This course will take up this question, reading selections from the writings of great thinkers in both the Eastern and Western intellectual traditions, and using the tools of conceptual analysis and critique to assess the various answers that have been given to it. The following is a partial list of themes that will be covered during the course of a semester. The course seeks to provide students with an introduction to the fundamental issues at stake, along with the means for assessing these issues. The aim is to get students to reflect on their lives and what makes them meaningful, and then to articulate their own vision of a meaningful life.

PHIL 201 Introduction to Philosophy. 3 hours. A comparative and critical study of the major philosophic positions with a view to developing the analytic, synthetic and speculative dimensions of philosophical methods.

PHIL 210 Ethics. 3 hours. Ethics is a writing-intensive course that uses both formal and informal writing as the primary medium in which students explore, reflect and draw conclusions regarding values questions. Some of the topics that will be covered in the course are relativism, subjectivism, religion and morality, environmental ethics, issues in business and medical ethics, utilitarianism and consequentialism, Kantian moral theory and issues in political theory.

PHIL 300 Ancient Greek to Medieval Philosophy: Socrates to Aquinas. 3 hours. An introduction to the prominent figures and doctrinal developments in the history of philosophy from the ancient Greek philosophers to Medieval philosophy. The course focuses on the primary texts of the pre-Socratics, the Sophists, Plato, Aristotle, Augustine, and Aquinas, among others, examining their reflections on metaphysics, science and epistemology, as well as ethics and political philosophy.

PHIL 305 Ethical Issues in Health Care. 3 hours. This course explores the ethical dilemmas confronting contemporary medicine. It both inquires into a broad range of topics (abortion, euthanasia, health care costs, organ transplantation, etc.) and provides a thorough study of ethical theories that may be applied to address the dilemmas of modern medicine.

PHIL 320 Environmental Ethics. 3 hours. This course seeks to develop a better understanding of both the factual and ethical dimensions of our current and possible future environments. Explores several contemporary approaches in environmental ethics (including: deep ecology, ecofeminism, animal rights, market efficiencies, the loss of biodiversity and responses from deontological, utilitarian, and virtue ethics, etc.) and representative theoretical problems (e.g., Aldo Leopold’s “land ethic” vs. natural rights views, ecological holism vs. moral atomism, market efficiency vs. moral obligations, etc.) Using a case-study approach, students then learn to apply different ethical frameworks to several ethical choices occasioned by human interaction with the natural order.

PHIL 371 Contemporary Moral Issues. 3 hours. Study of some of the major ethical problems confronting American society today; medical issues including abortion and the question of death, crime and punishment, women’s rights, the value of a business society, the problems of race. Attention will be given to several philosophical perspectives but primary emphasis will be on discussing the values involved in various ways of resolving actual moral issues.

PHIL 376 Philosophy of Religion. 3 hours. A critical examination of some of the major interpretations of God, humanity, evil, human destiny and history, and immortality. Each student is encouraged to work out a personal constructive philosophy of religion.

PHIL 290, 390, 490 Selected Topics. 1-3 hours.

Physics (PHYS)

PHYS 100 Earth Science. 3 hours. The earth in space, its atmosphere, oceans and the development of landforms by geologic agents. The course objective is to develop awareness of the physical processes that have and will shape the earth and of humanity’s effect on these processes.

PHYS 100-L Earth Science Laboratory. 1 hour. Introduction to igneous, sedimentary and metamorphic rocks and minerals. Principles and interpretation of geologic and topographic maps. Introduction to fossils.

PHYS 103 Topographic Map Interpretation. 2 hours. Interpretation and use of U.S. Geological Survey topographic maps representing three-dimensional topographic and man-made features on a two-dimensional surface, including determination of elevations, distances, landform types and shapes, gradients, map scales and contour intervals.

PHYS 110 Elementary Astronomy. 3 hours. Study of the physical principles describing the evolution of the universe including the stars, the solar system and galaxies. Each student will be given the opportunity to make observations through one of the department’s telescopes.

PHYS 111 Physical Science. 3 hours. This course is designed to give the non-science major an understanding of the methods and significance of the physical sciences by concentrating on selected topics from physics and astronomy. Three hours lecture/demonstrations per week.

PHYS 200 Environmental Geoscience. 4 hours. A study of the interrelationship between humans and the physical environment. The course will focus on natural resources, soils, hydrology and water supplies, erosional processes, karst landscapes, land use planning and geologic map interpretation. Includes laboratory. Field work required.

PHYS 201 Principles of Physics. 4 hours. The principles of mechanics, heat, sound and electricity are presented in this one-semester, non-calculus course. The workshop format-integrated lecture with laboratory-emphasizes experiment, data collection, analysis and group work. Not intended for biology, chemistry or physics majors. Offered fall semester.

PHYS 210 Introduction to Geographic Information Systems (GIS) and Remote Sensing. 3 hours. This course will provide students with a working knowledge of geographic data, data input, data models, spatial analysis, output, and the uses of Graphic Information Systems (GIS) in socio-economic and environmental studies. The course utilizes ArGIS software. Course fee required.
Political Science and International Affairs (PLSC)

PLSC 101 Government and Politics in the United States. 3 hours. Introduction to the theories, constitutional bases, functions and government structures of the U.S. political system in relation to the global political environment. Emphasis on national politics and linkages with state, local and international governments, including an emphasis on Missouri and current issues in domestic and foreign policy.

PLSC 151 Introduction to Comparative Politics. 3 hours. Introduction to the comparison of different political systems with an examination of liberal democratic societies, communist and post-communist systems, and developing nations with case studies from each category.

PLSC 152 Introduction to International Relations. 3 hours. A study of the historical background and contemporary organization of the international political system and the world economy.

PLSC 220 Introduction to Law and Society. 3 hours. An exploration of the role that law plays in organizing society, resolving disputes, and fostering change. Students will focus on the multitudinous ways in which law influences their daily lives and how social groups work to change the law and improve society. Students will be introduced to theories about law and how law has developed over time.

PLSC 302 U.S. Foreign Policy. 3 hours. Examination of foreign policy in the twentieth and twenty-first centuries, with analysis of the U.S. foreign policy-making processes, institutions and actors.

PLSC 322 American Environmental Politics. 3 hours. The creation and enforcement of environmental laws and regulations in the United States can be imagined as the ultimate board game. It has three overlapping levels (city, state, and federal), actors on defense (save our jobs!), referees who interpret the rules (courts and bureaucracy), and actors empowered to change those rules (elected officials). Understanding this game is vitally important as it determines the quality of the air we breathe, the water we drink and the price we pay for almost everything.

PLSC 332 Political Parties, Elections and Interest Groups. 3 hours. An examination of the history, evolution and current structures of American political parties, elections and interest groups. This course is offered every two years in conjunction with national elections and allows students hands-on experience in the study of American electoral politics.

PLSC 333 Congress and the Presidency. 3 hours. Examination of the structures and roles of legislative and executive institutions with primary focus on the politics of policy making; topics include theories of representation, institutional organization, leadership styles and interest group influence.

PLSC 335 The Supreme Court and Constitutional Law. 3 hours. A study of judicial processes and decisions with particular emphasis on Supreme Court decisions that have shaped legal thought and altered the social fabric of American society.

PLSC 370 Women and Politics. 3 hours. A comparative study of the role of women as political actors in western and non-western societies. Students will consider the role of gender in shaping political attitudes and perceptions, and the policy issues that affect women in political and daily life.

PLSC 375 Arab-Israeli Conflict. 3 hours. An in-depth examination of the history of Arab-Israeli conflict, tracing its historical, political, cultural and religious roots. This course also uses the Arab-Israeli conflict to address broader issues of international conflict and conflict resolution.

PLSC 383 American Social and Political Thought. 3 hours. A study of major currents of social and political thought and their impact on American culture and institutions.
Preparation Program for Master in Business Administration in Business Essentials

Dr. Jin Wang, Dean of the Breech School of Business Administration

**PMBA 501 Business Essentials. 8 hours.** This intensive five-week course is designed to provide students with a foundation of basic Economic, Finance, Marketing, Statistic, Accounting and Management skills. The course will meet four nights a week (Monday, Tuesday, Thursday, and Friday) from July through August. Students completing PMBA 501 will receive 8 credit hours of elective credit to apply toward an undergraduate degree from Drury University. Additionally, this course will satisfy all business class prerequisites for entry into the Drury M.B.A. program. *S/U Grading.*
Psychology (PSYC)

**PSYC 101 Introduction to Psychology. 3 hours.** This is a survey course providing a study of the behavior of living organisms, particularly human behavior. Typical problems are methods and measurement in psychology, theoretical systems, learning, motivation, perception, personality and psychopathology.

**PSYC 110 Stress Management I. 3 hours.** The philosophy and comprehensive approach to stress reduction through the re-establishment and enhancement of the state of well-being.

**PSYC 230 Life Span Development. 3 hours.** Study of the major theories of and influences on human development from conception through death, including the biological, cognitive, linguistic, emotional, social and cultural dimensions of development. Special emphasis on change processes.

**PSYC 234 Drugs and Behavior. 3 hours.** *Prerequisite: PSYC 101.* An examination of psychoactive drugs and their impact on society. Biological, psychological and social aspects of drug use are considered as well as implications for social policy.

**PSYC 240 Social Psychology. 3 hours.** This course studies the behavior and psychological process of individuals who occupy positions in social structures, organizations, and groups.

**PSYC 310 The Biology of Behavior. 3 hours.** *Prerequisite: PSYC 101.* This course explores biological underpinnings of behavior and mental processes, such as wakefulness and sleep, emotional behaviors, reproductive behaviors, selected psychological disorders, learning and memory, and the sensory systems. An overview of neuroanatomy and neurotransmitters is provided.

**PSYC 312 Positive Psychology. 3 hours.** Positive psychology seeks to understand optimal human behavior. It emphasizes a scientific approach to knowing, guiding, healing, educating and helping people to flourish.

**PSYC 313 Cross-Cultural Psychology. 3 hours.** Explores the multiple and reciprocal nature of interaction between culture, intra-individual processes (such as perception, cognition, personality) and inter-individual processes (such as communication and group identity). Factors affecting these interactions, like ethnocentrism and prejudice, are also examined.

**PSYC 314 Community Psychology. 3 hours.** Students will be introduced to the field of community psychology, which seeks to understand the relationship between environmental conditions and the health and psychosocial well-being of community members. This course will explore the various theoretical bases of community psychology. Special emphasis will be placed on experiential learning, as students will examine the social issues, social institutions, and other settings that influence their local community. Lastly, students will concentrate on the practice of community psychology, by increasing their awareness of organizations aimed at improving quality of life in their local community.

**PSYC 326 Theories of Counseling and Guidance. 3 hours.** *Prerequisites: CRIM 102 or PSYC 101 and three additional psychology hours.* A comparative analysis of the major theories of psychological counseling. Attention is given to specific counseling methods and techniques utilized by psychologists, counselors, ministers, social workers, personnel managers and criminal justice workers.

**PSYC 330 Family and Domestic Violence. 3 hours.** Family and domestic violence is a form of antisocial behavior that occurs when a family member, partner or ex-partner attempts to physically or psychologically dominate or harm the other. The cycle of violence, dominance and control are among the issues covered as well as the legal perspective as it relates to the abuse of family members. The legal perspective includes discussion of proactive arrest policies, restraining orders and anti-stalking legislation that have emerged across the United States.
PSYC 334 Abnormal Psychology. 3 hours. Prerequisites: CRIM 102 or PSYC 101 plus three additional hours in psychology. Following a brief introduction to personality theories, the course focuses on the etiology, classification and treatment of behavior disorders.

PSYC 338 Personality Theory in Psychology. 3 hours. Prerequisites: PSYC 101 plus three additional hours in psychology. A comparative analysis of the major theories of personality in psychology today. The approach is both rational and empirical.

PSYC 352 Psychology of Gender. 3 hours. Psychological study of gender in historical and contemporary perspective. Includes biological, psychological and sociological examination of the role of gender in development, self-concepts, social relations and mental health.

PSYC 355 Industrial Organizational Psychology. 3 hours. Prerequisite: CCPS-BSCI 274. DAY-BSCI 275 and BSCI 275-L. A systematic study of human behavior in the world of work. Examines selection, evaluation, appraisal and training as aspects of personnel psychology. Focuses on the psychology of work in terms of worker motivation, job satisfaction and adjustment.

PSYC 357 Psychology of Adulthood. 3 hours. Prerequisite: PSYC 101 or SOCI 101. An empirical analysis of the biological, psychological and social changes in the adult who is moving along the age continuum from age 18 and beyond.

PSYC 367 Family Therapy. 3 hours. An examination of family relationships, problems and family therapy theories. The course will enhance student understanding of families and the application of therapy and social work intervention to certain situations.

PSYC 370 Human Sexuality. 3 hours. A study of the anatomy and physiology of the female and male reproductive systems, sexually transmitted diseases, methods of contraception, the sexual response cycle, sexual dysfunctions, gender identity, development of sexual orientation, adult sexuality, the development of relationships, cross-cultural comparison of sexuality and socialization of gender roles.

PSYC 371 Psychology and the Law. 3 hours. Prerequisite: CRIM 102 or PSYC 101. This course will examine relevant theory, research case law and issues of psychological practice within the criminal justice system.

PSYC 440 Cognitive Psychology. 3 hours. Prerequisites: PSYC 101, junior/senior standing. A survey of topics in cognitive psychology, including perception, attention, learning and memory, knowledge representation, language and concepts, imagery, problem-solving and decision making. Emphasis is placed on classic and cutting-edge studies in these fields.

PSYC 450 History and Systems in Psychology. 3 hours. Prerequisite: senior with 18 hours in psychology. A study of classical systems and contemporary theories of psychology to the end of integrating various approaches to scientific psychology.

PSYC 290, 390, 490 Selected Topics. 1-3 hours.

PSYC 291, 391, 491 Research.

Religion (RELG)

RELG 109 Introduction to the Study of Religion. 3 hours. Religion and religious ideas are central to all cultures and societies, including our own. This course will look at the broad range of cultural forms we have come to call religion, examine how these forms shape cultures and societies, and finally, by examining what these forms have in common and how they differ, we will determine what it is we study when we study religion.

RELG 202 Religions of the World: Middle Eastern. 3 hours. A comparative study of the major ideas of those religions most directly related to and influencing the West: Zoroastrianism, Judaism, Islam, and Christianity.

RELG 203 Introduction to the Bible. 3 hours. An introductory study of the Hebrew scriptures and the Christian New Testament with attention to the literature of these sacred texts, the historical circumstances of their development and the methods of textual interpretation.

RELG 204 Introduction to History of Christianity. 3 hours. An introductory survey of the history of Christianity. Attention is given to the Early Church Fathers, the Medieval era, the Reformation, the church’s response to the Enlightenment and the Contemporary period.

RELG 205 The Life and Teachings of Jesus. 3 hours. A study of the person, work and teaching of Jesus as reflected in the Biblical records with some attention given to later and current interpretations of His life.

RELG 206 Eastern Religions and Philosophies. 3 hours. An introduction to Hinduism, Buddhism, Confucianism and Taoism. Specifically, the course focuses on the systems of value that emerge from these traditions, and where appropriate, compares and contrasts them with the value systems of Western traditions. The conceptual framework guiding this examination incorporates the tradition’s overall world view, conception of God or ultimate reality, its understanding of the origin, nature and destiny of the cosmos and of human beings, diagnosis of the human condition and prescription for attaining the ultimate goal or purpose of human life.

RELG 208 Life and Teachings of Paul. 3 hours. An in depth study of the history, themes, and theologies developed by Paul in his letters, and by the Early Churches as they engaged with his writings.

RELG 207 Introduction to Homiletics. 3 hours. Prerequisite: RELG 203. This course introduces students to the practice of preparing and delivering a sermon in the context of a worship service. By the end of the course participants should be able to organize, draft and deliver a basic sermon in connection to the use of liturgy and scripture, as well as have a strong grasp of the most formative schools of thought at work in current homiletic discourse and practice. Students will also be asked to examine how sermonic form and structure might vary within the context of different religion traditions and styles of worship.

RELG 270 Who is Jesus? 3 hours. This course is devoted to understanding the multi-faceted historic and contemporary conversations about the identity, nature and influence of Jesus of Nazareth. It is divided into four sections. In the first, differing images of Jesus from the New Testament are examined. In the second, attention is given to the diverse theological understandings of Jesus throughout history. Part three examines currents in thought about Jesus from the contemporary period. Part four gives students the opportunity to share own research and findings into the question of Jesus’ identity.

RELG 275 Does God Exist? 3 hours. This course is designed to help students explore the question of divinity from a theological, philosophical and historical perspective. Students are introduced to the arguments for the existence of God as well as the arguments — both historic and contemporary — for atheism and agnosticism. Attention is given to images of God from historic religious traditions such as Judaism, Christianity and Islam. Some focus is also directed to the Eastern interpretations. The course gives special attention toward the close to contemporary reinterpretations of God language. Finally, all students are given the opportunity to chart their own journey through this material in a closing intellectual biography.
RELG 283 Hispanic Religious Traditions in the United States. 3 hours. This course is primarily a survey of the roles and functions of various forms of these religious traditions in the diverse communities of Hispanic peoples in North America. We will look at the various forms of these religious traditions in North America and the United States and how they have influenced culture both in the Hispanic community and society as a whole. In addition to looking at how Hispanic religious traditions influence Christian theology and forms of worship, we will also observe the intersection of life, economics, politics, etc. with religion through readings, discussions, films, music, and, if time allows, visits to local churches and/or relevant nonprofit agencies.

RELG 309 Christian Ethics. 3 hours. This course explored the biblical resources for Christian moral decision-making, examines the historical development of moral theology (from the early church through the twentieth century) and addresses selected moral issues.

RELG 310 The Bible, Sex and Sexuality. 3 hours. This course explored the Bible through theories of anthropology, sociology, and cultural criticism. It looks specifically at stories in the Bible that concern marriage, sex, and violence.

RELG 368 Twentieth Century Christian Thought. 3 hours. An examination of the works of some of the major Christian thinkers of the twentieth century in their response to the intellectual and cultural movements of the times.

RELG 380 African American Religions in the United States. 3 hours. This course is primarily a historical survey of the roles and functions of religion in the diverse communities of African peoples in North America. We will begin with a very brief look at African religions. We will then look at the various forms these religions take in the slave communities and in the abolitionist movements. Religion continues to be an integral component of African-Americans throughout the wars, the great depression, through the struggle for human rights, and of course, today. We will observe the intersection of life, economic, politics, etc. with religion through readings, discussions, films, music, and, if time allows, visits to local churches.

RELG 385 From Babylon to Berlin: A History of Anti-Semitism. 3 hours. This course seeks to engage students in a critical consideration of the social and religious/theological implications of Nazi Germany’s “war against the Jews,” the intentional and calculated destruction of some 6 million European Jews (accompanied by the enormous suffering and losses experienced by other “undesirable” groups) which is referred to as the Shoah, or Holocaust. In order to do this, students will consider those events and perceptions that allowed the Holocaust to come about, particularly the development of racial anti-Semitism and religious anti-Judaism, which traces part of its lineage back to diasporic Judaism, the Christian scriptures, and to Christian theological perspectives, values, and actions of the early and medieval church. We will explore the behaviors and teachings of the church, its leaders, and lay adherents during the holocaust, as well as the religious motivations for the extraordinary courage displayed by those Christians who risked their lives to save Jews and others. We will ask, to what degree did these early writings influence the anti-Jewish propaganda of the Third Reich? Finally, we will consider post-holocaust reactions of both Jews and Christians and ask, has the event of the Jewish holocaust caused fundamental change in the relationship between those in power or those in the center, and those who are considered “other?” This question would consider directly issues that emerge around race, sexual orientation, class, and gender.

RELG 290, 390, 490 Selected Topics. 1-3 hours.

RELG 291, 391, 491 Research.

Science (SCIE)

**SCIE 206 Speleology. 3 hours.** Speleology is the science of caves and their relationship to humanity and the environment. The relationship between caves, springs, sinking streams, soluble rock strata, sinkholes, wells, underground drainage of water, water contamination and the cave ecosystem will be investigated.

**SCIE 310 Scientific Principles, Discoveries and the Future. 3 hours.** This course is designed as an upper-division course that will investigate the scientific method and applications and new technology through information found in current peer-reviewed journal articles and the integration of biology, chemistry and physics. Current ethical issues in science will be examined and how they may affect the future. Finally, the future direction of where science may lead as we venture through the 21st century to address global issues will be explored.
Sociology (SOCI)

**SOCI 101 Introduction to Sociology. 3 hours.** An analysis of factors that are significant in the development of people as social beings. Consideration is given to the social group and culture as factors in this process.

**SOCI 201 Sociology of the Family. 3 hours.** The study of the family as a dynamic social institution. Students will examine family structures and socialization processes within multicultural and socio-historical contexts, including patterns of role behaviors, division of labor, decision-making and the life cycle.

**SOCI 202 Global Social Problems. 3 hours.** This course examines major global social problems and applies the sociological perspectives in understanding the contemporary global social problems such as race and ethnic conflict, war, public health, poverty, population and environmental issues.

**SOCI 246 Introduction to Social Work. 3 hours.** A pre-professional survey of the field of social work including philosophy, major techniques, types, private and public agencies, professional opportunities.

**SOCI 312 Problems of Death and Dying. 3 hours.** This course provides a sociological overview of death and dying. Course topics will include the changing demographics, attitudes, and practices surrounding death as well as how professionals, groups, and institutions deal with dying, death, and bereavement.

**SOCI 316 Minority Groups. 3 hours.** Examines the process of adjustment of various ethnic and cultural groups to life in the United States. Some consideration to world ethnic situations. *Meets cultural diversity requirement.*

**SOCI 325 Political Sociology. 3 hours.** This course is an in-depth study of the social basis of power and politics. Political, economic, and cultural forces of conflict and change are examined.

**SOCI 327 Social Gerontology. 3 hours.** An examination of the sociological, psychological, environmental, and economic aspects of the aging process both in regard to the individual, as well as the relationship with the larger society. The impact of a larger elderly population and the political relationship that pertains to the services and programs to provide for the needs of the elderly now, as well as in the future, also is considered.

**SOCI 336 Development of Sociological Theory. 3 hours.** Prerequisite: SOCI 101. An analysis of the evolution of major sociological perspectives that seek to explain the nature of social order. Emphasis is placed on social processes of consensus, conflict and social change.

**SOCI 341 Homosexuality and Civil Liberties. 3 hours.** Examination of the rise of the gay and lesbian movement and the challenges of achieving civil liberties and civil rights in dominantly heterosexual Western and non-Western societies.

**SOCI 347 Medical Sociology. 3 hours.** This course is concerned with the social causes and consequences of health and illness. Major areas of investigation include the social facets of health and disease, the social behavior of healthcare personnel and people who utilize healthcare, and the social functions of health organizations and healthcare delivery systems. *Will not satisfy biology major requirements.*

**SOCI 354 Native American Cultures. 3 hours.** Prerequisite: SOCI 101. Students will use the skills of cultural analysis to examine Native American cultures. The course will provide an in depth examination of the original inhabitants in the Americas. *Meets cultural diversity requirement.*

**SOCI 360 Community Studies. 3 hours.** Study of how people arrange themselves socially within cities and surrounding sociocultural environments. Particular attention is given to the processes of urbanism, the urban experience, the community and the concept of place.

**SOCI 362 Sociology of Religion. 3 hours.** This course will explore the character of religious practice and religious consciousness from a sociological perspective. Religion will be examined both as an experience that aids the individual in understanding his or her life and as a social institution.
SOCI 400 Social Stratification. 3 hours. Prerequisite: Three additional hours in sociology. This course examines the competing social scientific theories of social stratification and inequality. The policy implications and ideological orientations of these theories are evaluated.

SOCI 290, 390, 490 Selected Topics, 1-3 hours.
SOCI 291, 391, 491 Research.
Spanish (SPAN)

SPAN 101 Elementary Spanish I. 3 hours. For beginners. Designed to develop, with SPAN 102, an elementary proficiency in Spanish. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides an introduction to the cultures and cultural practices of the Spanish-speaking world.

SPAN 102 Elementary Spanish II. 3 hours. Prerequisite: SPAN 101. A continuation of SPAN 101, designed to continue the development of an elementary proficiency for producing and comprehending the Spanish language. This course provides instruction for and assesses students' reading, writing, speaking, listening and develops students' knowledge of the cultures and cultural practices of the Spanish-speaking world.

SPAN 103 Tools of Elementary Spanish I. 3 hours. For beginners. Designed to develop, with SPAN 104, an elementary proficiency in three of the five language and cultural skills covered in Spanish 101. This course provides instruction for and assesses of at least three of the following areas: students' reading, writing, speaking, and listening in Spanish and cultures and cultural practices of the Spanish-speaking world.

SPAN 104 Tools of Elementary Spanish II. 3 hours. A continuation of SPAN 103, designed to continue the development of an elementary proficiency in three of the five language and cultural skills covered in SPAN 102. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking, and listening in Spanish and cultures and cultural practices of the Spanish-speaking world.

SPAN 201 Intermediate Spanish III. 3 hours. Prerequisite: SPAN 102. Designed to develop, with SPAN 202, a more advanced proficiency in Spanish. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides a continuation of study of the cultures and cultural practices of the Spanish-speaking world.

SPAN 202 Intermediate Spanish IV. 3 hours. Prerequisite: SPAN 201. A continuation of SPAN 201, designed to continue the development of a more advanced proficiency in Spanish. This course provides instruction for and assesses students' reading, writing, speaking and listening and provides a continuation of study of the cultures and cultural practices of the Spanish-speaking world.

SPAN 203 Tools of Intermediate Spanish III. 3 hours. Designed to develop, with SPAN 204, a more advanced proficiency in three of the five language and cultural skills covered in SPAN 201. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking, and listening in Spanish and cultures and cultural practices of the Spanish-speaking world.

SPAN 204 Tools of Intermediate Spanish IV. 3 hours. A continuation of SPAN 203, this course is designed to continue the development of a more advanced proficiency in three of the five language and cultural skills covered in SPAN 202. This course provides instruction for and assesses at least three of the following areas: students' reading, writing, speaking and listening in Spanish and cultures and cultural practices of the Spanish-speaking world.

SPAN 302 The Culture of Spain. 3 hours. Prerequisite: SPAN 306. A study of the culture of Spain, including such subjects as music, dance, art, folklore, religion and customs of daily life. Particularly recommended for students planning to study in Spain.

SPAN 303 The Culture of Spanish America. 3 hours. Prerequisite: SPAN 306. A study of culture of Spanish America, including such subjects as music, dance, art, folklore, religion and customs of daily life. Particular attention paid to the ways in which elements of Spanish, Native American, and African cultures have combined to create distinctive regional cultures. Particularly recommended for students planning to study in Spanish America.

SPAN 305 Introduction to Hispanic Cultural Studies. 3 hours. Prerequisite: SPAN 306. Hispanic studies represent an interdisciplinary exploration of the literature, intellectual history and civilization of Spain.
and Spanish America, as well as the Spanish language. This course provides a space in which students not only have the opportunity to continue their development of language skills, but also to study a wide range of literary and cultural topics, introducing students to elite, mass and folk cultures of Latin America and Spain. Sample topics include transculturation, globalization, border culture, and relations between culture, democratization and human rights. Organized in units, this course serves as an introduction to the field of Hispanic studies, as well as to the methods and theories used in upper-division analyses of literary and cultural representations. Students will develop skills in writing research papers in Spanish.

**SPAN 306 Advanced Grammar and Composition. 3 hours.** *Prerequisite: Spanish 202.* This intermediate-advanced Spanish course is designed to review and practice previously-learned grammatical concepts in Spanish as well as to learn to recognize and use specific advanced structures in the Spanish language. To this end, students will expand their knowledge of vocabulary and grammar through practice in both spoken and written Spanish, and will experiment with a variety of writing styles over the course of the semester.

**SPAN 308 Spain Now-Contemporary Spanish Culture. 3 hours.** *Prerequisite: SPAN 306.* A study of contemporary Spanish culture including such subjects as health care, politics, economics, foreign policy, education and the arts. Particularly recommended for students planning to study in Spain.

**SPAN 311 The Literature of Spanish America. 3 hours.** *Prerequisite: SPAN 306.* Reading and discussion in Spanish of the most important authors of Spanish America, with emphasis on the twentieth century.

**SPAN 312 The Literature of Spain. 3 hours.** *Prerequisite: SPAN 306.* Reading and discussion in Spanish of the most important authors of Spain with emphasis on the Golden Age and the twentieth century.

**SPAN 313 These Are Not Sweet Girls: Hispanic Women’s Literature. 3 hours.** This course investigates issues of power, space and archetypes in the literature written by Hispanic women. Beginning with the first great women writers, this course proceeds chronologically to the twenty-first century.

**SPAN 489 Seminar Hispanic Cultural Studies. 3 hours.** *Prerequisite: SPAN 305.* This course provides students with the opportunity to synthesize the information, theories and concepts introduced in Spanish 305 and through the upper-division course offerings in literature, history, culture and film studies. The course provides an advanced opportunity for students to refine and perfect their skills in comprehension and expression of the Spanish language while learning more about textual and cultural representations of the Hispanic World. This course has been approved as an Honors qualified course.

**SPAN 290, 390, 490 Selected Topics. 1-3 hours.**

**SPAN 291, 391, 491 Research.**

**SPAN 397, 497 Internship. S/U Grading.**
Theatre (THTR)

**THTR 135 Introduction to Theatre. 3 hours.** A survey of all aspects of the theatre and theatrical production including a study of representative artifacts of theatre history, a variety of dramatic styles, and the work of the individual theatre artists involved in the process as well as the role of the audience in theatre.

**THTR 140 Acting I. 3 hours.** An introductory course to acting designed for majors and all students who wish to explore acting methodology. The course includes character development and expression. Practical exercises in both scripted and improvisational work will be stressed.

**THTR 282 Acting II. 3 hours. Prerequisite: THTR 140.** Designed to continue the actor training begun in Acting I, this course includes more advanced training in the skills of analysis and characterization. These skills will be developed through scene work in monologues and in scenes with other actors.

Degrees conferred by Drury University's Hoffman Department of Chemistry are approved by the American Chemical Society (ACS).
Drury’s Church Affiliation

It was less than a decade after the end of the Civil War when Drury's Congregationalist founders, many of whom were abolitionists, chose Springfield, Missouri as the site for a new college. Springfield was selected, in part, because it had been so terribly scarred by war. In an early description of the college's mission, Nathan Morrison, Drury’s first President, wrote that the college sought to "minister to the healing of the horrid wounds made by civil war."

Drury College was founded in 1873 as an "independent church-related" college with a commitment to personalized higher education. Its Congregationalist founders envisioned an institution that would offer all students, regardless of their gender, race or creed, both a sound liberal arts education and a more practical education in various applied studies.

Drury has since maintained relationships with the Christian Church (Disciples of Christ) and the United Church of Christ. The UCC relationship dates back to the founding of the college by Congregationalists from New England. The DOC relationship was established in 1909 with the formal organization of the Drury School of Religion. Both denominational traditions have influenced Drury’s mission.

Today, the Chaplain's Office offers a variety of spiritually-based campus activities for every member of the Drury community.

Memberships

Drury University is a member of the Association of Governing Boards of Universities and Colleges, the Association of American Colleges and Universities, the Associated New American Colleges and Universities, the Council on Undergraduate Research, the Independent Colleges and Universities of Missouri, and the Missouri Colleges Fund. The alumnae of Drury University are eligible for membership in the American Association of University Women.
Non-Discrimination Statement
Approved by Board of Trustees 5-16-14. Updated 10-1-15, Updated 9-1-16

Drury University is an open and welcoming community from a rich variety of cultures, races and socio-economic backgrounds. The mission and goals of the university dedicate the institution to being a community which “affirms the quality and worth of all peoples” and appreciates the “diversity of human culture, language, history and experience.”

Drury University does not discriminate on the basis of disability, race, color, religion, gender, age, sexual orientation, national or ethnic origin, or veteran status in its programs and activities. The following persons have been designated to handle inquiries regarding Drury’s non-discrimination policies:

Coordinator - Non-Discrimination/Harassment & Title IX
Director of Human Resources
Drury University
